

GAP ANALYSIS · PREGNANCY · VERSION 1

What ParentVeda should change, add and copy in pregnancy, from Flo and What to Expect

Every part of ParentVeda's pregnancy section, compared with Flo and What to Expect: what to change and why, what is missing, exactly what to do, and what will be different for her afterwards. Plus every article, video, collection, story, week page, daily tip, recipe, question, community group and tool we found in both apps, each with where it belongs in our app, or why it does not.

Built from two device walks (Flo in pregnancy mode on 28 September 2026; What to Expect on a tablet, 28 and 29 September 2026) and the ParentVeda code as it is on 29 September 2026. Nothing in the app was changed. This is the first pregnancy report; it follows the structure of the trying-to-conceive report (version 2).

Start here

This file answers three questions, in this order.

1. For each section of our app: what should change, and why?

For every part of the pregnancy section (setup, the home, the week page, each of the eight doors, the tools, the reader, Ask Veda, messages, community, partner, experts and You) this says what it is today, what Flo or What to Expect does better, exactly what to do, and what will be different for her afterwards. See the "Section by section" tab.

2. What are we missing?

Some whole sections are missing, not just articles. The biggest: the birth itself (signs of labour, when to go in, the stages, C-section, induction); a place to move and rest safely (the "Yoga & fitness" tile has no door); sex and closeness in pregnancy; work, leave and money in India; the first weeks after a positive test; getting ready for the baby (names, what to buy, help at home); twins; and a gentle path for when a pregnancy ends. See "New sections to add". Every piece that should fill them is in "What to add, by section".

3. Where are we behind, and exactly what do we do?

Each area where we are behind has its own tab starting with "Behind ·". Every row puts Flo's exact words, What to Expect's exact words and ours side by side, then says the gap and what to do, written so it can be copied as it is.

The most urgent finding

The trust problem the trying-to-conceive report found is bigger in pregnancy. All 34 pregnancy reads show a doctor's review ("Dr. Anita Desai, Obstetrician, 21 years, reviewed September 2026" on 27 of them), because the app treats every read as reviewed unless told otherwise, and no pregnancy read says otherwise. Dr. Anita Desai, Dr. Priya Sharma and Dr. Meera Nair exist nowhere else in the app. All 34 Mind and mood reads carry "Dr Sharanya Menon, Perinatal psychologist", whom our own open-points file says does not exist. The Community tab, which ships in the bottom bar, shows 24 "verified" experts that the data file itself calls "All fictional". Paid courses say "reviewed by obstetricians". None of this review happened. Switch all of it to the honest state this week (details in "Behind · Trust").

The second most urgent finding

If her pregnancy ends, the app has no way to be told. It keeps showing her baby growing week by week. What to Expect has "Report a Loss" in its top menu ("We're Sorry for Your Loss. We're here for you."). A gentle "My pregnancy ended" path that stops the week content and opens support is the most important missing flow in the stage (details in "Behind · After a loss").

The short version

We are ahead on the product: our tools are real where theirs are not (What to Expect has no contraction timer, no kick counter, no hospital bag and no birth plan; Flo has no pregnancy tools at all), our scans door decodes Indian reports and explains the sex-determination law and scan costs, our nutrition is Indian down to regional charts and festival fasting, "Is it safe?" has 193 answers, we never recalculate a due date set by her doctor, and Garbh Sanskar has no match anywhere. What to Expect even tells her how to find out the baby's sex at the anatomy scan, which is illegal in India; we explain why nobody will tell her. We are behind on six things: the week page (theirs are longer, cover more weeks, list the week's symptoms and cite sources), video (they have 273 videos between them; not one of our pregnancy films has a file), the birth itself, an app that speaks first, a real community, and trust. And we have topic gaps exactly where both apps are busiest: sex, work and money, exercise, twins, loss and getting ready for the baby.

How many pieces we judged

609 Flo pieces (articles, collections and courses, stories, videos, week pages), 717 What to Expect pieces (articles, videos, week pages, daily tips, recipes), 124 of Flo's week-by-week questions, plus the FAQs, chats and messages, community groups and tools of both apps. Every one is decided in this file, including the ones we should not add.

Corrections to earlier notes, from reading the code

Our own notes say "all seven pregnancy doors are built". The code has eight door pages (Symptoms was added on 22 September) behind ten home tiles, and two of the tiles are not doors: "Is it safe?" opens one screen, and "Yoga & fitness" opens a class catalogue shared with other stages. The content ledger marks the scan read "What the scan person can and cannot tell you" as filled; the door still shows it as coming soon. The week page's own comment says future weeks are locked; in the code every week opens. The father's daily screen says "NOT integrated anywhere yet"; it is his Today tab. Notes speak of an "inline week film"; the player is wired but no pregnancy film has a file, so release builds show "WEEK n FILM · ARRIVING". This report is built from the code.

Part 1 · Our app, section by section

Every section of ParentVeda's pregnancy stage, in the order she meets them. For each: what it is today (from the code), then each change: what should change, why (what the other apps do better), exactly what to do, and what will be different for her afterwards. At the end of each section: how many competitor pieces belong there, with the most urgent ones named.

First-time setup (onboarding)

What it is today. Welcome with the pill "Loved by 50,000+ parents", a privacy screen ("What you tell us stays in your family."), who and which stage (with the footnote "Expecting twins or more? You can say so later."), name, then "Your dates" with four ways (Last period, Doctor's date, Scan date, IVF transfer). A date from a scan, a doctor or a transfer is saved as the clinic's and never recalculated. Then three questions (first pregnancy?, what help, how you eat), each with a full-screen reply, the promise ("We will never diagnose you, and we will never contradict your doctor."), and the account last.

FIX A PROBLEM

Remove "Loved by 50,000+ parents" **P1** effort: S

WHY: WHAT THEY DO BETTER

It is a placeholder number, the same one the trying-to-conceive report flagged. What to Expect's first screen makes no claim at all ("Choose your stage so we can personalize your app experience.").

EXACTLY WHAT TO DO

Remove the pill until there is a real number. Keep the line under it: "For the whole journey, trying, expecting, raising."

WHAT WILL BE DIFFERENT AFTER

Nothing on the first screen is untrue.

More detail: the "Behind · Onboarding" tab.

FIX A PROBLEM

Make the twins promise true **P2** effort: S

WHY: WHAT THEY DO BETTER

We say "Expecting twins or more? You can say so later." but nothing in the app records twins. What to Expect has an "I'm Having Twins" switch in Pregnancy Details and 27 twin articles.

EXACTLY WHAT TO DO

Add "Twins or more" to her details (You > Details) and to the reveal screen ("Carrying more than one? Tell us and your weeks will say so."). When it is on, show the twins pieces in the new Twins and more section.

WHAT WILL BE DIFFERENT AFTER

A mother of twins is not told something the app cannot do.

More detail: the "Behind · Onboarding" tab.

ADD

Ask one question about her health **P3** effort: S

WHY: WHAT THEY DO BETTER

Our onboarding asks nothing about conditions or a previous loss, although You > Details already holds 16 conditions ("Anything here changes what leads, never what exists."). Neither competitor asks either, but ours is the app built around conditions.

EXACTLY WHAT TO DO

Add an optional screen after "What would you most like help with?": "Is your doctor watching anything already?" with chips (Sugar, Blood pressure, Thyroid, Low-lying placenta, Twins, Something else, Nothing, Skip). Reply: "Thank you. We will lead with what helps, and your doctor stays in charge."

WHAT WILL BE DIFFERENT AFTER

A woman with gestational diabetes sees her door first from day one.

More detail: the "Behind · Onboarding" tab.

FIX A PROBLEM

Only preview a reminder we actually send **P1** effort: S

WHY: WHAT THEY DO BETTER

The "How should we reach you?" screen shows "Week N starts tomorrow, here's what to expect." to ask for notification permission, and nothing in the app sends it. What to Expect's sample ("Oh baby! You're in Week 8.") is a message it does send.

EXACTLY WHAT TO DO

Either build the weekly message (see Messages) before launch, or change the preview to a reminder she sets herself ("Your vitamin, 8 pm").

WHAT WILL BE DIFFERENT AFTER

The permission she gives is for something real.

More detail: the "Behind · Messages" tab.

MISSING CONTENT IN THIS SECTION

15 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- A spotlight on what to expect during your first trimester (Flo, Article, goes to Your first weeks > Just found out)
- Prepare for your first prenatal visit (What to Expect, Daily tip, goes to Your first weeks > Just found out)
- The first weeks of pregnancy: What to expect (Flo, Article, goes to Your first weeks > Just found out)
- What happens at your first prenatal appointment? (Flo, Question (FAQ), goes to Your first weeks > Just found out)
- Your 1st prenatal checkup: 6 things to know (Flo, Article, goes to Your first weeks > Just found out)
- Your First Prenatal Visit (What to Expect, Video, goes to Your first weeks > Just found out)

Home: the top (her week)

What it is today. A peach field with avatar, date and saved; a day strip (back to day one, six days ahead dimmed); the 2D baby figure for the week; "Week n / Day d"; a white Details pill that opens the week page. No size line on the hero (commented out).

ADD

Show the size and "weeks to go" on the hero **P2** effort: S

WHY: WHAT THEY DO BETTER

What to Expect's first lines are "Your baby is as big as a sweet potato", "6.5 in", "10 oz", "20 Wks to go!". Flo shows the count "20 weeks, 5 days" with an (i) that explains how weeks are counted.

EXACTLY WHAT TO DO

Under "Week 20 / Day 1" add one small line: "About the size of a banana · 20 weeks to go". Add an (i) after the week count that opens a short read: "How your weeks are counted" (from the first day of your last period; "If your doctor gave you a date from a scan, that is the one we follow.").

WHAT WILL BE DIFFERENT AFTER

The two things she checks every day are on the first screen, and the counting question is answered where she asks it.
More detail: the "Behind · Home & daily" tab.

ADD

After week 37, ask gently whether the baby has arrived **P2** effort: S

WHY: WHAT THEY DO BETTER

Flo after the due date asks her to "Log the first day of your last period" (a gap). What to Expect has "Report a Birth" in its top menu. Ours is a good flow ("Baby has arrived", "Nothing from pregnancy is deleted.") but hidden inside You.

EXACTLY WHAT TO DO

From week 37, add a quiet card at the foot of the hero: "Has your baby arrived? [Yes, tell ParentVeda] [Not yet]". After week 40 keep counting days ("40 weeks and 3 days") instead of stopping.

WHAT WILL BE DIFFERENT AFTER

The move to the parenting home happens when it should, not when she finds a hidden button.
More detail: the "Behind · Home & daily" tab.

Home: "My daily insights" and the daily tip

What it is today. Seven cards, only when earned: Log ("How are you / Log how today feels"), a booked scan within 14 days, This week (the day's baby line), Size, Eat today, Is it safe? (one answer a day), Read (the week's first read). Once a day a "Today's tip" pop-up shows a parenting reflection line, for example "Offer the warmth; let the flower choose its hour."

CHANGE

Make "Today's tip" a practical pregnancy tip for that week **P1** effort: M

WHY: WHAT THEY DO BETTER

What to Expect has a daily tip for every day (128 captured), such as "Plump up your pillows" (snoring from week 16), "Do some hand stretches" (carpal tunnel), "Ask about yeast infections". Ours is a parenting philosophy line under the title "Today's tip".

EXACTLY WHAT TO DO

Write 7 short tips per week (weeks 4 to 40) from our own week data (the "doThisWeek", "selfCareTip" and "mythBuster" fields already written in weekContent.json) and show one a day under "Today's tip". Keep the parenting reflection for the parenting stage.

WHAT WILL BE DIFFERENT AFTER

The pop-up she sees every morning is useful for the week she is in.
More detail: the "Behind · Home & daily" tab.

ADD

A "Myth or fact" and a "Move" card **P3** effort: S

WHY: WHAT THEY DO BETTER

Our own file lists both as owed (STILL-OPEN 72). Flo's rail at week 0 carries two stories; What to Expect rotates daily tips and "Common Symptoms, Week 20".

EXACTLY WHAT TO DO

Add a daily "Myth or fact" card from the week's mythBuster, and a "Move" card once the Move and rest section exists ("Five minutes: pelvic tilts, safe from week 12").

WHAT WILL BE DIFFERENT AFTER

The rail has something new to open every day.

MISSING CONTENT IN THIS SECTION

2 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- None marked urgent.

Home: the rest (doors, film, Garbh, medicines, journal, videos, reads, products, tools)

What it is today. "What are you looking for?" with ten tiles in a fixed order (Scans & tests, Complications, Is it safe?, Nutrition, Symptoms, Labour prep, Garbh Sanskar, Yoga & fitness, Mind & mood, Belly & skin); "This Week Explained" (the week's film, which shows "WEEK n FILM · ARRIVING"); the Garbh Sanskar practice; "Don't miss today's dose"; "My journal"; "Watch These Videos This Week" (three file-less films); "Recommended Reads / Research-backed articles"; "Recommended Products / Crafted for Week N of Pregnancy"; "Use these tools". No experts, no community, no medical note at the foot.

FIX A PROBLEM

Hide the film blocks until films exist **P1** effort: S

WHY: WHAT THEY DO BETTER

Two of the biggest headings on the home ("This Week Explained" and "Watch These Videos This Week") introduce films that have no file. What to Expect's "This Week's Videos" rail plays a real video every week ("Your Pregnancy Week 20", 1 to 2 minutes).

EXACTLY WHAT TO DO

Comment out both blocks (kept for revert) until at least the weekly "Your week N" films exist. In their place show the week's two reads as cards.

WHAT WILL BE DIFFERENT AFTER

The home stops advertising something that is not there.

More detail: the "Behind · Videos & courses" tab.

CHANGE

Order the door tiles by her week and her answers **P2** effort: S

WHY: WHAT THEY DO BETTER

The tiles never move, although onboarding asks "What would you most like help with?" and says "Your home will lead with these". What to Expect changes its topic chips by trimester (third trimester: Breastfeeding, Prep for baby, Labour & delivery).

EXACTLY WHAT TO DO

Keep the same ten tiles but put first: her onboarding choices, then by trimester (first: Symptoms, Is it safe?, Scans; third: Labour prep first from week 32).

WHAT WILL BE DIFFERENT AFTER

The home keeps its promise and changes as she moves through the pregnancy.

More detail: the "Behind · Home & daily" tab.

FIX A PROBLEM

Say "Research-backed" only when it is true **P1** effort: S

WHY: WHAT THEY DO BETTER

The reads heading says "Research-backed articles"; the week page itself says "ParentVeda editorial" and no reviewer is real.

EXACTLY WHAT TO DO

Change the heading to "Reads for week N" until reads are reviewed.

WHAT WILL BE DIFFERENT AFTER

One more claim we cannot back is gone.

More detail: the "Behind · Trust" tab.

ADD

Talk to experts, with named people **P2** effort: S

WHY: WHAT THEY DO BETTER

The trying-to-conceive home has a "Talk to experts" block; the pregnancy home has none, and consults are only reached from door tiles.

EXACTLY WHAT TO DO

Add the same block (Obstetrician, Nutritionist, Counsellor, Lactation consultant) with real roster names once they exist; until then the roles only, never placeholder names.

WHAT WILL BE DIFFERENT AFTER

She can find a person from the home, as in the other stage.

Week by week (the week page)

What it is today. "What happens in week N" with "ParentVeda editorial · averages for the week, never a measurement of your baby", length and weight tiles, "About the size of", a milestone, "What your baby is doing", "DID YOU KNOW" and "For you this week" (three lines). Weeks 4 to 40 only. Our week data (weekContent.json) also holds common symptoms, reassurance, nutrition, do this week, skip this week, red flags, a myth buster and a partner corner, but the mother's home no longer shows them (only the father's week stack does).

CHANGE

Show everything we already wrote for each week **P1** effort: M

WHY: WHAT THEY DO BETTER

What to Expect's week has four parts (Your Baby This Week, Body Changes with every symptom of that week, Baby Science, sources) and a video. Flo's has a doctor-reviewed page with References. We wrote most of this and hide it.

EXACTLY WHAT TO DO

Add four sections to the week page from the data we already have: "Your body this week" (physicalChanges, commonSymptoms as tappable chips that open our symptom pages), "This week, do this / skip this", "Call your doctor if" (redFlags), and "Myth or fact". Add "For your partner" (partnerCorner.whatYouCanDo) at the end.

WHAT WILL BE DIFFERENT AFTER

The week page, the heart of a pregnancy app, becomes as full as theirs without writing new content.

More detail: the "Behind · Week by week" tab.

ADD

Weeks 1 to 3 and 41 to 42 **P2** effort: S

WHY: WHAT THEY DO BETTER

Flo has pages from "0 weeks" to "42 weeks"; What to Expect from week 1 to 42. Ours start at week 4 and stop at 40.

EXACTLY WHAT TO DO

Write weeks 1 to 3 (one page: "How your weeks are counted, and what is happening before you know") and weeks 41 and 42 ("Past your due date": what the doctor will offer, counting movements, when to go in).

WHAT WILL BE DIFFERENT AFTER

Early and late weeks, when women worry most about dates, are not blank.

More detail: the "Behind · Week by week" tab.

ADD

Sources and a real reviewer on each week **P2** effort: M

WHY: WHAT THEY DO BETTER

Flo lists References under every week (for example Mayo Clinic, StatPearls, the Indian Journal of Dermatology). What to Expect has "See sources" and a medical disclaimer.

EXACTLY WHAT TO DO

Add "Where this comes from" with 3 to 5 sources per week, and a reviewer line only after a real obstetrician has read it.

WHAT WILL BE DIFFERENT AFTER

The week page earns the trust the competitors earn.

More detail: the "Behind · Trust" tab.

MISSING CONTENT IN THIS SECTION

230 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- Week 10: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 10)
- Week 11: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 11)
- Week 12: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 12)
- Week 13: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 13)
- Week 14: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 14)
- Week 15: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 15)
- Week 16: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 16)
- Week 17: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 17)
- Week 18: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 18)
- Week 19: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 19)
- Week 20: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 20)
- Week 21: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 21)
- Week 22: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 22)
- Week 23: Your Baby This Week, Body Changes, Baby Science (What to Expect, Week page, goes to Week by week › Week 23)

Door: Scans & tests

What it is today. Five tabs: My scans (a personal timeline by week with notes and place), Understand a scan (9 tests from blood tests to Group B Strep, plus "Why nobody will tell you the sex", "What scans cost in India", "Do I need every scan on the list?"), Understand a result (a decoder for 27 report findings), My reports (photos of reports, "Only on this phone"), Talk ("Call your doctor if", "What to ask at your next scan"). 17 of 18 tiles are real. Our strongest door.

ADD

The tests they have and we do not P2 effort: M

WHY: WHAT THEY DO BETTER

What to Expect has full articles on the Nonstress Test, the Biophysical Profile, electronic fetal monitoring, and hCG levels; Flo has a collection "Checkups: When, how, and why" (13 items) including "Your 1st prenatal checkup: 6 things to know".

EXACTLY WHAT TO DO

Add pages for: the first antenatal visit in India (what is checked, what to carry), NST and fetal monitoring, biophysical profile, hCG and early blood tests, the Tdap and flu vaccines in pregnancy (India schedule), and blood group and Rh. Finish the coming-soon read "What the scan person can and cannot tell you".

WHAT WILL BE DIFFERENT AFTER

Every test she is sent for has a page before she goes.

MISSING CONTENT IN THIS SECTION

16 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- Prenatal appointments: Everything you need to know (Flo, Article, goes to Scans & tests › My scans)
- Why it's important to get a tdap vaccine during pregnancy (Flo, Article, goes to Scans & tests › My scans)
- Help Me, Heidi! Are the Flu and Tdap Vaccines Really Safe During Pregnancy? (What to Expect, Article, goes to Scans & tests › Understand a scan)
- Vaccines You Should Get During Pregnancy (What to Expect, Video, goes to Scans & tests › Understand a scan)

Door: Complications

What it is today. Find a condition (27 condition pages), When it comes up (by early, middle and later months), Get help

now ("Signs to get help the same day" and three reads), Living with it (three reads), Talk. All 19 tiles real.

ADD

The conditions both apps cover and we do not **P2** effort: M

WHY: WHAT THEY DO BETTER

What to Expect has "Having a High-Risk Pregnancy", "Preterm Labor", "Toxoplasmosis During Pregnancy", "Psoriasis During Pregnancy", "Bed Rest During Pregnancy", "How to Have a Healthy Pregnancy With a Physical Disability". Flo has collections on COVID and on symptoms by trimester.

EXACTLY WHAT TO DO

Add pages for high-risk pregnancy in general, preterm labour, infections that matter in India (toxoplasmosis, hepatitis B, HIV testing at booking, malaria and typhoid alongside our dengue page), bed rest, and a first page for a disability or chronic illness.

WHAT WILL BE DIFFERENT AFTER

The door covers what Indian doctors actually talk about.

CHANGE

Give miscarriage and stillbirth a proper home **P1** effort: S

WHY: WHAT THEY DO BETTER

Today "Miscarriage / pregnancy loss" is one condition page among 27. What to Expect has "Report a Loss" and large loss groups; Flo has a Pregnancy loss group with a sensitive-topic warning.

EXACTLY WHAT TO DO

Keep the condition page for the facts, and link it to the new "After a loss (pregnancy)" section for everything after.

WHAT WILL BE DIFFERENT AFTER

Loss is handled with care, not as a list entry.

More detail: the "Behind · After a loss" tab.

MISSING CONTENT IN THIS SECTION

12 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- None marked urgent.

"Is it safe?" (Can I...?)

What it is today. A search-first screen ("Can I have it, do it, take it?") with barcode and photo, "Asked most", four shelves (eat, drink, take, do), per-trimester notes and 193 answers in 26 groups. A second food list of 64 items sits in the Nutrition door.

FIX A PROBLEM

One food answer, not two **P1** effort: S

WHY: WHAT THEY DO BETTER

Our two food lists disagree: papaya is "depends" in Is it safe? and "limit" in the Nutrition food list; pani puri is "avoid" in one and street food "depends" in the other; paneer differs too. Neither competitor contradicts itself this way.

EXACTLY WHAT TO DO

Make the Nutrition door's "Is this food safe?" read the same 193 answers and retire the 64-item list (commented, kept for revert).

WHAT WILL BE DIFFERENT AFTER

She never gets two answers to the same question.

ADD

The questions they answer that we do not **P3** effort: S

WHY: WHAT THEY DO BETTER

Both apps answer everyday safety questions we lack: hair removal creams, milk baths, hot yoga, cleaning products ("The Best Home Cleaning Products to Use During Pregnancy"), manicures, masturbation and sex (see the Sex and closeness section), cannabis, vaping.

EXACTLY WHAT TO DO

Add the missing answers in the same format, each with a trimester note and an "Instead, try".

WHAT WILL BE DIFFERENT AFTER

Fewer searches end in "no answer".

MISSING CONTENT IN THIS SECTION

14 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- None marked urgent.

Door: Nutrition

What it is today. Today (a plate tracker against ICMR-NIN, water, cravings), What to eat now (stage guides, 11 condition guides, 12 nutrients, five bigger questions), Recipes (40 regional Indian recipes), Charts & fasting (19 diet charts including regional and Jain; fasting for Navratri, Ramzan, Karva Chauth, Ekadashi, Jain fasts), Talk (a paid dietician).

ADD

A 7-day plan she can follow, day by day **P3** effort: S

WHY: WHAT THEY DO BETTER

Flo has two story meal plans: "Your Pregnancy Menu #1" to "#15" and "Your Vegetarian Pregnancy Menu #1" to "#10", one day per story. Ours has 19 charts, which are richer but read as tables.

EXACTLY WHAT TO DO

Turn the vegetarian chart into a "This week's plate" story, one day at a time, with a shopping list button.

WHAT WILL BE DIFFERENT AFTER

The chart becomes something she can follow tomorrow morning.

ADD

Weight gain in plain words, with Indian numbers **P1** effort: S

WHY: WHAT THEY DO BETTER

What to Expect has "How Much Weight You Should Gain?" and "How Many Calories Do You Need?"; our weight tracker uses the US cut-offs (normal up to BMI 25), not the lower Asian cut-offs our own trying-to-conceive weight read uses.

EXACTLY WHAT TO DO

Add a read "How much weight is right for me?" using the Asian BMI cut-offs, and change the tracker's range to match (see "Behind · Tools").

WHAT WILL BE DIFFERENT AFTER

An Indian woman gets a range that fits her body.

More detail: the "Behind · Tools" tab.

MISSING CONTENT IN THIS SECTION

23 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- None marked urgent.

Door: Symptoms

What it is today. Today (a two-tap check-in with "COMMON IN WEEK N"), Is this normal? (10 questions with a clear verdict), By symptom (33 symptom pages in six areas), Your week (seven days at a glance and "Send my week" for the doctor), Talk ("Call now, at any hour, if").

ADD

The symptoms women log that we do not cover **P2** effort: M

WHY: WHAT THEY DO BETTER

What to Expect's journal lists 65 symptoms; ours covers 33. Theirs adds lightning crotch, sciatica, leaky breasts, blurry vision, excess saliva, red palms and feet, clumsiness, libido changes, diarrhoea, spotting, vaginal discharge and pelvic pain.

EXACTLY WHAT TO DO

Add short pages for these twelve (spotting and discharge link to the urgent list), and add them to the check-in grid.

WHAT WILL BE DIFFERENT AFTER

Whatever she feels, there is a page for it.

More detail: the "Behind · Tools" tab.

ADD

A short video for the most common symptoms **P3** effort: M

WHY: WHAT THEY DO BETTER

Flo has video collections "Symptoms: 1st trimester" (12 videos, 1 to 4 minutes), "2nd" (11) and "3rd" (6); What to Expect has "3 Easy Ways to Relieve Pregnancy Constipation" (0:37), "How to Help Itchy Skin".

EXACTLY WHAT TO DO

Film one minute each for nausea, heartburn, back pain, leg cramps and sleep, and put them on the symptom pages.

WHAT WILL BE DIFFERENT AFTER

The five most common problems get a quick visual answer.

More detail: the "Behind · Videos & courses" tab.

MISSING CONTENT IN THIS SECTION

40 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- Cramps in pregnancy explained (Flo, Article, goes to Symptoms › By symptom)
- Go for cotton underwear (What to Expect, Daily tip, goes to Symptoms › By symptom)
- Pregnancy discharge decoded (Flo, Article, goes to Symptoms › By symptom)
- What's normal when it comes to pregnancy discharge? (Flo, Question (FAQ), goes to Symptoms › By symptom)
- Let's talk about pregnancy cramps (Flo, Article, goes to Symptoms › By symptom)

Door: Labour prep

What it is today. Five tabs: Contraction timer (a real tool with a safety check), Hospital bag ("Ready for Birth"), Understand the birth (one real read, "Pain relief: natural, epidural and C-section", plus the birth plan tool; "Labour, start to finish", "If it becomes a C-section", "The first hour after birth" and "What labour is actually like" are coming soon), For your partner (one coming-soon read, a paid course), Talk and learn (a ₹1,499 birthing course). 6 of 15 tiles are coming soon.

ADD

Write the birth: signs, stages, when to go in, C-section, induction **P1** effort: L

WHY: WHAT THEY DO BETTER

What to Expect has 40 labour and delivery articles ("10 Signs of Labor", "Childbirth Stage One: The Three Phases of Labor", "How to Push During Labor", "Delivering the Placenta", "Inducing Labor", "Delivering by C-Section", "Vaginal Birth After Cesarean"). Flo has "Labor stages" (three videos), "Getting ready for labor", "How to make labor smooth" (16 items) and three C-section pieces.

EXACTLY WHAT TO DO

Add a new tab "Signs and stages" with at least ten reads written for Indian hospitals (see New sections), and finish the four coming-soon reads first.

WHAT WILL BE DIFFERENT AFTER

The door that matters most at the end of pregnancy stops being the thinnest.

More detail: the "Behind · Labour & birth" tab.

ADD

Getting ready to feed, before the baby comes **P2** effort: M

WHY: WHAT THEY DO BETTER

Flo has "Breastfeeding: Yes or no?" (11 items) and "Newborn prep"; What to Expect has 69 breastfeeding articles (most for after the birth). We have one expert note ("Why early breastfeeding preparation helps") and a paid masterclass.

EXACTLY WHAT TO DO

Add a tab "Feeding and first days" with five reads for the last weeks of pregnancy: how breastfeeding starts, colostrum, the first feed in the golden hour, asking for help in hospital, and planning the first 40 days at home.

WHAT WILL BE DIFFERENT AFTER

She walks into the birth knowing what the first feeds will be like.

MISSING CONTENT IN THIS SECTION

124 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- Is It Labor or Braxton Hicks Contractions? (What to Expect, Video, goes to Labour prep > Contraction timer)
- How to Breastfeed: A Guide for New Moms (What to Expect, Article, goes to Labour prep > Feeding and first days)
- How Partners Can Offer Support and Encouragement During Labor (What to Expect, Article, goes to Labour prep > For your partner)
- 10 Signs of Labor (What to Expect, Article, goes to Labour prep > Signs and stages)
- 41 weeks FAQs: Should you be induced & more (Flo, Article, goes to Labour prep > Signs and stages)
- 42 weeks: Signs of labor & possible induction (Flo, Article, goes to Labour prep > Signs and stages)
- Birth: When's it time to go to the hospital? (Flo, Article, goes to Labour prep > Signs and stages)
- Delivering by C-Section (What to Expect, Article, goes to Labour prep > Signs and stages)
- Episiotomy During Labor and Delivery (What to Expect, Article, goes to Labour prep > Signs and stages)
- How Will I Know When I'm in Labor? (What to Expect, Video, goes to Labour prep > Signs and stages)
- How can you tell if labor is days away? (Flo, Question (FAQ), goes to Labour prep > Signs and stages)
- How do you know labor is a few days away? (Flo, Question (FAQ), goes to Labour prep > Signs and stages)
- How far overdue can you go? (Flo, Question (FAQ), goes to Labour prep > Signs and stages)
- How to Tell if You're in Labor (What to Expect, Video, goes to Labour prep > Signs and stages)

Door: Mind & mood

What it is today. Feel (a hard-day reset, calm note, three breathing tools, affirmations; four audio tracks and five meditation videos coming soon), Understand (34 reads including "Log kya kahenge" and "When the nuskhe and the superstitions start"), Track (mood check-in), When it is more than this (a gentle check-in, helplines, crisis path), Talk (paid counselling). 13 tiles are coming soon.

FIX A PROBLEM

Fill or hide the 13 coming-soon tiles P2 effort: M

WHY: WHAT THEY DO BETTER

Flo has two full video courses here: "Mindful pregnancy through meditation" (8 sessions, 2:34 to 17:14) and "Stress and anxiety: Reclaim control" (5 videos). Our "Calming audio" and "Longer, when there is time" sections are all placeholders.

EXACTLY WHAT TO DO

Record the four calming audio tracks and three guided breaths first (audio is cheaper than video; we already host Garbh audio). Comment out the meditation video tiles until they exist.

WHAT WILL BE DIFFERENT AFTER

Every tile in the door plays.

More detail: the "Behind · Videos & courses" tab.

ADD

A tab for sex and closeness P2 effort: M

WHY: WHAT THEY DO BETTER

Flo has a whole shelf "Pregnancy sex and pleasure" and "Happy relationships know-how" (videos such as "Keeping the chemistry strong"); What to Expect has "Your Questions About Sex During Pregnancy, Answered" and "8 Pregnancy Sex Challenges". We have one read, "Relationship and intimacy changes", and one Can I answer.

EXACTLY WHAT TO DO

Add "Sex and closeness" (see New sections), written gently for an Indian couple, behind the sensitive-content switch.

WHAT WILL BE DIFFERENT AFTER

A question most couples have but few ask gets a calm answer.

More detail: the "Behind · Topics we lack" tab.

FIX A PROBLEM

One postpartum line in a pregnancy list P3 effort: S

WHY: WHAT THEY DO BETTER

The same-day list says "You cannot sleep even when the baby lets you." That is written for after the birth.

EXACTLY WHAT TO DO

Change it to "You cannot sleep even when you have the chance to."

WHAT WILL BE DIFFERENT AFTER

The list reads right for a pregnant woman.

MISSING CONTENT IN THIS SECTION

41 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- Redesigning your sex life (Flo, Collection or course, goes to Mind & mood › Sex and closeness)
- Things to know about sex during pregnancy (Flo, Article, goes to Mind & mood › Sex and closeness)
- Your Questions About Sex During Pregnancy, Answered (What to Expect, Article, goes to Mind & mood › Sex and closeness)
- Your pregnancy sex need to know (Flo, Article, goes to Mind & mood › Sex and closeness)

Door: Garbh Sanskar

What it is today. Today (four practices, a ritual rail with eight traditions, "Nothing is added up over time."), Listen (ten real audio tracks), Talk and read (passages to read aloud, affirmations, stories, mantras; the narrator is a computer voice), For you (quiet games, relaxations), My Journal (everything the baby has heard; "Invite someone to record" is a stub). Honest framing: "it promises nothing about how clever or what kind of person your child will be."

ADD

Real voices, and the family recording P2 effort: M

WHY: WHAT THEY DO BETTER

Neither competitor has anything like Garbh Sanskar; this is ours alone. The weak spots are ours too: a computer narrator and an invite screen that says "The recording page is still being built."

EXACTLY WHAT TO DO

Record the read-aloud pieces with a warm Indian voice, and build the family recording (Papa, Dadi, Nani) or hide the invite until it works.

WHAT WILL BE DIFFERENT AFTER

The feature nobody else has feels finished.

Door: Belly & skin

What it is today. Skin changes (stretch marks, pigmentation, an itching page that warns about cholestasis), What's safe to use (an ingredient checker with 15 ingredients and four reads), Belly care (three reads), The bump ritual (one photo a week, "Then & Now", a book to download). 21 tiles, all real.

ADD

Hair, nails and body changes in one place P3 effort: S

WHY: WHAT THEY DO BETTER

Flo has "Major body changes" (10 items) and "Changes in appearance to expect during pregnancy"; What to Expect has "The Unexpected Pregnancy Skin Changes Nobody Warns You About".

EXACTLY WHAT TO DO

Add reads for nail changes, gums and teeth, body hair, and "your changing shape", and grow the ingredient checker past 15 ingredients.

WHAT WILL BE DIFFERENT AFTER

Every "is this normal on my skin?" question lands in this door.

MISSING CONTENT IN THIS SECTION

5 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- None marked urgent.

The "Yoga & fitness" tile (no door)

What it is today. The tile opens a class catalogue shared with other stages ("ParentVeda Yoga"). There is no written read on exercise in pregnancy; exercise questions live only in twelve Can I answers. The Kegel tool exists but no door points to it.

ADD

A real Move and rest door **P1** effort: M

WHY: WHAT THEY DO BETTER

Flo has "Prenatal yoga" for each trimester (9, 7 and 4 videos of 6 to 25 minutes), "Pregnant and fit", and two sleep courses ("Healthy habits for better sleep", 13 videos; "Perfect sleep: The basics", 9). What to Expect has "How to Exercise Safely", "Prenatal Strength Circuit" (10:19), "How to Do Kegels".

EXACTLY WHAT TO DO

Build the door with three tabs (Move safely, Pelvic floor, Sleep and rest). Point Kegel Care and our 22 month-by-month yoga sessions into it. See New sections.

WHAT WILL BE DIFFERENT AFTER

The tenth tile opens a door like the other nine.

More detail: the "Behind · Topics we lack" tab.

MISSING CONTENT IN THIS SECTION

68 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- How to Exercise Safely (What to Expect, Video, goes to Move & rest › Move safely)
- How to pregnancy-proof your workout (Flo, Article, goes to Move & rest › Move safely)
- Pregnant and fit: Here's how (Flo, Collection or course, goes to Move & rest › Move safely)
- Try pelvic floor exercises (What to Expect, Daily tip, goes to Move & rest › Pelvic floor)

Tools tab

What it is today. "Tools" / "Helpful companions for your journey - more arriving soon." A journey hero, then 24 tiles in the older plum style: Learn, Prepare, Garbh Sanskar, Spiritual Reading, Baby Movement Tracker, My Bump Journey, My Journal, Read recommendations, Weight Tracker, Kegel Care, Contraction Timer, My Hospital Bag, Product Checklist, Product Guide, Launches, Brand Studio, Medication & Supplements, Reminders, Tests Scans & Reports, Can I?, Symptoms, Due Date, Ask Veda, Father's Journal. The birth plan is not on the list.

CHANGE

Clean the list: her tools only, grouped **P2** effort: S

WHY: WHAT THEY DO BETTER

What to Expect's Tools tab is short and plain: My Journal, Ovulation Calculator, Due Date Calculator, Baby Tracker, Recipes, Baby Products, each with one line saying what it does. Our grid mixes her tools with sponsor showcases ("Launches", "Brand Studio") and the father's journal.

EXACTLY WHAT TO DO

Remove Launches, Brand Studio and Father's Journal from her list. Group the rest under three headings: Track (movement, weight, medicines, symptoms, kegels), Get ready (hospital bag, birth plan, contraction timer, due date), Keep (journal, bump photos, Garbh). Add the birth plan. Give each tile one line saying what it does. Move to the white base style.

WHAT WILL BE DIFFERENT AFTER

She finds a tool in seconds, and the screen looks like the rest of ParentVeda.

More detail: the "Behind · Tools" tab.

ADD

A blood pressure and sugar log P2 effort: M

WHY: WHAT THEY DO BETTER

Neither competitor has one, but gestational diabetes and high blood pressure are common in India and our Complications door manages both. A "Track my readings" journey already exists in our data with no way to reach it.

EXACTLY WHAT TO DO

Wire the readings log: date, value, "before food / after food", a line to share with the doctor. Never judge a reading; show the doctor's target if she enters one.

WHAT WILL BE DIFFERENT AFTER

Women told to check their sugar or pressure at home can keep the numbers in the app they already use.

More detail: the "Behind · Tools" tab.

MISSING CONTENT IN THIS SECTION

4 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- Gestational age Weeks and Day, "How is it calculated?", Number of children (1 / 2 or more), Due date, REMOVE PREGNANCY INFORMATION (Flo, Tool / download, goes to Tools > Due date calculator)

The reader (every article)

What it is today. Every read opens in the one reader. Pregnancy reads carry an evidence line (for example the PCPNDT Act and scan rate cards) but no short answer at the top, and all show a named reviewer that is not real.

ADD

A short answer at the top of every read P2 effort: M

WHY: WHAT THEY DO BETTER

What to Expect opens with "In This Article" (the questions it answers) and "KEY TAKEAWAYS" (for example "Labor doesn't usually start all at once."). Our trying-to-conceive reads now open with a short answer; pregnancy reads do not.

EXACTLY WHAT TO DO

Add a two to three sentence short answer to each of the 34 pregnancy reads, and let the contents list show the questions it answers.

WHAT WILL BE DIFFERENT AFTER

She gets the answer in ten seconds and reads on only if she wants.

More detail: the "Behind · How reads are written" tab.

Ask Veda

What it is today. A floating button on every screen. The answer comes in seven sections; five of them can show fixed placeholders: "More articles on this are coming soon", "Videos for this are coming soon", "Relevant products are coming soon", "Relevant services are coming soon", "Community insights are coming soon".

FIX A PROBLEM

Hide empty sections instead of saying "coming soon" **P2** effort: S

WHY: WHAT THEY DO BETTER

Neither competitor has an assistant, so this is a lead, but five "coming soon" lines under an answer make it look unfinished.

EXACTLY WHAT TO DO

When a section has nothing, leave it out of the answer; the service already returns an empty list.

WHAT WILL BE DIFFERENT AFTER

Every answer looks complete.

Messages and notifications

What it is today. None sent by the app in pregnancy. No messages inbox (it exists only in trying to conceive).

Notifications are only the reminders she creates and medicine alarms. Onboarding collects a WhatsApp weekly opt-in; sending is server side.

ADD

The app speaks first, at the right moments **P1** effort: M

WHY: WHAT THEY DO BETTER

What to Expect's sample push is "Oh baby! You're in Week 8. Baby's growing about a millimetre a day." and it has weekly newsletters. Flo sends daily insights. We send nothing, although our onboarding shows a weekly message.

EXACTLY WHAT TO DO

Add six messages computed from her dates: a new week ("Week 21 starts today: your baby can hear you now"), a scan window opening ("The anomaly scan is usually done between 18 and 22 weeks. Booked it?"), vaccine due (Tdap from 27 weeks, as her doctor advises), "pack the bag" at 34 weeks, "count movements" at 28 weeks, and "Has your baby arrived?" from 37 weeks. Each opens the page it names.

WHAT WILL BE DIFFERENT AFTER

The app remembers the dates for her, the way a good nurse would.

More detail: the "Behind · Messages" tab.

MISSING CONTENT IN THIS SECTION

4 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- "Oh baby! You're in Week 8. Baby's growing about a millimetre a day — and looking more baby-like! Learn..."

(What to Expect, Chat / message, goes to Home > messages)

Community

What it is today. A main tab. The screen header calls it a "prototype" over "seeded data": 12 rooms with made-up member counts, 50 seed posts, every pregnancy user auto-joined to a fixed "November 2026 Moms" room whatever her due date, and 24 "verified" experts the file calls "All fictional". Her posts are saved only to her own account, so nobody else ever sees them.

FIX A PROBLEM

Hold the community back until it is real **P1** effort: S

WHY: WHAT THEY DO BETTER

What to Expect's community is enormous and real (February 2027 Babies: 64K+ posts, 116K+ members). In trying to conceive we already held our community back for launch.

EXACTLY WHAT TO DO

Do the same in pregnancy now: comment out the tab and every entry point (kept for revert), and replace it in the bar with Learn or You.

WHAT WILL BE DIFFERENT AFTER

She is never shown fake people or talks to an empty room.

More detail: the "Behind · Community" tab.

ADD

When it opens: rooms by due month **P2** effort: L

WHY: WHAT THEY DO BETTER

What to Expect's biggest pregnancy groups are birth-month groups, each with a pinned "Welcome, February 2027 members!" from their team.

EXACTLY WHAT TO DO

When real posting exists, open "<Month Year> babies" rooms matched to her due date, a pinned welcome and a pinned "When to call your doctor now" card.

WHAT WILL BE DIFFERENT AFTER

She meets women due the same month as her.

More detail: the "Behind · Community" tab.

MISSING CONTENT IN THIS SECTION

1 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- None marked urgent.

Partner (his side)

What it is today. She pairs from You > Family ("Here is exactly what they would see."; he never sees her symptoms, weight, journal or records). His app: Today ("Daily tip for Dad", ten concrete tasks such as "Rub her lower back for five minutes"), Journey (the week stack with a partner corner every week), Reads, Read aloud, Journal. His journal is pre-filled with two fake entries ("Felt the first kick against my palm tonight. I actually teared up.").

FIX A PROBLEM

Remove the fake journal entries **P1** effort: S

WHY: WHAT THEY DO BETTER

A new father opening his journal and finding words he never wrote is confusing and untrue.

EXACTLY WHAT TO DO

Delete the two seed entries (comment out, kept for revert) and show the empty state: "Write the first line. She will not see it unless you share it."

WHAT WILL BE DIFFERENT AFTER

His journal is his.

More detail: the "Behind · Partner" tab.

ADD

His week, and his part in the birth **P2** effort: M

WHY: WHAT THEY DO BETTER

What to Expect has "Week by Week Pregnancy Advice for Expecting Dads and Partners", "How Partners Can Offer Support and Encouragement During Labor" and "Surprising Pregnancy Symptoms, for Partners!". Flo's partner tab in pregnancy mode still pitches trying to conceive, so we are already ahead of Flo.

EXACTLY WHAT TO DO

Write the coming-soon "What your partner should actually do" read, and a "His week" line for each week from our partner corner data.

WHAT WILL BE DIFFERENT AFTER

He knows what to do each week and on the day.

More detail: the "Behind · Partner" tab.

MISSING CONTENT IN THIS SECTION

9 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- Week by Week Pregnancy Advice for Expecting Dads and Partners (What to Expect, Article, goes to Partner › His side)

Experts, Learn and Products

What it is today. Consults are reached from door tiles (Obstetrician "Dr. Aparna Joshi", a seed name). Learn has three courses ("The Complete Pregnancy Guide" ₹2,999 "reviewed by obstetricians", "Birth Prep Essentials", "Trimester-Safe Fitness"), four masterclasses and four cohorts; no lesson video file exists. The store has pregnancy categories (pillow, stretch care, maternity wear, belly band, compression socks, nursing bra, breast pump, swaddle).

FIX A PROBLEM

Do not sell courses that do not exist yet **P1** effort: S

WHY: WHAT THEY DO BETTER

Flo's courses play (for example "Prenatal yoga: 1st trimester", nine workouts). Ours list lessons, prices and a seed review but have no video.

EXACTLY WHAT TO DO

Mark every course without lessons "Opening soon, tell me when" with no price and no "Buy", and remove "reviewed by obstetricians" and the seed review until true.

WHAT WILL BE DIFFERENT AFTER

Nothing can be paid for that cannot be delivered.

More detail: the "Behind · Trust" tab.

ADD

"What do I actually need for the baby?" **P2** effort: S

WHY: WHAT THEY DO BETTER

What to Expect has a Registry tab and "Baby Gear Must-Haves", "Your Baby Registry Checklist". Registries are not Indian, but the question is.

EXACTLY WHAT TO DO

Write an Indian "what you need, what you can skip" list for the first three months that links to our store, and place it in the new Getting ready for baby section.

WHAT WILL BE DIFFERENT AFTER

She shops once, sensibly, from a list she trusts.

MISSING CONTENT IN THIS SECTION

29 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- None marked urgent.

You (profile, due date, birth, loss)

What it is today. "Week N"; "Baby has arrived" ("Adds your baby and opens the parenting home. Nothing from pregnancy is deleted."); Details: Due date ("A date from a scan or your doctor is theirs, we never recalculate it."), first pregnancy, 16 conditions, how you eat, what you want help with. The Due date row opens a screen with no due-date field; the date can only be changed in Tools › Due Date. There is no way to say the pregnancy has ended.

FIX A PROBLEM

Let her change the due date where it is shown **P1** effort: S

WHY: WHAT THEY DO BETTER

Flo's Pregnancy Mode screen and What to Expect's Pregnancy Details ("Due Date", "Re-Calculate Due Date") both change the date in one place.

EXACTLY WHAT TO DO

Make the Due date row open the date editor (the four ways, with "Scan date" first after week 12).

WHAT WILL BE DIFFERENT AFTER

After her dating scan she can fix the date in five seconds.

More detail: the "Behind · Onboarding" tab.

ADD

"My pregnancy ended" **P1** effort: M

WHY: WHAT THEY DO BETTER

What to Expect: More options › "Report a Loss" › "We're Sorry for Your Loss. We're here for you." We have nothing, and our family profile deliberately refuses to store a loss, so the app keeps talking about a baby.

EXACTLY WHAT TO DO

Add a quiet row under Details: "If your pregnancy has ended". It opens one gentle screen (see "Behind · After a loss"), stops the week content, the messages and the partner's week, and opens the After a loss section.

WHAT WILL BE DIFFERENT AFTER

The app never again shows a baby's size to a woman who has lost her baby.

More detail: the "Behind · After a loss" tab.

MISSING CONTENT IN THIS SECTION

2 pieces from Flo and What to Expect belong here (all listed in Appendix A). The most urgent:

- "We're Sorry for Your Loss. We're here for you. Let us know if you'd like to update your account so that we can provide support during this difficult time. Once you confirm, we'll unsubscribe you from WTE pregnancy and partner emails." CONFIRM (What to Expect, Chat / message, goes to After a loss (pregnancy) › Support)

Videos, stories and courses (across the section)

What it is today. 16 pregnancy videos are listed and none has a file; 21 door tiles are coming soon (18 of them films or audio); no pregnancy door plays a video. Garbh Sanskar plays ten real audio tracks. The birthing course lists six videos with no files.

ADD

A short "Your week N" video for every week **P1** effort: L

WHY: WHAT THEY DO BETTER

What to Expect has a "Your Pregnancy Week N" video for every week (1 to 2 minutes, for example "Your Pregnancy Week 1", 1:23) and a "How Big is Your Baby? Week N". Flo has 117 videos, including yoga by trimester, symptom videos and labour stages.

EXACTLY WHAT TO DO

Make 37 one-minute week films from our week data (a voice over the figure and the size, no filming of people needed), then the ten most asked topics as short explainers. Details in "Behind · Videos & courses".

WHAT WILL BE DIFFERENT AFTER

Every week has something to watch, and the home's film blocks can come back.

More detail: the "Behind · Videos & courses" tab.

Part 2 · New sections we should add

Whole sections and tabs we do not have. These came out of sorting every competitor piece: when many good pieces had nowhere to go in our app, that was a missing section, not a missing article.

Labour prep > Signs and stages **P1**

WHAT GOES IN IT

Signs labour is near; waters breaking; when to go to hospital (and what to carry in her hand); the three stages; pushing and the placenta; induction; going past the due date; C-section, planned and emergency; birth after a C-section; tears and stitches; the first hour. Written for Indian hospitals, with our contraction timer beside it.

WHY WE NEED IT

What to Expect has 40 labour articles and Flo has four labour collections; we have one real read and four coming soon. Birth is what every pregnant woman thinks about most in the last months.

WHAT WILL BE DIFFERENT AFTER

She knows what will happen, and what to do, when labour starts.

75 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- 10 Signs of Labor (What to Expect)
- 41 weeks FAQs: Should you be induced & more (Flo)
- 42 weeks: Signs of labor & possible induction (Flo)
- Birth: When's it time to go to the hospital? (Flo)
- Delivering by C-Section (What to Expect)
- Episiotomy During Labor and Delivery (What to Expect)
- How Will I Know When I'm in Labor? (What to Expect)
- How can you tell if labor is days away? (Flo)
- How do you know labor is a few days away? (Flo)
- How far overdue can you go? (Flo)

Move & rest **P1**

WHAT GOES IN IT

A new door replacing the "Yoga & fitness" tile, with three tabs. Move safely: exercise and yoga by trimester, walking, what to avoid, when to stop. Pelvic floor: kegels (our Kegel Care tool), leaking urine, perineal massage before birth. Sleep and rest: sleeping on your side, insomnia, pillows, tiredness.

WHY WE NEED IT

Flo has 20 prenatal yoga videos by trimester and two sleep courses; What to Expect has exercise, strength and kegel videos. The only tile on our home without a door is this one.

WHAT WILL BE DIFFERENT AFTER

The tenth door works, and "is it safe to exercise?" has a full answer.

68 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- How to Exercise Safely (What to Expect)
- How to pregnancy-proof your workout (Flo)
- Pregnant and fit: Here's how (Flo)
- Fit in a workout (What to Expect)
- Get on the move (What to Expect)
- Prenatal Strength Circuit (What to Expect)
- Take some exercise precautions (What to Expect)
- Basic Prenatal Yoga Flow (What to Expect)
- Prenatal yoga: 1st trimester (Flo)
- Prenatal yoga: 2nd trimester (Flo)

After a loss (pregnancy) **P1**

WHAT GOES IN IT

A gentle path for when a pregnancy ends: a "My pregnancy ended" screen in You that stops the week content; Your body (bleeding, recovery, when to call); Understand (miscarriage, ectopic, stillbirth, termination for medical reasons); Support (grief, telling family, his grief, counselling); Trying again (links to the trying-to-conceive After a loss door).

WHY WE NEED IT

What to Expect has "Report a Loss" and loss groups with hundreds of thousands of posts; Flo has a Pregnancy loss group. We have one condition page and a fear read.

WHAT WILL BE DIFFERENT AFTER

A woman in the worst week of her life is met with care, not a baby-size card.

2 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- "We're Sorry for Your Loss. We're here for you. Let us know if you'd like to update your account so that we can provide support during this difficult time. Once you confirm, we'll unsubscribe you from WTE pregnancy and partner emails." CONFIRM (What to Expect)
- Chance of a Repeat Miscarriage (What to Expect)

Mind & mood > Sex and closeness P2

WHAT GOES IN IT

Is sex safe; when doctors say to stop; desire going up or down; comfortable positions; worries about the baby; the relationship changing. Private in tone, hidden by the sensitive-content switch.

WHY WE NEED IT

Flo has a shelf of 11 pieces and relationship videos; What to Expect has several articles and a video. We have one Can I answer and one read.

WHAT WILL BE DIFFERENT AFTER

Couples get a calm answer to a question they rarely ask a doctor.

21 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- Redesigning your sex life (Flo)
- Things to know about sex during pregnancy (Flo)
- Your Questions About Sex During Pregnancy, Answered (What to Expect)
- Your pregnancy sex need to know (Flo)
- 8 Pregnancy Sex Challenges — and How to Fix Them (What to Expect)
- 8 bump-friendly sex positions to try (Flo)
- Having Sex Safely During Pregnancy (What to Expect)
- If you're not in the mood, don't panic (What to Expect)
- Low sex drive in pregnancy explained (Flo)
- Your pregnancy sex Qs answered (Flo)

Work, money and rights P2

WHAT GOES IN IT

A new door. Work: working while pregnant, telling your boss, safety at work. Leave and rights: 26 weeks of maternity leave under the Maternity Benefit Act, rights at work, his paternity leave. Money: what a delivery costs in Indian hospitals, health insurance and maternity cover, government schemes, a baby budget.

WHY WE NEED IT

What to Expect has 11 career and 23 money articles (written for the US); Flo has "The ultimate baby budget guide" course. We have nothing, and Indian answers are very different.

WHAT WILL BE DIFFERENT AFTER

The practical worries of pregnancy have Indian answers.

27 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- Maternity Leave (What to Expect)
- How to Tell Your Boss (What to Expect)
- Paternity and Family Leave in the U.S. (What to Expect)
- Should My Partner Take Parental Leave? (What to Expect)
- Paternity and Family Leave (What to Expect)
- Maternity leave stress and tips to prevent it (Flo)
- How to Get a Job While Pregnant (What to Expect)
- What Pregnancy Really Costs (What to Expect)
- Getting Health Insurance While Pregnant (What to Expect)
- How to Prepare for a Baby Financially (What to Expect)

Your first weeks **P2**

WHAT GOES IN IT

A new door for the first weeks after a positive test. Just found out: what to change today, the first doctor's visit, early worries (spotting, cramps, no symptoms). Telling people: when to announce, telling family and work.

WHY WE NEED IT

Flo's first daily story is "Is It Time? Announcing Your Pregnancy"; What to Expect has "When to Tell People You're Pregnant", early-week videos and first-visit pieces. Our doors assume she is further along.

WHAT WILL BE DIFFERENT AFTER

The first week of the app is as useful as week 20.

15 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- A spotlight on what to expect during your first trimester (Flo)
- Prepare for your first prenatal visit (What to Expect)
- The first weeks of pregnancy: What to expect (Flo)
- What happens at your first prenatal appointment? (Flo)
- Your 1st prenatal checkup: 6 things to know (Flo)
- Your First Prenatal Visit (What to Expect)
- Are your hCG levels normal? (What to Expect)
- Choose the right pregnancy doctor for you (What to Expect)
- Early pregnancy essentials: the lowdown on checkups, symptoms, and more (Flo)
- Get used to the urine test (What to Expect)

Getting ready for baby **P2**

WHAT GOES IN IT

A new door. Baby names (a names list and a way to shortlist together). What to buy (an Indian "need and skip" list linked to our store). Home and help (getting the home ready, planning who helps after the birth and the 40 days).

WHY WE NEED IT

What to Expect has "Prep for baby", a Registry tab and a Baby Names group with over two million posts. We have products but no guidance, and no names in pregnancy.

WHAT WILL BE DIFFERENT AFTER

The nesting months have a home in the app.

24 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- How to Pick a Baby Name (What to Expect)
- Keeping Your Baby's Name Secret (What to Expect)
- How to get your home ready for your baby (Flo)
- Your prenatal checklist in trimester 3 (Flo)
- 11 safety tips for your baby's nursery (Flo)
- 4 tips for nesting (safely) during pregnancy (Flo)
- How to Plan a Baby Shower (What to Expect)
- How to Set Up a Nursery (What to Expect)
- Planning a baby shower? Here's how to get the party started (Flo)
- Prepare Pets For Baby's Arrival (What to Expect)

Labour prep > Feeding and first days **P2**

WHAT GOES IN IT

How breastfeeding starts, colostrum, the first feed, asking for help in hospital, what the first days with a newborn are like, planning the first 40 days.

WHY WE NEED IT

Flo and What to Expect both prepare her for feeding before the birth; we have one expert note.

WHAT WILL BE DIFFERENT AFTER

She is not meeting breastfeeding for the first time at 3 am in a ward.

17 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- [How to Breastfeed: A Guide for New Moms](#) (What to Expect)

Twins and more **P3**

WHAT GOES IN IT

Carrying twins: types of twins, extra scans, weight and food, how twins are delivered, getting ready for two.

WHY WE NEED IT

What to Expect has 27 twin articles and a group with 716K+ posts; our onboarding promises twins and nothing records it.

WHAT WILL BE DIFFERENT AFTER

A mother of twins finds her own pregnancy in the app.

16 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

Home > messages **P1**

WHAT GOES IN IT

A short list of messages the app sends from her dates: new week, scan window, vaccine due, pack the bag, count movements, has the baby arrived. Each opens the page it names; all can be turned off.

WHY WE NEED IT

What to Expect sends a weekly push and newsletters; we send nothing, although onboarding previews a weekly message.

WHAT WILL BE DIFFERENT AFTER

The app speaks first, at the moments that matter.

4 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- "Oh baby! You're in Week 8. Baby's growing about a millimetre a day — and looking more baby-like! Learn..."
(What to Expect)
- "Pregnancy and Parenting Newsletter", "Community Daily Digest Emails", "Deals, Giveaways and Special Offers"
(What to Expect)
- "Report a Birth" (asks the account to create a password first) (What to Expect)
- "Add the What to Expect widget to your home screen" (3 steps) (What to Expect)

Community > Your due month **P2**

WHAT GOES IN IT

Rooms by due month ("February 2027 babies"), matched to her due date, with a pinned welcome and a pinned "When to call your doctor now" card.

WHY WE NEED IT

It is the largest kind of group in What to Expect. Ours is a single fixed "November 2026 Moms" room.

WHAT WILL BE DIFFERENT AFTER

Nobody goes through the pregnancy alone.

1 COMPETITOR PIECES POINT HERE, FOR EXAMPLE

- "Introducing Secret Chats Rules! Please be respectful and kind. And remember, we don't verify posts for medical accuracy." (Flo)

Part 3 · Where we are behind, in detail

One chapter per area where we are behind. Each item shows Flo's exact words and screens, What to Expect's exact words, and ours, side by side, then the gap, exactly what to do, and what will be different. Their words are quoted so they can be copied; we recommend rewriting in our own voice, but nothing here needs guessing.

Trust: who stands behind what she reads

Both apps make it obvious that a real, qualified person checked each piece, and when. Flo names 47 different experts across 393 pregnancy pages; What to Expect names a reviewer and a date on 194 of the 261 articles we opened. We show a reviewer on every pregnancy read too, but no doctor has reviewed them and three of the names exist nowhere else in the app. The same problem sits on the Mind and mood reads, the Community tab and the paid courses. This is the most urgent chapter in the report, because it is not a missing feature: it is a claim that is not true.

The reviewer line on every read **P1** effort: L

FLO, EXACTLY

Every week page and article:

"REVIEWED BY: Dr. Angela Jones, Obstetrician, gynecologist, and attending physician, Jersey Shore University Medical Center, New Jersey, US, 15+ years in obstetrics and gynecology"
Nutrition: "Reviewed by Lauren Talbert, RD, Clinical dietitian and diabetes educator, Women and Infants Hospital, Rhode Island, US, 15+ years in nutrition"

Collections: "Reviewed by Flo Expert Board, 140+ medical and health experts across the world".

PARENTVEDA TODAY, EXACTLY

All 34 pregnancy reads render as reviewed, because the read model defaults to reviewed = true and no pregnancy read sets it to false. Bylines: "Dr. Anita Desai / Obstetrician · 21 years · reviewed September 2026" (17 reads), "ParentVeda editorial / Reviewed by Dr. Anita Desai, Obstetrician · September 2026" (10), "Dr. Meera Krishnan / Radiologist · 17 years · reviewed September 2026" (4), "Dr. Priya Sharma / Paediatrician" (1), "Dr. Meera Nair / Lactation consultant" (1). Desai, Sharma and Nair appear in no roster, booking or doctor record. All 34 Mind and mood reads: "Dr Sharanya Menon · Perinatal psychologist · reviewed Aug 2026"; docs/STILL-OPEN.md says she "exist[s] nowhere".

THE GAP

We show a medical review that has not happened, under names that belong to nobody. If a user, a doctor or a journalist looks one up, the whole app loses its credibility, and in India a false medical endorsement can also be a legal problem.

EXACTLY WHAT TO DO

Step 1 (this week): set reviewed: false on every pregnancy read and every Mind and mood read, so the byline reads "BY ParentVeda team" with no tick and no "reviewed September 2026".

Step 2: recruit real reviewers: an obstetrician, a fetal medicine or radiology doctor for scans, a dietitian, a perinatal psychologist, a lactation consultant, a physiotherapist.

Step 3: review door by door, starting with Complications, Scans & tests and Labour prep. Only then show exactly: "Reviewed by Dr <Full name>, <Qualification>, <Hospital>, <City> · <Month Year>" with the name opening the doctor's profile.

WHAT WILL BE DIFFERENT AFTER

Right now the app stops making a claim it cannot back. After review, every piece carries a real Indian doctor she can look up.

WHAT TO EXPECT, EXACTLY

Under every headline:

"by Catherine Donaldson-Evans

Medically Reviewed by Shannon Smith, M.D. on 21 July, 2025"

"Medically Reviewed by Jennifer Wu, M.D., F.A.C.O.G. on 4 March, 2026". Breastfeeding pieces: "Medically Reviewed by Suzanne Chan, D.N.P., C.L.C., C.P.S.T."

"Verified" experts in the Community tab **P1** effort: S

FLO, EXACTLY

Community groups show "Reviewed by Florence, Community Manager" and the rules message "we don't verify posts for medical accuracy".

PARENTVEDA TODAY, EXACTLY

The Community tab (in the bottom bar) shows a "verified by experts" banner drawn from 24 names such as "Dr. Ananya Rao, OB-GYN", "Dr. Sneha Iyer, DNB, Fetal Medicine", "Dr. Tara Joshi, PsyD". The data file says: "All fictional - placeholder data until real doctor accounts exist."

THE GAP

Fictional doctors marked as verified, in a tab every pregnant user sees.

EXACTLY WHAT TO DO

Hold the whole community back for launch, as we did in trying to conceive (see "Behind · Community"). When it returns, show only real roster experts, and add Flo's honest line: "Posts are from other mothers and are not checked by a doctor."

WHAT WILL BE DIFFERENT AFTER

Nobody is shown a doctor who does not exist.

WHAT TO EXPECT, EXACTLY

No expert badges in groups; posts are by members ("Created by TeamWTE" for official posts).

Claims on paid courses **P1** effort: S

FLO, EXACTLY

Courses play and each video names its teacher ("Prenatal yoga: 1st trimester", nine workouts of 6 to 25 minutes).

PARENTVEDA TODAY, EXACTLY

Learn sells "The Complete Pregnancy Guide" (Dr. Aparna Joshi, ₹2,999, "80+ lessons", "scripted from research and reviewed by obstetricians", seed review "Sneha K. · 28 weeks"), "Birth Prep Essentials" (₹1,499), "Trimester-Safe Fitness" (₹1,299), four masterclasses and four cohorts. No pregnancy lesson video file exists.

THE GAP

A price, a review and a medical claim on a course that cannot be delivered.

EXACTLY WHAT TO DO

Remove the price, the "Buy" button, the seed review and "reviewed by obstetricians" from every course without lessons. Show "Opening soon. Tell me when it opens." and collect interest instead.

WHAT WILL BE DIFFERENT AFTER

She cannot pay for something that does not exist, and we learn which course to make first.

WHAT TO EXPECT, EXACTLY

No paid courses.

Sources at the end **P2** effort: M

FLO, EXACTLY

Every week page ends with "REFERENCES:" (for example "Fetal Development: What Happens during the 2nd Trimester? Mayo Clinic", "Singh, Gurcharan, and G. Archana. Unraveling the Mystery of Vernix Caseosa. Indian Journal of Dermatology").

PARENTVEDA TODAY, EXACTLY

Pregnancy reads carry an evidence line (for example "Pre-Conception and Pre-Natal Diagnostic Techniques Act, 1994, as amended 2003"). The week page has none: "ParentVeda editorial · averages for the week, never a measurement of your baby".

THE GAP

The week page, the most read page, names no source.

EXACTLY WHAT TO DO

Add "Where this comes from" to every week page with 3 to 5 sources, Indian first (FOGSI, ICMR, the Ministry of Health's antenatal guidance), then international (WHO, NICE, ACOG).

WHAT WILL BE DIFFERENT AFTER

Every page shows where its facts come from.

WHAT TO EXPECT, EXACTLY

"See sources." on every week ("What to Expect When You're Expecting, 5th edition, Heidi Murkoff") and a "Medical Disclaimer": "This content is for informational purposes only and should not replace professional medical advice."

The week page

The week page is the heart of a pregnancy app: it is what she opens every week, often every day. Both competitors cover more weeks and say more on each. The surprise is that we already wrote most of what is missing: our week data holds common symptoms, red flags, do this and skip this, a myth buster and a partner corner for every week, but the mother's home stopped showing them on 21 September.

What a week page holds **P1** effort: M

FLO, EXACTLY

"What happens at 20 weeks", reviewer, "How big is a baby at 20 weeks? Length (crown to heel): 25.7 cm or 10.1 in / Weight: 331 g or 11.7 oz / Size: Equivalent to a grapefruit / All measurements are approximate and vary within the normal range." Then headed sections ("Producing antibodies", "Developing lanugo") and REFERENCES. A separate collection "Your changing body: Up to 42 weeks" has one page per week for her body ("24 weeks: Backache & insomnia").

PARENTVEDA TODAY, EXACTLY

"What happens in week 20": LENGTH and WEIGHT tiles, "ABOUT THE SIZE OF a banana", milestone "Halfway There", "What your baby is doing" ("I can hear sounds now, swallow amniotic fluid and move my arms and legs with purpose."), "DID YOU KNOW", "For you this week" (three lines). Hidden but written in weekContent.json: commonSymptoms, reassurance, nutrition, doThisWeek, skipThisWeek, redFlags ("Call your doctor if you have heavy bleeding, severe abdominal pain..."), mythBuster, partnerCorner.

THE GAP

Our page is shorter than either, and the missing half is already written.

EXACTLY WHAT TO DO

Add, in this order, under "For you this week":

1. "Your body this week": physicalChanges, then commonSymptoms as chips that open our symptom pages.
2. "This week": doThisWeek and skipThisWeek as two short lists.
3. "Myth or fact": the mythBuster.
4. "Call your doctor if": redFlags, in the same card style as the door urgent lists.
5. "For your partner": partnerCorner.whatYouCanDo, with a Share button.
6. "Where this comes from" (see Trust).

WHAT WILL BE DIFFERENT AFTER

Every week is as full as What to Expect's, in our own Indian voice, with no new writing for five of the six parts.

WHAT TO EXPECT, EXACTLY

Four parts per week. Your Baby This Week ("20 weeks pregnant is how many months?", "How big is my baby at 20 weeks?"), Body Changes ("Halfway there!", "Your 20 weeks pregnant belly", then every symptom of the week: "Occasional headaches", "Heartburn and indigestion", "Faintness or dizziness", "Leg cramps", "Your innie becoming an outie", "Edema", each with a tip and READ MORE), Baby Science (three short facts), See sources. Plus a week video.

Which weeks exist **P2** effort: S

FLO, EXACTLY

Chips "0 weeks" to "42 weeks" (43 pages). Week 0: "How your pregnancy begins".

PARENTVEDA TODAY, EXACTLY

Weeks 4 to 40 only (37 pages). Before week 4 and after week 40 there is no page.

THE GAP

The first three weeks (when many women first open the app) and the overdue weeks (when they worry most) are blank.

EXACTLY WHAT TO DO

Write one page for weeks 1 to 3: "How your weeks are counted" ("Pregnancy is counted from the first day of your last period, so in the first two weeks you were not yet pregnant.") and weeks 41 and 42: "Past your due date" (what the doctor will offer, counting movements, when to go in today).

WHAT WILL BE DIFFERENT AFTER

Every week she can be in has a page.

WHAT TO EXPECT, EXACTLY

Weeks 1 to 42; weeks 1 and 2 say "has yet to be conceived (No baby yet)".

Questions women ask each week **P2** effort: M

FLO, EXACTLY

Collection "130 pregnancy questions answered": three per week, for example "When should you take a pregnancy test?", "Is it common to have tummy pain when you're 2 weeks pregnant?", "Is it OK to have a baby at 40 weeks?".

PARENTVEDA TODAY, EXACTLY

No questions on the week page.

THE GAP

The questions women type into search each week have no home.

EXACTLY WHAT TO DO

Add "Asked this week": two or three questions with two-line answers per week (the 124 Flo questions are decided one by one in the FAQs tab), and put the month and trimester at the top: "Week 20 · Month 5 · Second trimester".

WHAT WILL BE DIFFERENT AFTER

The page answers what she was about to search.

WHAT TO EXPECT, EXACTLY

Each week opens with "20 weeks pregnant is how many months?".

A picture that changes, and fun sizes **P3** effort: M

FLO, EXACTLY

3D embryo and fetus picture every week, fruit size.

PARENTVEDA TODAY, EXACTLY

37 2D baby figures; three Indian size sets written (Fruit & veg, Kitchen: "cutting-chai glass", "masala dabba", Sweets: "About as heavy as a boondi laddoo") but the switch is off until 111 pictures exist.

THE GAP

Our Indian sets are better than their themes and nobody can see them.

EXACTLY WHAT TO DO

Commission the 111 size pictures and turn the switch on.

WHAT WILL BE DIFFERENT AFTER

A size she recognises from her own kitchen.

WHAT TO EXPECT, EXACTLY

Size themes: Fruits, Twins, Disney Baby Milestones ("*These are conceptual estimates and shouldn't replace measurements provided by your practitioner.").

The home and the daily experience

Our home already follows Flo's shape (day strip, baby, Details) and its daily rail changes with her day. It falls behind on what she sees every morning (a tip that is not about pregnancy), on two large blocks that show films that do not exist, and on what happens at the end of pregnancy.

The daily tip **P1** effort: M

FLO, EXACTLY

"My daily insights" stories, for example "Essentials: Is It Time? Announcing Your Pregnancy" (10 slides): "Many wait until 12-week mark to share the news!", "There is no official 'right time' to announce a pregnancy."

PARENTVEDA TODAY, EXACTLY

A once-a-day pop-up "Today's tip / WEEK n · DAY d" showing the day's grow.remember line from the parenting reflections, for example "Offer the warmth; let the flower choose its hour.", button "Noted".

THE GAP

The title promises a tip; the text is a parenting thought.

EXACTLY WHAT TO DO

Write 7 tips a week for weeks 4 to 40 (259), drawn from our own weekContent fields (doThisWeek, selfCareTip, nutrition.tip, mythBuster). Example for week 20: "Book your anomaly scan if it is not booked yet. It is usually done between 18 and 22 weeks."

WHAT WILL BE DIFFERENT AFTER

Every morning she learns one useful thing for this week.

WHAT TO EXPECT, EXACTLY

"Today's tip" every day (a carousel of seven for past weeks): "Plump up your pillows", "Do some hand stretches", "Ask about yeast infections", "Indulge in healthy cravings"; tomorrow's is locked: "See your new daily tip by coming back tomorrow to unlock it."

Size and time left **P2** effort: S

FLO, EXACTLY

Hero: "20 weeks, 5 days" with an (i) that opens "Pregnancy weeks explained".

PARENTVEDA TODAY, EXACTLY

"Week 20 / Day 1" and the figure. The size line on the hero is commented out.

THE GAP

She has to open the week page to see the size or the time left.

EXACTLY WHAT TO DO

Under the week line: "About the size of a banana · 20 weeks to go". An (i) after the week opens "How your weeks are counted".

WHAT WILL BE DIFFERENT AFTER

The two things she checks daily are on the first screen.

WHAT TO EXPECT, EXACTLY

"Your baby is as big as a sweet potato / 6.5 in / 10 oz / 20 Wks to go!"

Film blocks with no films **P1** effort: S

FLO, EXACTLY

Videos appear only where they exist.

PARENTVEDA TODAY, EXACTLY

"This Week Explained" (full-width poster "WEEK n FILM · ARRIVING") and "Watch These Videos This Week" (three posters). None of the 16 pregnancy videos has a file.

THE GAP

Two of the largest headings on the home lead nowhere.

EXACTLY WHAT TO DO

Comment both blocks out (kept for revert). Put the week's two reads as cards in their place until the weekly films exist.

WHAT WILL BE DIFFERENT AFTER

Nothing on the home is empty.

WHAT TO EXPECT, EXACTLY

"This Week's Videos": "Your Pregnancy Week 20", "Can My Partner Have Pregnancy Symptoms?", "Let's Talk About Gestational Diabetes", all playable.

The end of pregnancy **P2** effort: S

FLO, EXACTLY

After the due date: "Log the first day of your last period to make better predictions" with a "Log period" button. No birth hand-off.

PARENTVEDA TODAY, EXACTLY

"Baby has arrived" in You ("Adds your baby and opens the parenting home. Nothing from pregnancy is deleted."). The week range stops at 40; nothing on the home.

THE GAP

We have the best hand-off of the three but she has to find it.

EXACTLY WHAT TO DO

From week 37 add a card on the home: "Has your baby arrived? [Yes, tell ParentVeda] [Not yet]". After 40 weeks keep counting ("40 weeks and 3 days") and show "Past your due date: what happens now".

WHAT WILL BE DIFFERENT AFTER

The move to the parenting home happens at the right moment.

WHAT TO EXPECT, EXACTLY

More options: "Report a Birth" (asks for a password first) and "Report a Loss".

Upcoming tests on the home **P2** effort: S

FLO, EXACTLY

None.

PARENTVEDA TODAY, EXACTLY

A "Coming up" card only when she has booked an appointment within 14 days.

THE GAP

If she has not booked, the home says nothing about the scan window she is in.

EXACTLY WHAT TO DO

When no appointment is booked, show the usual scan for her week from our scan timeline: "The anomaly scan is usually done between 18 and 22 weeks. [Add my date]".

WHAT WILL BE DIFFERENT AFTER

She is reminded of the scan window without having to know it.

WHAT TO EXPECT, EXACTLY

"Upcoming Tests & Screenings": "Level 2 Ultrasound / Glucose Screening / Nonstress Test" (on 29 September the same week showed "Biophysical Profile / Group B Strep").

An app that speaks first

In pregnancy the app never starts a conversation. There is no messages inbox and no message computed from her dates, although our own onboarding previews one. The dates of pregnancy are fixed and known, which makes this the easiest caring feature to build.

A weekly message **P1** effort: S

FLO, EXACTLY

Daily insight stories for today; partner notifications ("Notifications at key moments: He'll know when it's time to offer more support.").

PARENTVEDA TODAY, EXACTLY

Onboarding "How should we reach you?" previews "ParentVeda · now / Week N starts tomorrow, here's what to expect." Nothing in the code schedules it.

THE GAP

We ask for permission with a message we never send.

EXACTLY WHAT TO DO

Schedule a local notification the morning each week starts: "Week 21 starts today. Your baby can hear your voice now. [See your week]". One a week, off in Reminders.

WHAT WILL BE DIFFERENT AFTER

Once a week the app brings her back to the page that matters.

WHAT TO EXPECT, EXACTLY

Notification priming shows: "Oh baby! You're in Week 8. Baby's growing about a millimetre a day, and looking more baby-like! Learn...". Email newsletters: "Pregnancy and Parenting Newsletter".

Messages at the moments that matter **P1** effort: M

FLO, EXACTLY

None for pregnancy (Reminders has only cycle and lifestyle reminders).

PARENTVEDA TODAY, EXACTLY

Only the reminders she creates herself and medicine alarms.

THE GAP

Scan windows, vaccines, the bag and movements depend on her remembering.

EXACTLY WHAT TO DO

Add five computed messages, each off-able and each opening its page:

- 11 weeks: "The NT scan is usually done between 11 and 13 weeks. Ask your doctor if it is right for you."
- 18 weeks: "The anomaly scan window opens this week (18 to 22 weeks)."
- 27 weeks: "Your doctor may offer the Tdap vaccine from now. Ask at your next visit."
- 28 weeks: "From now, get to know your baby's movements. If they slow down, call the same day."
- 34 weeks: "A good week to pack the hospital bag. [Open my bag]"

WHAT WILL BE DIFFERENT AFTER

The app remembers the calendar of pregnancy for her.

WHAT TO EXPECT, EXACTLY

Upcoming tests list on the home; the daily tip.

An inbox **P2** effort: S

FLO, EXACTLY

A Notifications page in Insights ("Introducing Secret Chats Rules!").

PARENTVEDA TODAY, EXACTLY

A messages inbox exists only in trying to conceive (TtcMessagesStore).

THE GAP

Messages she misses are gone.

EXACTLY WHAT TO DO

Reuse the trying-to-conceive inbox for pregnancy, so every computed message is also kept there.

WHAT WILL BE DIFFERENT AFTER

One ParentVeda: the same inbox in both stages.

WHAT TO EXPECT, EXACTLY

Email preferences with four newsletters.

The birth itself

The Labour prep door has good tools (a contraction timer with a safety check, a hospital bag, a birth plan) but almost nothing to read. Of its 15 tiles, 6 are coming soon, and the only real read about the birth is about pain relief. Both competitors cover the birth in depth. More competitor pieces point to "Labour prep > Signs and stages" than to any other place outside the week pages.

Signs that labour has started, and when to go in **P1** effort: M

FLO, EXACTLY

"Symptoms that indicate labor's about to begin" ("the uterine fundus lowers, so breathing becomes easier. Irregular contractions..."), "Birth: When's it time to go to the hospital?" ("In most cases, pregnancy and labor are not emergencies..."), "An expert's guide to the mucus plug".

WHAT TO EXPECT, EXACTLY

"10 Signs of Labor" with KEY TAKEAWAYS ("Labor doesn't usually start all at once... When contractions become stronger, longer, and more regular, especially paired with symptoms like a bloody show or water breaking, you're likely in early or active labor."), contents: "Signs labor is a few weeks or days away / Signs of early labor / Signs of active labor / Signs of preterm labor / Am I going into labor? Should I call the doctor?"

PARENTVEDA TODAY, EXACTLY

Nothing. The contraction timer has a safety check and "We can't tell you if it's labour, but your doctor can"; the urgent lists cover leaking fluid.

THE GAP

The most important question of the last month has no read.

EXACTLY WHAT TO DO

Write "Is this labour? The signs, and when to go in" for Indian hospitals: signs days away (the baby drops, the mucus plug, loose stools), signs of labour (regular tightenings, waters), "Go in now" list (waters with green or brown fluid, bleeding, less movement, constant pain), "Call first" for everything else, what to carry in her hand (file, reports, ID). Link the contraction timer.

WHAT WILL BE DIFFERENT AFTER

She knows when to leave home, and why.

The stages of labour **P1** effort: M

FLO, EXACTLY

Video collection "Labor stages": "Vaginal labor: First stage" (1:39), "Second stage" (1:01), "Third stage" (1:04). "How to make labor smooth" (16 items).

WHAT TO EXPECT, EXACTLY

"Childbirth Stage One: The Three Phases of Labor", "How to Push During Labor", "Delivering the Placenta", "Labor Positions", "Giving Birth by Vaginal Delivery".

PARENTVEDA TODAY, EXACTLY

The weekly read "Labour, step by step" exists but is not on the Labour door; "Labour, start to finish" (video, 12 min) and "What labour is actually like, and your options" are coming soon.

THE GAP

The one read we have is not where she looks for it.

EXACTLY WHAT TO DO

Put "Labour, step by step" on the Labour door today. Then write the coming-soon read, and one short read each on pushing, the placenta and labour positions, with a drawing for each position.

WHAT WILL BE DIFFERENT AFTER

The door explains the day from the first tightening to holding the baby.

C-section **P1** effort: M

FLO, EXACTLY

"The step by step of a C-section", "12 reasons for a C-section",
"Choosing a C-section? Read this".

PARENTVEDA TODAY, EXACTLY

"If it becomes a C-section" (Read 6 MIN, coming soon).

THE GAP

C-section rates are high in Indian private hospitals, and we have nothing ready.

EXACTLY WHAT TO DO

Write "If it becomes a C-section" first: why it happens (planned and emergency), what happens in theatre, spinal anaesthesia, seeing the baby, the first days, and a calm line that it is a birth, not a failure. Then "Birth after a C-section".

WHAT WILL BE DIFFERENT AFTER

A C-section is not a shock she met for the first time on the table.

WHAT TO EXPECT, EXACTLY

"Delivering by C-Section" ("What is a C-section? / What are the reasons for a C-section? / What happens during a C-section? / Can I have an elective C-section? / How long do you stay in the hospital after a C-section?"), "Vaginal Birth After Cesarean (VBAC)", "Things They Don't Tell You About a C-Section".

Induction and going past the due date **P1** effort: S

FLO, EXACTLY

"Labor induction 101"; week questions "Is it OK to have a baby at 40 weeks?" and five each for weeks 41 and 42.

PARENTVEDA TODAY, EXACTLY

Nothing; the week pages stop at 40.

THE GAP

Induction is common in India and we never mention it.

EXACTLY WHAT TO DO

Write "Induction: why, how and what it feels like" and "Past your due date", both ending with the doctor's plan being the one to follow.

WHAT WILL BE DIFFERENT AFTER

She is not frightened when her doctor says "we will induce".

WHAT TO EXPECT, EXACTLY

"Inducing Labor: What Happens When You're Induced?" ("Why might your doctor induce labor? / How will your practitioner induce labor? / Does labor induction have risks? / Is it safe to try to induce labor yourself?").

Tears, stitches and the first hour **P2** effort: S

FLO, EXACTLY

"14 vaginal birth fears tackled"; "The first hour after birth" in their postpartum shelf.

PARENTVEDA TODAY, EXACTLY

"The first hour after birth" (coming soon). Journey titles kept only in data: "Will I tear, and what actually helps".

THE GAP

Two of the most common fears have no answer.

EXACTLY WHAT TO DO

Write "Will I tear, and what helps" (perineal massage from 34 weeks, what an episiotomy is, stitches) and finish "The first hour after birth" (skin to skin, the first feed, the golden hour).

WHAT WILL BE DIFFERENT AFTER

Two big fears get honest, calm answers.

WHAT TO EXPECT, EXACTLY

"Episiotomy During Labor and Delivery", "What Is Perineal Massage?" (video), "Skin-to-Skin Contact".

Videos, audio and courses

This is the widest gap in numbers. What to Expect has 153 short weekly videos; Flo has 117 videos including whole courses. Not one of our 16 pregnancy videos has a file, 18 door tiles are films or audio marked coming soon, and our paid courses list lessons that do not exist. Our only real media is the Garbh Sanskar audio, which is good.

A video for every week **P1** effort: L

FLO, EXACTLY

Week pages have pictures but no video.

WHAT TO EXPECT, EXACTLY

"Your Pregnancy Week 1" (1:23) to "Your Pregnancy Week 42", plus "How Big is Your Baby? Week N" (about 1 minute) and "How Big Are 20-Week Bumps?" (about 45 seconds). The player shows a written description ("Welcome to week 20, which marks the halfway point of pregnancy.").

PARENTVEDA TODAY, EXACTLY

"This Week Explained" shows "WEEK n FILM · ARRIVING" every week.

THE GAP

The home's second-largest block is empty all 37 weeks.

EXACTLY WHAT TO DO

Make 37 one-minute films without filming people: the week's figure and size, a warm Indian voice reading three lines from our week data, captions on. Put them on the home block and the week page.

WHAT WILL BE DIFFERENT AFTER

Every week has something to watch, and the empty block is gone.

Exercise and yoga videos **P2** effort: L

FLO, EXACTLY

"Prenatal yoga: 1st trimester" (9 workouts, for example "Workout 3. Spine health, balance, and posture" 25:34), "2nd trimester" (7), "3rd trimester" (4, "Relaxation and stretching in a side-lying position" 11:03).

PARENTVEDA TODAY, EXACTLY

22 month-by-month yoga sessions listed in Prepare and a class catalogue; no pregnancy video plays.

THE GAP

She is told to stay active and shown nothing to follow.

EXACTLY WHAT TO DO

Record 12 short sessions first (four per trimester, 10 to 15 minutes, a physiotherapist checks each), plus a 2-minute "How to do a kegel" for Kegel Care.

WHAT WILL BE DIFFERENT AFTER

Safe movement she can follow at home.

WHAT TO EXPECT, EXACTLY

"How to Exercise Safely" (1:11), "Prenatal Strength Circuit" (10:19), "How to Do Kegels" (1:46), "Prep Your Body for Birth With These Third Trimester Moves".

Calm audio and meditation **P2** effort: M

FLO, EXACTLY

"Mindful pregnancy through meditation": 8 sessions ("Introducing the course" 2:34, "Breathing" 5:35, "Relaxation" 7:10 ... "Love" 17:14). "Stress and anxiety: Reclaim control": 5 videos.

PARENTVEDA TODAY, EXACTLY

Mind and mood: "Calming audio" (Rain, Om chant, Soft instrumental, Humming) and five meditation videos are coming soon; three guided breathing videos coming soon. Garbh Sanskar has ten real audio tracks.

THE GAP

The calmest door is full of tiles that do not play.

EXACTLY WHAT TO DO

Record the four calming tracks and three guided breaths as audio first (we already host Garbh audio), then two meditations ("Releasing birth fear", "Falling asleep"). Comment out the rest until made.

WHAT WILL BE DIFFERENT AFTER

Every tile in the door plays.

WHAT TO EXPECT, EXACTLY

No meditation.

Short symptom videos **P3** effort: M

FLO, EXACTLY

"Symptoms: 1st trimester" (12 videos: "Morning sickness: The whys and the ways to manage it" 4:16, "Heartburn" 2:48...), "2nd trimester" (11), "3rd trimester" (6).

PARENTVEDA TODAY, EXACTLY

Symptom pages are text only.

THE GAP

The most common problems have no quick visual answer.

EXACTLY WHAT TO DO

Film five one-minute videos (nausea, heartburn, back pain, leg cramps, sleeping on your side) and add them to the symptom pages.

WHAT WILL BE DIFFERENT AFTER

Help in a minute for the five things that bother her most.

WHAT TO EXPECT, EXACTLY

"3 Easy Ways to Relieve Pregnancy Constipation" (0:37), "Back Pain During Pregnancy" (1:00), "How to Help Itchy Skin".

Topics we do not cover

Whole topics where both competitors are busy and we have nothing or one line. Each needs a place (see New sections) and a first few reads. The pieces that should fill them are listed one by one in "What to add, by section".

Sex in pregnancy **P2** effort: M

FLO, EXACTLY

Shelf "Pregnancy sex and pleasure": "Your pregnancy sex need to know" ("In most cases, it's totally safe to engage in intercourse until the end of your last trimester... the fetus is well-protected by amniotic fluid"), "8 bump-friendly sex positions", "Can sex start labor?", "Pregnancy sex: What men think".

PARENTVEDA TODAY, EXACTLY

One Can I answer ("Sex During Pregnancy", safe) and the Mind and mood read "Relationship and intimacy changes".

THE GAP

A question most couples have and few ask a doctor.

EXACTLY WHAT TO DO

Add Mind & mood › Sex and closeness with four reads: "Is sex safe in pregnancy?" (when doctors say stop: bleeding, low-lying placenta, leaking fluid, a history of early labour), "When desire changes", "Comfortable ways as the bump grows" (no explicit pictures), "If he is afraid of hurting the baby". Hide behind the sensitive-content switch.

WHAT WILL BE DIFFERENT AFTER

Couples get a calm, private answer.

WHAT TO EXPECT, EXACTLY

"Your Questions About Sex During Pregnancy, Answered" ("Is sex safe during pregnancy? / When is sex during pregnancy not safe? / Can sex during pregnancy hurt my baby? / Is bleeding after sex normal during pregnancy?"), "8 Pregnancy Sex Challenges, and How to Fix Them".

Exercise and movement **P1** effort: M

FLO, EXACTLY

"Pregnant and fit: Here's how" ("Pregnancy is definitely not a reason to stop doing exercise... but your fitness routine might need a quick safety check."): "How to pregnancy-proof your workout", "The benefits of swimming during pregnancy", "Why this is the perfect time to walk more".

PARENTVEDA TODAY, EXACTLY

Twelve Can I answers (Yoga, Walking, Swimming...). The "Yoga & fitness" tile has no door; no exercise read.

THE GAP

"Is it safe to exercise?" is answered only one activity at a time.

EXACTLY WHAT TO DO

Build Move & rest: "Staying active, trimester by trimester", "Signs to stop and call", "Walking, the best exercise most women already do", "Yoga: what to skip", and link Kegel Care.

WHAT WILL BE DIFFERENT AFTER

Movement has a door like everything else.

WHAT TO EXPECT, EXACTLY

"How to Exercise Safely" ("The best exercises for pregnancy and why you should do them. Plus, the exercise you should avoid.").

Work, leave and money in India **P2** effort: M

FLO, EXACTLY

Course "The ultimate baby budget guide" ("Preparing financially for starting a family" 6:18, "The nine-month countdown" 7:38).

PARENTVEDA TODAY, EXACTLY

Nothing. Only the read "What scans cost in India".

THE GAP

Their answers are American; ours do not exist.

EXACTLY WHAT TO DO

Write for India: "Maternity leave: your 26 weeks" (Maternity Benefit Act, who is covered, when to apply), "Telling your boss", "Safe at work", "What a delivery costs" (government, private, normal and C-section ranges), "Does my insurance cover the birth?", "His paternity leave".

WHAT WILL BE DIFFERENT AFTER

The practical worries have Indian answers.

WHAT TO EXPECT, EXACTLY

"Maternity Leave" ("Unpaid leave with the Family and Medical Leave Act (FMLA) / State laws for maternity leave"), "Working While Pregnant" ("What are your workplace rights when you're pregnant?"), "How to Tell Your Boss", "What Pregnancy Really Costs" ("Health insurance for pregnancy 101").

The first weeks **P2** effort: S

FLO, EXACTLY

"Your 1st prenatal checkup: 6 things to know" ("1. Schedule it as soon as you know you're pregnant"), "Is It Time? Announcing Your Pregnancy", "The first weeks of pregnancy: What to expect".

PARENTVEDA TODAY, EXACTLY

Our weekly reads start with "Managing morning sickness" and "Your first scan, explained"; no first-visit read.

THE GAP

The first week she uses the app is thin.

EXACTLY WHAT TO DO

Add Your first weeks: "Your first visit to the doctor in India" (what is checked, what to carry, questions to ask), "What to change today, and what can wait", "Spotting and cramps early on: when to call", "When to tell people".

WHAT WILL BE DIFFERENT AFTER

Day one of the app is as useful as week 20.

WHAT TO EXPECT, EXACTLY

"Your First Prenatal Visit" (video, 1:41), "When to Tell People You're Pregnant", "Early Signs of Pregnancy", "Spotting Early in Pregnancy".

Vaccines in pregnancy **P1** effort: S

FLO, EXACTLY

"Vaccines during pregnancy" in "Checkups: When, how, and why".

PARENTVEDA TODAY, EXACTLY

One Can I answer "Vaccines (TT / Flu / COVID)"; no vaccine on the scan timeline or journey map.

THE GAP

A routine part of Indian antenatal care is missing.

EXACTLY WHAT TO DO

Write "Vaccines in pregnancy" (Td or Tdap as per the Indian schedule, flu, what is not given) and add the vaccine to the scan timeline as "Ask your doctor", never as a date we set.

WHAT WILL BE DIFFERENT AFTER

She is ready when the injection is offered.

WHAT TO EXPECT, EXACTLY

"Help Me, Heidi! Are the Flu and Tdap Vaccines Really Safe During Pregnancy?", "Get the COVID-19 vaccine" (daily tip), "Vaccines You Should Get During Pregnancy" (video).

Getting ready for the baby P2 effort: M

FLO, EXACTLY

"Newborn prep" (8 items), "Planning a baby shower? Here's how to get the party started".

PARENTVEDA TODAY, EXACTLY

Products, a Product Checklist and a hospital bag; no guidance, no names.

THE GAP

Nesting has no place, and neither do names.

EXACTLY WHAT TO DO

Add Getting ready for baby: an Indian "what you need, what you can skip" list, "Getting the home ready", "Planning help for the first 40 days", "Godh bhara: the shower, and when", and Baby names (bring the parenting stage's name finder into pregnancy).

WHAT WILL BE DIFFERENT AFTER

The nesting months are part of the app.

WHAT TO EXPECT, EXACTLY

Prep for Baby: "Baby Gear Must-Haves", "Babyproofing the House", "Choosing a Safe Crib"; Baby Names group (2M+ posts).

When a pregnancy ends

This is the second most urgent chapter. If her pregnancy ends, nothing in the app can be told, and it keeps showing her baby growing week by week. Our family profile deliberately refuses to store a miscarriage ("would have the app addressing a pregnant woman about a pregnancy that ended") but offers nothing in its place.

Telling the app **P1** effort: M

FLO, EXACTLY

No flow; the Pregnancy Mode screen has "REMOVE PREGNANCY INFORMATION".

WHAT TO EXPECT, EXACTLY

More options > "Report a Loss": "We're Sorry for Your Loss. We're here for you. Let us know if you'd like to update your account so that we can provide support during this difficult time. Once you confirm, we'll unsubscribe you from WTE pregnancy and partner emails." CONFIRM.

PARENTVEDA TODAY, EXACTLY

Nothing. Her only route is switching the chapter to Trying to conceive in You.

THE GAP

The app keeps showing a baby's size to a woman who has lost her baby.

EXACTLY WHAT TO DO

In You > Details add a quiet row "If your pregnancy has ended". It opens one screen:

"We are so sorry.

You do not have to explain anything. When you are ready, we will stop showing your weeks and your baby, and your partner's app will stop too.

[Stop my pregnancy weeks] [Not now]"

After confirming: week content, messages and the partner's week stop; the journal and bump photos stay, untouched; the home shows the After a loss section.

WHAT WILL BE DIFFERENT AFTER

Her phone stops hurting her.

Support after a loss **P1** effort: M

FLO, EXACTLY

Secret Chats group "Pregnancy loss": "If you've experienced pregnancy loss, please know you aren't alone" with "⚠️ Sensitive Topics: This group may contain stories about pregnancy loss that some users may find triggering."

WHAT TO EXPECT, EXACTLY

Groups: "Miscarriage Support" (446K+ posts), "Pregnancy After Loss", "Grief & Loss"; video "Chance of a Repeat Miscarriage" (2:22, "if you've already suffered a pregnancy loss, it's even harder not to worry").

PARENTVEDA TODAY, EXACTLY

One condition page "Miscarriage / pregnancy loss" and the Mind and mood read "Fear of miscarriage". The trying-to-conceive stage has an After a loss door.

THE GAP

Nothing for the days and weeks after.

EXACTLY WHAT TO DO

Add After a loss (pregnancy): Your body (bleeding, recovery, when to call), Understand (miscarriage, ectopic, stillbirth, ending a pregnancy for medical reasons), Support (grief, his grief, telling family, counselling and the helplines), Trying again (links to the TTC After a loss door). Reviewed by a doctor and a counsellor before it ships.

WHAT WILL BE DIFFERENT AFTER

She is cared for, and has a path back when she is ready.

Pregnancy after a loss P2 effort: S

FLO, EXACTLY

"Pregnancy loss" group posts such as "Pregnancy number 8. Please, please baby stay this time".

PARENTVEDA TODAY, EXACTLY

Nothing; onboarding asks nothing about a previous loss.

THE GAP

A woman pregnant again after a loss meets the same cheerful tone as everyone else.

EXACTLY WHAT TO DO

Offer an optional "I have had a loss before" in her details; when set, soften the early weeks (no countdowns, gentler week headlines until 13 weeks) and show "Pregnant again after a loss".

WHAT WILL BE DIFFERENT AFTER

The app is gentle with the women who need it most.

WHAT TO EXPECT, EXACTLY

"TTC/ Pregnancy After a Loss" group (610K+ posts).

Community

Both competitors have large, real communities. Ours ships as a main tab but is a prototype: seeded rooms, seeded posts, fictional experts, and her own posts are seen by nobody. In trying to conceive we held community back for launch; pregnancy should do the same, then open properly.

What she sees today **P1** effort: S

FLO, EXACTLY

Secret Chats: Popular / My posts / Following / My comments, trimester groups, polls such as "What was your very first sign of pregnancy?" (7.3K votes).

PARENTVEDA TODAY, EXACTLY

"ParentVeda Community ... prototype. A personalized parenting social layer over seeded data": 12 rooms with fixed member counts ("November 2026 Moms" 1,284; "First Time Moms" 12,400), 50 seed posts, 24 fictional "verified" experts. Her posts are backed up to her account only; nobody else sees them.

THE GAP

The tab looks alive but is not; it shows made-up people and numbers.

EXACTLY WHAT TO DO

Hold it back now: comment out the tab and its entry points (kept for revert), as in trying to conceive. Put Learn or You in its place in the bar.

WHAT WILL BE DIFFERENT AFTER

Nothing untrue on screen.

WHAT TO EXPECT, EXACTLY

Groups by category; "February 2027 Babies" (64K+ posts, 116K+ members), "What to Expect General Pregnancy" (243K+ posts, 4M+ members).

Rooms by due month **P2** effort: L

FLO, EXACTLY

Trimester groups ("In your 2nd trimester? Find support from other Flo members at the same stage here").

PARENTVEDA TODAY, EXACTLY

One fixed room "November 2026 Moms" that every pregnancy user joins whatever her due date.

THE GAP

The room she is put in is usually the wrong month.

EXACTLY WHAT TO DO

When real posting exists: "<Month Year> babies" rooms from her due date, a pinned welcome ("Welcome, February 2027 babies. Be kind, share freely, and for anything urgent call your doctor, not the room."), and a pinned "When to call your doctor now" card.

WHAT WILL BE DIFFERENT AFTER

She meets women due the same month.

WHAT TO EXPECT, EXACTLY

"Birth Month" category: "July 2027 Babies" (30 posts) to "November 2026 Babies" (113K+ posts), each with a pinned "Welcome, February 2027 members!" from TeamWTE.

Safety in rooms **P1** effort: M

FLO, EXACTLY

"Introducing Secret Chats Rules! Please be respectful and kind. And remember, we don't verify posts for medical accuracy."; the loss group has a sensitive-topic warning.

PARENTVEDA TODAY, EXACTLY

No rules screen; no handling of urgent posts.

THE GAP

Urgent medical questions get answered by strangers.

EXACTLY WHAT TO DO

Before opening: house rules; a word check that answers posts about bleeding, less movement, very high blood pressure or leaking with our urgent card before anyone replies; a "sensitive topic" label for loss posts; named human moderators.

WHAT WILL BE DIFFERENT AFTER

The community is safe to open.

WHAT TO EXPECT, EXACTLY

Posts such as "Brown Spotting/clot at about 3wks", "170/100 blood pressure", "Fetal heart rate concerns" answered by members.

Partner

We are ahead of Flo here (its partner tab in pregnancy mode still pitches trying to conceive: "Share the journey to pregnancy"). What to Expect has more written for partners. Our father's side is rich but carries fake content.

His journal **P1** effort: S

FLO, EXACTLY

No partner journal.

PARENTVEDA TODAY, EXACTLY

The father's Today tab pre-fills his journal with two entries he never wrote: "Yesterday · Felt the first kick against my palm tonight. I actually teared up." and "Tuesday · Told her the nursery can wait - we just need each other right now."

THE GAP

Words he did not write, presented as his.

EXACTLY WHAT TO DO

Comment out the two seed entries (kept for revert) and show: "Write the first line. She will not see it unless you share it."

WHAT WILL BE DIFFERENT AFTER

His journal is his.

WHAT TO EXPECT, EXACTLY

No partner journal.

His week **P2** effort: S

FLO, EXACTLY

Partner FAQ: "If you're pregnant: Your partner will receive regular updates and tailored daily insights about changes happening to your body, symptoms that are commonly experienced, and important milestones."

PARENTVEDA TODAY, EXACTLY

His Journey tab shows the week stack with partnerCorner ("whatYouCanDo", "oneMission", "shareMessage"); his Today has "Daily tip for Dad" and ten tasks ("Rub her lower back for five minutes, no phone, no agenda.").

THE GAP

Good content, but none of it reaches her side, and the labour part is missing.

EXACTLY WHAT TO DO

Show "For your partner" on her week page with a Share button, and write the coming-soon "What your partner should actually do" (during labour: timing, the bag, speaking up for her, the first hour).

WHAT WILL BE DIFFERENT AFTER

He knows his job each week and on the day.

WHAT TO EXPECT, EXACTLY

"Week by Week Pregnancy Advice for Expecting Dads and Partners" ("First trimester advice for partners / Second trimester... / Third trimester..."), "Things Every Partner Should Do for a Mom-To-Be", "Surprising Pregnancy Symptoms, for Partners!".

What he sees, said plainly **P3** effort: S

FLO, EXACTLY

"Can my partner edit my data, or see my symptoms and personal notes?" ... "Your partner also won't see any symptoms you log in Flo, like sexual activity, sex drive, or mood."

PARENTVEDA TODAY, EXACTLY

Partner screen: he sees "Your week, and what is happening this week", "Scans and appointments on the calendar"; never "Your symptoms and weight", "Your journal", "Your records". One switch "Share my week and calendar".

THE GAP

Ours is clearer; one reassurance is missing.

EXACTLY WHAT TO DO

Add under the switch: "You can stop sharing or unpair at any time. He is told only that sharing stopped."

WHAT WILL BE DIFFERENT AFTER

She pairs without worry.

WHAT TO EXPECT, EXACTLY

No partner pairing.

First-time setup and her details

Our setup is already better than both in two ways: no account until the end, and four ways to date the pregnancy with a clinic's date never recalculated. What to Expect demands an email and three consents before any content. The gaps are small but visible.

The first screen **P1** effort: S

FLO, EXACTLY

Flo's onboarding (seen in the trying-to-conceive walk) says "Join over 53 million people who used Flo", a real number.

PARENTVEDA TODAY, EXACTLY

Pill "Loved by 50,000+ parents" (a placeholder).

THE GAP

A made-up number on the first screen.

EXACTLY WHAT TO DO

Remove the pill; keep "For the whole journey, trying, expecting, raising."

WHAT WILL BE DIFFERENT AFTER

Nothing untrue on the first screen.

WHAT TO EXPECT, EXACTLY

"Welcome! Choose your stage so we can personalize your app experience."

Twins **P2** effort: S

FLO, EXACTLY

"Number of children: 1 / 2 or more" in Pregnancy Mode.

PARENTVEDA TODAY, EXACTLY

"Expecting twins or more? You can say so later." Nothing records twins anywhere.

THE GAP

A promise with no destination.

EXACTLY WHAT TO DO

Add "Twins or more" to her details and the reveal screen. When set: week pages say "your babies", sizes show two, the Twins and more section leads.

WHAT WILL BE DIFFERENT AFTER

A mother of twins sees her pregnancy.

WHAT TO EXPECT, EXACTLY

Pregnancy Details: "I'm Having Twins"; size theme "Twins"; 27 twin articles.

Changing the due date **P1** effort: S

FLO, EXACTLY

Settings > Pregnancy settings > "Pregnancy Mode": Gestational age Weeks and Day, Due date.

PARENTVEDA TODAY, EXACTLY

You > Details > "Due date" ("A date from a scan or your doctor is theirs, we never recalculate it.") opens "Personalise ParentVeda", which has no due-date field. The only way is Tools > Due Date.

THE GAP

After the dating scan, the obvious place to fix the date does not work.

EXACTLY WHAT TO DO

Make the Due date row open the date editor with "Scan date" first. After saving: "Updated. Your weeks now follow your scan."

WHAT WILL BE DIFFERENT AFTER

Five seconds to set the clinic's date.

WHAT TO EXPECT, EXACTLY

More options > "Update Due Date" > Pregnancy Details: Due Date, "Re-Calculate Due Date".

Consent and permissions **P3** effort: S

FLO, EXACTLY

Account optional.

PARENTVEDA TODAY, EXACTLY

Privacy screen early ("Nobody outside your home sees it. Not an advertiser, not an employer, not an insurer."); "Both optional. Neither is marketing."

THE GAP

We are ahead; do not copy their nag.

EXACTLY WHAT TO DO

Keep ours. Only change: preview a reminder we really send (see Messages).

WHAT WILL BE DIFFERENT AFTER

Trust from the first minute.

WHAT TO EXPECT, EXACTLY

"One More Step": "I agree to What to Expect processing my health information" (required), two marketing boxes (unticked); a privacy pop-up ("I Consent / Do Not Consent / More Options"); if notifications are denied: "Are You Sure You Want to Opt Out of Reminders? The app may not work properly..."

Tools and tracking

We are clearly ahead on tools: What to Expect has no contraction timer, kick counter, hospital bag, birth plan or appointments tool (its "Baby Kicks" is a note), and Flo has no pregnancy tools at all. The gaps below are about fitting our tools to Indian women and to what they log, and about a tool list that has grown messy.

Weight gain ranges **P1** effort: S

FLO, EXACTLY

No pregnancy weight tool (a generic weight graph).

WHAT TO EXPECT, EXACTLY

"Weight": one number, "0.0 lb" (pounds by default in India), and "How Much Weight You Should Gain?".

PARENTVEDA TODAY, EXACTLY

Weight Tracker ranges: BMI under 18.5 → 12.5 to 18 kg; under 25 → 11.5 to 16 kg; under 30 → 7 to 11.5 kg (US Institute of Medicine cut-offs). Our own trying-to-conceive weight read uses the lower Asian cut-offs.

THE GAP

An Indian woman at BMI 24 is told she is in the normal band when Asian guidance would call it overweight; the app contradicts itself.

EXACTLY WHAT TO DO

Use the Asian BMI cut-offs (normal 18.5 to 22.9, overweight from 23) for the ranges, keep "Your doctor may recommend something different", and write "How much weight is right for me?".

WHAT WILL BE DIFFERENT AFTER

The range fits her body and matches our other stage.

Symptoms she can log **P2** effort: M

FLO, EXACTLY

Log sheet still the cycle logger: "Today / Cycle day 5".

WHAT TO EXPECT, EXACTLY

Symptom journal: 65 symptoms in 17 groups, including "Lightning crotch", "Sciatica", "Leaky breasts", "Blurry vision", "Excess saliva", "Red palms and feet", "Clumsiness", "Libido changes", "Spotting or bleeding", "Vaginal discharge".

PARENTVEDA TODAY, EXACTLY

33 symptoms in the check-in and library.

THE GAP

About a dozen common symptoms have no page and cannot be logged.

EXACTLY WHAT TO DO

Add the twelve listed as pages and check-in tiles. Spotting, bleeding and blurry vision open the urgent card first.

WHAT WILL BE DIFFERENT AFTER

Whatever she feels, she can log it and read about it.

Blood pressure and sugar readings **P2** effort: M

FLO, EXACTLY

None.

PARENTVEDA TODAY, EXACTLY

A "Track my readings" journey ("Log it now", "What the ranges usually mean") exists in pregnancy_journeys.dart but nothing opens it.

THE GAP

Women with gestational diabetes or high blood pressure are asked to check at home; we manage both conditions but give no log.

EXACTLY WHAT TO DO

Wire the readings log: date, time, value, "fasting / after food" for sugar, systolic and diastolic for pressure, a note, and "Share with my doctor". Show her doctor's target if she enters one; never colour a reading red or green on our own.

WHAT WILL BE DIFFERENT AFTER

Her readings live next to the door that explains them.

WHAT TO EXPECT, EXACTLY

None.

Movement counting **P3** effort: S

FLO, EXACTLY

None.

PARENTVEDA TODAY, EXACTLY

Baby Movement Tracker: "Use this tracker only if your doctor has asked you to monitor movements." Counts are hidden while tracking; no target.

THE GAP

Ours is careful and right. The gap is the teaching: when and why to know the pattern.

EXACTLY WHAT TO DO

Add one read, "Knowing your baby's movements" (already a weekly read) linked from the tracker, and the 28-week message. Keep no target.

WHAT WILL BE DIFFERENT AFTER

She learns the pattern without being handed a number to fail.

WHAT TO EXPECT, EXACTLY

"Baby Kicks" journal note: "At the start of the third trimester, around week 28, you'll need to do daily kick counts to learn your baby's movement patterns."

The Tools list **P2** effort: S

FLO, EXACTLY

No pregnancy tools.

PARENTVEDA TODAY, EXACTLY

24 tiles including "Launches", "Brand Studio" (sponsor showcases) and "Father's Journal" in her list; the birth plan missing; older plum style.

THE GAP

Her tools are hard to find among things that are not hers.

EXACTLY WHAT TO DO

Remove the three; add Birth plan; group under Track, Get ready, Keep; one line per tool; white base style.

WHAT WILL BE DIFFERENT AFTER

A clean list that looks like the rest of ParentVeda.

WHAT TO EXPECT, EXACTLY

Six tools, each with one line: "Due Date Calculator: Get your estimated due date using your last period, conception date, or ultrasound."

How our reads are written

Our reads are warm and Indian, and they carry evidence lines. What to Expect makes long articles easy to use: she sees the questions an article answers and the key points before she reads.

The answer first P2 effort: M

FLO, EXACTLY

Articles open with a one-line promise ("From what tests you'll be offered to when you'll find out your due date, allow us to walk you through...").

PARENTVEDA TODAY, EXACTLY

Pregnancy reads have no short answer (the trying-to-conceive reads now do).

THE GAP

She reads a whole page to find one answer.

EXACTLY WHAT TO DO

Add a two to three sentence short answer to all 34 pregnancy reads and write every heading as her question ("Is it labour or practice tightenings?").

WHAT WILL BE DIFFERENT AFTER

The answer in ten seconds; the detail if she wants it.

WHAT TO EXPECT, EXACTLY

"In This Article" (the questions it answers) and "KEY TAKEAWAYS" ("Labor doesn't usually start all at once...").

Never tell the sex P3 effort: S

FLO, EXACTLY

"How experts tell your baby's sex at a scan" in "Checkups: When, how, and why".

PARENTVEDA TODAY, EXACTLY

"Why nobody will tell you the sex" ("It is the law, not the clinic being unkind.").

THE GAP

We are ahead and must stay so: none of their sex-at-the-scan pieces can be copied, even as a line in a week page.

EXACTLY WHAT TO DO

Keep the rule in the content checklist: no piece, tip, video or community thread may suggest learning the baby's sex before birth (PCPNDT Act).

WHAT WILL BE DIFFERENT AFTER

The app stays legal and on her side.

WHAT TO EXPECT, EXACTLY

Week 20: "Boy or girl? Curious about whether that melon-sized belly has a boy or a girl inside? Now's your chance to take a peek!" and in Baby Science: "Gender reveal".

A medical note on every page P3 effort: S

FLO, EXACTLY

Collections: "Reviewed by Flo Expert Board".

PARENTVEDA TODAY, EXACTLY

Doors end with lines such as "This helps you understand what your doctor is managing. It does not replace them."; the home has no note at the foot.

THE GAP

Ours are kinder than theirs; the home is missing one.

EXACTLY WHAT TO DO

Add one line at the foot of the home: "ParentVeda explains and reminds. Your doctor decides."

WHAT WILL BE DIFFERENT AFTER

The rule is visible where she starts every day.

WHAT TO EXPECT, EXACTLY

"Medical Disclaimer: This content is for informational purposes only and should not replace professional medical advice."

Appendix A · Everything to add, by section of our app

Every competitor piece we recommend adding, grouped by the place it should live in ParentVeda. "Add to ours" means fold it into the piece named.

After a loss (pregnancy) › Support (1)

Piece (their title)	From	Type	Decision	Pri	Why
"We're Sorry for Your Loss. We're here for you. Let us know if you'd like to update your account so that we can provide support during this difficult time. Once you confirm, we'll unsubscribe you from WTE pregnancy and partner emails." CONFIRM	What to Expect	Chat / message	Add: write our own version	P1	If her pregnancy ends, our app keeps showing her baby growing week by week, and there is no way to tell it. A gentle "My pregnancy ended" path that stops the week content and opens support is the most important missing flow in the stage.

After a loss (pregnancy) › Understand (1)

Piece (their title)	From	Type	Decision	Pri	Why
Chance of a Repeat Miscarriage	What to Expect	Video	Add: write our own version	P2	Women pregnant after a loss carry this fear through the first weeks and we have nothing for them. Give population numbers that calm, never a personal chance, and route to her doctor.

Belly & skin › Belly care (2)

Piece (their title)	From	Type	Decision	Pri	Why
When do you start showing in pregnancy?	Flo	Article	Add: write our own version	P2	"When will I start showing?" is one of the most asked early questions, and we have no answer to it.
Your growing baby bump: What to expect when	Flo	Article	Add: write our own version	P3	Women compare their bumps with others and worry. A short piece on how bumps grow and why they differ fits our belly care tab.

Belly & skin › Skin changes (2)

Piece (their title)	From	Type	Decision	Pri	Why
Check your hands add to: Page "Spider veins and skin tags"	What to Expect	Daily tip	Add to a piece we already have	P3	Red palms are harmless but surprising. One line on our spider veins page would cover it, next to the warning that itchy palms need a call.
Keep track of skin changes add to: Page "Spider veins and skin tags"	What to Expect	Daily tip	Add to a piece we already have	P3	Our skin tags page can add a line: new or changing moles are worth showing the doctor.

Belly & skin › The bump ritual (1)

Piece (their title)	From	Type	Decision	Pri	Why
Stunning Maternity Photo Ideas for Your Pregnancy Photo Shoot add to: Bump ritual: one photo a week	What to Expect	Article	Add to a piece we already have	P3	Maternity shoots are popular in Indian cities. A few simple photo ideas can sit beside our weekly bump photo ritual.

Community › Your due month (1)

Piece (their title)	From	Type	Decision	Pri	Why
"Introducing Secret Chats Rules! Please be respectful and kind. And remember, we don't verify posts for medical accuracy." add to: Community tab (seeded prototype)	Flo	Chat / message	Add to a piece we already have	P2	When our community opens for real posts, it needs house rules and a clear line that posts are not checked by doctors. Flo says it in one sentence.

Complications > Find a condition (6)

Piece (their title)	From	Type	Decision	Pri	Why
Ask about aspirin add to: Condition page "Preeclampsia"; Can I "Aspirin"	What to Expect	Daily tip	Add to a piece we already have	P2	Many Indian doctors prescribe low-dose aspirin for women at higher risk. Our preeclampsia page and aspirin answer should explain why, and say never to start it without the doctor.
Diabetic Diet add to: Condition page: Pregnancy with a pre-existing condition	What to Expect	Article	Add to a piece we already have	P2	Diabetes before pregnancy is common in India and needs close care. Our pre-existing condition page should give it its own part, always led by her doctor.
Toxoplasmosis During Pregnancy	What to Expect	Article	Add: write our own version	P3	We touch this only in the Can I answers on cats and raw meat. A short page on infections that matter in pregnancy would show her why that advice exists.
HG showed me new kinds of joy add to: Condition page "Hyperemesis"	Flo	Article	Add to a piece we already have	P3	Our hyperemesis page explains the condition. A real story from a woman who went through it would comfort others, once we can gather one.
Psoriasis During Pregnancy add to: Pregnancy with a pre-existing condition	What to Expect	Article	Add to a piece we already have	P3	Our page on pre-existing conditions can add a short part on skin conditions like psoriasis and which creams to check with a doctor.
Types of anemia add to: Condition page "Anemia"	Flo	Article	Add to a piece we already have	P3	Our anaemia page talks mostly about iron. A short part on low folate and low B12 matters in India, where many vegetarian women are low in B12.

Complications > Get help now (2)

Piece (their title)	From	Type	Decision	Pri	Why
Getting Your Baby to Move in Utero add to: When the baby moves less	What to Expect	Video	Add to a piece we already have	P2	Women try these tricks when movements feel less. Our read should add them only with a clear line: if the baby is moving less, call your doctor today and do not wait for a trick to work.
Implantation or miscarriage? add to: Bleeding in pregnancy	Flo	Article	Add to a piece we already have	P2	Our 'Bleeding in pregnancy' read covers when to call. It can add the early weeks question she actually asks, spotting around the time of the period versus signs of a miscarriage, always ending with calling the doctor.

Complications > Living with it (4)

Piece (their title)	From	Type	Decision	Pri	Why
Bed Rest During Pregnancy	What to Expect	Article	Add: write our own version	P2	Indian doctors still often advise rest, and families take it very strictly. A read on what rest usually means, and how to keep moving safely within the doctor's advice, would help.
Having a High-Risk Pregnancy	What to Expect	Article	Add: write our own version	P2	Many women are told they are high risk with no explanation. A calm page on what the label means and what changes in her care would help.
How to Have a Healthy Pregnancy With a Physical Disability	What to Expect	Article	Add: write our own version	P3	We have nothing for women with a disability. A short, practical page would show them the app is for them too.
Chloe Lovell is a writer and mom of 2 based in the add to: Condition page: Hyperemesis	Flo	Article	Add to a piece we already have	P3	Our severe vomiting page gives the facts. A real Indian woman's story beside it would make others feel less alone and more willing to ask for treatment.

Getting ready for baby > Baby names (2)

Piece (their title)	From	Type	Decision	Pri	Why
How to Pick a Baby Name	What to Expect	Video	Add: write our own version	P2	Naming is a big family moment in India, often with the naming ceremony and astrology in the mix, and we offer nothing in pregnancy. A place for names would be used a lot.

Keeping Your Baby's Name Secret	What to Expect	Article	Add: write our own version	P3	Choosing a name, and who gets a say, is a big family topic in India. It fits a small baby names section, which we do not have in pregnancy.
--	----------------	---------	-----------------------------------	-----------	---

Getting ready for baby › Home and help (11)

Piece (their title)	From	Type	Decision	Pri	Why
How to get your home ready for your baby	Flo	Article	Add: write our own version	P2	Getting the home ready is one of the big jobs of the last months, and we have nothing on it. Our version should fit Indian homes and joint families.
Your prenatal checklist in trimester 3	Flo	Article	Add: write our own version	P2	We have a hospital bag and a birth plan, but no simple list of the jobs of the last three months, such as choosing the baby's doctor and sorting hospital papers. A short Indian checklist would tie our tools together.
11 safety tips for your baby's nursery	Flo	Article	Add: write our own version	P3	Few Indian homes have a separate nursery, so our version should be about making the baby's corner safe, and we have nothing on it.
4 tips for nesting (safely) during pregnancy	Flo	Article	Add: write our own version	P3	This belongs in the same nesting piece: what to avoid while getting the home ready, such as climbing, lifting and strong cleaning products.
How to Plan a Baby Shower	What to Expect	Article	Add: write our own version	P3	The Indian version of this moment is the godh bharai or seemantham. A short, warm piece on the ceremony, when it is usually held and how to keep it comfortable for her, would fit our families well.
How to Set Up a Nursery	What to Expect	Video	Add: write our own version	P3	Most Indian babies sleep in the parents' room, so write it as getting the baby's sleeping corner and the home ready, not a separate nursery.
Planning a baby shower? Here's how to get the party started	Flo	Article	Add: write our own version	P3	Baby showers are a Western custom, but India has its own, such as godh bharai, seemantham and valaikappu. A piece written for India on enjoying these safely would be welcome.
Prepare Pets For Baby's Arrival	What to Expect	Video	Add: write our own version	P3	More Indian city homes have pets now. A short practical piece on getting a pet used to the baby would help those families.
What's the deal with pregnancy nesting?	Flo	Article	Add: write our own version	P3	Many women feel a strong urge to get the house ready in the last weeks. A short piece that explains it and gives safe ways to do it would be useful, and we have nothing on it.
How to Hire a Nanny	What to Expect	Article	Add to a piece we already have	P3	Many Indian families plan a japa maid or helper for the first weeks. A planning note on who will help after the birth belongs in our home and help piece.
When to Have a Baby Shower	What to Expect	Article	Add to a piece we already have	P3	Timing belongs in the same godh bharai piece, where families often ask which month is right.

Getting ready for baby › What to buy (11)

Piece (their title)	From	Type	Decision	Pri	Why
Checklist: Essential clothes for your newborn	Flo	Article	Add: write our own version	P2	Families often buy too many clothes, or the wrong ones for the season. A simple list for Indian weather belongs with what to buy.
Newborn prep	Flo	Collection or course	Add: write our own version	P2	Every family asks what to buy before the baby comes. We have a store but no plain list of what is truly needed in an Indian home, and what is not.
Your Baby Registry Checklist	What to Expect	Article	Add: write our own version	P2	Registries are not an Indian habit, but the need behind it is real: what to buy before the baby comes, and what to skip. Write a simple Indian list that links to our store.

Baby Products (15 categories: Maternity Products, Diapering, Nursing & Feeding, car seats, strollers, Nursery, carriers, monitors, toys); Registry Builder with "The Best Baby Registries" and "CLAIM MY FREEBIES" add to: Products tab (pregnancy pillow, stretch care, maternity wear, belly band, compression socks, nursing bra, breast pump, swaddle), Product Checklist, Product Guide	What to Expect	Tool / download	Add to a piece we already have	P2	Registries are not an Indian habit, so we skip that. But "what do I actually need for the baby, and what can I skip?" is a real question; a plain Indian list that links to our store answers it.
5 safety checks for your baby's crib	Flo	Article	Add: write our own version	P3	Our version should cover the cot and the traditional cradle or palna, which many Indian families use.
Baby feeding supplies to add to your list	Flo	Article	Add: write our own version	P3	A short list of feeding supplies belongs with what to buy, written so it supports breastfeeding first.
How to Install an Infant Car Seat	What to Expect	Video	Add: write our own version	P3	This belongs with the short car seat note, for families who drive the baby home.
Infant Car Seats vs. Convertible Car Seats	What to Expect	Video	Add: write our own version	P3	Few Indian families use car seats, though more city families drive home from hospital. A short, honest note on why a car seat matters would help.
A Guide to Big-Ticket Nursery Items	What to Expect	Article	Add to a piece we already have	P3	The useful part, which big items to skip, fits our what to buy piece. Many costly items are not needed in an Indian home.
Baby Gear Must-Haves	What to Expect	Article	Add to a piece we already have	P3	This goes into the same what to buy piece, written for Indian homes and budgets.
Choosing a Safe Crib	What to Expect	Article	Add to a piece we already have	P3	Where the baby will sleep is worth deciding before the birth. One safe sleep line (a firm flat surface, nothing soft around) belongs in the what to buy piece, with the full guide in parenting.

Home › Daily insights (2)

Piece (their title)	From	Type	Decision	Pri	Why
"Today's tip" with a new tip each day and "See your new daily tip by coming back tomorrow to unlock it." add to: Daily tip pop-up ("Today's tip / WEEK n · DAY d" + a parenting reflection line)	What to Expect	Chat / message	Add to a piece we already have	P2	Our daily tip shows a parenting thought such as "Offer the warmth; let the flower choose its hour." A practical pregnancy tip for that week (sleep on your side, book the anomaly scan) is what she expects under that title.
Wash those hands add to: Daily insights rail	What to Expect	Daily tip	Add to a piece we already have	P3	A simple hygiene nudge fits well as a short daily card in the first trimester.

Home › messages (4)

Piece (their title)	From	Type	Decision	Pri	Why
"Oh baby! You're in Week 8. Baby's growing about a millimetre a day — and looking more baby-like! Learn..."	What to Expect	Chat / message	Add: write our own version	P1	Our onboarding asks for notification permission by showing exactly this kind of weekly message, and then nothing sends it. A short "Week N starts today" message each week is the simplest way to keep that promise.

"Pregnancy and Parenting Newsletter", "Community Daily Digest Emails", "Deals, Giveaways and Special Offers" add to: WhatsApp weekly guidance opt-in ("One message a week, in your stage.")	What to Expect	Chat / message	Add to a piece we already have	P2	We collect the WhatsApp opt-in. The weekly message should mirror the week page, and we should never add a deals channel she did not ask for.
"Report a Birth" (asks the account to create a password first) add to: You > "Baby has arrived" ("Adds your baby and opens the parenting home. Nothing from pregnancy is deleted.")	What to Expect	Chat / message	Add to a piece we already have	P2	We have the better flow, but it is hidden inside You. From week 37 the home should offer "Has your baby arrived?" so she finds it when she needs it.
"Add the What to Expect widget to your home screen" (3 steps)	What to Expect	Chat / message	Add: write our own version	P3	A home-screen widget with her week and the baby's size would bring her back daily. Nice to have after the basics.

Is it safe? > Can I do it? (7)

Piece (their title)	From	Type	Decision	Pri	Why
Avoid at-home fetal Dopplers	What to Expect	Daily tip	Add: write our own version	P2	Home heartbeat devices are sold online in India and can give false comfort when the baby moves less. A Can I answer should say to rely on movements and the doctor, not the device.
Can You Keep Breastfeeding During Pregnancy?	What to Expect	Article	Add: write our own version	P2	Many Indian mothers are still feeding a toddler when the next pregnancy begins. A clear Can I answer (usually safe, check with the doctor if there is a risk of early labour) is missing.
Baby on board: Top tips for flying while pregnant add to: Can I "Flight Travel"	Flo	Article	Add to a piece we already have	P3	Our flight answer can add what Indian airlines ask for late in pregnancy, such as a fitness letter from the doctor.
Can you travel during pregnancy? add to: Can I "Long Road / Train Travel"	Flo	Article	Add to a piece we already have	P3	Our road and train travel answer can add a few practical tips, such as walking every hour and carrying her records.
How to travel safely add to: Can I "Flight Travel"; "Long Road / Train Travel"	Flo	Collection or course	Add to a piece we already have	P3	Our travel answers give the verdicts. A slightly longer piece on planning a trip, for example going home to her mother's place, would add to them.
Keep your smile bright ... naturally add to: Can I "Dental Treatment"	What to Expect	Daily tip	Add to a piece we already have	P3	Our dental answer can add one line: routine dental care is fine, cosmetic whitening can wait until after the birth.
When it comes to the expert team you might be expe add to: Can I: Dental Treatment	Flo	Article	Add to a piece we already have	P3	Our answer says dental treatment is safe. It can add why gums and teeth need more care now, and that vomiting and heartburn wear the enamel.

Is it safe? > Can I drink it? (2)

Piece (their title)	From	Type	Decision	Pri	Why
Alcohol Before You Know You're Pregnant add to: Can I "Alcohol"	What to Expect	Video	Add to a piece we already have	P2	This is one of the most common early worries. Our alcohol answer should add a calm line: a drink before you knew is rarely a problem, stop now and tell your doctor.

Can You Drink Any Alcohol? add to: Can I: Alcohol	What to Expect	Article	Add to a piece we already have	P2	Our alcohol answer says to avoid it. It should add the common worry of a drink taken before she knew she was pregnant, and what to do now, calmly.
---	----------------	---------	--------------------------------	----	--

Is it safe? > Can I eat it? (1)

Piece (their title)	From	Type	Decision	Pri	Why
Foods to Avoid During Pregnancy add to: Can I food answers and the Is this food safe list	What to Expect	Article	Add to a piece we already have	P2	We answer food by food, but not the worry after the fact. One line on each avoid answer saying what to do if you already ate it would calm many women.

Is it safe? > Can I take it? (4)

Piece (their title)	From	Type	Decision	Pri	Why
COVID-19 vaccines and pregnancy: Your burning questions answered add to: Can I answer: Vaccines (TT / Flu / COVID)	Flo	Article	Add to a piece we already have	P2	We have one short answer on vaccines. Women need a proper read on which vaccines are given in pregnancy in India (tetanus and diphtheria, flu, and when), and that they are safe for the baby; her doctor gives the final schedule.
Get the COVID-19 vaccine add to: Can I "Vaccines (TT / Flu / COVID)"	What to Expect	Daily tip	Add to a piece we already have	P2	Our vaccines answer is short. It should say which vaccines Indian doctors offer in pregnancy and when, and leave the choice to her doctor.
Time for the flu shot add to: Can I "Vaccines (TT / Flu / COVID)"	What to Expect	Daily tip	Add to a piece we already have	P2	Our vaccines answer should say plainly that the flu vaccine is offered in pregnancy in India and to ask the doctor at the next visit.
How to recover from a cold add to: Can I "Cough Syrup", "Antihistamines (Cetirizine)", "Vicks / Balm"	What to Expect	Daily tip	Add to a piece we already have	P3	Our Can I answers cover cold medicines one by one. A short "I have a cold" answer that brings together rest, steam, fluids and which tablets to ask about would be easier to find.

Labour prep > Contraction timer (2)

Piece (their title)	From	Type	Decision	Pri	Why
Is It Labor or Braxton Hicks Contractions? add to: Symptom page "Braxton Hicks" ("Tightenings that are not labour")	What to Expect	Video	Add to a piece we already have	P1	This is the question behind most late night calls to the labour ward. Our Braxton Hicks page should add a clear side by side of practice tightenings and real labour, and when to go in.
Final push: Your contraction cheat sheet add to: Contraction Tracker tool	Flo	Article	Add to a piece we already have	P2	Our contraction timer counts, but does not explain what the timings mean. A short guide beside it, ending with "follow what your doctor told you", would make it useful.

Labour prep > Feeding and first days (17)

Piece (their title)	From	Type	Decision	Pri	Why
How to Breastfeed: A Guide for New Moms	What to Expect	Article	Add: write our own version	P1	Learning the basics of latching and feeding before the birth is one of the best things she can do, and we have only a short expert note and a paid masterclass. A free, plain read written for the first days in an Indian hospital is a real gap.
Breastfeeding Support Groups Can Be the Resource New Moms Need	What to Expect	Article	Add: write our own version	P2	Knowing before the birth where to get feeding help makes the first days easier. A read that names who can help in India (hospital lactation staff, a lactation consultant, a peer group) belongs in pregnancy.
Can You Breastfeed With Flat or Inverted Nipples?	What to Expect	Article	Add: write our own version	P2	This is something a woman notices in pregnancy and worries about. A calm read that says most women still breastfeed, and who can help, belongs before the birth.

Your essential guide to breast milk	Flo	Article	Add: write our own version	P2	Women often worry that they will not have milk. Knowing about colostrum and when milk comes in, before the birth, removes that worry, and we have nothing on it.
5 hacks for pain-free breastfeeding add to: Why early breastfeeding preparation helps	Flo	Article	Add to a piece we already have	P2	We have one short expert note on breastfeeding preparation. What a good latch looks like is worth learning before the birth, so this should be added to it.
5 latch hacks for pain-free breastfeeding add to: Why early breastfeeding preparation helps	Flo	Article	Add to a piece we already have	P2	Same as the other latch piece: a good latch is worth learning before the birth, as part of our breastfeeding preparation.
8 skin-to-skin contact benefits add to: The first hour after birth (coming soon)	Flo	Article	Add to a piece we already have	P2	Our read on the first hour after birth is still coming soon. Skin to skin contact is something she can ask for in an Indian hospital, so it should be part of that read.
Breastfeeding Positions add to: The beginner's breastfeeding read proposed for this tab	What to Expect	Article	Add to a piece we already have	P2	Learning two or three holds before the birth makes the first feeds easier. A short video or drawings would help most here.
Breastfeeding: Yes or no? add to: Why early breastfeeding preparation helps	Flo	Collection or course	Add to a piece we already have	P2	Learning about breastfeeding before the baby comes makes the first days easier. We have only one short note, so a proper set of pieces is needed before the birth.
Can You Breastfeed After a C-Section? add to: Read: Why early breastfeeding preparation helps	What to Expect	Article	Add to a piece we already have	P2	With so many C-section births in India, knowing that she can still breastfeed, and how, is useful before the birth.
How a Lactation Consultant Can Help You Breastfeed add to: Read: Why early breastfeeding preparation helps	What to Expect	Article	Add to a piece we already have	P2	Our breastfeeding preparation read can add who a lactation consultant is and how to find one before the birth.
Infant formula or breast milk? Pros and cons	Flo	Article	Add: write our own version	P3	Many women decide how they will feed before the birth. Our version should support breastfeeding first, the way Indian doctors advise, without shaming anyone who needs formula.
18 Moms Share What Breastfeeding Really Feels Like add to: Read: Why early breastfeeding preparation helps	What to Expect	Article	Add to a piece we already have	P3	Hearing honestly what the first feeds feel like helps her prepare. A few short, real Indian voices could be added to our preparation read later.
7 breastfeeding benefits for you and baby add to: Why early breastfeeding preparation helps	Flo	Article	Add to a piece we already have	P3	Our breastfeeding note can add a short list of benefits for both of them.
Benefits of Breastfeeding for Mom and Baby add to: Read: Why early breastfeeding preparation helps	What to Expect	Article	Add to a piece we already have	P3	Our preparation read can open with the benefits in plain words, without pressure on women who cannot breastfeed.
Can You Breastfeed With Breast Implants?	What to Expect	Article	Add to a piece we already have	P3	A short line in the breastfeeding preparation read (most women with implants can breastfeed; tell the doctor) is enough.

How to Hand Express Breast Milk add to: The beginner's breastfeeding read proposed for this tab	What to Expect	Article	Add to a piece we already have	P3	Hand expression is worth knowing before the birth, especially for colostrum in the first days. One section in the feeding read covers it.
---	----------------	---------	--------------------------------	----	---

Labour prep › For your partner (8)

Piece (their title)	From	Type	Decision	Pri	Why
How Partners Can Offer Support and Encouragement During Labor add to: What your partner should actually do (coming soon)	What to Expect	Article	Add to a piece we already have	P1	Our tile for this is still coming soon. His role in labour is exactly what fathers in India ask about, so this should be written first.
Who Should Be in the Delivery Room When You're Giving Birth?	What to Expect	Article	Add: write our own version	P2	In India this is a real question: many hospitals allow only one female relative, and husbands are not always allowed in. A read on who can be with her, and asking the hospital early, would help.
Getting emotional support from close ones during childbirth add to: What your partner should actually do (coming soon)	Flo	Article	Add to a piece we already have	P2	Our partner read for the birth is still coming soon. It should include how he or a family member can keep her calm in the labour room.
How Can My Partner Support Me During Labor? add to: "What your partner should actually do" (tile marked coming soon)	What to Expect	Video	Add to a piece we already have	P2	Our tile for this is still coming soon. Write it for India, where the husband is not always allowed in the labour room and a mother or sister often goes in instead.
How to pick the right birthing partner for you add to: What your partner should actually do (coming soon)	Flo	Article	Add to a piece we already have	P2	Our partner read for the birth is still coming soon. It should also help her choose her birth companion, written for Indian hospitals where often only one person may come in.
It takes two, baby! Preparing for labor with your birth partner add to: What your partner should actually do (coming soon)	Flo	Article	Add to a piece we already have	P2	Our partner read for the birth is still coming soon. Preparing together, before the day, should be part of it.
What Is a Doula and Should You Hire One for Your Baby's Birth?	What to Expect	Article	Add: write our own version	P3	Doulas are becoming available in Indian cities. A short read on what a doula does and how she differs from a nurse would help families who can afford one.
How you can relieve labor pain with this simple massage add to: What your partner should actually do (coming soon)	Flo	Article	Add to a piece we already have	P3	A massage he can learn before the day is exactly what our coming soon partner read should teach.

Labour prep › Signs and stages (75)

Piece (their title)	From	Type	Decision	Pri	Why
10 Signs of Labor	What to Expect	Article	Add: write our own version	P1	How to know labour is starting and when to go to hospital is the question of the third trimester, and we have no read on it. This should be one of the first pieces written.
41 weeks FAQs: Should you be induced & more	Flo	Article	Add: write our own version	P1	Our week pages stop at 40 and we have nothing on going past the due date or being induced. Many women reach 41 weeks and need to understand what their doctor will offer; the decision stays with the doctor.

42 weeks: Signs of labor & possible induction	Flo	Article	Add: write our own version	P1	Induction is common in India and we have no read on it at all. A calm read on why and how labour is started, and what she can ask her doctor, belongs in the new Signs and stages tab.
Birth: When's it time to go to the hospital?	Flo	Article	Add: write our own version	P1	This is the most practical question of the last weeks. Our version should be written for India, with travel time and traffic in mind, and always say "call your doctor when in doubt".
Delivering by C-Section	What to Expect	Article	Add: write our own version	P1	About one in three births in Indian cities is a C-section, and our only tile on it is still marked coming soon. She needs a calm, full explanation before the day.
Episiotomy During Labor and Delivery	What to Expect	Article	Add: write our own version	P1	The cut is still done often in Indian hospitals and many women fear it most. We only have a title for this in unused data, so a real piece is needed.
How Will I Know When I'm in Labor?	What to Expect	Video	Add: write our own version	P1	The same urgent gap as above: the signs of labour and when to go in. One clear piece covers both.
How can you tell if labor is days away?	Flo	Question (FAQ)	Add: write our own version	P1	We have no piece on the signs that labour is near, which every woman needs in the last weeks. It belongs in the new labour signs tab.
How do you know labor is a few days away?	Flo	Question (FAQ)	Add: write our own version	P1	This goes with the signs of labour piece we need in the new labour signs tab.
How far overdue can you go?	Flo	Question (FAQ)	Add: write our own version	P1	We have no week pages or pieces after 40 weeks, yet many women go past their date. A calm piece on going past the due date is needed.
How to Tell if You're in Labor	What to Expect	Video	Add: write our own version	P1	The signs that labour has started, and when to go to hospital, are what every woman needs in the last weeks, and we have nothing on them.
How to make labor smooth	Flo	Collection or course	Add: write our own version	P1	This is the biggest gap on our Labour door. We have almost nothing on how labour starts and what happens in it, and every first time mother needs this in the last weeks.
Inducing Labor: What Happens When You're Induced?	What to Expect	Article	Add: write our own version	P1	Induction is one of the most common things that happens near the due date, and we have nothing on it. She needs to know what it involves before she is asked to agree.
Labor induction 101: Why and how doctors speed up childbirth	Flo	Article	Add: write our own version	P1	Induction is very common in Indian hospitals, often past the due date. She should understand the methods and what to ask before it happens, and we have nothing on it.
Preterm Labor	What to Expect	Article	Add: write our own version	P1	Tightenings before 37 weeks are on our Is this normal list, but there is no read on early labour. Its signs, and going in straight away, need a clear page.
Should you be induced at 41 weeks or wait?	Flo	Question (FAQ)	Add: write our own version	P1	Induction is common in Indian hospitals and we have nothing on it. The piece should explain what induction is and why doctors suggest it, and leave the decision with her doctor.
Symptoms that indicate labor's about to begin	Flo	Article	Add: write our own version	P1	Every woman in her last weeks wants to know how she will know labour has started, and we have nothing on it.
Childbirth Stage One: The Three Phases of Labor add to: Read: Labour, step by step	What to Expect	Article	Add to a piece we already have	P1	Our labour read should lay out the stages clearly (early, active, transition, pushing, the placenta) with how long each usually takes in a first birth.
Giving Birth by Vaginal Delivery add to: Read: Labour, step by step	What to Expect	Article	Add to a piece we already have	P1	Our Labour, step by step read is the only real piece on the birth itself. It should grow into a full guide to a vaginal birth, and the coming soon tiles on this door should be written.

Labor Contractions: What Do Contractions Feel Like? add to: Symptom page: Braxton Hicks	What to Expect	Article	Add to a piece we already have	P1	Our Braxton Hicks page explains practice tightenings. A part on what real contractions feel like, with a link to our contraction timer, should sit in the signs of labour read.
Labor stages add to: Weekly read "Labour, step by step"	Flo	Collection or course	Add to a piece we already have	P1	Our read "Labour, step by step" exists but sits only in the weekly reads, not on the Labour door. It should lead a new "Signs and stages" tab and explain each stage of labour clearly.
What happens in labor add to: Weekly read "Labour, step by step"	Flo	Article	Add to a piece we already have	P1	Most first time mothers do not know what happens after they reach the labour ward. Our labour read should walk her through an Indian hospital: admission, checks, monitoring and who can be with her.
What signs of preterm labor should you be aware of? add to: Is this normal? "I am getting tightenings before 37 weeks"	Flo	Question (FAQ)	Add to a piece we already have	P1	Our Is this normal? question tells her to call about tightenings before 37 weeks. A short piece on all the signs of early labour, and what to do, belongs in the new labour signs tab.
12 Ways You Can Prepare for Labor	What to Expect	Article	Add: write our own version	P2	A simple list of what to do in the last month (know the route, save the numbers, pack the bag, rest, keep walking if the doctor agrees) pulls our labour tools together. We have the tools but no read that does this.
42 weeks FAQs: Will baby be bigger & more	Flo	Article	Add: write our own version	P2	This belongs with the new piece on going past the due date. It should give the reasons calmly and send every decision back to her doctor.
5 ways to kickstart labor naturally	Flo	Article	Add: write our own version	P2	Same as the other piece on bringing on labour: women in India are told many home tricks, and a calm piece on what is safe and what is not would help.
An expert's guide to the mucus plug	Flo	Article	Add: write our own version	P2	Many women are alarmed when they lose the mucus plug. A short explanation belongs with the signs of labour.
Does the risk of stillbirth increase after 40 weeks?	Flo	Question (FAQ)	Add: write our own version	P2	This is a real fear, and the reason doctors offer induction. The piece should explain it gently with population numbers only, and send her to her doctor for her own case.
How Can I Induce Labor Naturally?	What to Expect	Video	Add: write our own version	P2	This fits the going past the due date piece: what is safe to try, what is not, and why to ask her doctor first.
How do you know if you're dilating?	Flo	Question (FAQ)	Add: write our own version	P2	Women hear the word dilating at check-ups without an explanation. The labour stages piece should explain it simply and say only an examination can tell.
How to kickstart labor naturally	Flo	Article	Add: write our own version	P2	In India women are told to try castor oil, ghee, long walks and more when the due date passes. A calm piece on what is harmless, what is risky and why the doctor decides about induction would help, and we have nothing on it.
Is it dangerous to go past 41 weeks?	Flo	Question (FAQ)	Add: write our own version	P2	This belongs in the going past your due date piece. Say calmly why doctors watch closely after 41 weeks, with population numbers only.
Labor Augmentation	What to Expect	Article	Add: write our own version	P2	Being put on a drip to speed up labour is very common in Indian hospitals, and women are often not told why. A plain explanation helps her ask.
Labor Positions	What to Expect	Article	Add: write our own version	P2	Moving and changing position helps labour, and we have only paid yoga sessions on it. A free read with drawings, or a short video, would be useful.
Natural Ways to Induce Labor	What to Expect	Video	Add: write our own version	P2	Families in India suggest many home remedies near the due date. A piece on going past the due date should say plainly which are harmless, which are not, and that she should check with her doctor first.
Recovering From a C-Section	What to Expect	Video	Add: write our own version	P2	This belongs in the C-section piece we are adding: what happens in theatre and what the first days after feel like.

Taking a Hospital (or Birthing Center) Tour During Pregnancy	What to Expect	Article	Add: write our own version	P2	Choosing and visiting the hospital is a big decision for Indian families, often made late. A read with the questions to ask (labour room, who can stay, epidural, NICU, costs) would help.
The lowdown on cervical dilation	Flo	Article	Add: write our own version	P2	Women hear "you are 3 centimetres" in the labour room without knowing what it means. A plain explanation belongs in our stages of labour piece.
Things They Don't Tell You About a C-Section	What to Expect	Article	Add: write our own version	P2	This belongs inside the C-section piece we are adding, as a short honest section on how it feels, not as a separate read.
Vaginal Birth After Cesarean (VBAC)	What to Expect	Article	Add: write our own version	P2	Many second-time mothers in India assume a second C-section is automatic. A plain piece on when a normal birth may still be possible helps her ask her doctor.
What week is most common to go into labor?	Flo	Question (FAQ)	Add: write our own version	P2	Women want to know when labour usually starts. The new labour signs tab should give the population picture calmly, and never a personal date.
What's the earliest time you can give birth safely?	Flo	Question (FAQ)	Add: write our own version	P2	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
When will you go into labor?	Flo	Question (FAQ)	Add: write our own version	P2	Many women reach the due date with no sign of labour and worry. A piece on the due date as an estimate, and what happens next, belongs in the new labour signs tab.
Delivering in a Hospital: What All Moms Need to Know add to: The read on choosing and visiting the hospital proposed for this tab	What to Expect	Article	Add to a piece we already have	P2	This fits the same hospital read: how to choose, what it costs in India and what the day looks like.
Delivering the Placenta add to: Labour, step by step	What to Expect	Article	Add to a piece we already have	P2	Our weekly read on labour stops before the placenta. One short part on this last stage, and what happens if it does not come out, would finish the story.
From pain relief to cord cutting: What you need to know about delivery add to: Weekly read "Labour, step by step"	Flo	Article	Add to a piece we already have	P2	Our labour read can add the moments after the birth, such as cutting the cord and waiting a little before cutting it.
How to Push During Labor add to: Read: Labour, step by step	What to Expect	Article	Add to a piece we already have	P2	The pushing stage deserves its own part in our labour read, including tears and the cut, which women fear most.
Maternity care: Third trimester, labor, postpartum add to: Weekly read "Labour, step by step"	Flo	Collection or course	Add to a piece we already have	P2	We cover the late scans well but not what happens once she reaches the hospital. That part should be added to our labour read.
The 4 contraction types and how they feel add to: Tightenings that are not labour	Flo	Article	Add to a piece we already have	P2	We explain practice contractions but not how real labour contractions feel different. That comparison belongs in our signs of labour piece.
Amniotomy (Artificial Rupture of Membranes) During Labor	What to Expect	Article	Add: write our own version	P3	A short part on this belongs in the stages of labour piece, so the procedure is not a surprise.
Are overdue babies bigger?	Flo	Question (FAQ)	Add: write our own version	P3	This belongs in the going past your due date piece.
Electronic Fetal Monitoring	What to Expect	Article	Add: write our own version	P3	The monitoring belt is used in most Indian labour rooms. A few lines on what it is and why can go in the stages of labour piece.

Giving Birth at a Birthing Center	What to Expect	Article	Add: write our own version	P3	A small number of birth centres and midwife led units now exist in Indian cities. Write one read on where to give birth in India (government hospital, private hospital, birth centre), never encouraging birth without a skilled attendant.
How Important Are Cervical Checks?	What to Expect	Video	Add: write our own version	P3	Internal checks are common in Indian hospitals and often unexplained. A few lines on what they show and that she can ask why belong in the stages of labour piece.
How to Deliver a Baby in an Emergency	What to Expect	Article	Add: write our own version	P3	Rare, but it frightens many women living far from a hospital. Write it for India, with the 108 and 102 ambulance numbers instead of 911.
How to birth your placenta	Flo	Article	Add: write our own version	P3	Few women know there is a third stage of labour. One short part of the stages of labour read would cover it.
Is 34 weeks safe for delivery?	Flo	Question (FAQ)	Add: write our own version	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Is 36 weeks pregnant an OK time to give birth?	Flo	Question (FAQ)	Add: write our own version	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Is being 42 weeks pregnant common?	Flo	Question (FAQ)	Add: write our own version	P3	This belongs in the going past your due date piece, with population numbers only.
Is giving birth at 38 weeks normal?	Flo	Question (FAQ)	Add: write our own version	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Is it OK to deliver at 37 weeks? How likely is it?	Flo	Question (FAQ)	Add: write our own version	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Is it common to give birth at 28 weeks?	Flo	Question (FAQ)	Add: write our own version	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Is it safe to be 43 weeks pregnant?	Flo	Question (FAQ)	Add: write our own version	P3	This belongs in the going past your due date piece; almost every Indian hospital will have acted before then.
Is it safe to give birth at 33 weeks?	Flo	Question (FAQ)	Add: write our own version	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Is it safe to give birth at 35 weeks?	Flo	Question (FAQ)	Add: write our own version	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Routine IV During Labor	What to Expect	Article	Add: write our own version	P3	A small point that fits inside the piece on what happens in the labour ward.
The role of hormones in labor and delivery	Flo	Video	Add: write our own version	P3	A line on why calm and privacy help labour move fits the new labour piece; it does not need its own read.
What Is Pitocin Induction?	What to Expect	Article	Add: write our own version	P3	In India this is called the oxytocin drip. It should be a part of the induction piece, using the Indian name.
What are the chances of giving birth at 39 weeks?	Flo	Question (FAQ)	Add: write our own version	P3	This fits the piece on when labour usually starts. Give population numbers only, and never a personal chance.
What causes a baby to be overdue?	Flo	Question (FAQ)	Add: write our own version	P3	This belongs in the going past your due date piece.
Why is your cervix not dilating at 41 weeks?	Flo	Question (FAQ)	Add: write our own version	P3	This belongs in the going past your due date piece, with her doctor judging her own case.

Delivering the placenta: What to expect add to: Weekly read "Labour, step by step"	Flo	Article	Add to a piece we already have	P3	Our labour read can add a short part on the placenta, which many women do not expect.
The final stage of childbirth add to: Weekly read "Labour, step by step"	Flo	Article	Add to a piece we already have	P3	Same as the placenta piece: our labour read can add a short part on this last stage.
Water Birth add to: The read on where to give birth in India proposed for this tab	What to Expect	Article	Add to a piece we already have	P3	A few Indian hospitals offer water labour. One honest line in the birth options read is enough.
What Is a Midwife and Should You Hire One for Your Pregnancy and Baby's Birth? add to: The read on where to give birth in India proposed for this tab	What to Expect	Article	Add to a piece we already have	P3	Midwife led care is still rare in India. One part in the birth options read can explain what it is and where it exists.

Labour prep > Talk and learn (1)

Piece (their title)	From	Type	Decision	Pri	Why
Your birth options checklist	Flo	Article	Add: write our own version	P2	A checklist like our "What to ask" lists would help her understand her doctor's reasons calmly. It must help her ask, never help her argue with her doctor.

Labour prep > Understand the birth (21)

Piece (their title)	From	Type	Decision	Pri	Why
12 reasons for a C-section add to: If it becomes a C-section (coming soon)	Flo	Article	Add to a piece we already have	P1	Knowing why a C-section may be needed helps her understand her doctor's advice. It belongs in our C-section read, which is still coming soon.
The step by step of a C-section add to: If it becomes a C-section (coming soon)	Flo	Article	Add to a piece we already have	P1	C-sections are very common in India, yet our read on them is still coming soon. This should be written first on the Labour door.
What exactly is cord blood banking, and is it worth it?	Flo	Article	Add: write our own version	P2	Private cord blood banks sell hard to Indian parents in the last months. An honest piece on what it can and cannot do, with the cost, would protect her from pressure, and we have nothing on it.
Who Should Be in the Labor Room?	What to Expect	Video	Add: write our own version	P2	In India the rules differ between government and private hospitals, and families often expect to be there. A clear piece on who is usually allowed, and how to ask, would help her plan.
8 benefits of skin-to-skin contact add to: The first hour after birth (coming soon)	Flo	Article	Add to a piece we already have	P2	Deciding on skin to skin belongs in her birth plan before the birth. Our coming soon read on the first hour after birth should explain it and let her ask for it.
Choosing a C-section? Read this add to: If it becomes a C-section (coming soon)	Flo	Article	Add to a piece we already have	P2	Many Indian women ask for a planned C-section out of fear of labour. An honest part on the risks and recovery belongs in our C-section read, with the decision made together with her doctor.
Epidural for Labor Pain add to: Read: Pain relief: natural, epidural and C-section	What to Expect	Article	Add to a piece we already have	P2	Many Indian women fear the epidural, and families have strong opinions. Our pain relief read can add its common worries (back pain later, the needle, pushing) in plain words.
Getting ready for labor add to: Your birth plan	Flo	Collection or course	Add to a piece we already have	P2	Our birth plan asks who will be with her, but we have nothing that helps her choose or prepare that person. These topics should sit beside the birth plan.

How to have an empowered birth add to: Your birth plan	Flo	Article	Add to a piece we already have	P2	Our birth plan helps her write down wishes but not how to ask questions in the labour room. A short guide on asking her doctor about each step would help her feel heard.
The benefits of breathing better during labor — and how to master it add to: Pain relief: natural, epidural and C-section	Flo	Article	Add to a piece we already have	P2	Our pain relief read mentions natural methods. Breathing for labour deserves its own part, and a short video would help here.
Vaginal labor: First stage add to: Video "Labour, start to finish" (coming soon)	Flo	Video	Add to a piece we already have	P2	Our labour film is still coming soon. A short video per stage, like this one, is the easiest way to show what happens.
Vaginal labor: Second stage add to: Video "Labour, start to finish" (coming soon)	Flo	Video	Add to a piece we already have	P2	Same as the first stage video: our labour film is still coming soon, and a short film per stage would show it plainly.
Vaginal labor: Third stage add to: Video "Labour, start to finish" (coming soon)	Flo	Video	Add to a piece we already have	P2	Few women know there is a third stage after the baby is born. A short film per stage would fill the gap left by our labour film, which is still coming soon.
Doula vs. Midwife: What is the difference?	Flo	Article	Add: write our own version	P3	This fits in the same doula piece. In India most births are led by an obstetrician, so our version should explain who is who in an Indian labour room.
Getting support during childbirth from a doula	Flo	Article	Add: write our own version	P3	This belongs in the same doula piece, which we do not have yet.
If Baby Goes to the NICU	What to Expect	Video	Add: write our own version	P3	Many babies spend a few days in the NICU, and knowing what happens there takes some of the shock away. A calm piece would help, especially for women at risk of an early birth.
Should I Hire a Doula?	What to Expect	Video	Add: write our own version	P3	Doulas are still rare in India but growing in cities, and many hospitals now allow one birth companion. Write it for India: who can be with you, and what a doula adds.
What does a doula do?	Flo	Article	Add: write our own version	P3	Doulas are now available in Indian cities, and many women have never heard of them. A short piece, written for India, would let her decide if she wants one.
How Hypnobirthing Can Help You Get the Birth You Want add to: Read: Pain relief: natural, epidural and C-section	What to Expect	Article	Add to a piece we already have	P3	Hypnobirthing classes are growing in Indian cities. One honest paragraph on what it is and what it can and cannot do fits our pain relief read.
When epidural anesthesia cannot be used add to: Pain relief: natural, epidural and C-section	Flo	Article	Add to a piece we already have	P3	Our pain relief read can add the few reasons an epidural may not be possible, so she is not surprised on the day.
Your baby's first assessment: The apgar score explained add to: The first hour after birth (coming soon)	Flo	Article	Add to a piece we already have	P3	Parents hear this score in the delivery room and worry about the number. Two lines in our read on the first hour after birth would explain it calmly.

Mind & mood › Feel (7)

Piece (their title)	From	Type	Decision	Pri	Why
Mindful pregnancy through meditation add to: Meditation videos "Letting go of worry" and others (coming soon)	Flo	Collection or course	Add to a piece we already have	P2	Our meditation videos on the Mind and mood door are all still coming soon. A short guided course like this is exactly what those empty places should hold.

Emotions add to: Meditation videos (coming soon)	Flo	Video	Add to a piece we already have	P3	Our meditation places are empty. A guided session on emotions would fill one of them.
Future add to: Meditation video "Releasing birth fear" (coming soon)	Flo	Video	Add to a piece we already have	P3	Our coming soon meditation on birth fear could use this shape.
Introducing the course add to: Meditation videos (coming soon)	Flo	Video	Add to a piece we already have	P3	Our meditation videos are still coming soon. A short welcome that says what the course is for would start ours well.
Let's practice together add to: Meditation videos (coming soon)	Flo	Video	Add to a piece we already have	P3	Our guided meditation places are still empty. A practice session like this would fill one.
Love add to: Meditation video "Self-compassion" (coming soon)	Flo	Video	Add to a piece we already have	P3	This is what our coming soon self-compassion meditation should be.
Thoughts add to: Meditation video "Letting go of worry" (coming soon)	Flo	Video	Add to a piece we already have	P3	This is what our coming soon "Letting go of worry" meditation should be.

Mind & mood › Sex and closeness (21)

Piece (their title)	From	Type	Decision	Pri	Why
Redesigning your sex life	Flo	Collection or course	Add: write our own version	P1	Whether sex is safe in pregnancy is one of the most asked questions, and in India women rarely feel able to ask it. We have only one short "Can I" answer, so a private, gentle tab is needed.
Things to know about sex during pregnancy	Flo	Article	Add: write our own version	P1	Our "Can I" answer on sex in pregnancy is one short verdict. She needs a proper piece on when sex is fine, when her doctor may say to stop, and how desire changes.
Your Questions About Sex During Pregnancy, Answered	What to Expect	Article	Add: write our own version	P1	Almost every couple wonders if sex is safe in pregnancy, and we only have one short Can I answer. A calm, private read on when it is fine and when to stop, written in a gentle tone, is a real gap.
Your pregnancy sex need to know	Flo	Article	Add: write our own version	P1	Our only answer is a one-line 'Sex During Pregnancy' in Is it safe?. Couples need a full, gentle read on when sex is safe, when the doctor may say to stop (bleeding, low placenta, leaking) and how desire changes.
8 Pregnancy Sex Challenges — and How to Fix Them	What to Expect	Article	Add: write our own version	P2	We have only one Can I answer on sex. A gentle, private piece on the common problems couples meet would help many.
8 bump-friendly sex positions to try	Flo	Article	Add: write our own version	P2	Couples want practical help once the bump makes sex awkward. Rewrite it in a gentle, private tone for the new sex and closeness tab.
Having Sex Safely During Pregnancy	What to Expect	Video	Add: write our own version	P2	We only have a one-line Can I answer on sex. A gentle, private piece on when it is safe, comfortable positions and when to stop would answer a question many couples are too shy to ask.
If you're not in the mood, don't panic	What to Expect	Daily tip	Add: write our own version	P2	Many women and their husbands worry when desire drops, and we only have one read on relationship changes. A gentle, private piece would reassure them.

Low sex drive in pregnancy explained	Flo	Article	Add: write our own version	P2	Desire going down is common and couples rarely talk about it. Our Mind read on intimacy changes only touches it; it belongs in the new Sex and closeness tab, written in a gentle, private tone.
Your pregnancy sex Qs answered	Flo	Article	Add: write our own version	P2	These real questions should become headings in the sex in pregnancy read we are adding, written gently.
Your pregnancy sex questions answered	Flo	Article	Add: write our own version	P2	Questions such as crying during sex or dryness are common and rarely asked aloud in India. Rewrite them in a gentle, private tone for the new tab.
Bleeding after sex? Don't panic add to: Read "Bleeding in pregnancy"; Can I "Sex During Pregnancy"	What to Expect	Daily tip	Add to a piece we already have	P2	Our bleeding read and our sex answer should both mention spotting after sex, because it frightens many couples. Any bleeding still gets a call to the doctor.
"Control your Flo experience by turning off topics. This may mean you miss important health information." Sex content	Flo	Tool / download	Add: write our own version	P3	Once we add sex in pregnancy pieces, a switch to hide them (as the trying stage already has for a shared phone) keeps the app safe to open in front of family.
8 bump-friendly sex positions	Flo	Article	Add: write our own version	P3	Comfort with a growing bump is a real question couples have. Rewrite in a gentle, private tone as a short part of the sex in pregnancy read, without the explicit detail.
Ask an expert: Can sex start labor?	Flo	Article	Add: write our own version	P3	A short honest answer fits the new sex and closeness tab, and it also answers a common question in the last weeks.
Can sex start labor?	Flo	Article	Add: write our own version	P3	Families in India pass this advice around near the due date. One calm answer, in the new Sex and closeness tab, settles it.
Embrace your sex drive	What to Expect	Daily tip	Add: write our own version	P3	This belongs in the sex and closeness piece we are adding, written in a gentle, private tone.
Keeping the chemistry strong	Flo	Video	Add: write our own version	P3	Staying close as a couple through pregnancy belongs in a new tab on sex and closeness, written in a gentle, private tone.
Pregnancy sex: What men think	Flo	Article	Add: write our own version	P3	Many husbands worry sex could hurt the baby and stop without saying why. A short read for both of them, linked from his side, would help couples talk.
Pregnant sex: A therapist's tips	Flo	Article	Add: write our own version	P3	Useful ideas on closeness when intercourse is not wanted. Fold them into the Sex and closeness tab in a gentle tone.
Sex dreams during pregnancy	Flo	Article	Add: write our own version	P3	A short, reassuring note would help, placed in the new sex and closeness tab and written in a gentle tone.

Mind & mood › Understand (13)

Piece (their title)	From	Type	Decision	Pri	Why
Let's talk about rainbow babies	Flo	Article	Add: write our own version	P2	Many women are pregnant again after a miscarriage and carry a special kind of worry. Our 'Fear of miscarriage' read does not speak to them directly; a gentle read on being pregnant after a loss would.
Do your symptoms mean anything about the health of your pregnancy? add to: Read "Fear of miscarriage"	Flo	Question (FAQ)	Add to a piece we already have	P2	Many women panic when symptoms ease or never come. Our fear of miscarriage read should say plainly that symptoms do not measure how well a pregnancy is going, and the doctor and scans do.

IVF pregnancy: Sick of sickness?	Flo	Article	Add: write our own version	P3	Women who conceived after IVF often feel they are not allowed to complain about sickness. We have nothing written for an IVF pregnancy, and a short, kind piece would help them.
Pregnant With a Deployed Partner	What to Expect	Video	Add: write our own version	P3	The military angle is American, but many Indian women are pregnant while their husbands works in another city or abroad. Write it for that situation.
14 vaginal birth fears tackled add to: Fear of labour	Flo	Article	Add to a piece we already have	P3	Our read "Fear of labour" can add practical steps for the fears women name most, such as pain and tearing.
5 cool things that can happen to couples who are expecting add to: Relationship and intimacy changes	Flo	Article	Add to a piece we already have	P3	Our relationship read can add the hopeful side: how expecting a baby can bring a couple closer.
Boundaries add to: Unsolicited advice and family pressure	Flo	Video	Add to a piece we already have	P3	Our read on family pressure covers the words; a short guided practice would help her hold the line kindly.
How does social media affect pregnant women? add to: Body image and self-esteem	Flo	Article	Add to a piece we already have	P3	Our body image read can add a short part on comparing yourself to pregnancy photos online.
How to feel good about asking for help add to: Bringing him in, when he doesn't get it	Flo	Article	Add to a piece we already have	P3	Many women feel they must manage everything alone. A short part on asking for help, from him and from family, fits our read on bringing him in.
How to find your "mom tribe" and get the kind of support you need add to: Lonely, even in a full house	Flo	Article	Add to a piece we already have	P3	Our loneliness read can add ways to find other mothers, such as a due month group in our community once it is real.
Secret chats: Birth fears add to: Fear of labour	Flo	Video	Add to a piece we already have	P3	Our 'Fear of labour' read covers the fear. Real Indian women talking about it on video, once we can film them, would make it feel shared.
Skills for happy relationships add to: Relationship and intimacy changes	Flo	Collection or course	Add to a piece we already have	P3	Our read on relationship changes in pregnancy could add simple, practical tips for talking as a couple.
Stress and anxiety: Reclaim control add to: Pregnancy anxiety	Flo	Collection or course	Add to a piece we already have	P3	Our anxiety read covers the facts. Short videos with a practice at the end would add to it once we make films.

Move & rest › Move safely (40)

Piece (their title)	From	Type	Decision	Pri	Why
How to Exercise Safely	What to Expect	Video	Add: write our own version	P1	We have no written or video guide on exercise in pregnancy, only short Can I answers. Almost every woman asks this, and a short video shows the movements better than words.
How to pregnancy-proof your workout	Flo	Article	Add: write our own version	P1	This is the core piece our movement door needs: how much exercise is healthy, what to change each trimester, and the signs that mean stop and call the doctor.
Pregnant and fit: Here's how	Flo	Collection or course	Add: write our own version	P1	We have short Can I answers on single activities but no read on how to exercise safely in pregnancy. Staying active is one of the things women most want help with, and our Yoga and fitness tile opens only a class list.

Fit in a workout	What to Expect	Daily tip	Add: write our own version	P2	We have no written piece on exercise in pregnancy, only yes or no answers in Can I. A short piece on staying active each trimester would fill this.
Get on the move	What to Expect	Daily tip	Add: write our own version	P2	We have no trimester by trimester exercise guide. The second trimester is when most women feel ready to move more.
Prenatal Strength Circuit	What to Expect	Video	Add: write our own version	P2	We have no free follow-along exercise at all; our fitness course has no videos yet. A short, trimester-safe workout she can do at home would fill a real gap.
Take some exercise precautions	What to Expect	Daily tip	Add: write our own version	P2	We have no written guide on exercising safely in pregnancy. The signs to stop and rest belong in it.
Basic Prenatal Yoga Flow add to: Yoga class catalogue ("Trimester-Safe Prenatal Flow")	What to Expect	Video	Add to a piece we already have	P2	Our catalogue lists prenatal yoga but offers no short free class to follow at home. A basic ten minute flow would be the easiest way in.
Prenatal yoga: 1st trimester add to: Month-by-month prenatal yoga (first months: Settling-in gentle flow, Ease for nausea days)	Flo	Collection or course	Add to a piece we already have	P2	We list first trimester sessions but none plays. Gentle guided movement for the tired, queasy first months is a real gap.
Prenatal yoga: 2nd trimester add to: Month-by-month prenatal yoga (22 sessions) and Trimester-Safe Prenatal Flow, no playable video yet	Flo	Collection or course	Add to a piece we already have	P2	We list prenatal yoga sessions but none plays. A free, short guided set for each trimester, checked by a physiotherapist, is what women look for when they tap Yoga and fitness.
Prenatal yoga: 3rd trimester add to: Month-by-month prenatal yoga (Third-trimester hip release, Lower-back relief, Labour positions practice)	Flo	Collection or course	Add to a piece we already have	P2	We list third trimester sessions but none plays. Gentle movement for the heavy last months, lying on the side, is exactly what women look for.
Prep Your Body for Birth With These Third Trimester Moves add to: Yoga class catalogue ("Open Hips for Labour")	What to Expect	Video	Add to a piece we already have	P2	Our catalogue names a hip opening class but there is no short free guide. A few birth ball moves shown on video would help her prepare at home.
Restorative Prenatal Yoga Stretch add to: Yoga class catalogue ("Trimester-Safe Prenatal Flow")	What to Expect	Video	Add to a piece we already have	P2	Our yoga catalogue lists prenatal sessions but there is no short free class to follow at home. A ten minute restorative session would be the easiest way in.
Strike a pose add to: Yoga sessions "Trimester-Safe Prenatal Flow" and month by month prenatal yoga	What to Expect	Daily tip	Add to a piece we already have	P2	We have yoga sessions but no written guide on why and how to practise safely. The new door should lead with them.
Choose pregnancy-proof workout gear	What to Expect	Daily tip	Add: write our own version	P3	This is a small part of the exercise guide we are adding.
Exercise for morning sickness?	What to Expect	Daily tip	Add: write our own version	P3	This belongs in the exercise guide we are adding: gentle movement on good days and rest on bad ones.
Get your steps in	What to Expect	Daily tip	Add: write our own version	P3	Walking is the easiest exercise for most Indian women, and it belongs in the exercise guide we are adding.
Pregnancy yoga: Why the hype?	Flo	Article	Add: write our own version	P3	A short piece on what prenatal yoga helps with, and what to avoid, would sit well at the top of our movement door.
Snack before exercise	What to Expect	Daily tip	Add: write our own version	P3	This fits into the exercise guide we are adding.
What is Diastasis Recti?	What to Expect	Video	Add: write our own version	P3	We have nothing on the belly muscles separating. A short page on what it is and which moves to avoid in pregnancy would help.

Pregnancy yoga for flexibility add to: Month-by-month prenatal yoga (22 sessions, no playable video yet)	Flo	Video	Add to a piece we already have	P3	This belongs in the guided yoga set we propose recording for each trimester.
Workout 1. Lower limb joint flexibility add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.
Workout 1. Neck comfort add to: Month-by-month prenatal yoga, third trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our third trimester set.
Workout 1. Posture and shoulder flexibility add to: Month-by-month prenatal yoga: Posture & alignment	Flo	Video	Add to a piece we already have	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
Workout 2. Back exercises, spine health add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.
Workout 2. Leg joint flexibility add to: Month-by-month prenatal yoga, third trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our third trimester set.
Workout 2. Pelvic openers add to: Month-by-month prenatal yoga: Hips & pelvis opener	Flo	Video	Add to a piece we already have	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
Workout 3. Core muscle stretching add to: Month-by-month prenatal yoga: Steady balance & core	Flo	Video	Add to a piece we already have	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
Workout 3. Relaxation and stretching in a side-lying position add to: Month-by-month prenatal yoga: Legs-up restorative	Flo	Video	Add to a piece we already have	P3	Side-lying practice suits the last weeks; record it as part of our third trimester set.
Workout 3. Spine health, balance, and posture add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.
Workout 4. Exercising the pelvis, thighs, and abs add to: Month-by-month prenatal yoga: Pelvic-floor & birth prep	Flo	Video	Add to a piece we already have	P3	Record this as part of our third trimester set, checked by a physiotherapist.
Workout 4. Hip joint flexibility add to: Month-by-month prenatal yoga: Hip-opener foundations	Flo	Video	Add to a piece we already have	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.

Workout 5. Healthy spine add to: Month-by-month prenatal yoga: Back-care essentials	Flo	Video	Add to a piece we already have	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
Workout 5. Joint flexibility and strength training add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.
Workout 6. Strengthening lateral core muscles add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.
Workout 6. Whole body stretching add to: Month-by-month prenatal yoga: Gentle full-body stretch	Flo	Video	Add to a piece we already have	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
Workout 7. Core stretching add to: Month-by-month prenatal yoga: Steady balance & core	Flo	Video	Add to a piece we already have	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
Workout 7. Stretching and strengthening core muscles add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.
Workout 8. Lower limb joint flexibility and supine stretching add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.
Workout 9. Strengthening lower limb muscles add to: Month-by-month prenatal yoga, first trimester sessions	Flo	Video	Add to a piece we already have	P3	Record this as part of our first trimester set, checked by a physiotherapist.

Move & rest › Pelvic floor (8)

Piece (their title)	From	Type	Decision	Pri	Why
Try pelvic floor exercises	What to Expect	Daily tip	Add: write our own version	P1	We have a Kegel tool but no door or tile leads to it and no piece explains why. A short guide with the tool beside it would help her now and after the birth.
How to Do a Perineal Massage	What to Expect	Video	Add: write our own version	P2	Perineal massage can lower the chance of a bad tear and few Indian women have heard of it. A clear, private guide would help.
How to prepare your perineum for birth	Flo	Article	Add: write our own version	P2	Fear of tearing is common and our only piece on it, "Will I tear, and what actually helps", is a title with nothing written. A plain guide to perineal massage would answer it.
Peeing When You Sneeze? Here's How to Manage Pregnancy Incontinence	What to Expect	Article	Add: write our own version	P2	Leaking is common and embarrassing, and we have nothing on it. A page with pelvic floor exercises would help, and it should link to our Kegel tool.
Start These Four Things NOW to Prevent Severe Tearing During Birth	What to Expect	Video	Add: write our own version	P2	Tearing is one of the biggest fears about a normal birth, and we have nothing on preparing for it. Practical steps from a pelvic floor expert would help.

These 3 Kegel exercises can strengthen your pelvic floor add to: Kegel Care tool	Flo	Article	Add to a piece we already have	P2	We have a Kegel tool, but no door points to it and we have nothing written on why the pelvic floor matters in pregnancy. It should sit in a pelvic floor tab with a short read.
3 Mistakes Pregnant Mamas Make Every Day	What to Expect	Video	Add: write our own version	P3	Small tips like rolling to the side to get up protect her back and belly. They fit in a short pelvic floor and posture piece.
4 Toilet Habits Every Mama Should Start Before Childbirth	What to Expect	Video	Add: write our own version	P3	Simple habits like not straining help the pelvic floor. They fit in a short pelvic floor piece.

Move & rest › Sleep and rest (20)

Piece (their title)	From	Type	Decision	Pri	Why
Get your Zzzs	What to Expect	Daily tip	Add: write our own version	P2	We only answer "Sleeping On Your Back" in Can I. A short piece on sleeping well each trimester, with side sleeping and pillows, would help many women.
5 ways to sleep comfortably in trimester 3 add to: Symptom page: Trouble Sleeping; trimester tip Start sleeping on your side	Flo	Article	Add to a piece we already have	P2	Sleep is hardest in the last months, and side sleeping matters most then. Our sleep guide should give practical pillow and position help for this stage.
Sleeping well while pregnant add to: Symptom page: Trouble Sleeping; Mind read Sleep and mood	Flo	Collection or course	Add to a piece we already have	P2	We have a symptom page and a mood read on sleep, but nothing that walks her through sleep in each trimester. Poor sleep is one of the most common complaints, so it deserves its own place.
Tips to improve your sleep quality during each trimester add to: Symptom page: Trouble Sleeping	Flo	Article	Add to a piece we already have	P2	Our trouble sleeping page should grow into a trimester by trimester guide; this piece shows the shape.
Plump up your pillows	What to Expect	Daily tip	Add: write our own version	P3	Snoring belongs in the sleep piece we are adding, with the note to mention loud snoring to the doctor.
6 tips for better sleep in your 1st trimester add to: Symptom page: Trouble Sleeping; Can I answer Sleeping On Your Back	Flo	Article	Add to a piece we already have	P3	Our Can I answer covers sleeping positions; the first trimester sleep tips belong in the sleep guide we propose.
8 top tips for better 2nd-trimester sleep add to: Symptom page: Trouble Sleeping; Can I answer Sleeping On Your Back	Flo	Article	Add to a piece we already have	P3	Many women panic when they wake up on their back. Our sleep guide should say calmly that turning back to the side is enough.
Air in the bedroom checklist add to: Symptom page: Trouble Sleeping	Flo	Video	Add to a piece we already have	P3	A line on a cool, airy room fits our sleep guide, written for Indian homes with fans and coolers.
Evening routine checklist add to: Symptom page: Trouble Sleeping	Flo	Video	Add to a piece we already have	P3	A short evening routine fits our sleep guide.
Exercise checklist add to: Symptom page: Trouble Sleeping	Flo	Video	Add to a piece we already have	P3	A line linking daytime walks to better sleep fits our sleep guide.

Experience insomnia? Here are 7 tips to try during pregnancy add to: Symptom page: Trouble Sleeping	Flo	Article	Add to a piece we already have	P3	Most of these tips are on our trouble sleeping page already; add the few that are missing, such as screens off and a steady bedtime.
Food checklist add to: Symptom page: Trouble Sleeping; Symptom page: Heartburn	Flo	Video	Add to a piece we already have	P3	Eating earlier and lighter at night also eases heartburn, so a short food section fits our sleep guide.
Healthy habits for better sleep add to: Symptom page: Trouble Sleeping	Flo	Collection or course	Add to a piece we already have	P3	The short checklists in this course are useful and could be folded into our sleep guide; the long general lectures are not needed.
Light checklist add to: Symptom page: Trouble Sleeping	Flo	Video	Add to a piece we already have	P3	Two or three of these tips (daylight walks, dim lights at night) belong in our sleep guide.
Napping checklist add to: Symptom page: Fatigue	Flo	Video	Add to a piece we already have	P3	Short naps help with pregnancy tiredness; a line on napping fits our sleep guide.
Perfect sleep: The basics add to: Symptom page: Trouble Sleeping	Flo	Collection or course	Add to a piece we already have	P3	The short checklists in this course could be folded into our sleep guide; the lectures are general and not needed.
Temperature and noise checklist add to: Symptom page: Feeling hot and sweaty	Flo	Video	Add to a piece we already have	P3	Feeling hot at night is common in pregnancy; a short line fits our sleep guide.
What affects my sleep checklist add to: Symptom page: Trouble Sleeping	Flo	Video	Add to a piece we already have	P3	A short checklist like this fits inside our proposed sleep guide.
“Avoiding sleep problems” checklist add to: Symptom page: Trouble Sleeping; Can I answer Sleeping Pills	Flo	Article	Add to a piece we already have	P3	A short do and do not list fits our sleep guide; our Can I answer already says to avoid sleeping pills.
“Breathing while you sleep” checklist add to: Symptom pages: A blocked nose; Trouble Sleeping	Flo	Video	Add to a piece we already have	P3	A blocked nose at night is common in pregnancy; two lines from this list fit our sleep guide.

Nutrition > Charts & fasting (1)

Piece (their title)	From	Type	Decision	Pri	Why
What to Eat for Breakfast add to: Ready-made diet charts	What to Expect	Article	Add to a piece we already have	P3	Our diet charts already lay out breakfasts. A short meal by meal guide with quick Indian breakfast ideas could link from them.

Nutrition > Recipes (13)

Piece (their title)	From	Type	Decision	Pri	Why
Banana-Berry Smoothie add to: Can I “Smoothie”	What to Expect	Recipe	Add to a piece we already have	P3	A smoothie helps on days when eating is hard. Write an Indian version with banana, curd and dates.
Broccoli-Cheddar Omelet add to: Egg bhurji with roti	What to Expect	Recipe	Add to a piece we already have	P3	An egg dish with greens is a good quick protein meal in pregnancy. Our egg bhurji recipe can offer a version with spinach or methi folded in, written the Indian way.

Butternut Squash and Pear Soup add to: Recipes "Moong dal soup", "Tomato and carrot soup"	What to Expect	Recipe	Add to a piece we already have	P3	Same as above: one pumpkin soup covers both.
Ginger Blueberry Whole Wheat Pancakes add to: Recipes "Besan chilla", "Moong dal chilla with curd"	What to Expect	Recipe	Add to a piece we already have	P3	Ginger helps with nausea. Our chilla recipes could add a ginger version as the Indian pancake.
Good Morning Granola add to: Recipe "Oats porridge with dates and almonds"	What to Expect	Recipe	Add to a piece we already have	P3	A quick grain and nut breakfast is useful. An Indian version with oats, makhana and jaggery would fit our recipes.
Healthy snack basics add to: Recipe grid, snack recipes	Flo	Video	Add to a piece we already have	P3	A two minute video on building a filling snack from Indian foods (roasted chana, makhana, fruit with curd) would suit women who graze because of nausea.
Healthy snacks: Tips and recipes add to: Recipe grid (Ghee-roasted makhana, Peanut and jaggery chikki, Steamed sprouts chaat)	Flo	Collection or course	Add to a piece we already have	P3	We already have Indian snack recipes. Short cooking videos of our own snacks would make them easier to follow, but the recipes themselves are not a gap.
Just Peachy Breakfast Shake add to: Can I "Smoothie"; recipe "Badam milk"	What to Expect	Recipe	Add to a piece we already have	P3	A fruit and milk shake for mornings with nausea is useful. An Indian version with banana, chikoo or mango would fit our recipes.
Pomegranate Salad add to: Recipe "Steamed sprouts chaat"; Can I "Raw Salad"	What to Expect	Recipe	Add to a piece we already have	P3	A simple kachumber with pomegranate is common in India. A recipe with washing steps, next to our sprouts chaat, would show how to eat raw salad safely.
Roasted Butternut Squash and Apple Soup add to: Recipes "Moong dal soup", "Tomato and carrot soup"	What to Expect	Recipe	Add to a piece we already have	P3	A pumpkin (kaddu) soup is easy in India and gentle on the stomach. It would sit well next to our two soups.
Tzatziki With Peppers and Carrots add to: Can I "Curd / Yoghurt"	What to Expect	Recipe	Add to a piece we already have	P3	This fits the cucumber raita we are proposing above.
Tzaziki add to: Can I "Curd / Yoghurt"	What to Expect	Recipe	Add to a piece we already have	P3	A cucumber raita is the Indian version, and a simple raita recipe would add calcium to any meal. Our recipe list has none.
What to Snack On add to: Recipes such as Ghee-roasted makhana, Steamed sprouts chaat	What to Expect	Article	Add to a piece we already have	P3	We have snack recipes but no snack list. A short list of Indian snacks by what they give her (protein, calcium, iron) would be handy.

Nutrition › What to eat now (9)

Piece (their title)	From	Type	Decision	Pri	Why
3 common pregnancy food myths debunked	Flo	Article	Add: write our own version	P2	Indian families have their own food beliefs (ghee for an easy birth, saffron for a fair baby, papaya and pineapple fears). A kind read on the common ones, with what is true, would help her answer relatives.
How Much Weight You Should Gain? add to: Guide: Healthy weight gain	What to Expect	Article	Add to a piece we already have	P2	Our weight gain guide can add the simple picture of where the weight goes (baby, placenta, fluid, blood, breasts), which calms many women who worry about the number.
Fit in healthy fare add to: Guide "Is my normal thali enough?"	What to Expect	Daily tip	Add to a piece we already have	P3	Our thali guide can add a short part on eating well on a work day: a packed lunch and two snacks to carry.
Gluten-Free Diet add to: Guide: Is my normal thali enough?	What to Expect	Article	Add to a piece we already have	P3	Coeliac disease is less common in India, but a short note on gluten free swaps (rice, millets, besan) helps the few who need it.

Increased Appetite During Pregnancy add to: Craving card: The eating for two myth	What to Expect	Article	Add to a piece we already have	P3	Our eating for two card can add a short part on real hunger in the second trimester and filling Indian snacks.
Keto Diet add to: Guide: Overweight in pregnancy	What to Expect	Article	Add to a piece we already have	P3	Some women try to diet in pregnancy. Our overweight guide can say plainly that pregnancy is not the time for keto or low carb diets.
Low-Carb Diet add to: Guide: Overweight in pregnancy	What to Expect	Article	Add to a piece we already have	P3	The same line in our overweight guide covers low carb diets as well.
Pregnancy Weight Gain With Multiples add to: Guide: Carrying twins	What to Expect	Article	Add to a piece we already have	P3	Our Carrying twins guide can add a plain note on how weight gain differs with twins, leaving the target to her doctor.
Protein During Pregnancy add to: Nutrient guide: Protein	What to Expect	Article	Add to a piece we already have	P3	Our Protein guide can add one plain answer on protein powders, which many Indian women are sold during pregnancy.

Partner › His side (9)

Piece (their title)	From	Type	Decision	Pri	Why
Week by Week Pregnancy Advice for Expecting Dads and Partners add to: The partner corner in weekContent.json (whatYouCanDo, oneMission)	What to Expect	Article	Add to a piece we already have	P1	We already write a partner line for every week, but it only shows in his week stack. A clear week by week guide for him, reachable from his home, is one of the most asked for pieces for fathers.
How to Support Your Partner During Pregnancy add to: Read: How your partner can support you now	What to Expect	Article	Add to a piece we already have	P2	Our partner read covers this ground. The part about what to do in the first days after the news is worth adding for him.
Things Every Partner Should Do for a Mom-To-Be add to: Read: How your partner can support you now	What to Expect	Article	Add to a piece we already have	P2	Our read covers support in general. A short, practical checklist of things he can do each trimester would make it easier for him to act.
Can My Partner Have Pregnancy Symptoms?	What to Expect	Video	Add: write our own version	P3	A light, true piece for his side that makes him feel part of the pregnancy.
Surprising Pregnancy Symptoms — for Partners!	What to Expect	Article	Add: write our own version	P3	Some men feel sympathy symptoms and worry, and nothing in our partner side talks about his own feelings. A short, light read would make him feel seen.
What do I need to know about couples quizzes?	Flo	Question (FAQ)	Add: write our own version	P3	Light couple questions ("What are you most looking forward to?") would give him a reason to open the app together with her. Later, once his side is busier.
7 Helpful Tips for a First-Time Dad add to: Read: How your partner can support you now	What to Expect	Article	Add to a piece we already have	P3	A few of these tips about preparing before the baby arrives fit our partner read. The rest is about life after the birth.
Can I stop sharing at any time? add to: The switch "Share my week and calendar"	Flo	Question (FAQ)	Add to a piece we already have	P3	We have the switch but never say in words that she can unpair or stop sharing at any time. One line under the switch would reassure her.
How Partners Can Help Support Breastfeeding Moms add to: Read: How your partner can support you now	What to Expect	Article	Add to a piece we already have	P3	A short part on how he can help with feeding in the first weeks can be added to our partner read before the birth.

Products tab (5)

Piece (their title)	From	Type	Decision	Pri	Why
7 Things to Know Before Buying Maternity Clothes	What to Expect	Video	Add to a piece we already have	P3	Maternity wear is already a store category. Two or three plain buying tips, such as buying only as the bump grows and choosing stretch cotton, can sit with it.
How to Buy a Baby Stroller	What to Expect	Article	Add to a piece we already have	P3	A short buying guide on a pram or baby carrier, written for Indian roads and homes, belongs with our store products rather than as a read.
How to Shop Your Closet for Maternity Clothes	What to Expect	Article	Add to a piece we already have	P3	A short note on making everyday clothes and kurtas work before buying maternity wear fits with our maternity wear category.
Maternity Shopping Tips add to: Maternity wear category	What to Expect	Video	Add to a piece we already have	P3	Our store has maternity wear but no guidance. A short buying note (what you need, what you can skip, when to buy) would help her choose.
Where to Buy Cheap Maternity Clothes	What to Expect	Article	Add to a piece we already have	P3	Maternity wear is already a category in our store. A short line on what she really needs, and what to borrow, can sit with it.

Scans & tests › My scans (4)

Piece (their title)	From	Type	Decision	Pri	Why
Prenatal appointments: Everything you need to know	Flo	Article	Add: write our own version	P1	She will see her doctor ten or more times, and we never explain what those visits are for. A plain read on the usual Indian schedule of visits and what is checked each time would make every appointment less mysterious.
Why it's important to get a tdap vaccine during pregnancy	Flo	Article	Add: write our own version	P1	Vaccines in pregnancy (the tetanus shots every Indian mother gets, and the whooping cough and flu vaccines) have no read and no place on her timeline. Add them to the timeline with a plain read on why and when, and tell her to confirm with her doctor.
Checkups: When, how, and why add to: Scan timeline and the nine scan pages	Flo	Collection or course	Add to a piece we already have	P2	We explain each scan well, but not the ordinary checkups in between, where her blood pressure, weight, urine and blood are checked. Add the routine visits to the timeline so she knows what every appointment is for.
Introduction to late pregnancy and postpartum care add to: Scan timeline "Your timeline"	Flo	Article	Add to a piece we already have	P3	Our timeline lists the scans but not how visits become every two weeks and then weekly near the end. A short note on this helps her plan.

Scans & tests › Understand a result (5)

Piece (their title)	From	Type	Decision	Pri	Why
Early hormonal indicators of a healthy pregnancy	Flo	Video	Add: write our own version	P2	Many Indian women are sent for repeat beta hCG and progesterone blood tests early on and worry over the numbers. A plain read on what these tests are for, without judging her own result, would help, and her doctor reads the numbers.
A beginner's guide to placenta positions add to: Report finding: Low-Lying Placenta	Flo	Article	Add to a piece we already have	P2	Same gap as the piece above: the decoder should explain every placenta position a report can name.
Placenta positions: What do they mean? add to: Report finding: Low-Lying Placenta	Flo	Article	Add to a piece we already have	P2	Indian scan reports print words like anterior, posterior and fundal placenta, and women worry about them. Our decoder explains only a low placenta; it should explain every position and say most are simply normal.
What Are Normal hCG Levels? add to: Report decoder (27 findings)	What to Expect	Video	Add to a piece we already have	P2	Beta hCG reports are among the first reports an Indian woman holds, and our decoder has no entry for them. Add one, saying that single numbers vary widely and her doctor reads the trend.

A beginner's guide to amniotic fluid (and why it's so important) add to: Report findings: Low Amniotic Fluid; High Amniotic Fluid	Flo	Article	Add to a piece we already have	P3	Our report pages explain too little and too much fluid. A short opening on what the fluid is and how it is measured would make those pages easier.
---	-----	---------	--------------------------------	----	--

Scans & tests > Understand a scan (7)

Piece (their title)	From	Type	Decision	Pri	Why
Help Me, Heidi! Are the Flu and Tdap Vaccines Really Safe During Pregnancy?	What to Expect	Article	Add: write our own version	P1	The vaccines given in pregnancy in India (the tetanus and whooping cough shot, and flu) have no read of ours, only one short Can I line. Write a page on which vaccines, when, and why they protect the baby.
Vaccines You Should Get During Pregnancy	What to Expect	Video	Add: write our own version	P1	We have no page on the vaccines given in pregnancy in India, only a short Can I line. A page on the tetanus and whooping cough shot and flu, when and why, protects the baby.
Biophysical Profile	What to Expect	Article	Add: write our own version	P2	This check is ordered in late pregnancy in India, often when she is past her date, and it is missing from our list of nine scans and tests.
Nonstress (via search: Nonstress Test (NST): What It Is and Why You Might Need One During Pregnancy)	What to Expect	Article	Add: write our own version	P2	This test, often called an NST or CTG in India, is common after 36 weeks and it is not in our list of scans and tests.
This is when you can hear your baby's heartbeat for the first time add to: Scan page: Dating scan	Flo	Article	Add to a piece we already have	P2	Not hearing a heartbeat at an early scan frightens many women. Our dating scan page should say when it is usually seen and that an early scan can simply be too early, with the doctor deciding the next step.
Hearing a Fetal Heartbeat add to: Dating scan (test page)	What to Expect	Video	Add to a piece we already have	P3	Our dating scan page can add when the heartbeat is usually first seen, so an early scan with no heartbeat yet is not read as bad news without her doctor.
Should you get the quad screen? add to: Scan page "Blood tests"	What to Expect	Daily tip	Add to a piece we already have	P3	Some Indian doctors still offer the quadruple marker test in the second trimester. Our blood tests page should name it and say what a screening result means.

Symptoms > By symptom (38)

Piece (their title)	From	Type	Decision	Pri	Why
Cramps in pregnancy explained	Flo	Article	Add: write our own version	P1	Cramping in early pregnancy frightens many women, and we have no symptom page for it. A page on ordinary stretching cramps versus the pains that need a doctor the same day is needed.
Go for cotton underwear	What to Expect	Daily tip	Add: write our own version	P1	More discharge is one of the most common worries in pregnancy and we have no symptom page on it. It should say what is normal and which colour, smell or itch needs a doctor.
Pregnancy discharge decoded	Flo	Article	Add: write our own version	P1	Discharge is one of the most common worries in pregnancy and we have no symptom page on it. A plain page on what is normal and which colours or smells mean calling the doctor is a real gap.
What's normal when it comes to pregnancy discharge?	Flo	Question (FAQ)	Add: write our own version	P1	Discharge is one of the commonest worries in pregnancy and we have no symptom page on it. It should say what is normal and which colour, smell or itch needs the doctor.
Let's talk about pregnancy cramps add to: Cramps page (to be added); A sharp pull at the side of the belly	Flo	Article	Add to a piece we already have	P1	Our round ligament page covers one kind of pain. Fold this into the cramps page we are adding, which must say clearly which pains mean going to the hospital.

Ask about yeast infections	What to Expect	Daily tip	Add: write our own version	P2	Itching and yeast infections are common in pregnancy and we have no page on them. It fits with the discharge page we are proposing, ending with seeing the doctor.
Breast changes	Flo	Video	Add: write our own version	P2	Breast changes are among the first things women notice, and our symptom library has no page on them.
Breast lumps	Flo	Video	Add: write our own version	P2	A lump can be frightening. A short page that explains most are harmless but every lump should be shown to her doctor would help, and it can sit with the breast changes page.
Causes & cures: Pregnancy cramps	Flo	Video	Add: write our own version	P2	Mild cramping in the belly frightens many women, and our symptom library has no page for it. A page should say what is common, what helps, and that cramps with bleeding or that do not ease mean calling the doctor.
Diarrhea in pregnancy explained	Flo	Article	Add: write our own version	P2	Loose motions are common in India, especially in summer, and dehydration matters in pregnancy. We have no page on it; a short one with ORS and when to call is useful.
How to clean your vulva	Flo	Article	Add: write our own version	P2	Discharge and itching down there are common worries in pregnancy, and our symptom library has no page on intimate hygiene or discharge. A plain page should say water is enough and when discharge needs a doctor.
Lower abdomen pain (cramps)	Flo	Video	Add: write our own version	P2	We have no symptom page for belly cramps, one of the most common early worries. It should say what is usual and that cramps with bleeding, or pain on one side, mean calling the doctor the same day.
Tender breasts in pregnancy explained	Flo	Article	Add: write our own version	P2	Tender and changing breasts are among the first signs women notice, and we have no page on them. A short page on breast changes, including leaking later on, would cover it.
This is how your breasts might change during and after pregnancy	Flo	Article	Add: write our own version	P2	Same as the other breast change pieces: our symptom library has no page on breast changes, one of the first things women notice.
Vaginal discharge	Flo	Video	Add: write our own version	P2	Discharge changes in pregnancy and women often worry or feel too shy to ask. Our library has no page on it; one should say what is normal and which colours, smells or itching need a doctor.
What's the deal with pregnancy cramps?	Flo	Article	Add: write our own version	P2	This is the same missing belly cramps page. Our page on a sharp pull at the side covers only one kind of pain.
What's the deal with tender breasts during pregnancy?	Flo	Article	Add: write our own version	P2	Breast changes are among the first and most common symptoms, and our library has no page on them. It should also calm the worry about early leaking.
BV in pregnancy: The lowdown add to: Discharge page (to be added)	Flo	Article	Add to a piece we already have	P2	A grey discharge with a fishy smell is a sign to see the doctor, because this infection matters more in pregnancy. It belongs in the discharge page we are adding, ending with seeing the doctor for treatment.
Cramping is often normal add to: Symptom page "A sharp pull at the side of the belly"	What to Expect	Daily tip	Add to a piece we already have	P2	Early cramping worries many women in the first weeks. Our belly pull page should add a short part on first trimester cramps and when cramps need a call.
Increased discharge in pregnancy explained add to: Discharge page (to be added)	Flo	Article	Add to a piece we already have	P2	This belongs in the single discharge page we are adding, so she finds every discharge question in one place.
Symptoms: 1st trimester add to: 33 symptom pages (Nausea, Fatigue, Heartburn, Dizziness, Constipation)	Flo	Collection or course	Add to a piece we already have	P2	Our symptom library already covers most of this course. It is missing two common first trimester worries, belly cramps and vaginal discharge, which should be added as pages.

Use cold compresses add to: Symptom page "Skin and hair changes"	What to Expect	Daily tip	Add to a piece we already have	P2	Breast soreness is one of the first symptoms and we have no page on it. Add a "Sore or tender breasts" symptom page with what helps and a comfortable bra.
Your pregnancy symptoms decoded add to: 33 symptom pages on the By symptom tab	Flo	Collection or course	Add to a piece we already have	P2	We already cover most of these symptoms, and in the same shape. The gaps are cramps, discharge, spotting as a symptom, diarrhoea and breast changes, which should be added as pages.
Pregnancy can change the way you see the world — literally	Flo	Article	Add: write our own version	P3	A short page would help, and it must say that blurred vision with a headache or swelling is an emergency, which our urgent lists already name.
3 Ways to Relieve Lightning Crotch FAST add to: Symptom page "Pressure low in the pelvis"	What to Expect	Video	Add to a piece we already have	P3	Our pelvic pressure page can add these simple stretches, as long as it keeps the line on when pain needs a doctor.
Breast growth (and no breast growth) are both normal add to: Symptom page "Skin and hair changes"	What to Expect	Daily tip	Add to a piece we already have	P3	This belongs on the breast changes symptom page we are proposing.
Chew sugarless gum add to: Symptom page "Nausea"	What to Expect	Daily tip	Add to a piece we already have	P3	Extra saliva in early pregnancy is common and we do not mention it. One line on our nausea page would cover it.
Creamy discharge in pregnancy explained add to: Discharge page (to be added)	Flo	Article	Add to a piece we already have	P3	One more kind of discharge; it belongs in the single discharge page we are adding.
Milky nipple discharge in pregnancy explained add to: Breast changes page (to be added)	Flo	Article	Add to a piece we already have	P3	Leaking colostrum surprises many women in the last months. Fold it into the breast changes page we are adding.
No discharge in pregnancy explained add to: Discharge page (to be added)	Flo	Article	Add to a piece we already have	P3	A small question that fits inside the discharge page we are adding.
Pregnancy sex dreams explained add to: Vivid dreams	Flo	Article	Add to a piece we already have	P3	Our Vivid dreams page can add one line that dreams of every kind, including sexual ones, are common and nothing to feel strange about.
Sticky discharge in pregnancy explained add to: Discharge page (to be added)	Flo	Article	Add to a piece we already have	P3	Fits in the single discharge page we are adding.
Stretch to prevent sciatica add to: Symptom page "Back Pain"	What to Expect	Daily tip	Add to a piece we already have	P3	Our back pain page can add a short part on pain that shoots down the leg and a stretch that helps.
The Shoes You Need for Pregnancy add to: Symptom page: Swelling	What to Expect	Video	Add to a piece we already have	P3	Our swelling page can add a line on comfortable, flat, roomy footwear as feet swell, which is the useful part of this video.
The cool science behind symptoms add to: The 33 symptom pages	Flo	Article	Add to a piece we already have	P3	A line on why a symptom happens, and what good it does, makes it easier to bear. We can add one such line to each symptom page.
Time for the Tooth Fairy again? add to: Symptom page "Bleeding gums"	What to Expect	Daily tip	Add to a piece we already have	P3	Our bleeding gums page can add one line that teeth can feel a little loose, and to see a dentist if it continues.

“Exhaustion made me ask for help” add to: Symptom page “Fatigue”	Flo	Article	Add to a piece we already have	P3	Our fatigue page gives the facts. A real Indian woman's story, later, would make it feel less lonely.
“Foodie to food averse: My story” add to: Symptom page “Food aversions”	Flo	Article	Add to a piece we already have	P3	Our food aversions page can borrow the tips, and a real story could follow later.

Symptoms › Is this normal? (1)

Piece (their title)	From	Type	Decision	Pri	Why
The Zero Symptoms Club add to: The 10 "Is this normal?" questions	Flo	Article	Add to a piece we already have	P2	Many women panic when they feel nothing. We should add "I have hardly any symptoms. Is that normal?" to our list, with a calm answer and a nudge to ask her doctor if she is worried.

Symptoms › Today (1)

Piece (their title)	From	Type	Decision	Pri	Why
Symptom journal: 65 symptoms in 17 groups (Belly, Back & Hips, Skin & Hair, Face, Pelvis, Mood & Sleep, Digestion, Breasts, Hands & Feet, Appetite, Legs, Swelling, Breathing, Body Temperature, Sex, Other) add to: Two-tap check-in; 33 symptom pages	What to Expect	Tool / download	Add to a piece we already have	P2	We cover 33 symptoms. Theirs adds a few women do ask about: lightning crotch, sciatica, leaky breasts, blurry vision, excess saliva, red palms, clumsiness, libido changes. Add them as short pages.

Tools › Due date calculator (1)

Piece (their title)	From	Type	Decision	Pri	Why
Gestational age Weeks and Day, "How is it calculated?", Number of children (1 / 2 or more), Due date, REMOVE PREGNANCY INFORMATION add to: You › Details › Due date (the edit opens a screen with no due-date field)	Flo	Tool / download	Add to a piece we already have	P1	Changing the due date must be easy after a dating scan. Today the Due date row in You opens the wrong screen; it should open the date editor directly.

Tools › Kegel care (1)

Piece (their title)	From	Type	Decision	Pri	Why
How to Do Kegels add to: Kegel Care tool	What to Expect	Video	Add to a piece we already have	P2	Our Kegel tool exists but no door points to it. A short how-to video inside it would help, because the exercise is hard to picture from words.

Tools › Kick counter (1)

Piece (their title)	From	Type	Decision	Pri	Why
How to Count Your Baby's Kicks add to: Baby Movement Tracker	What to Expect	Video	Add to a piece we already have	P2	Our movement tracker exists, but nothing shows her how to count. A short how-to inside the tool, ending with when to call, would make it easier to use.

Tools › Product Checklist (1)

Piece (their title)	From	Type	Decision	Pri	Why
---------------------	------	------	----------	-----	-----

Compile the List of Baby Products You'll Need With This Handy Checklist

add to: Product Checklist
(Tools)

What to Expect Article

Add to a piece we already have

P2 The need behind it is real: what to buy for the baby. Our Product Checklist tool should add a clear list of what you do not need, written for Indian homes.

Twins and more > Care and scans (4)

Piece (their title)	From	Type	Decision	Pri	Why
Potential Complications of Carrying Twins	What to Expect	Article	Add: write our own version	P2	Twin pregnancies need closer care, and she should know why without being frightened. Always end with her doctor's plan for her.
Prenatal Genetic Testing for Twins	What to Expect	Article	Add: write our own version	P2	When a scan shows two babies, she needs to know what changes in her care. We have a Twin Pregnancy report word, but no read on this.
Fetal Movement When You're Expecting Twins	What to Expect	Article	Add: write our own version	P3	Feeling two babies move is confusing, and our kick counting guidance assumes one baby. A short read would help mothers of twins.
What Is Full Term for Twins?	What to Expect	Article	Add: write our own version	P3	Twins usually come earlier, and knowing this helps her plan her leave and her bag. It fits the twins care read.

Twins and more > Getting ready (3)

Piece (their title)	From	Type	Decision	Pri	Why
Having Vaginal Birth With Twins	What to Expect	Article	Add: write our own version	P3	This goes in the same read on how twins are born. Keep it clear that the decision is her doctor's.
How Will I Deliver My Twin Babies?	What to Expect	Article	Add: write our own version	P3	Mothers of twins want to know whether a normal birth is possible. One read on how twins are born covers this and the next piece.
Possible Fetal Positions in Twins	What to Expect	Article	Add: write our own version	P3	Positions decide how twins are born, so this is useful near the end of a twin pregnancy. It fits a short read on how twins are delivered.

Twins and more > Understand (9)

Piece (their title)	From	Type	Decision	Pri	Why
"I'm Having Twins" switch and "Re-Calculate Due Date"	What to Expect	Question (FAQ)	Add: write our own version	P2	Onboarding promises "Expecting twins or more? You can say so later." but nothing records it. A twins switch in her details would make the promise true and let the twins pieces reach her.
Are you pregnant with twins?	What to Expect	Daily tip	Add: write our own version	P3	We have nothing on finding out it is twins. A calm piece should say the first scan is how you find out.
Do Twins Really Run in Families?	What to Expect	Article	Add: write our own version	P3	A common question once twins are mentioned. It fits a small twins section; keep it to population facts only.
Learn about the different kinds of twins	What to Expect	Daily tip	Add: write our own version	P3	We have nothing that explains twins in plain words. It belongs in a small twins section.
Twin symptoms: Fact vs myth	Flo	Article	Add: write our own version	P3	Women carrying twins want to know what will be different for them, and we have almost nothing on twins. This belongs in the new Twins and more door.
What Are Your Chances of Having Twins?	What to Expect	Article	Add: write our own version	P3	Useful background for a twins section. Say only what makes twins more common in general, and never show her a personal chance.
What Are the Different Types of Twins?	What to Expect	Article	Add: write our own version	P3	Women who learn they are carrying twins want to understand what kind, and we have nothing on twins beyond a diet guide. A short read would start that section.
What are your odds of having twins?	What to Expect	Daily tip	Add: write our own version	P3	Many women wonder about twins early on, and we say nothing about it. Write it for India with population numbers only, never a personal chance.
When you can find out if you're having multiples	Flo	Article	Add: write our own version	P3	We only have a twins diet guide and a report word. A short read on finding out it is twins belongs in the new Twins and more door.

Week by week › Week 1 (3)

Piece (their title)	From	Type	Decision	Pri	Why
Week 1: Your Baby This Week, Body Changes, Baby Science	What to Expect	Week page	Add: write our own version	P3	Our weeks start at 4. One short page for weeks 1 to 3 should explain why she is counted as pregnant from her last period; the fertility tips on their page belong in our trying to conceive section.
Week 2: Your Baby This Week, Body Changes, Baby Science	What to Expect	Week page	Add: write our own version	P3	Our weeks start at 4. One short page for weeks 1 to 3 should explain why she is counted as pregnant from her last period; the fertility tips on their page belong in our trying to conceive section.
Your Pregnancy Week 1	What to Expect	Video	Add: write our own version	P3	Our weeks start at 4, and many women are confused why they are already four weeks pregnant. A short explanation of how the weeks are counted would clear that up.

Week by week › Week 1 to 3 (9)

Piece (their title)	From	Type	Decision	Pri	Why
How your pregnancy begins	Flo	Week page	Add: write our own version	P2	Our week pages start at week 4, so a woman who is told she is two or three weeks pregnant finds nothing. One short page on how the weeks are counted, and what is happening before the test turns positive, fills that gap.
What happens at 1 week	Flo	Week page	Add: write our own version	P2	Our weeks begin at 4, and many women are confused about why they are called pregnant before conception. This belongs in the same short page for weeks 1 to 3.
What happens at 3 weeks: Implantation	Flo	Week page	Add: write our own version	P2	Implantation and the first days of the pregnancy are a common question, and our week pages start only at week 4.
"Pregnancy weeks" explained (the (i) next to the week count) add to: Week page; Due date calculator	Flo	Article	Add to a piece we already have	P2	Our onboarding and due date tool mention the last period, but nowhere explains in plain words why she is 'six weeks' when conception was four weeks ago. Add this to the weeks 1 to 3 page, and say that a scan date from her doctor is the one to follow.
3 weeks: Fertilization & implantation	Flo	Article	Add to a piece we already have	P2	Implantation spotting worries many women at the very start. It belongs on the weeks 1 to 3 page we are adding, with a line on when to call the doctor about bleeding.
What happens at 2 weeks	Flo	Week page	Add: write our own version	P3	Same gap as weeks 0 and 1; one combined page for the first three weeks is enough.
1 week FAQs: Should you take a test & more	Flo	Article	Add to a piece we already have	P3	These fit the weeks 1 to 3 page we are adding, as its questions.
2 weeks FAQs: Is tummy pain common & more	Flo	Article	Add to a piece we already have	P3	These fit the weeks 1 to 3 page we are adding, as its questions.
3 weeks FAQs: What should you avoid & more	Flo	Article	Add to a piece we already have	P3	These fit the weeks 1 to 3 page we are adding, as its questions.

Week by week › Week 10 (7)

Piece (their title)	From	Type	Decision	Pri	Why
Week 10: Your Baby This Week, Body Changes, Baby Science add to: Week 10 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 10 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (nausea and vomiting, bloating and gas, occasional headaches and round ligament pain) with tips, and short notes on "Symptoms may persist", "Your 10 weeks pregnant belly" and "Visible veins". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

Your Pregnancy Week 10 add to: Week 10 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
10 weeks FAQs: Discharge details & more add to: Week 10 page	Flo	Article	Add to a piece we already have	P3	Our week 10 page does not answer the questions women ask that week, such as normal discharge and when the bump shows. Add them as two or three short questions and answers.
10 weeks: More visible veins & acne add to: Week 10 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 10 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on more visible veins and acne, linking to our symptom pages where we have them.
How Big Are 10-Week Bumps? add to: Week 10 page	What to Expect	Video	Add to a piece we already have	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
When does an embryo become a fetus? add to: Week 10 page; journey milestone Embryo Becomes Fetus	Flo	Article	Add to a piece we already have	P3	Our journey map marks this moment but does not explain it. One short paragraph on the week 10 page would do.
Will you have a bump at 10 weeks? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Week by week › Week 11 (4)

Piece (their title)	From	Type	Decision	Pri	Why
Week 11: Your Baby This Week, Body Changes, Baby Science add to: Week 11 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 11 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (nausea and vomiting, bloating and gas, breast tenderness and changes and frequent urination) with tips, and short notes on "Tummy grumbling?", "Bloating and burping" and "Reducing fatigue during pregnancy". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
11 weeks FAQs: First scan facts & more add to: Week 11 page	Flo	Article	Add to a piece we already have	P2	Our week 11 page does not answer the questions women ask that week, such as the first scan. Add them as two or three short questions and answers.
11 weeks: Skin changes & constipation add to: Week 11 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 11 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on skin changes and constipation, linking to our symptom pages where we have them.

Your Pregnancy Week 11 add to: Week 11 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
--	----------------	-------	--------------------------------	----	---

Week by week › Week 12 (12)

Piece (their title)	From	Type	Decision	Pri	Why
Week 12: Your Baby This Week, Body Changes, Baby Science add to: Week 12 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 12 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, bloating and gas, occasional headaches and increased sense of smell) with tips, and short notes on "The end of some pregnancy symptoms", "Your 12 weeks pregnant belly" and "Dizzy spells". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
12 weeks: Baby bump & mood swings add to: Week 12 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 12 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on the bump starting to show and mood swings, linking to our symptom pages where we have them.
Your Pregnancy Week 12 add to: Week 12 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
6 tips to keep your placenta healthy	Flo	Article	Add: write our own version	P3	This fits inside the placenta explainer we propose for week 12, not as a separate piece.
Baby's support system	Flo	Collection or course	Add: write our own version	P3	Women are curious about how the baby is fed and protected, and we explain it nowhere. A few short explainers, placed on the week pages where each thing happens, would answer this.
Everything you need to know about the umbilical cord	Flo	Article	Add: write our own version	P3	A short explainer on the cord belongs with the placenta piece; the worried questions (cord around the neck) are already answered in our report decoder.
Power to your placenta: How to look after it	Flo	Article	Add: write our own version	P3	We never explain the placenta, though it appears on every scan report. A short plain explainer on the week the placenta takes over would help her read her reports later.
12 weeks FAQs: Can you feel baby & more add to: Week 12 page	Flo	Article	Add to a piece we already have	P3	Our week 12 page does not answer the questions women ask that week, such as feeling the baby and how she may feel now. Add them as two or three short questions and answers.
How Big Are 12-Week Bumps? add to: Week 12 page	What to Expect	Video	Add to a piece we already have	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
Is 12 weeks pregnant the same as 3 months? add to: Week page "What happens in week 12"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Pregnancy in a nutshell add to: Weekly reads such as "Understanding the first trimester" and "Getting ready for the third trimester"	Flo	Collection or course	Add to a piece we already have	P3	Our trimester reads cover most of this. A short checklist of what to do in each trimester would make them easier to act on.

The ovary to placenta shift in the first trimester add to: Week 12 page (weekContent.json)	Flo	Video	Add to a piece we already have	P3	This fits the placenta explainer we propose for week 12.
---	-----	-------	--------------------------------	----	--

Week by week › Week 13 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 13: Your Baby This Week, Body Changes, Baby Science add to: Week 13 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 13 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, food cravings and aversions, heartburn and indigestion and faintness or dizziness) with tips, and short notes on "Feeling more like yourself?", "Vaginal discharge" and "Sex during pregnancy". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
13 weeks: Gum changes & the end of nausea? add to: Week 13 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 13 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on gum changes and nausea easing, linking to our symptom pages where we have them.
Your Pregnancy Week 13 add to: Week 13 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
13 weeks FAQs: What trimester is it & more add to: Week 13 page	Flo	Article	Add to a piece we already have	P3	Our week 13 page does not answer the questions women ask that week, such as which trimester it is and whether the baby moves. Add them as two or three short questions and answers.
Is 13 weeks the 1st or 2nd trimester? add to: Week page "What happens in week 13"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Should you have a bump at 13 weeks pregnant? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Week by week › Week 14 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 14: Your Baby This Week, Body Changes, Baby Science add to: Week 14 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 14 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (increasing appetite, stuffy nose, varicose veins and decreasing fatigue) with tips, and short notes on "One down, two to go!", "Your 14 weeks pregnant belly" and "Round ligament pain". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

14 weeks: A higher sex drive & insomnia add to: Week 14 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 14 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on a higher sex drive and trouble sleeping, linking to our symptom pages where we have them.
Your Pregnancy Week 14 add to: Week 14 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
14 weeks FAQs: Should you be showing & more add to: Week 14 page	Flo	Article	Add to a piece we already have	P3	Our week 14 page does not answer the questions women ask that week, such as the size of the bump and when kicks begin. Add them as two or three short questions and answers.
How Big Are 14-Week Bumps? add to: Week 14 page	What to Expect	Video	Add to a piece we already have	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
How big will your bump be at 14 weeks? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Week by week › Week 15 (5)

Piece (their title)	From	Type	Decision	Pri	Why
Week 15: Your Baby This Week, Body Changes, Baby Science add to: Week 15 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 15 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (occasional headaches, round ligament pain, heartburn and indigestion and pregnancy brain) with tips, and short notes on "The golden months", "Bleeding gums and dental care" and "Gaining weight". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
15 weeks: More discharge & weight gain add to: Week 15 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 15 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on more discharge and weight gain, linking to our symptom pages where we have them.
Your Pregnancy Week 15 add to: Week 15 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
15 weeks FAQs: What baby looks like & more add to: Week 15 page	Flo	Article	Add to a piece we already have	P3	Our week 15 page does not answer the questions women ask that week, such as what the baby looks like and not feeling movements yet. Add them as two or three short questions and answers.

At 15 weeks, are you 4 months pregnant? add to: Week page "What happens in week 15"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
--	-----	----------------	--------------------------------	----	---

Week by week › Week 16 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 16: Your Baby This Week, Body Changes, Baby Science add to: Week 16 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 16 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (backaches, constipation, increased vaginal discharge and bleeding gums) with tips, and short notes on "Rapid growth", "Your 16 weeks pregnant belly" and "Your pregnancy weight gain". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
Your Pregnancy Week 16 add to: Week 16 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
16 weeks FAQs: Baby's positioning & more add to: Week 16 page	Flo	Article	Add to a piece we already have	P3	Our week 16 page does not answer the questions women ask that week, such as where the baby lies and first movements. Add them as two or three short questions and answers.
16 weeks: Changing appetite & constipation add to: Week 16 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 16 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on appetite changes and constipation, linking to our symptom pages where we have them.
How Big Are 16-Week Bumps? add to: Week 16 page	What to Expect	Video	Add to a piece we already have	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
Where is your baby located at 16 weeks? add to: Week page, "What your baby is doing"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.

Week by week › Week 17 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 17: Your Baby This Week, Body Changes, Baby Science add to: Week 17 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 17 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (backaches, occasional headaches, increased appetite and heartburn and indigestion) with tips, and short notes on "Here come the tummy touchers!", "Your growing appetite" and "Stop snoring". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

17 weeks: Ligament changes & heartburn add to: Week 17 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 17 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on round ligament pain and heartburn, linking to our symptom pages where we have them.
Your Pregnancy Week 17 add to: Week 17 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
17 weeks FAQs: How many months is it & more add to: Week 17 page	Flo	Article	Add to a piece we already have	P3	Our week 17 page does not answer the questions women ask that week, such as how many months she is and what first movements feel like. Add them as two or three short questions and answers.
How many months pregnant are you at 17 weeks? add to: Week page "What happens in week 17"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
What are the signs of a healthy pregnancy at 17 weeks? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Women look for signs that all is well. Our week page could say gently that regular check-ups and scans are the real measure, and no home sign replaces them.

Week by week › Week 18 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 18: Your Baby This Week, Body Changes, Baby Science add to: Week 18 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 18 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating and gas, leg cramps, edema (swelling in feet and ankles) and bleeding gums) with tips, and short notes on "Quick growth", "Your 18 weeks pregnant belly" and "Your back aches". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
18 weeks FAQs: What should you avoid & more add to: Week 18 page	Flo	Article	Add to a piece we already have	P2	Our week 18 page does not answer the questions women ask that week, such as what to avoid and how many months she is. Add them as two or three short questions and answers.
18 weeks: Possible movements & insomnia add to: Week 18 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 18 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on first movements and trouble sleeping, linking to our symptom pages where we have them.
Your Pregnancy Week 18 add to: Week 18 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

At 18 weeks, are you 5 months pregnant? add to: Week page "What happens in week 18"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
How Big Are 18-Week Bumps? add to: Week 18 page	What to Expect	Video	Add to a piece we already have	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.

Week by week › Week 19 (5)

Piece (their title)	From	Type	Decision	Pri	Why
Week 19: Your Baby This Week, Body Changes, Baby Science add to: Week 19 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 19 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (backaches, constipation, increased appetite and stuffy nose) with tips, and short notes on "Leg cramps" and "Feeling baby's kicks". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

Week by week › Week 24 (5)

Piece (their title)	From	Type	Decision	Pri	Why
Week 24: Your Baby This Week, Body Changes, Baby Science add to: Week 24 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 24 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, lower abdominal achiness, leg cramps and swollen feet and ankles) with tips, and short notes on "Belly button changes", "Carpal tunnel syndrome" and "Soothing red, itchy palms". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
24 weeks FAQs: What's special now & more add to: Week 24 page	Flo	Article	Add to a piece we already have	P2	Our week 24 page does not answer the questions women ask that week, such as what viability at 24 weeks means. Add them as two or three short questions and answers.
24 weeks: Backache & insomnia add to: Week 24 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 24 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on backache, rib pain and trouble sleeping, linking to our symptom pages where we have them.
Your Pregnancy Week 24 add to: Week 24 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
Does 24 weeks pregnant mean the same thing as 6 months pregnant? add to: Week page "What happens in week 24"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.

Week by week › Week 25 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 25: Your Baby This Week, Body Changes, Baby Science add to: Week 25 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 25 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (heartburn or indigestion, symphysis pubis dysfunction (SPD), restless legs syndrome (RLS) and tingling hands (carpal tunnel)) with tips, and short notes on "Having a ball?", "Hemorrhoids" and "Dental health". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
25 weeks: Swelling & restless legs add to: Week 25 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 25 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on swelling and restless legs, linking to our symptom pages where we have them.
Your Pregnancy Week 25 add to: Week 25 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
25 weeks FAQs: What to forgo & more add to: Week 25 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	Our week 25 page already covers the baby and her body. Adding these three short questions, especially how weeks turn into months, would answer what women actually search for that week.
Are you 7 months pregnant at 25 weeks? add to: Week page "What happens in week 25"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
What position is your baby in at 25 weeks? add to: Week page, "What your baby is doing"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.

Week by week › Week 26 (5)

Piece (their title)	From	Type	Decision	Pri	Why
Week 26: Your Baby This Week, Body Changes, Baby Science add to: Week 26 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 26 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating and gas, round ligament pain, clumsiness and migraines) with tips, and short notes on "Protruding navel", "Insomnia" and "Baby's movements in the womb". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
26 weeks FAQs: Is baby developed & more add to: Week 26 page (weekContent.json)	Flo	Article	Add to a piece we already have	P2	Knowing the signs of labour that comes too early matters from now on. Our week page should name them plainly and say to call the labour ward at once, which only our urgent list does today.
Your Pregnancy Week 26 add to: Week 26 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

26 weeks: Leg cramps & nesting add to: Week 26 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 26 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on leg cramps and the nesting urge, linking to our symptom pages where we have them.
How is your baby positioned at 26 weeks? add to: Week page, "What your baby is doing"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.

Week by week > Week 27 (4)

Piece (their title)	From	Type	Decision	Pri	Why
Week 27: Your Baby This Week, Body Changes, Baby Science add to: Week 27 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 27 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (round ligament pain, stuffy nose, faintness or dizziness and itchy belly) with tips, and short notes on "Swelling and edema" and "Soothe heat rash". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
Your Pregnancy Week 27 add to: Week 27 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
27 weeks FAQs: Is it trimester 3 & more add to: Week 27 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	A short look ahead to the third trimester and its appointments fits our week 27 page well.
27 weeks: Bloating & belly button changes add to: Week 27 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 27 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on bloating and the belly button popping out, linking to our symptom pages where we have them.

Week by week > Week 28 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 28: Your Baby This Week, Body Changes, Baby Science add to: Week 28 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 28 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating and gas, stuffy nose, faintness or dizziness and symphysis pubis dysfunction (SPD)) with tips, and short notes on "Sciatica (tingling leg pain)" and "Feeling sensitive (skin)?". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
28 weeks: Skin changes, fatigue & more add to: Week 28 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 28 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on itchy stretching skin, tiredness and starting to count kicks, linking to our symptom pages where we have them.
What happens at 28 weeks add to: Week 28 page; Baby Movement Tracker	Flo	Week page	Add to a piece we already have	P2	Our week 28 page has the size and the development, but it does not tell her that this is the week to start noticing her baby's movements. Add one line that links to our Baby Movement Tracker, framed as getting to know the pattern, not as a test.
Your Pregnancy Week 28 add to: Week 28 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

28 weeks FAQs: What's crucial now & more add to: Week 28 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	Our week 28 page can add these common questions in a line each; the facts are simple and calm her.
Pregnancy at 28 weeks: All you need to know add to: Week 28 page; read "Knowing your baby's movements"	Flo	Article	Add to a piece we already have	P3	Our week 28 page should point clearly to our movements read, since this is the week many doctors ask women to start paying attention to kicks.

Week by week > Week 29 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 29: Your Baby This Week, Body Changes, Baby Science add to: Week 29 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 29 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, heartburn or indigestion, pregnancy brain and migraines) with tips, and short notes on "Varicose veins" and "How to do a kick count". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
Your Pregnancy Week 29 add to: Week 29 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
29 weeks FAQs: Are you 8 months yet & more add to: Week 29 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	Indian families count pregnancy in months, so a clear line on how weeks match months would help on every week page, starting here.
29 weeks: Feeling warm & potential varicose veins add to: Week 29 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 29 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on feeling warm and varicose veins, linking to our symptom pages where we have them.
At 29 weeks, are you 8 months pregnant? add to: Week page "What happens in week 29"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
What position is your baby in at 29 weeks? add to: Week page, "What your baby is doing"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.

Week by week > Week 3 (2)

Piece (their title)	From	Type	Decision	Pri	Why
Week 3: Your Baby This Week, Body Changes, Baby Science	What to Expect	Week page	Add: write our own version	P3	Our weeks start at 4. Women who test very early would have something to read; a short week 3 page on conception and the first hormones is enough.
Your Pregnancy Week 3	What to Expect	Video	Add: write our own version	P3	Our weeks start at 4. A short week 3 note on conception would give women who find out very early something to read.

Week by week > Week 30 (5)

Piece (their title)	From	Type	Decision	Pri	Why
---------------------	------	------	----------	-----	-----

Their page adds the symptoms of the week (fatigue, bloating and gas, constipation and swollen feet and ankles) with tips, and short notes on "They're baaack!" and "Heartburn". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
30 weeks: Peeing more & swollen feet add to: Week 30 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 30 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on peeing more and swollen feet, linking to our symptom pages where we have them.
Your Pregnancy Week 30 add to: Week 30 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
30 weeks FAQs: How developed is baby & more add to: Week 30 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	These are good short questions for our week 30 page, which already describes the baby's growth.
At 30 weeks, are you 8 months pregnant? add to: Week page "What happens in week 30"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.

Week by week › Week 31 (5)

Piece (their title)	From	Type	Decision	Pri	Why
Week 31: Your Baby This Week, Body Changes, Baby Science add to: Week 31 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 31 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (more frequent urination, backaches, occasional headaches and pregnancy brain) with tips, and short notes on "Shortness of breath" and "How a baby responds to sex". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
31 weeks: Back pain & practice contractions add to: Week 31 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 31 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on back pain and practice contractions, linking to our symptom pages where we have them.
Your Pregnancy Week 31 add to: Week 31 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
31 weeks FAQs: When is safe for birth & more add to: Week 31 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	A calm line on how babies born early do at each stage, using population numbers only, would ease a common worry at this week.
What position is your baby in at 31 weeks? add to: Week page, "What your baby is doing"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.

Week by week › Week 32 (5)

Piece (their title)	From	Type	Decision	Pri	Why
---------------------	------	------	----------	-----	-----

Week 32: Your Baby This Week, Body Changes, Baby Science add to: Week 32 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 32 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, faintness or dizziness, itchy tummy and skin and leg cramps) with tips, and short notes on "Braxton Hicks contractions" and "Ultrasound photos". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
32 weeks: Pelvic girdle pain & peeing lots add to: Week 32 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 32 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on pelvic girdle pain and peeing a lot, linking to our symptom pages where we have them.
Your Pregnancy Week 32 add to: Week 32 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
32 weeks FAQs: What to avoid & more add to: Week 32 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	Our week 32 page can add these questions; heartburn itself is already covered on our symptom page.
What month of pregnancy are you in now? add to: Week page "What happens in week 32"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.

Week by week › Week 33 (4)

Piece (their title)	From	Type	Decision	Pri	Why
Week 33: Your Baby This Week, Body Changes, Baby Science add to: Week 33 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 33 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (round ligament pain, pregnancy brain, shortness of breath and braxton Hicks contractions) with tips, and short notes on "Insomnia" and "Omega-3 fatty acids". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
Your Pregnancy Week 33 add to: Week 33 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
33 weeks FAQs: Is delivery safe & more add to: Week 33 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	A short, calm answer on birth at this week, with population numbers only, fits our week 33 page.
33 weeks: Energy changes & hip pain add to: Week 33 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 33 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on tiredness and hip pain, linking to our symptom pages where we have them.

Week by week › Week 34 (5)

Piece (their title)	From	Type	Decision	Pri	Why
---------------------	------	------	----------	-----	-----

Week 34: Your Baby This Week, Body Changes, Baby Science add to: Week 34 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 34 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (increased vaginal discharge, shortness of breath, insomnia and leg cramps) with tips, and short notes on "Still growing" and "Vision changes". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
Your Pregnancy Week 34 add to: Week 34 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
34 weeks FAQs: What to expect & more add to: Week 34 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	These common week 34 questions fit our week page in a few lines.
34 weeks: Breast changes & constipation add to: Week 34 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 34 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on breast changes and constipation, linking to our symptom pages where we have them.
How many months pregnant are you at 34 weeks? add to: Week page "What happens in week 34"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.

Week by week › Week 35 (4)

Piece (their title)	From	Type	Decision	Pri	Why
Week 35: Your Baby This Week, Body Changes, Baby Science add to: Week 35 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 35 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (occasional headaches, pregnancy brain, braxton Hicks contractions and increasing clumsiness) with tips, and short notes on "Cheat sheet", "Frequent urination and urinary incontinence" and "Finding a doula". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
Your Pregnancy Week 35 add to: Week 35 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
35 weeks FAQs: What should you feel & more add to: Week 35 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	Our week 35 page can add this short list of what is normal now, linking to our symptom pages.
35 weeks: Nipple discharge & heartburn add to: Week 35 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 35 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on colostrum leaking and heartburn, linking to our symptom pages where we have them.

Week by week › Week 36 (4)

Piece (their title)	From	Type	Decision	Pri	Why
---------------------	------	------	----------	-----	-----

Week 36: Your Baby This Week, Body Changes, Baby Science add to: Week 36 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 36 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (more frequent urination, constipation, heartburn or indigestion and vaginal discharge streaked with blood) with tips, and short notes on "Pregnancy walk or waddle" and "Pelvic pain". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
36 weeks FAQs: When is labor common & more add to: Week 36 page (weekContent.json)	Flo	Article	Add to a piece we already have	P2	Women start asking when labour will come from week 36. A plain answer (most babies arrive between 38 and 41 weeks) belongs on our week page.
Your Pregnancy Week 36 add to: Week 36 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
36 weeks: Posture changes & back pain add to: Week 36 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 36 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on posture changes and back pain, linking to our symptom pages where we have them.

Week by week › Week 37 (4)

Piece (their title)	From	Type	Decision	Pri	Why
37 weeks: Bump changes & possible contractions add to: Week 37 page, For you this week	Flo	Article	Add to a piece we already have	P1	Near the due date she needs to recognise the first signs of labour, and our week 37 page does not mention them. Add a short 'your body this week' part on the baby dropping and possible contractions, ending with when to call the labour ward.
Week 37: Your Baby This Week, Body Changes, Baby Science add to: Week 37 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 37 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (heartburn or indigestion, pregnancy brain, insomnia and pelvic pain) with tips, and short notes on "Dilation and effacement" and "Perineal massage". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
37 weeks FAQs: Is labor imminent & more add to: Week 37 page (weekContent.json)	Flo	Article	Add to a piece we already have	P2	The signs that labour is near are what she wants at 37 weeks, and our labour door has no read on them yet. The week page should carry a short version and link to the new labour tab.
Your Pregnancy Week 37 add to: Week 37 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

Week by week › Week 38 (4)

Piece (their title)	From	Type	Decision	Pri	Why
38 weeks: More discharge & your mucus plug add to: Week 38 page, For you this week	Flo	Article	Add to a piece we already have	P1	Near the due date she needs to recognise the first signs of labour, and our week 38 page does not mention them. Add a short 'your body this week' part on more discharge and the mucus plug, ending with when to call the labour ward.
Week 38: Your Baby This Week, Body Changes, Baby Science add to: Week 38 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 38 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (insomnia, diarrhea, braxton Hicks contractions and itchy belly) with tips, and short notes on "The final countdown" and "Colostrum". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

38 weeks FAQs: Why is your belly hard & more add to: Week 38 page (weekContent.json)	Flo	Article	Add to a piece we already have	P2	Our Braxton Hicks symptom page covers the tightenings; the week 38 page should link to it and say how to tell real labour apart.
Your Pregnancy Week 38 add to: Week 38 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

Week by week > Week 39 (4)

Piece (their title)	From	Type	Decision	Pri	Why
39 weeks: Possible water breaking & contractions add to: Week 39 page, For you this week	Flo	Article	Add to a piece we already have	P1	Near the due date she needs to recognise the first signs of labour, and our week 39 page does not mention them. Add a short 'your body this week' part on the waters breaking and contractions starting, ending with when to call the labour ward.
Week 39: Your Baby This Week, Body Changes, Baby Science add to: Week 39 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 39 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (heartburn or indigestion, diarrhea, braxton Hicks contractions and pelvic pain) with tips, and short notes on "Almost go-time" and "Preparing for a C-section". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
39 weeks FAQs: Your odds of labor & more add to: Week 39 page (weekContent.json)	Flo	Article	Add to a piece we already have	P2	A short note on the signs of labour and when to go in fits our week 39 page. The numbers should stay population averages, never her own chance.
Your Pregnancy Week 39 add to: Week 39 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

Week by week > Week 4 (8)

Piece (their title)	From	Type	Decision	Pri	Why
Week 4: Your Baby This Week, Body Changes, Baby Science add to: Week 4 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 4 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (implantation bleeding and PMS-like symptoms) with tips, and short notes on "No symptoms yet?" and "Pregnancy hormones will soon make an appearance". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
How long does pregnancy actually last?	Flo	Article	Add: write our own version	P2	Most women are confused that week 4 already starts at a missed period. A short explanation of how weeks and trimesters are counted belongs at the start of our week by week pages.
4 weeks: A missed period, tender breasts & more add to: Week 4 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 4 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on a missed period and tender breasts, linking to our symptom pages where we have them.
What does it mean to be 4 weeks pregnant? add to: Week page "What happens in week 4"	Flo	Question (FAQ)	Add to a piece we already have	P2	Many women are confused that pregnancy is counted from the last period. Our week 4 page should explain in two lines how the weeks are counted.

Your Pregnancy Week 4 add to: Week 4 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
4 weeks FAQs: What should you feel & more add to: Week 4 page	Flo	Article	Add to a piece we already have	P3	Our week 4 page does not answer the questions women ask that week, such as what she should feel, what 4 weeks means and when the bump shows. Add them as two or three short questions and answers.
Brush up on your pregnancy hormone knowledge add to: Body changes, week 4: Hormones	What to Expect	Daily tip	Add to a piece we already have	P3	Our week 4 body page mentions hormones. One plain paragraph on the three hormones behind most symptoms would help her make sense of the first weeks.
When will you have a baby bump? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Week by week › Week 40 (5)

Piece (their title)	From	Type	Decision	Pri	Why
40 weeks: Possible sleep troubles & contractions add to: Week 40 page, For you this week	Flo	Article	Add to a piece we already have	P1	At week 40 she needs to know which changes mean labour may be starting, and our week 40 page does not say. Add a short 'your body this week' part that ends with when to call the labour ward.
Week 40: Your Baby This Week, Body Changes, Baby Science add to: Week 40 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 40 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (insomnia, diarrhea, braxton Hicks contractions and pelvic pain) with tips, and short notes on "Will you go past your due date?", "When (and if) your water will break" and "Labor fears". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
40 weeks FAQs: How much longer to go & more add to: Week 40 page (weekContent.json)	Flo	Article	Add to a piece we already have	P2	Our week 40 page should say plainly that most babies do not come on the due date, and what to do while waiting.
What can you expect at 40 weeks pregnant? add to: Week page "What happens in week 40"	Flo	Question (FAQ)	Add to a piece we already have	P2	Our week pages stop at 40. The week 40 page should say what happens if the baby has not come, and point to the going past your due date piece.
Your Pregnancy Week 40 add to: Week 40 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

Week by week › Week 41 (2)

Piece (their title)	From	Type	Decision	Pri	Why
Week 41: Your Baby This Week, Body Changes, Baby Science	What to Expect	Week page	Add: write our own version	P2	Our weeks stop at 40, yet many women go past their date, and then the app has nothing for her. Week 41 needs a page: what is normal now, the extra checks, and when induction is usually offered, with her doctor deciding.

Your Pregnancy Week 41	What to Expect	Video	Add: write our own version	P2	Our weeks stop at 40, but many women go past their date. Weeks 41 and 42 need their own pages: what happens now, the checks, and when induction is offered.
-------------------------------	----------------	-------	----------------------------	----	---

Week by week > Week 41 and 42 (3)

Piece (their title)	From	Type	Decision	Pri	Why
41 weeks: Know these signs of labor	Flo	Article	Add: write our own version	P1	Our week pages stop at 40, so a woman who goes past her date suddenly has nothing. This goes on the week 41 and 42 page we are adding, with her doctor's plan always first.
What happens at 41 weeks	Flo	Week page	Add: write our own version	P1	Our week pages stop at 40, and going past the due date is common and worrying. She needs a calm page on what the doctor will check and when induction is usually discussed, ending with her doctor's plan.
What happens at 42 weeks	Flo	Week page	Add: write our own version	P2	Same gap as week 41; one page for weeks 41 and 42, written so her doctor's plan always comes first.

Week by week > Week 42 (1)

Piece (their title)	From	Type	Decision	Pri	Why
Week 42: Your Baby This Week, Body Changes, Baby Science	What to Expect	Week page	Add: write our own version	P2	Our weeks stop at 40, yet many women go past their date, and then the app has nothing for her. Week 42 needs a page: what is normal now, the extra checks, and when induction is usually offered, with her doctor deciding.

Week by week > Week 5 (7)

Piece (their title)	From	Type	Decision	Pri	Why
Week 5: Your Baby This Week, Body Changes, Baby Science add to: Week 5 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 5 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, nausea, food cravings and aversions and excessive saliva) with tips, and short notes on "HCG and home pregnancy tests", "Early pregnancy signs" and "Pregnancy hormones kick in". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
5 weeks: Fatigue & sensory changes add to: Week 5 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 5 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on tiredness, a stronger sense of smell and a metallic taste, linking to our symptom pages where we have them.
Your Pregnancy Week 5 add to: Week 5 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
5 weeks FAQs: Can you feel a bump & more add to: Week 5 page	Flo	Article	Add to a piece we already have	P3	Our week 5 page does not answer the questions women ask that week, such as feeling a bump and testing positive. Add them as two or three short questions and answers.
Can you feel a baby bump at 5 weeks? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Hormones & healthy pregnancy add to: Week 5 body changes (Hormones section)	Flo	Video	Add to a piece we already have	P3	Our week 5 page already has a hormones section; a short film later would help, but the facts are there.
Pregnancy hormones add to: Week 5 body changes (Hormones section)	Flo	Collection or course	Add to a piece we already have	P3	Our week 5 page explains hormones briefly. A short film series is nice to have, but not a gap in facts.

Week by week › Week 6 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 6: Your Baby This Week, Body Changes, Baby Science add to: Week 6 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 6 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, nausea and vomiting, bloating and gas and breast tenderness and changes) with tips, and short notes on "Frequent urination" and "Heartburn and indigestion". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
6 weeks: Nipple changes & fatigue add to: Week 6 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 6 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on nipple changes and tiredness, linking to our symptom pages where we have them.
Your Pregnancy Week 6 add to: Week 6 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
6 weeks FAQs: Will your bump show & more add to: Week 6 page	Flo	Article	Add to a piece we already have	P3	Our week 6 page does not answer the questions women ask that week, such as when the bump shows and what to avoid now. Add them as two or three short questions and answers.
When does a fetus develop a brain? add to: Week 6 page (weekContent.json)	Flo	Article	Add to a piece we already have	P3	A line on brain development at the right weeks would enrich our week pages; there is no need for a separate read.
Will you have a bump at 6 weeks pregnant? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Week by week › Week 7 (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week 7: Your Baby This Week, Body Changes, Baby Science add to: Week 7 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 7 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, breast tenderness and changes, frequent urination and food cravings and aversions) with tips, and short notes on "Know the signs", "Your swollen breasts" and "Coping with food aversions". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
7 weeks: Breast changes, nausea & more add to: Week 7 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 7 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on breast changes, nausea and drinking enough water, linking to our symptom pages where we have them.

Your Pregnancy Week 7 add to: Week 7 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
7 weeks FAQs: How many months are you & more add to: Week 7 page	Flo	Article	Add to a piece we already have	P3	Our week 7 page does not answer the questions women ask that week, such as how many months she is and whether symptoms say anything about the pregnancy. Add them as two or three short questions and answers.
How many months pregnant are you at 7 weeks? add to: Week page "What happens in week 7"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Should you have a bump yet? add to: Week page, "For you this week"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Week by week › Week 8 (4)

Piece (their title)	From	Type	Decision	Pri	Why
Week 8: Your Baby This Week, Body Changes, Baby Science add to: Week 8 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 8 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, nausea and vomiting, bloating and gas and constipation) with tips, and short notes on "Morning sickness" and "Eating fruit during pregnancy". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
8 weeks FAQs: Do you need to rest & more add to: Week 8 page	Flo	Article	Add to a piece we already have	P2	Our week 8 page does not answer the questions women ask that week, such as needing rest and the first antenatal visit. Add them as two or three short questions and answers.
8 weeks: Frequent peeing, sickness & nausea add to: Week 8 page, For you this week	Flo	Article	Add to a piece we already have	P2	Our week 8 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on peeing more often, sickness and nausea, linking to our symptom pages where we have them.
Your Pregnancy Week 8 add to: Week 8 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

Week by week › Week 9 (5)

Piece (their title)	From	Type	Decision	Pri	Why
---------------------	------	------	----------	-----	-----

Week 9: Your Baby This Week, Body Changes, Baby Science add to: Week 9 page (Details)	What to Expect	Week page	Add to a piece we already have	P1	Our week 9 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, bloating and gas, breast tenderness and changes and frequent urination) with tips, and short notes on "Feeling so tired!" and "Snacking well". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
Your Pregnancy Week 9 add to: Week 9 page (the home's "This Week Explained" film slot has no film yet)	What to Expect	Video	Add to a piece we already have	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
9 weeks FAQs: Is it the hardest week & more add to: Week 9 page	Flo	Article	Add to a piece we already have	P3	Our week 9 page does not answer the questions women ask that week, such as whether this is the hardest week and how many months she is. Add them as two or three short questions and answers.
9 weeks: Hair changes, bloating & more add to: Week 9 page, For you this week	Flo	Article	Add to a piece we already have	P3	Our week 9 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on hair changes and bloating, linking to our symptom pages where we have them.
How many months pregnant are you at 9 weeks? add to: Week page "What happens in week 9"	Flo	Question (FAQ)	Add to a piece we already have	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.

Week by week › Week N (6)

Piece (their title)	From	Type	Decision	Pri	Why
Week-by-week viewer with chips "0 weeks" to "42 weeks", each with a doctor-reviewed page, baby picture and fruit, size, development text and References add to: Week page "What happens in week N" (weeks 4 to 40, "ParentVeda editorial")	Flo	Tool / download	Add to a piece we already have	P1	Our week page is thin next to theirs: no body changes, no symptoms, no sources, and no weeks before 4 or after 40. The week page is the heart of a pregnancy app, so this is detailed in "Behind · Week by week".
Your changing body: Up to 42 weeks add to: Week N page, For you this week	Flo	Collection or course	Add to a piece we already have	P1	Our week page gives only one line on her body, and the common symptoms we already wrote for each week in weekContent.json never reach her. A short 'your body this week' part on every week page, with two changes and what helps, is the most read thing in Flo's pregnancy library.
"Pregnancy weeks" explained ("being six weeks pregnant means that your last period started six weeks ago... gestational age may change a little after an ultrasound") add to: Week page footer "your scan is the measure, not this page"	Flo	Question (FAQ)	Add to a piece we already have	P2	The same question as above. Flo answers it one tap from the week count; we should too, and say that the date from her scan or doctor is the one we follow.
130 pregnancy questions answered add to: Week N page	Flo	Collection or course	Add to a piece we already have	P2	Our week pages answer what the baby is doing, but not the questions women actually type each week, like how many months pregnant am I. Add three short questions and answers to each week page.

How is the gestational age calculated? ("calculated from the first day of your last menstrual period (LMP)... doctors use the LMP method for pregnancy dating. Flo does the same!") add to: Onboarding "Your dates" and Tools › Due date ("If you have had a dating scan since, its date is the better one.")	Flo	Question (FAQ)	Add to a piece we already have	P2	Many women are confused that pregnancy is counted from the last period, not from conception. One plain line on the week page, with the note that a scan date wins, would clear this up.
Size themes: Fruits / Twins / Disney Baby Milestones, all 42 weeks ("*These are conceptual estimates and shouldn't replace measurements provided by your practitioner.") add to: Indian size sets (Fruit & veg, Kitchen, Sweets); the toggle is off until pictures exist	What to Expect	Tool / download	Add to a piece we already have	P3	We already wrote three Indian size sets; they only need their pictures so the switch can be turned on. That will be more fun and more Indian than their themes.

Work, money and rights › Leave and rights (7)

Piece (their title)	From	Type	Decision	Pri	Why
Maternity Leave	What to Expect	Article	Add: write our own version	P1	US law does not apply, but every working woman here asks about leave. Write it for India: 26 weeks of paid leave under the Maternity Benefit Act for the first two children, 12 weeks from the third, and what to check with her employer.
How to Tell Your Boss	What to Expect	Article	Add: write our own version	P2	Telling work is a real worry, and in India it is tied to planning maternity leave. A short read on when to tell and what to ask about leave would help.
Paternity and Family Leave in the U.S.	What to Expect	Article	Add: write our own version	P2	US law does not apply here, but fathers in India want to know what paternity leave they can get. Write it for India: central government employees get 15 days, and private companies set their own policy.
Should My Partner Take Parental Leave?	What to Expect	Video	Add: write our own version	P2	Paternity leave in India is short and patchy, and couples plan the first weeks around it. Write it for India: what government and private employers usually give.
Paternity and Family Leave	What to Expect	Article	Add to a piece we already have	P2	This belongs in the same Indian leave read, with a part on the father's leave: 15 days for central government employees and company policy elsewhere.
Maternity leave stress and tips to prevent it	Flo	Article	Add: write our own version	P3	Planning her leave before the baby comes is a real worry for working women. Our piece should be written for India, with the 26 weeks of paid leave under the Maternity Benefit Act.
How to Get a Job While Pregnant	What to Expect	Article	Add to a piece we already have	P3	One part in the rights read can say that the Maternity Benefit Act needs 80 days of work in the year before, which matters if she changes jobs while pregnant.

Work, money and rights › Money (17)

Piece (their title)	From	Type	Decision	Pri	Why
What Pregnancy Really Costs	What to Expect	Article	Add: write our own version	P1	US insurance does not apply, but what a delivery costs in India, and what health insurance maternity cover pays, is one of the first practical worries for families. Write it for India with honest price ranges for normal and C-section births.
Getting Health Insurance While Pregnant	What to Expect	Video	Add: write our own version	P2	The American details do not apply, but maternity cover and its waiting periods are a real worry in India. Write it for India: what policies cover, waiting periods, and employer cover.
How to Prepare for a Baby Financially	What to Expect	Article	Add: write our own version	P2	A short checklist for India (check maternity cover and its waiting period, add the baby to the policy, check leave rules at work) is useful and we have nothing on it.

Preparing financially for starting a family	Flo	Video	Add: write our own version	P2	A plain guide to planning money for a baby, written for India, belongs in the new money tab.
Start budgeting for baby	What to Expect	Daily tip	Add: write our own version	P2	We have nothing on money for a new baby. Write it for India: delivery costs, first year costs and what can wait.
The nine-month countdown	Flo	Video	Add: write our own version	P2	A month by month money plan, with scan costs, the delivery and leave, would help Indian couples plan ahead.
The ultimate baby budget guide	Flo	Collection or course	Add: write our own version	P2	Planning money for the delivery and the first year matters to Indian families, and we have nothing on it. Our version should be written for India, with delivery costs and insurance.
Understanding and easing your money worries before baby arrives	Flo	Article	Add: write our own version	P2	Money is a real worry for young Indian families, from delivery bills to lost income. We have nothing on it, and a calm piece written for India would help.
What Babies Really Cost	What to Expect	Article	Add: write our own version	P2	A plain Indian baby budget for the first year would help families plan. Write it for India with real ranges, not American numbers.
Budget categories	Flo	Article	Add: write our own version	P3	This fits the same simple budget sheet in the money tab.
Family goal setting workbook	Flo	Article	Add: write our own version	P3	A simple budget sheet she can fill in would fit the money tab.
Introduction	Flo	Video	Add: write our own version	P3	This is part of the money course above, which we would write for India.
Setting your family's financial goals	Flo	Video	Add: write our own version	P3	This fits the money tab as a small part of planning.
The “fourth trimester”	Flo	Video	Add: write our own version	P3	This belongs in our money tab as part of planning, written for Indian costs.
Where to Find Financial Help as a Single Mom	What to Expect	Article	Add: write our own version	P3	US programmes do not apply, but Indian schemes such as the PM Matru Vandana Yojana cash benefit and Janani Suraksha Yojana help many women. Write it for India.
How to Make a Family Budget	What to Expect	Article	Add to a piece we already have	P3	A few budgeting steps can sit in the baby budget piece; general money advice is outside our focus.
Life Insurance 101	What to Expect	Article	Add to a piece we already have	P3	One line in the money checklist about term life cover for a new parent is enough; a full insurance guide is outside what we do.

Work, money and rights › Work (3)

Piece (their title)	From	Type	Decision	Pri	Why
Working While Pregnant	What to Expect	Article	Add: write our own version	P1	Most of our urban users work through pregnancy, and we have only one Mind read on work stress. A practical read on sitting, commuting, breaks, night shifts and her rights at work, written for India, is a real gap.
Should You Go Back to Work?	What to Expect	Article	Add: write our own version	P3	Many women begin weighing this decision during pregnancy, often with family opinions in the mix. A calm piece on thinking it through fits our proposed work section.
What Is a SAHM and Is It Right for You?	What to Expect	Article	Add to a piece we already have	P3	Whether to go back to work is a question many women start thinking about in pregnancy. One gentle section on it fits our work piece.

Your first weeks › Just found out (10)

Piece (their title)	From	Type	Decision	Pri	Why
A spotlight on what to expect during your first trimester	Flo	Article	Add: write our own version	P1	We have no read on the first doctor's visit: what happens, which tests she will be sent for, and what to ask. It is the first real step after a positive test and every woman goes through it.
Prepare for your first prenatal visit	What to Expect	Daily tip	Add: write our own version	P1	The first visit to the doctor is the first big step after a positive test, and we have no piece on what happens there or what to bring and ask.

The first weeks of pregnancy: What to expect	Flo	Article	Add: write our own version	P1	The first weeks after a positive test are full of worry about cramps and spotting, and our week pages start only at week 4 with little on this. A calm guide for the first weeks, ending with when to call a doctor, is needed.
What happens at your first prenatal appointment?	Flo	Question (FAQ)	Add: write our own version	P1	We have no piece on the first visit to the doctor: the questions she will be asked, the tests, and what to bring. It is one of the first things she needs.
Your 1st prenatal checkpoint: 6 things to know	Flo	Article	Add: write our own version	P1	The first visit after a positive test is the first real step of pregnancy, and we have nothing on it. Written for India: when to go, registering with a hospital, what the doctor will ask and which blood tests come first.
Your First Prenatal Visit	What to Expect	Video	Add: write our own version	P1	The first doctor's visit is one of the first things every pregnant woman does, and we have nothing that prepares her for it. Write it for India: the booking visit, the blood tests, what to ask.
Are your hCG levels normal?	What to Expect	Daily tip	Add: write our own version	P2	Many women get an hCG number from their first blood test and worry about it. A short piece should explain what the test is for and leave reading her own number to her doctor.
Choose the right pregnancy doctor for you	What to Expect	Daily tip	Add: write our own version	P2	Choosing an obstetrician and a hospital is one of her first big decisions, and we say nothing about it. Write it for India: private or government hospital, what to ask, and distance from home.
Early pregnancy essentials: the lowdown on checkups, symptoms, and more	Flo	Article	Add: write our own version	P2	This belongs with the first-visit read we are adding in Your first weeks, so the early weeks have one clear starting place.
Get used to the urine test	What to Expect	Daily tip	Add: write our own version	P3	Women give a urine sample at every visit without being told why. One paragraph in our first visit piece would explain what it checks.

Your first weeks › Telling people (5)

Piece (their title)	From	Type	Decision	Pri	Why
Is It Time? Announcing Your Pregnancy (daily insight, Essentials, week 0)	Flo	Story (slides)	Add: write our own version	P2	Deciding when to tell family and work is a real question in the first weeks, and in India it comes with extra pressure from relatives. We have a Mind read on the secret months, but nothing practical on when and how to share the news.
Pregnancy announcement 101	Flo	Article	Add: write our own version	P2	Deciding when to tell people is one of the first questions after a positive test. Our read "The secret months, carried alone" covers the feelings, but not the practical when and how.
Telling Your Kids You're Pregnant	What to Expect	Video	Add: write our own version	P2	Second-time mothers often worry about this and we have nothing on it. A short, practical piece would help.
When to Tell People You're Pregnant	What to Expect	Article	Add: write our own version	P2	Deciding when to tell family and work is a real question in the first weeks, and in India the family side is often the harder one. We have only the Mind read on the secret months, not a practical guide.
How to Hide a Pregnancy	What to Expect	Article	Add to a piece we already have	P3	Many Indian women keep the first months quiet by family custom. A short part on coping at work and at home while no one knows fits the telling people piece.

Appendix B · Every piece we found, and what we decided

All 1326 pieces, by app and type, including the ones we should not add, each with the reason.

Flo · Articles (379)

#	Their title	Decision	Where / our piece	Pri	Why
1	41 weeks FAQs: Should you be induced & more	Add: write our own version	Labour prep › Signs and stages	P1	Our week pages stop at 40 and we have nothing on going past the due date or being induced. Many women reach 41 weeks and need to understand what their doctor will offer; the decision stays with the doctor.
2	42 weeks: Signs of labor & possible induction	Add: write our own version	Labour prep › Signs and stages	P1	Induction is common in India and we have no read on it at all. A calm read on why and how labour is started, and what she can ask her doctor, belongs in the new Signs and stages tab.
3	Birth: When's it time to go to the hospital?	Add: write our own version	Labour prep › Signs and stages	P1	This is the most practical question of the last weeks. Our version should be written for India, with travel time and traffic in mind, and always say "call your doctor when in doubt".
4	Labor induction 101: Why and how doctors speed up childbirth	Add: write our own version	Labour prep › Signs and stages	P1	Induction is very common in Indian hospitals, often past the due date. She should understand the methods and what to ask before it happens, and we have nothing on it.
5	Symptoms that indicate labor's about to begin	Add: write our own version	Labour prep › Signs and stages	P1	Every woman in her last weeks wants to know how she will know labour has started, and we have nothing on it.
6	Things to know about sex during pregnancy	Add: write our own version	Mind & mood › Sex and closeness	P1	Our "Can I" answer on sex in pregnancy is one short verdict. She needs a proper piece on when sex is fine, when her doctor may say to stop, and how desire changes.
7	Your pregnancy sex need to know	Add: write our own version	Mind & mood › Sex and closeness	P1	Our only answer is a one-line 'Sex During Pregnancy' in Is it safe?. Couples need a full, gentle read on when sex is safe, when the doctor may say to stop (bleeding, low placenta, leaking) and how desire changes.
8	How to pregnancy-proof your workout	Add: write our own version	Move & rest › Move safely	P1	This is the core piece our movement door needs: how much exercise is healthy, what to change each trimester, and the signs that mean stop and call the doctor.
9	Prenatal appointments: Everything you need to know	Add: write our own version	Scans & tests › My scans	P1	She will see her doctor ten or more times, and we never explain what those visits are for. A plain read on the usual Indian schedule of visits and what is checked each time would make every appointment less mysterious.
10	Why it's important to get a tdap vaccine during pregnancy	Add: write our own version	Scans & tests › My scans	P1	Vaccines in pregnancy (the tetanus shots every Indian mother gets, and the whooping cough and flu vaccines) have no read and no place on her timeline. Add them to the timeline with a plain read on why and when, and tell her to confirm with her doctor.
11	Cramps in pregnancy explained	Add: write our own version	Symptoms › By symptom	P1	Cramping in early pregnancy frightens many women, and we have no symptom page for it. A page on ordinary stretching cramps versus the pains that need a doctor the same day is needed.

12	Pregnancy discharge decoded	Add: write our own version	Symptoms › By symptom	P1	Discharge is one of the most common worries in pregnancy and we have no symptom page on it. A plain page on what is normal and which colours or smells mean calling the doctor is a real gap.
13	41 weeks: Know these signs of labor	Add: write our own version	Week by week › Week 41 and 42	P1	Our week pages stop at 40, so a woman who goes past her date suddenly has nothing. This goes on the week 41 and 42 page we are adding, with her doctor's plan always first.
14	A spotlight on what to expect during your first trimester	Add: write our own version	Your first weeks › Just found out	P1	We have no read on the first doctor's visit: what happens, which tests she will be sent for, and what to ask. It is the first real step after a positive test and every woman goes through it.
15	The first weeks of pregnancy: What to expect	Add: write our own version	Your first weeks › Just found out	P1	The first weeks after a positive test are full of worry about cramps and spotting, and our week pages start only at week 4 with little on this. A calm guide for the first weeks, ending with when to call a doctor, is needed.
16	Your 1st prenatal checkup: 6 things to know	Add: write our own version	Your first weeks › Just found out	P1	The first visit after a positive test is the first real step of pregnancy, and we have nothing on it. Written for India: when to go, registering with a hospital, what the doctor will ask and which blood tests come first.
17	When do you start showing in pregnancy?	Add: write our own version	Belly & skin › Belly care	P2	"When will I start showing?" is one of the most asked early questions, and we have no answer to it.
18	How to get your home ready for your baby	Add: write our own version	Getting ready for baby › Home and help	P2	Getting the home ready is one of the big jobs of the last months, and we have nothing on it. Our version should fit Indian homes and joint families.
19	Your prenatal checklist in trimester 3	Add: write our own version	Getting ready for baby › Home and help	P2	We have a hospital bag and a birth plan, but no simple list of the jobs of the last three months, such as choosing the baby's doctor and sorting hospital papers. A short Indian checklist would tie our tools together.
20	Checklist: Essential clothes for your newborn	Add: write our own version	Getting ready for baby › What to buy	P2	Families often buy too many clothes, or the wrong ones for the season. A simple list for Indian weather belongs with what to buy.
21	Your essential guide to breast milk	Add: write our own version	Labour prep › Feeding and first days	P2	Women often worry that they will not have milk. Knowing about colostrum and when milk comes in, before the birth, removes that worry, and we have nothing on it.
22	42 weeks FAQs: Will baby be bigger & more	Add: write our own version	Labour prep › Signs and stages	P2	This belongs with the new piece on going past the due date. It should give the reasons calmly and send every decision back to her doctor.
23	5 ways to kickstart labor naturally	Add: write our own version	Labour prep › Signs and stages	P2	Same as the other piece on bringing on labour: women in India are told many home tricks, and a calm piece on what is safe and what is not would help.
24	An expert's guide to the mucus plug	Add: write our own version	Labour prep › Signs and stages	P2	Many women are alarmed when they lose the mucus plug. A short explanation belongs with the signs of labour.
25	How to kickstart labor naturally	Add: write our own version	Labour prep › Signs and stages	P2	In India women are told to try castor oil, ghee, long walks and more when the due date passes. A calm piece on what is harmless, what is risky and why the doctor decides about induction would help, and we have nothing on it.

26	The lowdown on cervical dilation	Add: write our own version	Labour prep › Signs and stages	P2	Women hear "you are 3 centimetres" in the labour room without knowing what it means. A plain explanation belongs in our stages of labour piece.
27	Your birth options checklist	Add: write our own version	Labour prep › Talk and learn	P2	A checklist like our "What to ask" lists would help her understand her doctor's reasons calmly. It must help her ask, never help her argue with her doctor.
28	What exactly is cord blood banking, and is it worth it?	Add: write our own version	Labour prep › Understand the birth	P2	Private cord blood banks sell hard to Indian parents in the last months. An honest piece on what it can and cannot do, with the cost, would protect her from pressure, and we have nothing on it.
29	8 bump-friendly sex positions to try	Add: write our own version	Mind & mood › Sex and closeness	P2	Couples want practical help once the bump makes sex awkward. Rewrite it in a gentle, private tone for the new sex and closeness tab.
30	Low sex drive in pregnancy explained	Add: write our own version	Mind & mood › Sex and closeness	P2	Desire going down is common and couples rarely talk about it. Our Mind read on intimacy changes only touches it; it belongs in the new Sex and closeness tab, written in a gentle, private tone.
31	Your pregnancy sex Qs answered	Add: write our own version	Mind & mood › Sex and closeness	P2	These real questions should become headings in the sex in pregnancy read we are adding, written gently.
32	Your pregnancy sex questions answered	Add: write our own version	Mind & mood › Sex and closeness	P2	Questions such as crying during sex or dryness are common and rarely asked aloud in India. Rewrite them in a gentle, private tone for the new tab.
33	Let's talk about rainbow babies	Add: write our own version	Mind & mood › Understand	P2	Many women are pregnant again after a miscarriage and carry a special kind of worry. Our 'Fear of miscarriage' read does not speak to them directly; a gentle read on being pregnant after a loss would.
34	How to prepare your perineum for birth	Add: write our own version	Move & rest › Pelvic floor	P2	Fear of tearing is common and our only piece on it, "Will I tear, and what actually helps", is a title with nothing written. A plain guide to perineal massage would answer it.
35	3 common pregnancy food myths debunked	Add: write our own version	Nutrition › What to eat now	P2	Indian families have their own food beliefs (ghee for an easy birth, saffron for a fair baby, papaya and pineapple fears). A kind read on the common ones, with what is true, would help her answer relatives.
36	Diarrhea in pregnancy explained	Add: write our own version	Symptoms › By symptom	P2	Loose motions are common in India, especially in summer, and dehydration matters in pregnancy. We have no page on it; a short one with ORS and when to call is useful.
37	How to clean your vulva	Add: write our own version	Symptoms › By symptom	P2	Discharge and itching down there are common worries in pregnancy, and our symptom library has no page on intimate hygiene or discharge. A plain page should say water is enough and when discharge needs a doctor.
38	Tender breasts in pregnancy explained	Add: write our own version	Symptoms › By symptom	P2	Tender and changing breasts are among the first signs women notice, and we have no page on them. A short page on breast changes, including leaking later on, would cover it.

39	This is how your breasts might change during and after pregnancy	Add: write our own version	Symptoms › By symptom	P2	Same as the other breast change pieces: our symptom library has no page on breast changes, one of the first things women notice.
40	What's the deal with pregnancy cramps?	Add: write our own version	Symptoms › By symptom	P2	This is the same missing belly cramps page. Our page on a sharp pull at the side covers only one kind of pain.
41	What's the deal with tender breasts during pregnancy?	Add: write our own version	Symptoms › By symptom	P2	Breast changes are among the first and most common symptoms, and our library has no page on them. It should also calm the worry about early leaking.
42	How long does pregnancy actually last?	Add: write our own version	Week by week › Week 4	P2	Most women are confused that week 4 already starts at a missed period. A short explanation of how weeks and trimesters are counted belongs at the start of our week by week pages.
43	Understanding and easing your money worries before baby arrives	Add: write our own version	Work, money and rights › Money	P2	Money is a real worry for young Indian families, from delivery bills to lost income. We have nothing on it, and a calm piece written for India would help.
44	Early pregnancy essentials: the lowdown on checkups, symptoms, and more	Add: write our own version	Your first weeks › Just found out	P2	This belongs with the first-visit read we are adding in Your first weeks, so the early weeks have one clear starting place.
45	Pregnancy announcement 101	Add: write our own version	Your first weeks › Telling people	P2	Deciding when to tell people is one of the first questions after a positive test. Our read "The secret months, carried alone" covers the feelings, but not the practical when and how.
46	Your growing baby bump: What to expect when	Add: write our own version	Belly & skin › Belly care	P3	Women compare their bumps with others and worry. A short piece on how bumps grow and why they differ fits our belly care tab.
47	11 safety tips for your baby's nursery	Add: write our own version	Getting ready for baby › Home and help	P3	Few Indian homes have a separate nursery, so our version should be about making the baby's corner safe, and we have nothing on it.
48	4 tips for nesting (safely) during pregnancy	Add: write our own version	Getting ready for baby › Home and help	P3	This belongs in the same nesting piece: what to avoid while getting the home ready, such as climbing, lifting and strong cleaning products.
49	Planning a baby shower? Here's how to get the party started	Add: write our own version	Getting ready for baby › Home and help	P3	Baby showers are a Western custom, but India has its own, such as godh bhara, seemantham and valaikattu. A piece written for India on enjoying these safely would be welcome.
50	What's the deal with pregnancy nesting?	Add: write our own version	Getting ready for baby › Home and help	P3	Many women feel a strong urge to get the house ready in the last weeks. A short piece that explains it and gives safe ways to do it would be useful, and we have nothing on it.
51	5 safety checks for your baby's crib	Add: write our own version	Getting ready for baby › What to buy	P3	Our version should cover the cot and the traditional cradle or palna, which many Indian families use.
52	Baby feeding supplies to add to your list	Add: write our own version	Getting ready for baby › What to buy	P3	A short list of feeding supplies belongs with what to buy, written so it supports breastfeeding first.
53	Infant formula or breast milk? Pros and cons	Add: write our own version	Labour prep › Feeding and first days	P3	Many women decide how they will feed before the birth. Our version should support breastfeeding first, the way Indian doctors advise, without shaming anyone who needs formula.

54	How to birth your placenta	Add: write our own version	Labour prep › Signs and stages	P3	Few women know there is a third stage of labour. One short part of the stages of labour read would cover it.
55	Doula vs. Midwife: What is the difference?	Add: write our own version	Labour prep › Understand the birth	P3	This fits in the same doula piece. In India most births are led by an obstetrician, so our version should explain who is who in an Indian labour room.
56	Getting support during childbirth from a doula	Add: write our own version	Labour prep › Understand the birth	P3	This belongs in the same doula piece, which we do not have yet.
57	What does a doula do?	Add: write our own version	Labour prep › Understand the birth	P3	Doulas are now available in Indian cities, and many women have never heard of them. A short piece, written for India, would let her decide if she wants one.
58	8 bump-friendly sex positions	Add: write our own version	Mind & mood › Sex and closeness	P3	Comfort with a growing bump is a real question couples have. Rewrite in a gentle, private tone as a short part of the sex in pregnancy read, without the explicit detail.
59	Ask an expert: Can sex start labor?	Add: write our own version	Mind & mood › Sex and closeness	P3	A short honest answer fits the new sex and closeness tab, and it also answers a common question in the last weeks.
60	Can sex start labor?	Add: write our own version	Mind & mood › Sex and closeness	P3	Families in India pass this advice around near the due date. One calm answer, in the new Sex and closeness tab, settles it.
61	Pregnancy sex: What men think	Add: write our own version	Mind & mood › Sex and closeness	P3	Many husbands worry sex could hurt the baby and stop without saying why. A short read for both of them, linked from his side, would help couples talk.
62	Pregnant sex: A therapist's tips	Add: write our own version	Mind & mood › Sex and closeness	P3	Useful ideas on closeness when intercourse is not wanted. Fold them into the Sex and closeness tab in a gentle tone.
63	Sex dreams during pregnancy	Add: write our own version	Mind & mood › Sex and closeness	P3	A short, reassuring note would help, placed in the new sex and closeness tab and written in a gentle tone.
64	IVF pregnancy: Sick of sickness?	Add: write our own version	Mind & mood › Understand	P3	Women who conceived after IVF often feel they are not allowed to complain about sickness. We have nothing written for an IVF pregnancy, and a short, kind piece would help them.
65	Pregnancy yoga: Why the hype?	Add: write our own version	Move & rest › Move safely	P3	A short piece on what prenatal yoga helps with, and what to avoid, would sit well at the top of our movement door.
66	Pregnancy can change the way you see the world — literally	Add: write our own version	Symptoms › By symptom	P3	A short page would help, and it must say that blurred vision with a headache or swelling is an emergency, which our urgent lists already name.
67	Twin symptoms: Fact vs myth	Add: write our own version	Twins and more › Understand	P3	Women carrying twins want to know what will be different for them, and we have almost nothing on twins. This belongs in the new Twins and more door.
68	When you can find out if you're having multiples	Add: write our own version	Twins and more › Understand	P3	We only have a twins diet guide and a report word. A short read on finding out it is twins belongs in the new Twins and more door.
69	6 tips to keep your placenta healthy	Add: write our own version	Week by week › Week 12	P3	This fits inside the placenta explainer we propose for week 12, not as a separate piece.
70	Everything you need to know about the umbilical cord	Add: write our own version	Week by week › Week 12	P3	A short explainer on the cord belongs with the placenta piece; the worried questions (cord around the neck) are already answered in our report decoder.

71	Power to your placenta: How to look after it	Add: write our own version	Week by week › Week 12	P3	We never explain the placenta, though it appears on every scan report. A short plain explainer on the week the placenta takes over would help her read her reports later.
72	Maternity leave stress and tips to prevent it	Add: write our own version	Work, money and rights › Leave and rights	P3	Planning her leave before the baby comes is a real worry for working women. Our piece should be written for India, with the 26 weeks of paid leave under the Maternity Benefit Act.
73	Budget categories	Add: write our own version	Work, money and rights › Money	P3	This fits the same simple budget sheet in the money tab.
74	Family goal setting workbook	Add: write our own version	Work, money and rights › Money	P3	A simple budget sheet she can fill in would fit the money tab.
75	What happens in labor	Add to a piece we already have	Labour prep › Signs and stages ours: Weekly read "Labour, step by step"	P1	Most first time mothers do not know what happens after they reach the labour ward. Our labour read should walk her through an Indian hospital: admission, checks, monitoring and who can be with her.
76	12 reasons for a C-section	Add to a piece we already have	Labour prep › Understand the birth ours: If it becomes a C-section (coming soon)	P1	Knowing why a C-section may be needed helps her understand her doctor's advice. It belongs in our C-section read, which is still coming soon.
77	The step by step of a C-section	Add to a piece we already have	Labour prep › Understand the birth ours: If it becomes a C-section (coming soon)	P1	C-sections are very common in India, yet our read on them is still coming soon. This should be written first on the Labour door.
78	Let's talk about pregnancy cramps	Add to a piece we already have	Symptoms › By symptom ours: Cramps page (to be added); A sharp pull at the side of the belly	P1	Our round ligament page covers one kind of pain. Fold this into the cramps page we are adding, which must say clearly which pains mean going to the hospital.
79	37 weeks: Bump changes & possible contractions	Add to a piece we already have	Week by week › Week 37 ours: Week 37 page, For you this week	P1	Near the due date she needs to recognise the first signs of labour, and our week 37 page does not mention them. Add a short 'your body this week' part on the baby dropping and possible contractions, ending with when to call the labour ward.
80	38 weeks: More discharge & your mucus plug	Add to a piece we already have	Week by week › Week 38 ours: Week 38 page, For you this week	P1	Near the due date she needs to recognise the first signs of labour, and our week 38 page does not mention them. Add a short 'your body this week' part on more discharge and the mucus plug, ending with when to call the labour ward.
81	39 weeks: Possible water breaking & contractions	Add to a piece we already have	Week by week › Week 39 ours: Week 39 page, For you this week	P1	Near the due date she needs to recognise the first signs of labour, and our week 39 page does not mention them. Add a short 'your body this week' part on the waters breaking and contractions starting, ending with when to call the labour ward.
82	40 weeks: Possible sleep troubles & contractions	Add to a piece we already have	Week by week › Week 40 ours: Week 40 page, For you this week	P1	At week 40 she needs to know which changes mean labour may be starting, and our week 40 page does not say. Add a short 'your body this week' part that ends with when to call the labour ward.
83	Implantation or miscarriage?	Add to a piece we already have	Complications › Get help now ours: Bleeding in pregnancy	P2	Our 'Bleeding in pregnancy' read covers when to call. It can add the early weeks question she actually asks, spotting around the time of the period versus signs of a miscarriage, always ending with calling the doctor.

84	COVID-19 vaccines and pregnancy: Your burning questions answered	Add to a piece we already have	Is it safe? › Can I take it? ours: Can I answer: Vaccines (TT / Flu / COVID)	P2	We have one short answer on vaccines. Women need a proper read on which vaccines are given in pregnancy in India (tetanus and diphtheria, flu, and when), and that they are safe for the baby; her doctor gives the final schedule.
85	Final push: Your contraction cheat sheet	Add to a piece we already have	Labour prep › Contraction timer ours: Contraction Tracker tool	P2	Our contraction timer counts, but does not explain what the timings mean. A short guide beside it, ending with "follow what your doctor told you", would make it useful.
86	5 hacks for pain-free breastfeeding	Add to a piece we already have	Labour prep › Feeding and first days ours: Why early breastfeeding preparation helps	P2	We have one short expert note on breastfeeding preparation. What a good latch looks like is worth learning before the birth, so this should be added to it.
87	5 latch hacks for pain-free breastfeeding	Add to a piece we already have	Labour prep › Feeding and first days ours: Why early breastfeeding preparation helps	P2	Same as the other latch piece: a good latch is worth learning before the birth, as part of our breastfeeding preparation.
88	8 skin-to-skin contact benefits	Add to a piece we already have	Labour prep › Feeding and first days ours: The first hour after birth (coming soon)	P2	Our read on the first hour after birth is still coming soon. Skin to skin contact is something she can ask for in an Indian hospital, so it should be part of that read.
89	Getting emotional support from close ones during childbirth	Add to a piece we already have	Labour prep › For your partner ours: What your partner should actually do (coming soon)	P2	Our partner read for the birth is still coming soon. It should include how he or a family member can keep her calm in the labour room.
90	How to pick the right birthing partner for you	Add to a piece we already have	Labour prep › For your partner ours: What your partner should actually do (coming soon)	P2	Our partner read for the birth is still coming soon. It should also help her choose her birth companion, written for Indian hospitals where often only one person may come in.
91	It takes two, baby! Preparing for labor with your birth partner	Add to a piece we already have	Labour prep › For your partner ours: What your partner should actually do (coming soon)	P2	Our partner read for the birth is still coming soon. Preparing together, before the day, should be part of it.
92	From pain relief to cord cutting: What you need to know about delivery	Add to a piece we already have	Labour prep › Signs and stages ours: Weekly read "Labour, step by step"	P2	Our labour read can add the moments after the birth, such as cutting the cord and waiting a little before cutting it.
93	The 4 contraction types and how they feel	Add to a piece we already have	Labour prep › Signs and stages ours: Tightenings that are not labour	P2	We explain practice contractions but not how real labour contractions feel different. That comparison belongs in our signs of labour piece.
94	8 benefits of skin-to-skin contact	Add to a piece we already have	Labour prep › Understand the birth ours: The first hour after birth (coming soon)	P2	Deciding on skin to skin belongs in her birth plan before the birth. Our coming soon read on the first hour after birth should explain it and let her ask for it.
95	Choosing a C-section? Read this	Add to a piece we already have	Labour prep › Understand the birth ours: If it becomes a C-section (coming soon)	P2	Many Indian women ask for a planned C-section out of fear of labour. An honest part on the risks and recovery belongs in our C-section read, with the decision made together with her doctor.
96	How to have an empowered birth	Add to a piece we already have	Labour prep › Understand the birth ours: Your birth plan	P2	Our birth plan helps her write down wishes but not how to ask questions in the labour room. A short guide on asking her doctor about each step would help her feel heard.

97	The benefits of breathing better during labor — and how to master it	Add to a piece we already have	Labour prep › Understand the birth ours: Pain relief: natural, epidural and C-section	P2	Our pain relief read mentions natural methods. Breathing for labour deserves its own part, and a short video would help here.
98	These 3 Kegel exercises can strengthen your pelvic floor	Add to a piece we already have	Move & rest › Pelvic floor ours: Kegel Care tool	P2	We have a Kegel tool, but no door points to it and we have nothing written on why the pelvic floor matters in pregnancy. It should sit in a pelvic floor tab with a short read.
99	5 ways to sleep comfortably in trimester 3	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping; trimester tip Start sleeping on your side	P2	Sleep is hardest in the last months, and side sleeping matters most then. Our sleep guide should give practical pillow and position help for this stage.
100	Tips to improve your sleep quality during each trimester	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P2	Our trouble sleeping page should grow into a trimester by trimester guide; this piece shows the shape.
101	A beginner's guide to placenta positions	Add to a piece we already have	Scans & tests › Understand a result ours: Report finding: Low-Lying Placenta	P2	Same gap as the piece above: the decoder should explain every placenta position a report can name.
102	Placenta positions: What do they mean?	Add to a piece we already have	Scans & tests › Understand a result ours: Report finding: Low-Lying Placenta	P2	Indian scan reports print words like anterior, posterior and fundal placenta, and women worry about them. Our decoder explains only a low placenta; it should explain every position and say most are simply normal.
103	This is when you can hear your baby's heartbeat for the first time	Add to a piece we already have	Scans & tests › Understand a scan ours: Scan page: Dating scan	P2	Not hearing a heartbeat at an early scan frightens many women. Our dating scan page should say when it is usually seen and that an early scan can simply be too early, with the doctor deciding the next step.
104	BV in pregnancy: The lowdown	Add to a piece we already have	Symptoms › By symptom ours: Discharge page (to be added)	P2	A grey discharge with a fishy smell is a sign to see the doctor, because this infection matters more in pregnancy. It belongs in the discharge page we are adding, ending with seeing the doctor for treatment.
105	Increased discharge in pregnancy explained	Add to a piece we already have	Symptoms › By symptom ours: Discharge page (to be added)	P2	This belongs in the single discharge page we are adding, so she finds every discharge question in one place.
106	The Zero Symptoms Club	Add to a piece we already have	Symptoms › Is this normal? ours: The 10 "Is this normal?" questions	P2	Many women panic when they feel nothing. We should add "I have hardly any symptoms. Is that normal?" to our list, with a calm answer and a nudge to ask her doctor if she is worried.
107	"Pregnancy weeks" explained (the (i) next to the week count)	Add to a piece we already have	Week by week › Week 1 to 3 ours: Week page; Due date calculator	P2	Our onboarding and due date tool mention the last period, but nowhere explains in plain words why she is 'six weeks' when conception was four weeks ago. Add this to the weeks 1 to 3 page, and say that a scan date from her doctor is the one to follow.
108	3 weeks: Fertilization & implantation	Add to a piece we already have	Week by week › Week 1 to 3	P2	Implantation spotting worries many women at the very start. It belongs on the weeks 1 to 3 page we are adding, with a line on when to call the doctor about bleeding.
109	11 weeks FAQs: First scan facts & more	Add to a piece we already have	Week by week › Week 11 ours: Week 11 page	P2	Our week 11 page does not answer the questions women ask that week, such as the first scan. Add them as two or three short questions and answers.

110	11 weeks: Skin changes & constipation	Add to a piece we already have	Week by week › Week 11 ours: Week 11 page, For you this week	P2	Our week 11 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on skin changes and constipation, linking to our symptom pages where we have them.
111	12 weeks: Baby bump & mood swings	Add to a piece we already have	Week by week › Week 12 ours: Week 12 page, For you this week	P2	Our week 12 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on the bump starting to show and mood swings, linking to our symptom pages where we have them.
112	13 weeks: Gum changes & the end of nausea?	Add to a piece we already have	Week by week › Week 13 ours: Week 13 page, For you this week	P2	Our week 13 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on gum changes and nausea easing, linking to our symptom pages where we have them.
113	14 weeks: A higher sex drive & insomnia	Add to a piece we already have	Week by week › Week 14 ours: Week 14 page, For you this week	P2	Our week 14 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on a higher sex drive and trouble sleeping, linking to our symptom pages where we have them.
114	15 weeks: More discharge & weight gain	Add to a piece we already have	Week by week › Week 15 ours: Week 15 page, For you this week	P2	Our week 15 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on more discharge and weight gain, linking to our symptom pages where we have them.
115	17 weeks: Ligament changes & heartburn	Add to a piece we already have	Week by week › Week 17 ours: Week 17 page, For you this week	P2	Our week 17 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on round ligament pain and heartburn, linking to our symptom pages where we have them.
116	18 weeks FAQs: What should you avoid & more	Add to a piece we already have	Week by week › Week 18 ours: Week 18 page	P2	Our week 18 page does not answer the questions women ask that week, such as what to avoid and how many months she is. Add them as two or three short questions and answers.
117	18 weeks: Possible movements & insomnia	Add to a piece we already have	Week by week › Week 18 ours: Week 18 page, For you this week	P2	Our week 18 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on first movements and trouble sleeping, linking to our symptom pages where we have them.
118	20 weeks FAQs: How developed is baby & more	Add to a piece we already have	Week by week › Week 20 ours: Week 20 page	P2	Our week 20 page does not answer the questions women ask that week, such as how developed the baby is and what it is doing. Add them as two or three short questions and answers.
119	20 weeks: Sleep changes & more discharge	Add to a piece we already have	Week by week › Week 20 ours: Week 20 page, For you this week	P2	Our week 20 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on sleep changes and more discharge, linking to our symptom pages where we have them.
120	21 weeks FAQs: What position's baby in & more	Add to a piece we already have	Week by week › Week 21 ours: Week 21 page	P2	Our week 21 page does not answer the questions women ask that week, such as the baby's position and how often it should move. Add them as two or three short questions and answers.

121	21 weeks: Balance changes & backache	Add to a piece we already have	Week by week › Week 21 ours: Week 21 page, For you this week	P2	Our week 21 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on balance changes and backache, linking to our symptom pages where we have them.
122	23 weeks: Breast leaks & constipation	Add to a piece we already have	Week by week › Week 23 ours: Week 23 page, For you this week	P2	Our week 23 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on breasts leaking colostrum and constipation, linking to our symptom pages where we have them.
123	24 weeks FAQs: What's special now & more	Add to a piece we already have	Week by week › Week 24 ours: Week 24 page	P2	Our week 24 page does not answer the questions women ask that week, such as what viability at 24 weeks means. Add them as two or three short questions and answers.
124	24 weeks: Backache & insomnia	Add to a piece we already have	Week by week › Week 24 ours: Week 24 page, For you this week	P2	Our week 24 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on backache, rib pain and trouble sleeping, linking to our symptom pages where we have them.
125	25 weeks: Swelling & restless legs	Add to a piece we already have	Week by week › Week 25 ours: Week 25 page, For you this week	P2	Our week 25 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on swelling and restless legs, linking to our symptom pages where we have them.
126	26 weeks FAQs: Is baby developed & more	Add to a piece we already have	Week by week › Week 26 ours: Week 26 page (weekContent.json)	P2	Knowing the signs of labour that comes too early matters from now on. Our week page should name them plainly and say to call the labour ward at once, which only our urgent list does today.
127	28 weeks: Skin changes, fatigue & more	Add to a piece we already have	Week by week › Week 28 ours: Week 28 page, For you this week	P2	Our week 28 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on itchy stretching skin, tiredness and starting to count kicks, linking to our symptom pages where we have them.
128	30 weeks: Peeing more & swollen feet	Add to a piece we already have	Week by week › Week 30 ours: Week 30 page, For you this week	P2	Our week 30 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on peeing more and swollen feet, linking to our symptom pages where we have them.
129	31 weeks: Back pain & practice contractions	Add to a piece we already have	Week by week › Week 31 ours: Week 31 page, For you this week	P2	Our week 31 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on back pain and practice contractions, linking to our symptom pages where we have them.
130	32 weeks: Pelvic girdle pain & peeing lots	Add to a piece we already have	Week by week › Week 32 ours: Week 32 page, For you this week	P2	Our week 32 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on pelvic girdle pain and peeing a lot, linking to our symptom pages where we have them.
131	36 weeks FAQs: When is labor common & more	Add to a piece we already have	Week by week › Week 36 ours: Week 36 page (weekContent.json)	P2	Women start asking when labour will come from week 36. A plain answer (most babies arrive between 38 and 41 weeks) belongs on our week page.

132	37 weeks FAQs: Is labor imminent & more	Add to a piece we already have	Week by week › Week 37 ours: Week 37 page (weekContent.json)	P2	The signs that labour is near are what she wants at 37 weeks, and our labour door has no read on them yet. The week page should carry a short version and link to the new labour tab.
133	38 weeks FAQs: Why is your belly hard & more	Add to a piece we already have	Week by week › Week 38 ours: Week 38 page (weekContent.json)	P2	Our Braxton Hicks symptom page covers the tightenings; the week 38 page should link to it and say how to tell real labour apart.
134	39 weeks FAQs: Your odds of labor & more	Add to a piece we already have	Week by week › Week 39 ours: Week 39 page (weekContent.json)	P2	A short note on the signs of labour and when to go in fits our week 39 page. The numbers should stay population averages, never her own chance.
135	4 weeks: A missed period, tender breasts & more	Add to a piece we already have	Week by week › Week 4 ours: Week 4 page, For you this week	P2	Our week 4 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on a missed period and tender breasts, linking to our symptom pages where we have them.
136	40 weeks FAQs: How much longer to go & more	Add to a piece we already have	Week by week › Week 40 ours: Week 40 page (weekContent.json)	P2	Our week 40 page should say plainly that most babies do not come on the due date, and what to do while waiting.
137	5 weeks: Fatigue & sensory changes	Add to a piece we already have	Week by week › Week 5 ours: Week 5 page, For you this week	P2	Our week 5 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on tiredness, a stronger sense of smell and a metallic taste, linking to our symptom pages where we have them.
138	6 weeks: Nipple changes & fatigue	Add to a piece we already have	Week by week › Week 6 ours: Week 6 page, For you this week	P2	Our week 6 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on nipple changes and tiredness, linking to our symptom pages where we have them.
139	7 weeks: Breast changes, nausea & more	Add to a piece we already have	Week by week › Week 7 ours: Week 7 page, For you this week	P2	Our week 7 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on breast changes, nausea and drinking enough water, linking to our symptom pages where we have them.
140	8 weeks FAQs: Do you need to rest & more	Add to a piece we already have	Week by week › Week 8 ours: Week 8 page	P2	Our week 8 page does not answer the questions women ask that week, such as needing rest and the first antenatal visit. Add them as two or three short questions and answers.
141	8 weeks: Frequent peeing, sickness & nausea	Add to a piece we already have	Week by week › Week 8 ours: Week 8 page, For you this week	P2	Our week 8 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on peeing more often, sickness and nausea, linking to our symptom pages where we have them.
142	HG showed me new kinds of joy	Add to a piece we already have	Complications › Find a condition ours: Condition page "Hyperemesis"	P3	Our hyperemesis page explains the condition. A real story from a woman who went through it would comfort others, once we can gather one.
143	Types of anemia	Add to a piece we already have	Complications › Find a condition ours: Condition page "Anemia"	P3	Our anaemia page talks mostly about iron. A short part on low folate and low B12 matters in India, where many vegetarian women are low in B12.

144	Chloe Lovell is a writer and mom of 2 based in the	Add to a piece we already have	Complications › Living with it ours: Condition page: Hyperemesis	P3	Our severe vomiting page gives the facts. A real Indian woman's story beside it would make others feel less alone and more willing to ask for treatment.
145	Baby on board: Top tips for flying while pregnant	Add to a piece we already have	Is it safe? › Can I do it? ours: Can I "Flight Travel"	P3	Our flight answer can add what Indian airlines ask for late in pregnancy, such as a fitness letter from the doctor.
146	Can you travel during pregnancy?	Add to a piece we already have	Is it safe? › Can I do it? ours: Can I "Long Road / Train Travel"	P3	Our road and train travel answer can add a few practical tips, such as walking every hour and carrying her records.
147	When it comes to the expert team you might be expe	Add to a piece we already have	Is it safe? › Can I do it? ours: Can I: Dental Treatment	P3	Our answer says dental treatment is safe. It can add why gums and teeth need more care now, and that vomiting and heartburn wear the enamel.
148	7 breastfeeding benefits for you and baby	Add to a piece we already have	Labour prep › Feeding and first days ours: Why early breastfeeding preparation helps	P3	Our breastfeeding note can add a short list of benefits for both of them.
149	How you can relieve labor pain with this simple massage	Add to a piece we already have	Labour prep › For your partner ours: What your partner should actually do (coming soon)	P3	A massage he can learn before the day is exactly what our coming soon partner read should teach.
150	Delivering the placenta: What to expect	Add to a piece we already have	Labour prep › Signs and stages ours: Weekly read "Labour, step by step"	P3	Our labour read can add a short part on the placenta, which many women do not expect.
151	The final stage of childbirth	Add to a piece we already have	Labour prep › Signs and stages ours: Weekly read "Labour, step by step"	P3	Same as the placenta piece: our labour read can add a short part on this last stage.
152	When epidural anesthesia cannot be used	Add to a piece we already have	Labour prep › Understand the birth ours: Pain relief: natural, epidural and C-section	P3	Our pain relief read can add the few reasons an epidural may not be possible, so she is not surprised on the day.
153	Your baby's first assessment: The apgar score explained	Add to a piece we already have	Labour prep › Understand the birth ours: The first hour after birth (coming soon)	P3	Parents hear this score in the delivery room and worry about the number. Two lines in our read on the first hour after birth would explain it calmly.
154	14 vaginal birth fears tackled	Add to a piece we already have	Mind & mood › Understand ours: Fear of labour	P3	Our read "Fear of labour" can add practical steps for the fears women name most, such as pain and tearing.
155	5 cool things that can happen to couples who are expecting	Add to a piece we already have	Mind & mood › Understand ours: Relationship and intimacy changes	P3	Our relationship read can add the hopeful side: how expecting a baby can bring a couple closer.
156	How does social media affect pregnant women?	Add to a piece we already have	Mind & mood › Understand ours: Body image and self-esteem	P3	Our body image read can add a short part on comparing yourself to pregnancy photos online.
157	How to feel good about asking for help	Add to a piece we already have	Mind & mood › Understand ours: Bringing him in, when he doesn't get it	P3	Many women feel they must manage everything alone. A short part on asking for help, from him and from family, fits our read on bringing him in.
158	How to find your "mom tribe" and get the kind of support you need	Add to a piece we already have	Mind & mood › Understand ours: Lonely, even in a full house	P3	Our loneliness read can add ways to find other mothers, such as a due month group in our community once it is real.

159	6 tips for better sleep in your 1st trimester	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping; Can I answer Sleeping On Your Back	P3	Our Can I answer covers sleeping positions; the first trimester sleep tips belong in the sleep guide we propose.
160	8 top tips for better 2nd-trimester sleep	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping; Can I answer Sleeping On Your Back	P3	Many women panic when they wake up on their back. Our sleep guide should say calmly that turning back to the side is enough.
161	Experience insomnia? Here are 7 tips to try during pregnancy	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3	Most of these tips are on our trouble sleeping page already; add the few that are missing, such as screens off and a steady bedtime.
162	"Avoiding sleep problems" checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping; Can I answer Sleeping Pills	P3	A short do and do not list fits our sleep guide; our Can I answer already says to avoid sleeping pills.
163	Introduction to late pregnancy and postpartum care	Add to a piece we already have	Scans & tests › My scans ours: Scan timeline "Your timeline"	P3	Our timeline lists the scans but not how visits become every two weeks and then weekly near the end. A short note on this helps her plan.
164	A beginner's guide to amniotic fluid (and why it's so important)	Add to a piece we already have	Scans & tests › Understand a result ours: Report findings: Low Amniotic Fluid; High Amniotic Fluid	P3	Our report pages explain too little and too much fluid. A short opening on what the fluid is and how it is measured would make those pages easier.
165	Creamy discharge in pregnancy explained	Add to a piece we already have	Symptoms › By symptom ours: Discharge page (to be added)	P3	One more kind of discharge; it belongs in the single discharge page we are adding.
166	Milky nipple discharge in pregnancy explained	Add to a piece we already have	Symptoms › By symptom ours: Breast changes page (to be added)	P3	Leaking colostrum surprises many women in the last months. Fold it into the breast changes page we are adding.
167	No discharge in pregnancy explained	Add to a piece we already have	Symptoms › By symptom ours: Discharge page (to be added)	P3	A small question that fits inside the discharge page we are adding.
168	Pregnancy sex dreams explained	Add to a piece we already have	Symptoms › By symptom ours: Vivid dreams	P3	Our Vivid dreams page can add one line that dreams of every kind, including sexual ones, are common and nothing to feel strange about.
169	Sticky discharge in pregnancy explained	Add to a piece we already have	Symptoms › By symptom ours: Discharge page (to be added)	P3	Fits in the single discharge page we are adding.
170	The cool science behind symptoms	Add to a piece we already have	Symptoms › By symptom ours: The 33 symptom pages	P3	A line on why a symptom happens, and what good it does, makes it easier to bear. We can add one such line to each symptom page.
171	"Exhaustion made me ask for help"	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Fatigue"	P3	Our fatigue page gives the facts. A real Indian woman's story, later, would make it feel less lonely.
172	"Foodie to food averse: My story"	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Food aversions"	P3	Our food aversions page can borrow the tips, and a real story could follow later.
173	1 week FAQs: Should you take a test & more	Add to a piece we already have	Week by week › Week 1 to 3	P3	These fit the weeks 1 to 3 page we are adding, as its questions.
174	2 weeks FAQs: Is tummy pain common & more	Add to a piece we already have	Week by week › Week 1 to 3	P3	These fit the weeks 1 to 3 page we are adding, as its questions.
175	3 weeks FAQs: What should you avoid & more	Add to a piece we already have	Week by week › Week 1 to 3	P3	These fit the weeks 1 to 3 page we are adding, as its questions.

176	10 weeks FAQs: Discharge details & more	Add to a piece we already have	Week by week › Week 10 ours: Week 10 page	P3	Our week 10 page does not answer the questions women ask that week, such as normal discharge and when the bump shows. Add them as two or three short questions and answers.
177	10 weeks: More visible veins & acne	Add to a piece we already have	Week by week › Week 10 ours: Week 10 page, For you this week	P3	Our week 10 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on more visible veins and acne, linking to our symptom pages where we have them.
178	When does an embryo become a fetus?	Add to a piece we already have	Week by week › Week 10 ours: Week 10 page; journey milestone Embryo Becomes Fetus	P3	Our journey map marks this moment but does not explain it. One short paragraph on the week 10 page would do.
179	12 weeks FAQs: Can you feel baby & more	Add to a piece we already have	Week by week › Week 12 ours: Week 12 page	P3	Our week 12 page does not answer the questions women ask that week, such as feeling the baby and how she may feel now. Add them as two or three short questions and answers.
180	13 weeks FAQs: What trimester is it & more	Add to a piece we already have	Week by week › Week 13 ours: Week 13 page	P3	Our week 13 page does not answer the questions women ask that week, such as which trimester it is and whether the baby moves. Add them as two or three short questions and answers.
181	14 weeks FAQs: Should you be showing & more	Add to a piece we already have	Week by week › Week 14 ours: Week 14 page	P3	Our week 14 page does not answer the questions women ask that week, such as the size of the bump and when kicks begin. Add them as two or three short questions and answers.
182	15 weeks FAQs: What baby looks like & more	Add to a piece we already have	Week by week › Week 15 ours: Week 15 page	P3	Our week 15 page does not answer the questions women ask that week, such as what the baby looks like and not feeling movements yet. Add them as two or three short questions and answers.
183	16 weeks FAQs: Baby's positioning & more	Add to a piece we already have	Week by week › Week 16 ours: Week 16 page	P3	Our week 16 page does not answer the questions women ask that week, such as where the baby lies and first movements. Add them as two or three short questions and answers.
184	16 weeks: Changing appetite & constipation	Add to a piece we already have	Week by week › Week 16 ours: Week 16 page, For you this week	P3	Our week 16 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on appetite changes and constipation, linking to our symptom pages where we have them.
185	17 weeks FAQs: How many months is it & more	Add to a piece we already have	Week by week › Week 17 ours: Week 17 page	P3	Our week 17 page does not answer the questions women ask that week, such as how many months she is and what first movements feel like. Add them as two or three short questions and answers.
186	19 weeks FAQs: What's baby up to & more	Add to a piece we already have	Week by week › Week 19 ours: Week 19 page	P3	Our week 19 page does not answer the questions women ask that week, such as what the baby looks like and feeling kicks. Add them as two or three short questions and answers.
187	19 weeks: Round ligament pain & the linea nigra	Add to a piece we already have	Week by week › Week 19 ours: Week 19 page, For you this week	P3	Our week 19 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on round ligament pain and the dark line on the belly, linking to our symptom pages where we have them.

188	22 do's and don'ts in your 2nd trimester	Add to a piece we already have	Week by week › Week 20 ours: Read "You are halfway, what changes now"	P3	Our halfway read can add practical items such as the flu vaccine, a dental check and small frequent meals.
189	22 weeks FAQs: When is trimester 3 & more	Add to a piece we already have	Week by week › Week 22 ours: Week 22 page	P3	Our week 22 page does not answer the questions women ask that week, such as when the third trimester starts. Add them as two or three short questions and answers.
190	22 weeks: Skin & libido changes	Add to a piece we already have	Week by week › Week 22 ours: Week 22 page, For you this week	P3	Our week 22 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on stretch marks and a higher sex drive, linking to our symptom pages where we have them.
191	23 weeks FAQs: Are you 6 months yet & more	Add to a piece we already have	Week by week › Week 23 ours: Week 23 page	P3	Our week 23 page does not answer the questions women ask that week, such as whether she is six months pregnant. Add them as two or three short questions and answers.
192	25 weeks FAQs: What to forgo & more	Add to a piece we already have	Week by week › Week 25 ours: Week 25 page (weekContent.json)	P3	Our week 25 page already covers the baby and her body. Adding these three short questions, especially how weeks turn into months, would answer what women actually search for that week.
193	26 weeks: Leg cramps & nesting	Add to a piece we already have	Week by week › Week 26 ours: Week 26 page, For you this week	P3	Our week 26 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on leg cramps and the nesting urge, linking to our symptom pages where we have them.
194	27 weeks FAQs: Is it trimester 3 & more	Add to a piece we already have	Week by week › Week 27 ours: Week 27 page (weekContent.json)	P3	A short look ahead to the third trimester and its appointments fits our week 27 page well.
195	27 weeks: Bloating & belly button changes	Add to a piece we already have	Week by week › Week 27 ours: Week 27 page, For you this week	P3	Our week 27 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on bloating and the belly button popping out, linking to our symptom pages where we have them.
196	28 weeks FAQs: What's crucial now & more	Add to a piece we already have	Week by week › Week 28 ours: Week 28 page (weekContent.json)	P3	Our week 28 page can add these common questions in a line each; the facts are simple and calm her.
197	Pregnancy at 28 weeks: All you need to know	Add to a piece we already have	Week by week › Week 28 ours: Week 28 page; read "Knowing your baby's movements"	P3	Our week 28 page should point clearly to our movements read, since this is the week many doctors ask women to start paying attention to kicks.
198	29 weeks FAQs: Are you 8 months yet & more	Add to a piece we already have	Week by week › Week 29 ours: Week 29 page (weekContent.json)	P3	Indian families count pregnancy in months, so a clear line on how weeks match months would help on every week page, starting here.
199	29 weeks: Feeling warm & potential varicose veins	Add to a piece we already have	Week by week › Week 29 ours: Week 29 page, For you this week	P3	Our week 29 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on feeling warm and varicose veins, linking to our symptom pages where we have them.
200	30 weeks FAQs: How developed is baby & more	Add to a piece we already have	Week by week › Week 30 ours: Week 30 page (weekContent.json)	P3	These are good short questions for our week 30 page, which already describes the baby's growth.
201	31 weeks FAQs: When is safe for birth & more	Add to a piece we already have	Week by week › Week 31 ours: Week 31 page (weekContent.json)	P3	A calm line on how babies born early do at each stage, using population numbers only, would ease a common worry at this week.

202	32 weeks FAQs: What to avoid & more	Add to a piece we already have	Week by week › Week 32 ours: Week 32 page (weekContent.json)	P3	Our week 32 page can add these questions; heartburn itself is already covered on our symptom page.
203	33 weeks FAQs: Is delivery safe & more	Add to a piece we already have	Week by week › Week 33 ours: Week 33 page (weekContent.json)	P3	A short, calm answer on birth at this week, with population numbers only, fits our week 33 page.
204	33 weeks: Energy changes & hip pain	Add to a piece we already have	Week by week › Week 33 ours: Week 33 page, For you this week	P3	Our week 33 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on tiredness and hip pain, linking to our symptom pages where we have them.
205	34 weeks FAQs: What to expect & more	Add to a piece we already have	Week by week › Week 34 ours: Week 34 page (weekContent.json)	P3	These common week 34 questions fit our week page in a few lines.
206	34 weeks: Breast changes & constipation	Add to a piece we already have	Week by week › Week 34 ours: Week 34 page, For you this week	P3	Our week 34 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on breast changes and constipation, linking to our symptom pages where we have them.
207	35 weeks FAQs: What should you feel & more	Add to a piece we already have	Week by week › Week 35 ours: Week 35 page (weekContent.json)	P3	Our week 35 page can add this short list of what is normal now, linking to our symptom pages.
208	35 weeks: Nipple discharge & heartburn	Add to a piece we already have	Week by week › Week 35 ours: Week 35 page, For you this week	P3	Our week 35 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on colostrum leaking and heartburn, linking to our symptom pages where we have them.
209	36 weeks: Posture changes & back pain	Add to a piece we already have	Week by week › Week 36 ours: Week 36 page, For you this week	P3	Our week 36 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on posture changes and back pain, linking to our symptom pages where we have them.
210	4 weeks FAQs: What should you feel & more	Add to a piece we already have	Week by week › Week 4 ours: Week 4 page	P3	Our week 4 page does not answer the questions women ask that week, such as what she should feel, what 4 weeks means and when the bump shows. Add them as two or three short questions and answers.
211	5 weeks FAQs: Can you feel a bump & more	Add to a piece we already have	Week by week › Week 5 ours: Week 5 page	P3	Our week 5 page does not answer the questions women ask that week, such as feeling a bump and testing positive. Add them as two or three short questions and answers.
212	6 weeks FAQs: Will your bump show & more	Add to a piece we already have	Week by week › Week 6 ours: Week 6 page	P3	Our week 6 page does not answer the questions women ask that week, such as when the bump shows and what to avoid now. Add them as two or three short questions and answers.
213	When does a fetus develop a brain?	Add to a piece we already have	Week by week › Week 6 ours: Week 6 page (weekContent.json)	P3	A line on brain development at the right weeks would enrich our week pages; there is no need for a separate read.
214	7 weeks FAQs: How many months are you & more	Add to a piece we already have	Week by week › Week 7 ours: Week 7 page	P3	Our week 7 page does not answer the questions women ask that week, such as how many months she is and whether symptoms say anything about the pregnancy. Add them as two or three short questions and answers.

215	9 weeks FAQs: Is it the hardest week & more	Add to a piece we already have	Week by week › Week 9 ours: Week 9 page	P3	Our week 9 page does not answer the questions women ask that week, such as whether this is the hardest week and how many months she is. Add them as two or three short questions and answers.
216	9 weeks: Hair changes, bloating & more	Add to a piece we already have	Week by week › Week 9 ours: Week 9 page, For you this week	P3	Our week 9 page has one line about her body and does not show the symptoms we already wrote for that week. Add a short 'your body this week' part on hair changes and bloating, linking to our symptom pages where we have them.

356	The pros and cons of using a nipple shield for breastfeeding	Belongs in another stage of our app	Parenting stage	This is about feeding after the birth, so it belongs in our parenting section.
357	What does a newborn feel?	Belongs in another stage of our app	Parenting stage	This is about the baby after birth, so it belongs in our parenting section.
358	Why your newborn might develop jaundice (and what to look out for)	Belongs in another stage of our app	Parenting stage	Newborn jaundice happens after the birth, so it belongs in our parenting section.
359	Your baby post-birth: Strange head shapes explained	Belongs in another stage of our app	Parenting stage	This is about the baby after birth, so it belongs in our parenting section.
360	Your guide to safe and smooth diaper changes	Belongs in another stage of our app	Parenting stage	This is about caring for the baby after the birth, so it belongs in our parenting section.
361	Your guide to safely bathing your newborn	Belongs in another stage of our app	Parenting stage	This is about caring for the baby after the birth, so it belongs in our parenting section.
362	After delivery checkup	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about recovery after the birth, so it belongs in our parenting section.
363	How an abdominal binder can help after giving birth	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about recovery after the birth, where Indian mothers often tie the belly, so it belongs in our parenting section.
364	How should postpartum discharge change?	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about recovery after the birth, so it belongs in our parenting section.
365	The process of being discharged from the hospital post-birth	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about the days after the birth, so it belongs in our parenting section.
366	What happens post-C-section?	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about recovery after the birth, so it belongs in our parenting section. Before the birth, our planned C-section read in Labour prep covers what to expect.
367	What sex after birth's really like	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about life after the birth, so it belongs in our parenting section.
368	Your postpartum appointments	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about recovery after the birth, so it belongs in our parenting section.
369	Your guide to a safe and soothing newborn sleeping area	Belongs in another stage of our app	Parenting stage › Sleep	Safe sleep is about caring for the baby after the birth, so it belongs in our parenting section, with a link from the getting ready pages.
370	9 life-changing masturbation tips	Don't add		This is explicit sexual content that does not fit a family app on a shared phone. The safety question behind it belongs in the gentle Sex and closeness tab instead.

371	How experts tell your baby's sex at a scan	Don't add	ours: Why nobody will tell you the sex	Telling or guessing the baby's sex before birth is illegal in India under the PCPNDT Act. Our read 'Why nobody will tell you the sex' already explains the law kindly.
372	LGBTQ+ parents' mental wellness	Don't add		LGBTQ+ content is deferred by a product decision on 24 Sep 2026; revisit later.
373	LGBTQ+ postpartum sex	Don't add		LGBTQ+ content is deferred by a product decision on 24 Sep 2026, and this piece is also explicit and about life after the birth.
374	Pregnancy-safe sex toy swaps	Don't add		This is explicit content that does not fit a family app. The safety question behind it is covered by the gentle sex in pregnancy read.
375	Pregnant in a pandemic: How to handle the mental fallout	Don't add	ours: Mind reads: Lonely, even in a full house; Health anxiety and over-Googling	This was written for lockdown life; our mind and mood reads already cover loneliness and health worry.
376	The hows & whys of co-feeding	Don't add		LGBTQ+ content is deferred by a product decision on 24 Sep 2026; revisit later.
377	Wake-up checklist	Don't add		This is general sleep advice with no pregnancy angle; the evening routine and nap tips cover what she needs.
378	Will being born in a pandemic affect your baby?	Don't add		This was written for the pandemic years and no longer answers a current worry.
379	"Black and pregnant: Why I changed my mind about the COVID-19 vaccine"	Don't add	ours: Can I answer: Vaccines (TT / Flu / COVID)	This is a personal story from the UK pandemic years with no Indian angle; our vaccine answer covers the question itself.

Flo · Collections & courses (43)

#	Their title	Decision	Where / our piece	Pri	Why
1	How to make labor smooth items: 1. 5 ways to kickstart labor naturally · 2. Symptoms that indicate labor's about to begin · 3. Birth: When's it time to go to the hospital? · 4. Final push: Your contraction cheat sheet · 5. The 4 contraction types and how they feel · 6. An expert's guide to the mucus plug · 7. The lowdown on cervical dilation · 8. Labor induction 101: Why and how doctors speed up childbirth · 9. How you can relieve labor pain with this simple massage · 10. The benefits of breathing better during labor — and how to master it · 11. From pain relief to cord cutting: What you need to know about delivery · 12. Delivering the placenta: What to expect · 13. Spotlight on: Epidural anesthesia · 14. When epidural anesthesia cannot be used · 15. The final stage of childbirth · 16. A beginner's guide to breech births	Add: write our own version	Labour prep › Signs and stages	P1	This is the biggest gap on our Labour door. We have almost nothing on how labour starts and what happens in it, and every first time mother needs this in the last weeks.
2	Redesigning your sex life items: 1. Sex dreams during pregnancy · 2. 8 bump-friendly sex positions to try · 3. Ask an expert: Can sex start labor? · 4. Things to know about sex during pregnancy · 5. Pregnancy-safe sex toy swaps · 6. Your pregnancy sex questions answered	Add: write our own version	Mind & mood › Sex and closeness	P1	Whether sex is safe in pregnancy is one of the most asked questions, and in India women rarely feel able to ask it. We have only one short "Can I" answer, so a private, gentle tab is needed.

3	Pregnant and fit: Here's how items: 1. Pregnancy yoga: Why the hype? · 2. How to pregnancy-proof your workout · 3. The benefits of swimming during pregnancy · 4. Why this is the perfect time to walk more	Add: write our own version	Move & rest › Move safely	P1	We have short Can I answers on single activities but no read on how to exercise safely in pregnancy. Staying active is one of the things women most want help with, and our Yoga and fitness tile opens only a class list.
4	Newborn prep items: 1. Your guide to a safe and soothing newborn sleeping area · 2. 11 safety tips for your baby's nursery · 3. How to get your home ready for your baby · 4. Your guide to safe and smooth diaper changes · 5. Your guide to safely bathing your newborn · 6. Checklist: Essential clothes for your newborn · 7. Baby feeding supplies to add to your list · 8. 5 safety checks for your baby's crib	Add: write our own version	Getting ready for baby › What to buy	P2	Every family asks what to buy before the baby comes. We have a store but no plain list of what is truly needed in an Indian home, and what is not.
5	The ultimate baby budget guide items: 1. Read before you start · 2. Introduction · 3. Preparing financially for starting a family · 4. The nine-month countdown · 5. Baby registry checklist · 6. The "fourth trimester" · 7. Setting your family's financial goals · 8. Family goal setting workbook · 9. Budget categories	Add: write our own version	Work, money and rights › Money	P2	Planning money for the delivery and the first year matters to Indian families, and we have nothing on it. Our version should be written for India, with delivery costs and insurance.
6	Baby's support system items: 1. When does an embryo become a fetus? · 2. When does a fetus develop a brain? · 3. These nutrients build your baby's brain · 4. Power to your placenta: How to look after it · 5. Everything you need to know about the umbilical cord · 6. A beginner's guide to amniotic fluid (and why it's so important) · 7. Placenta positions: What do they mean? · 8. A beginner's guide to placenta positions · 9. This is when you can hear your baby's heartbeat for the first time	Add: write our own version	Week by week › Week 12	P3	Women are curious about how the baby is fed and protected, and we explain it nowhere. A few short explainers, placed on the week pages where each thing happens, would answer this.
7	Labor stages items: 1. Vaginal labor: First stage · 2. Vaginal labor: Second stage · 3. Vaginal labor: Third stage	Add to a piece we already have	Labour prep › Signs and stages ours: Weekly read "Labour, step by step"	P1	Our read "Labour, step by step" exists but sits only in the weekly reads, not on the Labour door. It should lead a new "Signs and stages" tab and explain each stage of labour clearly.

8 Your changing body: Up to 42 weeks items: 1. 3 weeks: Fertilization & implantation · 2. 4 weeks: A missed period, tender breasts & more · 3. 5 weeks: Fatigue & sensory changes · 4. 6 weeks: Nipple changes & fatigue · 5. 7 weeks: Breast changes, nausea & more · 6. 8 weeks: Frequent peeing, sickness & nausea · 7. 9 weeks: Hair changes, bloating & more · 8. 10 weeks: More visible veins & acne · 9. 11 weeks: Skin changes & constipation · 10. 12 weeks: Baby bump & mood swings · 11. 13 weeks: Gum changes & the end of nausea? · 12. 14 weeks: A higher sex drive & insomnia · 13. 15 weeks: More discharge & weight gain · 14. 16 weeks: Changing appetite & constipation · 15. 17 weeks: Ligament changes & heartburn · 16. 18 weeks: Possible movements & insomnia · 17. 19 weeks: Round ligament pain & the linea nigra · 18. 20 weeks: Sleep changes & more discharge · 19. 21 weeks: Balance changes & backache · 20. 22 weeks: Skin & libido changes · 21. 23 weeks: Breast leaks & constipation · 22. 24 weeks: Backache & insomnia · 23. 25 weeks: Swelling & restless legs · 24. Backache At around 24 weeks pregnant, you might be · 25. 26 weeks: Leg cramps & nesting · 26. 27 weeks: Bloating & belly button changes · 27. 28 weeks: Skin changes, fatigue & more · 28. 29 weeks: Feeling warm & potential varicose veins · 29. 30 weeks: Peeing more & swollen feet · 30. 31 weeks: Back pain & practice contractions · 31. 32 weeks: Pelvic girdle pain & peeing lots · 32. 33 weeks: Energy changes & hip pain · 33. 34 weeks: Breast changes & constipation · 34. 35 weeks: Nipple discharge & heartburn · 35. 36 weeks: Posture changes & back pain · 36. 37 weeks: Bump changes & possible contractions · 37. 38 weeks: More discharge & your mucus plug · 38. 39 weeks: Possible water breaking & contractions · 39. 40 weeks: Possible sleep troubles & contractions · 40. 41 weeks: Know these signs of labor · 41. 42 weeks: Signs of labor & possible induction	Add to a piece we already have	Week by week › Week N ours: Week N page, For you this week	P1 Our week page gives only one line on her body, and the common symptoms we already wrote for each week in weekContent.json never reach her. A short 'your body this week' part on every week page, with two changes and what helps, is the most read thing in Flo's pregnancy library.
9 Breastfeeding: Yes or no? items: 1. Is breastfeeding effective birth control? · 2. Infant formula or breast milk? Pros and cons · 3. Your essential guide to breast milk · 4. 7 breastfeeding benefits for you and baby · 5. Brilliant breast milk: How it adapts to your baby's needs over time · 6. How to take care of your nipples when breastfeeding · 7. 5 latch hacks for pain-free breastfeeding · 8. A step-by-step guide to storing and using expressed breast milk · 9. How to choose the right breast pump for you · 10. The pros and cons of using a nipple shield for breastfeeding · 11. Postpartum boob care 101: How to prevent mastitis	Add to a piece we already have	Labour prep › Feeding and first days ours: Why early breastfeeding preparation helps	P2 Learning about breastfeeding before the baby comes makes the first days easier. We have only one short note, so a proper set of pieces is needed before the birth.
10 Maternity care: Third trimester, labor, postpartum items: 1. Introduction to late pregnancy and postpartum care · 2. Ultrasounds in the third trimester · 3. Screening for group b streptococcus · 4. What happens in labor · 5. After delivery checkup · 6. Your postpartum appointments	Add to a piece we already have	Labour prep › Signs and stages ours: Weekly read "Labour, step by step"	P2 We cover the late scans well but not what happens once she reaches the hospital. That part should be added to our labour read.

11	Getting ready for labor items: 1. How to prepare your perineum for birth · 2. How to pick the right birthing partner for you · 3. It takes two, baby! Preparing for labor with your birth partner · 4. What does a doula do? · 5. Doula vs. Midwife: What is the difference? · 6. Getting support during childbirth from a doula · 7. What exactly is cord blood banking, and is it worth it? · 8. Checklist: Your hospital bag essentials · 9. The science behind Braxton Hicks contractions — and how to handle them	Add to a piece we already have	Labour prep › Understand the birth ours: Your birth plan	P2	Our birth plan asks who will be with her, but we have nothing that helps her choose or prepare that person. These topics should sit beside the birth plan.
12	Mindful pregnancy through meditation items: 1. Introducing the course · 2. Breathing · 3. Relaxation · 4. Emotions · 5. Thoughts · 6. Future · 7. Boundaries · 8. Love	Add to a piece we already have	Mind & mood › Feel ours: Meditation videos "Letting go of worry" and others (coming soon)	P2	Our meditation videos on the Mind and mood door are all still coming soon. A short guided course like this is exactly what those empty places should hold.
13	Prenatal yoga: 1st trimester items: 1. Workout 1. Lower limb joint flexibility · 2. Workout 2. Back exercises, spine health · 3. Workout 3. Spine health, balance, and posture · 4. Workout 4. Relaxation breathing techniques · 5. Workout 5. Joint flexibility and strength training · 6. Workout 6. Strengthening lateral core muscles · 7. Workout 7. Stretching and strengthening core muscles · 8. Workout 8. Lower limb joint flexibility and supine stretching · 9. Workout 9. Strengthening lower limb muscles	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga (first months: Settling-in gentle flow, Ease for nausea days)	P2	We list first trimester sessions but none plays. Gentle guided movement for the tired, queasy first months is a real gap.
14	Prenatal yoga: 2nd trimester items: 1. Workout 1. Posture and shoulder flexibility · 2. Workout 2. Pelvic openers · 3. Workout 3. Core muscle stretching · 4. Workout 4. Hip joint flexibility · 5. Workout 5. Healthy spine · 6. Workout 6. Whole body stretching · 7. Workout 7. Core stretching	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga (22 sessions) and Trimester-Safe Prenatal Flow, no playable video yet	P2	We list prenatal yoga sessions but none plays. A free, short guided set for each trimester, checked by a physiotherapist, is what women look for when they tap Yoga and fitness.
15	Prenatal yoga: 3rd trimester items: 1. Workout 1. Neck comfort · 2. Workout 2. Leg joint flexibility · 3. Workout 3. Relaxation and stretching in a side-lying position · 4. Workout 4. Exercising the pelvis, thighs, and abs	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga (Third-trimester hip release, Lower-back relief, Labour positions practice)	P2	We list third trimester sessions but none plays. Gentle movement for the heavy last months, lying on the side, is exactly what women look for.
16	Sleeping well while pregnant items: 1. Tips to improve your sleep quality during each trimester · 2. Experience insomnia? Here are 7 tips to try during pregnancy · 3. 6 tips for better sleep in your 1st trimester · 4. 8 top tips for better 2nd-trimester sleep · 5. 5 ways to sleep comfortably in trimester 3	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping; Mind read Sleep and mood	P2	We have a symptom page and a mood read on sleep, but nothing that walks her through sleep in each trimester. Poor sleep is one of the most common complaints, so it deserves its own place.

17 Checkups: When, how, and why items: 1. Your 1st prenatal checkup: 6 things to know · 2. Prenatal appointments: Everything you need to know · 3. When it comes to the expert team you might be expected to see · 4. A guide to prenatal testing in the first trimester · 5. Early pregnancy essentials: the lowdown on checkups, symptoms, and more · 6. Ultrasounds in early pregnancy: Your need-to-know guide · 7. Your 1st-trimester screening tests 101 · 8. What to expect at 2nd-trimester screenings · 9. How experts tell your baby's sex at a scan · 10. Your prenatal checklist in trimester 3 · 11. Everything you need to know about blood glucose testing · 12. When you can find out if you're having multiples · 13. Why it's important to get a Tdap vaccine during pregnancy	Add to a piece we already have	Scans & tests › My scans ours: Scan timeline and the nine scan pages	P2 We explain each scan well, but not the ordinary checkups in between, where her blood pressure, weight, urine and blood are checked. Add the routine visits to the timeline so she knows what every appointment is for.
18 Symptoms: 1st trimester items: 1. Introduction · 2. Read before you start... · 3. Morning sickness: The whys and the ways to manage it · 4. Early pregnancy symptoms · 5. Fatigue or excessive tiredness · 6. Lower abdomen pain (cramps) · 7. Heartburn · 8. Vaginal discharge · 9. Dizziness · 10. Constipation · 11. Hemorrhoids · 12. Food cravings	Add to a piece we already have	Symptoms › By symptom ours: 33 symptom pages (Nausea, Fatigue, Heartburn, Dizziness, Constipation)	P2 Our symptom library already covers most of this course. It is missing two common first trimester worries, belly cramps and vaginal discharge, which should be added as pages.
19 Your pregnancy symptoms decoded items: 1. Spotting in pregnancy explained · 2. Cramps in pregnancy explained · 3. Anxious thoughts in pregnancy explained · 4. Increased discharge in pregnancy explained · 5. Tender breasts in pregnancy explained · 6. Low sex drive in pregnancy explained · 7. Frequent urination in pregnancy explained · 8. Fatigue in pregnancy explained · 9. Nausea in pregnancy explained · 10. Backache in pregnancy explained · 11. You know it's common during pregnancy, but that do · 12. Headaches in pregnancy explained · 13. Bleeding gums in pregnancy explained · 14. Bloating in pregnancy explained · 15. Decreased appetite in pregnancy explained · 16. Cravings in pregnancy explained · 17. Food aversions in pregnancy explained · 18. Increased appetite in pregnancy explained · 19. Heartburn in pregnancy explained · 20. Milky nipple discharge in pregnancy explained · 21. Leg cramps during pregnancy explained · 22. Acne in pregnancy explained · 23. Creamy discharge in pregnancy explained · 24. Vomiting in pregnancy explained · 25. Constipation in pregnancy explained · 26. Diarrhea in pregnancy explained · 27. No discharge in pregnancy explained · 28. Insomnia in pregnancy explained · 29. Sticky discharge in pregnancy explained · 30. Nasal congestion in pregnancy explained · 31. Sad mood in pregnancy explained · 32. Irritated mood in pregnancy explained · 33. Stress in pregnancy explained · 34. Mood swings in pregnancy explained · 35. Limb swelling in pregnancy explained · 36. Face swelling in pregnancy explained	Add to a piece we already have	Symptoms › By symptom ours: 33 symptom pages on the By symptom tab	P2 We already cover most of these symptoms, and in the same shape. The gaps are cramps, discharge, spotting as a symptom, diarrhoea and breast changes, which should be added as pages.

20	130 pregnancy questions answered items: 1. 1 week FAQs: Should you take a test & more · 2. 2 weeks FAQs: Is tummy pain common & more · 3. 3 weeks FAQs: What should you avoid & more · 4. 4 weeks FAQs: What should you feel & more · 5. While it's still so early, you might be wondering · 6. 5 weeks FAQs: Can you feel a bump & more · 7. 6 weeks FAQs: Will your bump show & more · 8. 7 weeks FAQs: How many months are you & more · 9. 8 weeks FAQs: Do you need to rest & more · 10. 9 weeks FAQs: Is it the hardest week & more · 11. 10 weeks FAQs: Discharge details & more · 12. 11 weeks FAQs: First scan facts & more · 13. 12 weeks FAQs: Can you feel baby & more · 14. 13 weeks FAQs: What trimester is it & more · 15. 14 weeks FAQs: Should you be showing & more · 16. 15 weeks FAQs: What baby looks like & more · 17. 16 weeks FAQs: Baby's positioning & more · 18. 17 weeks FAQs: How many months is it & more · 19. 18 weeks FAQs: What should you avoid & more · 20. 19 weeks FAQs: What's baby up to & more · 21. 20 weeks FAQs: How developed is baby & more · 22. 21 weeks FAQs: What position's baby in & more · 23. 22 weeks FAQs: When is trimester 3 & more · 24. 23 weeks FAQs: Are you 6 months yet & more · 25. 24 weeks FAQs: What's special now & more · 26. 25 weeks FAQs: What to forgo & more · 27. 26 weeks FAQs: Is baby developed & more · 28. 27 weeks FAQs: Is it trimester 3 & more · 29. 28 weeks FAQs: What's crucial now & more · 30. 29 weeks FAQs: Are you 8 months yet & more · 31. 30 weeks FAQs: How developed is baby & more · 32. 31 weeks FAQs: When is safe for birth & more · 33. 32 weeks FAQs: What to avoid & more · 34. 33 weeks FAQs: Is delivery safe & more · 35. 34 weeks FAQs: What to expect & more · 36. 35 weeks FAQs: What should you feel & more · 37. 36 weeks FAQs: When is labor common & more · 38. 37 weeks FAQs: Is labor imminent & more · 39. 38 weeks FAQs: Why is your belly hard & more · 40. 39 weeks FAQs: Your odds of labor & more · 41. 40 weeks FAQs: How much longer to go & more · 42. 41 weeks FAQs: Should you be induced & more · 43. 42 weeks FAQs: Will baby be bigger & more	Add to a piece we already have	Week by week › Week N ours: Week N page	P2	Our week pages answer what the baby is doing, but not the questions women actually type each week, like how many months pregnant am I. Add three short questions and answers to each week page.
21	How to travel safely items: 1. Can you travel during pregnancy? · 2. Baby on board: Top tips for flying while pregnant	Add to a piece we already have	Is it safe? › Can I do it? ours: Can I "Flight Travel"; "Long Road / Train Travel"	P3	Our travel answers give the verdicts. A slightly longer piece on planning a trip, for example going home to her mother's place, would add to them.
22	Skills for happy relationships items: 1. Fixing common relationship mistakes · 2. Deepening your connection · 3. Knowing and asking for what you need · 4. Navigating difficult conversations · 5. Keeping the chemistry strong	Add to a piece we already have	Mind & mood › Understand ours: Relationship and intimacy changes	P3	Our read on relationship changes in pregnancy could add simple, practical tips for talking as a couple.
23	Stress and anxiety: Reclaim control items: 1. Read before you start... · 2. Stress and anxiety 101 · 3. Mind and body response · 4. The many faces of anxiety · 5. Five coping tools · 6. Let's practice together	Add to a piece we already have	Mind & mood › Understand ours: Pregnancy anxiety	P3	Our anxiety read covers the facts. Short videos with a practice at the end would add to it once we make films.

24	Healthy habits for better sleep items: 1. What affects your sleep? · 2. What affects my sleep checklist · 3. Light · 4. Light checklist · 5. Air · 6. Air in the bedroom checklist · 7. Nutrition · 8. Food checklist · 9. Exercise · 10. Exercise checklist · 11. Stress · 12. Stress and sleep checklist · 13. Decisive steps · 14. "Avoiding sleep problems" checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3 The short checklists in this course are useful and could be folded into our sleep guide; the long general lectures are not needed.
25	Perfect sleep: The basics items: 1. Going to bed · 2. Evening routine checklist · 3. Breathing · 4. "Breathing while you sleep" checklist · 5. Comfort · 6. Napping checklist · 7. Environment · 8. Temperature and noise checklist · 9. Waking up · 10. Wake-up checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3 The short checklists in this course could be folded into our sleep guide; the lectures are general and not needed.
26	Healthy snacks: Tips and recipes items: 1. Healthy snack basics · 2. No-Bake carrot cake bites · 3. Coconut chocolate brownies · 4. Fiber-rich oat and apple bars · 5. Strawberry and banana beauty smoothie · 6. Rosemary and chilli walnut mix	Add to a piece we already have	Nutrition › Recipes ours: Recipe grid (Ghee-roasted makhana, Peanut and jaggery chikki, Steamed sprouts chaat)	P3 We already have Indian snack recipes. Short cooking videos of our own snacks would make them easier to follow, but the recipes themselves are not a gap.
27	Pregnancy in a nutshell items: 1. The first weeks of pregnancy: What to expect · 2. Pregnancy at 28 weeks: All you need to know · 3. The first trimester of pregnancy: Ins and outs · 4. 22 do's and don'ts in your 2nd trimester · 5. 10 things to do in your 3rd trimester · 6. How long does pregnancy actually last?	Add to a piece we already have	Week by week › Week 12 ours: Weekly reads such as "Understanding the first trimester" and "Getting ready for the third trimester"	P3 Our trimester reads cover most of this. A short checklist of what to do in each trimester would make them easier to act on.
28	Pregnancy hormones items: 1. Read before you start... · 2. Introduction · 3. The ovary to placenta shift in the first trimester · 4. Early hormonal indicators of a healthy pregnancy · 5. The role of hormones in labor and delivery · 6. Hormones involved in postpartum recovery and breastfeeding	Add to a piece we already have	Week by week › Week 5 ours: Week 5 body changes (Hormones section)	P3 Our week 5 page explains hormones briefly. A short film series is nice to have, but not a gap in facts.
29	Major body changes items: 1. An expert's guide to the mucus plug · 2. Changes in appearance to expect during pregnancy · 3. Your growing baby bump: What to expect when · 4. When do you start showing in pregnancy? · 5. This is how your breasts might change during and after pregnancy · 6. Do you need a belly band? · 7. The science behind that pregnancy glow · 8. Pregnancy glow: How long does it really last? · 9. Show your bump some love: Understanding your growing belly during pregnancy · 10. 3 ingredients that can improve skin, hair, and nails during pregnancy	We already have this, no action	Belly & skin › Skin changes ours: Belly and skin reads; symptom pages	Our Belly and skin door and symptom pages already cover most of these changes.
30	COVID-19 and pregnancy items: 1. Will being born in a pandemic affect your baby? · 2. COVID-19 vaccines and pregnancy: Your burning questions answered · 3. Pregnant in a pandemic: How to handle the mental fallout · 4. "Black and pregnant: Why I changed my mind about the COVID-19 vaccine"	We already have this, no action	Complications › Find a condition ours: Condition page: COVID in pregnancy; Can I answer Vaccines (TT / Flu / COVID)	Our COVID condition page and our vaccines answer already cover what she needs now.

31	Finding pregnancy zen items: 1. Adapting to change during pregnancy · 2. How to find your “mom tribe” and get the kind of support you need · 3. How your emotional experience might change in the next few months · 4. How to take care of your emotional well-being — for you and for baby · 5. Pregnancy: A time to refresh your self-care skills · 6. How to manage stress during pregnancy · 7. Belly bonding: Simple ways to bond with your unborn baby · 8. How your mind prepares for a baby · 9. When pregnancy expectations don’t match reality and 3 steps to help you cope · 10. Understanding and easing your money worries before baby arrives	We already have this, no action	Mind & mood › Understand ours: Mind and mood reads	Our Mind and mood door already covers this with reads written for Indian families.
32	Mental preparation items: 1. What does “being a good mother” mean? · 2. What's the deal with pregnancy nesting? · 3. 4 tips for nesting (safely) during pregnancy · 4. How to distinguish between baby blues and postpartum depression · 5. Getting emotional support from close ones during childbirth · 6. Mom guilt: 8 actionable tips to get over feeling like a bad mother · 7. What is maternal instinct? · 8. 5 ways to make your maternity leave magical ... even when you're sleep-deprived · 9. Maternity leave stress and tips to prevent it · 10. 6 steps to deal with anxiety about birth	We already have this, no action	Mind & mood › Understand ours: Fears reads: "Fear of labour", "Fear of being a bad mother"	Our Mind and mood door already has a Fears section and reads on the feelings of late pregnancy.
33	Navigating relationships items: 1. 5 cool things that can happen to couples who are expecting · 2. How to feel good about asking for help · 3. Free of unsolicited advice: How to preserve personal boundaries · 4. How to protect your personal space during pregnancy · 5. How does social media affect pregnant women? · 6. Planning a baby shower? Here's how to get the party started · 7. Pregnancy announcement 101	We already have this, no action	Mind & mood › Understand ours: Unsolicited advice and family pressure; When everyone polices what you eat and do	Our Mind and mood reads on family pressure and unwanted advice already cover this, written for Indian families.
34	Your pregnancy meal plan items: 1. Your Pregnancy Menu #1 · 2. Your Pregnancy Menu #2 · 3. Your Pregnancy Menu #3 · 4. Your Pregnancy Menu #4 · 5. Your Pregnancy Menu #5 · 6. Your Pregnancy Menu #6 · 7. Your Pregnancy Menu #7 · 8. Your Pregnancy Menu #8 · 9. Your Pregnancy Menu #9 · 10. Your Pregnancy Menu #10 · 11. Your Pregnancy Menu #11 · 12. Your Pregnancy Menu #12 · 13. Your Pregnancy Menu #13 · 14. Your Pregnancy Menu #14 · 15. Your Pregnancy Menu #15	We already have this, no action	Nutrition › Charts & fasting ours: Ready-made diet charts, e.g. Full month-by-month Indian chart	Our 19 Indian diet charts already give her whole days of meals to follow, in food she actually cooks.
35	Your vegetarian pregnancy meal plan items: 1. Your Vegetarian Pregnancy Menu #1 · 2. Your Vegetarian Pregnancy Menu #2 · 3. Your Vegetarian Pregnancy Menu #3 · 4. Your Vegetarian Pregnancy Menu #4 · 5. Your Vegetarian Pregnancy Menu #5 · 6. Your Vegetarian Pregnancy Menu #6 · 7. Your Vegetarian Pregnancy Menu #7 · 8. Your Vegetarian Pregnancy Menu #8 · 9. Your Vegetarian Pregnancy Menu #9 · 10. Your Vegetarian Pregnancy Menu #10	We already have this, no action	Nutrition › Charts & fasting ours: Vegetarian chart; Jain regional chart	Our vegetarian and Jain diet charts already cover this, written for an Indian vegetarian kitchen, which is where most of our users eat.

36	How to eat safely while pregnant items: 1. Healthy eating in your 1st trimester · 2. Handy food hacks for your 2nd trimester · 3. The lowdown on nutrition in trimester 3 · 4. 5 reasons to keep hydrated during pregnancy · 5. Drinking herbal teas while pregnant: What you should know · 6. Caffeine during pregnancy: Your cheat sheet · 7. 8 tasty pregnancy-safe cheeses · 8. Pregnancy food facts: Eat or avoid? · 9. Why a little bit of dark chocolate can be healthy when you're pregnant · 10. Dispelling the myth: You don't have to eat for two · 11. 3 common pregnancy food myths debunked	We already have this, no action	Nutrition › What to eat now ours: Stage guides; Is it safe? answers	Our trimester guides and 193 'Is it safe?' answers already cover this, and for an Indian kitchen.
37	Key nutrients for your diet items: 1. The importance of omega-3s during pregnancy · 2. Three micronutrients essential for a healthy pregnancy · 3. Calcium: The little mineral that means a lot for your baby · 4. Bump-friendly bites: The best foods to eat during pregnancy	We already have this, no action	Nutrition › What to eat now ours: What your body needs (12 nutrient guides)	Our twelve nutrient guides already cover every nutrient in this collection, with Indian food sources.
38	ID and handle the symptoms items: 1. Feeling windy? The lowdown on pregnancy gas · 2. What's the deal with pregnancy vomiting? · 3. What's the deal with ... pregnancy acne? · 4. 8 top nausea busters that aren't ginger tea · 5. How to deal with pregnancy bloating · 6. Chloe Lovell is a writer and mom of 2 based in the · 7. 15 lesser-known pregnancy symptoms explained · 8. What's the deal with pregnancy headaches? · 9. What's the deal with tender breasts during pregnancy? · 10. What's the deal with pregnancy cramps? · 11. What's the deal with pregnancy fatigue? · 12. What's the deal with pregnancy constipation? · 13. 6 simple self-care habits to adopt during pregnancy · 14. A spotlight on what to expect during your first trimester · 15. Pregnancy-safe ways to relieve constipation · 16. Ask an expert: Is there anything I can do about pregnancy pigmentation? · 17. Pregnancy can change the way you see the world — literally · 18. What's the deal with ... heartburn in pregnancy? · 19. What to do for shortness of breath · 20. Easy ways to deal with leg cramps · 21. Home treatments for varicose veins · 22. Here's why your gums may feel sore · 23. How to deal with hemorrhoids during pregnancy · 24. What's the deal with ... nasal congestion during pregnancy? · 25. Why limb numbness happens during pregnancy · 26. What may belly expansion entail? · 27. Risk factors for anemia in pregnancy · 28. Anemia in pregnancy · 29. Anemia in pregnancy: How to make sure you're getting enough iron · 30. Types of anemia · 31. How does pregnancy change your senses? · 32. Nausea in pregnancy: Is it inevitable? · 33. What you need to know about having a short cervix during pregnancy · 34. How to curb those pregnancy cravings · 35. Ask an expert: How can you reduce swelling during pregnancy? · 36. Sit back and get comfortable with these tips to ease back pain in pregnancy	We already have this, no action	Symptoms › By symptom ours: 33 symptom pages	Our symptom library already covers almost every symptom in this collection; the few missing ones are listed on their own rows.
39	Symptoms: 2nd trimester items: 1. Introduction · 2. Read before you start... · 3. Growing belly · 4. Braxton hicks contractions · 5. Skin changes · 6. Acne and pregnancy glow · 7. Stretch marks · 8. Dental issues and sore gums · 9. Nasal issues · 10. Breast changes · 11. Breast lumps · 12. Dizziness · 13. Leg cramps · 14. Heartburn · 15. Pregnancy headache · 16. Food cravings · 17. Hemorrhoids · 18. Constipation	We already have this, no action	Symptoms › By symptom ours: The 33 symptom pages	Our symptom pages already cover every topic in this course. The format, a two minute video per symptom, is worth copying later for our films.

40	Symptoms: 3rd trimester items: 1. Introduction · 2. Read before you start... · 3. Backaches in the third trimester · 4. Insomnia · 5. Pregnancy headache · 6. Frequent urination · 7. Shortness of breath · 8. Breast changes · 9. Breast lumps · 10. Heartburn · 11. Acid reflux medication · 12. Some people may notice breast lumps during pregnancy · 13. Braxton Hicks contractions · 14. Spider veins and varicose veins · 15. Stretch marks · 16. Dizziness · 17. Constipation · 18. Hemorrhoids · 19. Food cravings	We already have this, no action	Symptoms › By symptom ours: The 33 symptom pages	Our symptom pages already cover every topic in this course.
41	Baby's weekly growth (collection behind the 'Your baby's growth diary' story)	We already have this, no action	Week by week › Week N ours: Week page chip strip (weeks 4 to 40)	Our week page already has a strip of every week she can swipe through, which does the same job.
42	Getting to know your newborn items: 1. 8 benefits of skin-to-skin contact · 2. Why your newborn might develop jaundice (and what to look out for) · 3. What does a newborn feel? · 4. Your baby post-birth: Strange head shapes explained · 5. Having a pet boosts your baby's immune system · 6. A beginner's guide to fontanelles · 7. How to look after your baby's umbilical cord · 8. Your baby's first assessment: The apgar score explained · 9. 5 fascinating reflexes your baby is born with · 10. Reflexes: Your baby's natural skills	Belongs in another stage of our app	Parenting stage	This is about the baby after birth, so it belongs in our parenting section.
43	Recovery after labor items: 1. How should postpartum discharge change? · 2. The process of being discharged from the hospital post-birth · 3. How an abdominal binder can help after giving birth · 4. These 3 Kegel exercises can strengthen your pelvic floor	Belongs in another stage of our app	Parenting stage › First 40 Days	This is about recovery after the birth, so it belongs in our parenting section.

1	Is It Time? Announcing Your Pregnancy (daily insight, Essentials, week 0)	Add: write our own version	Your first weeks › Telling people	P2	Deciding when to tell family and work is a real question in the first weeks, and in India it comes with extra pressure from relatives. We have a Mind read on the secret months, but nothing practical on when and how to share the news.
2	Your baby's growth diary (daily insight, week 0)	We already have this, no action	Home › Daily insights ours: Daily insight cards This week and Size		Our home already shows a This week card and a Size card every day that open the week page.
3	Your Pregnancy Menu #1	Don't add	ours: Ready-made diet charts		This is a day of Western dishes. Our Indian diet charts already do this job for the food she eats.
4	Your Pregnancy Menu #10	Don't add	ours: Ready-made diet charts		This is a day of Western dishes. Our Indian diet charts already do this job for the food she eats.

#	Their title	Decision	Where / our piece	Pri	Why
1	Early hormonal indicators of a healthy pregnancy	Add: write our own version	Scans & tests › Understand a result	P2	Many Indian women are sent for repeat beta hCG and progesterone blood tests early on and worry over the numbers. A plain read on what these tests are for, without judging her own result, would help, and her doctor reads the numbers.
2	Breast changes	Add: write our own version	Symptoms › By symptom	P2	Breast changes are among the first things women notice, and our symptom library has no page on them.
3	Breast lumps	Add: write our own version	Symptoms › By symptom	P2	A lump can be frightening. A short page that explains most are harmless but every lump should be shown to her doctor would help, and it can sit with the breast changes page.
4	Causes & cures: Pregnancy cramps	Add: write our own version	Symptoms › By symptom	P2	Mild cramping in the belly frightens many women, and our symptom library has no page for it. A page should say what is common, what helps, and that cramps with bleeding or that do not ease mean calling the doctor.
5	Lower abdomen pain (cramps)	Add: write our own version	Symptoms › By symptom	P2	We have no symptom page for belly cramps, one of the most common early worries. It should say what is usual and that cramps with bleeding, or pain on one side, mean calling the doctor the same day.
6	Vaginal discharge	Add: write our own version	Symptoms › By symptom	P2	Discharge changes in pregnancy and women often worry or feel too shy to ask. Our library has no page on it; one should say what is normal and which colours, smells or itching need a doctor.
7	Preparing financially for starting a family	Add: write our own version	Work, money and rights › Money	P2	A plain guide to planning money for a baby, written for India, belongs in the new money tab.
8	The nine-month countdown	Add: write our own version	Work, money and rights › Money	P2	A month by month money plan, with scan costs, the delivery and leave, would help Indian couples plan ahead.
9	The role of hormones in labor and delivery	Add: write our own version	Labour prep › Signs and stages	P3	A line on why calm and privacy help labour move fits the new labour piece; it does not need its own read.
10	Keeping the chemistry strong	Add: write our own version	Mind & mood › Sex and closeness	P3	Staying close as a couple through pregnancy belongs in a new tab on sex and closeness, written in a gentle, private tone.
11	Introduction	Add: write our own version	Work, money and rights › Money	P3	This is part of the money course above, which we would write for India.
12	Setting your family's financial goals	Add: write our own version	Work, money and rights › Money	P3	This fits the money tab as a small part of planning.
13	The "fourth trimester"	Add: write our own version	Work, money and rights › Money	P3	This belongs in our money tab as part of planning, written for Indian costs.
14	Vaginal labor: First stage	Add to a piece we already have	Labour prep › Understand the birth ours: Video "Labour, start to finish" (coming soon)	P2	Our labour film is still coming soon. A short video per stage, like this one, is the easiest way to show what happens.

15	Vaginal labor: Second stage	Add to a piece we already have	Labour prep › Understand the birth ours: Video "Labour, start to finish" (coming soon)	P2	Same as the first stage video: our labour film is still coming soon, and a short film per stage would show it plainly.
16	Vaginal labor: Third stage	Add to a piece we already have	Labour prep › Understand the birth ours: Video "Labour, start to finish" (coming soon)	P2	Few women know there is a third stage after the baby is born. A short film per stage would fill the gap left by our labour film, which is still coming soon.
17	Emotions	Add to a piece we already have	Mind & mood › Feel ours: Meditation videos (coming soon)	P3	Our meditation places are empty. A guided session on emotions would fill one of them.
18	Future	Add to a piece we already have	Mind & mood › Feel ours: Meditation video "Releasing birth fear" (coming soon)	P3	Our coming soon meditation on birth fear could use this shape.
19	Introducing the course	Add to a piece we already have	Mind & mood › Feel ours: Meditation videos (coming soon)	P3	Our meditation videos are still coming soon. A short welcome that says what the course is for would start ours well.
20	Let's practice together	Add to a piece we already have	Mind & mood › Feel ours: Meditation videos (coming soon)	P3	Our guided meditation places are still empty. A practice session like this would fill one.
21	Love	Add to a piece we already have	Mind & mood › Feel ours: Meditation video "Self-compassion" (coming soon)	P3	This is what our coming soon self-compassion meditation should be.
22	Thoughts	Add to a piece we already have	Mind & mood › Feel ours: Meditation video "Letting go of worry" (coming soon)	P3	This is what our coming soon "Letting go of worry" meditation should be.
23	Boundaries	Add to a piece we already have	Mind & mood › Understand ours: Unsolicited advice and family pressure	P3	Our read on family pressure covers the words; a short guided practice would help her hold the line kindly.
24	Secret chats: Birth fears	Add to a piece we already have	Mind & mood › Understand ours: Fear of labour	P3	Our 'Fear of labour' read covers the fear. Real Indian women talking about it on video, once we can film them, would make it feel shared.
25	Pregnancy yoga for flexibility	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga (22 sessions, no playable video yet)	P3	This belongs in the guided yoga set we propose recording for each trimester.
26	Workout 1. Lower limb joint flexibility	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.
27	Workout 1. Neck comfort	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, third trimester sessions	P3	Record this as part of our third trimester set.
28	Workout 1. Posture and shoulder flexibility	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Posture & alignment	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
29	Workout 2. Back exercises, spine health	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.
30	Workout 2. Leg joint flexibility	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, third trimester sessions	P3	Record this as part of our third trimester set.

31	Workout 2. Pelvic openers	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Hips & pelvis opener	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
32	Workout 3. Core muscle stretching	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Steady balance & core	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
33	Workout 3. Relaxation and stretching in a side-lying position	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Legs-up restorative	P3	Side-lying practice suits the last weeks; record it as part of our third trimester set.
34	Workout 3. Spine health, balance, and posture	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.
35	Workout 4. Exercising the pelvis, thighs, and abs	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Pelvic-floor & birth prep	P3	Record this as part of our third trimester set, checked by a physiotherapist.
36	Workout 4. Hip joint flexibility	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Hip-opener foundations	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
37	Workout 5. Healthy spine	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Back-care essentials	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
38	Workout 5. Joint flexibility and strength training	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.
39	Workout 6. Strengthening lateral core muscles	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.
40	Workout 6. Whole body stretching	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Gentle full- body stretch	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
41	Workout 7. Core stretching	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga: Steady balance & core	P3	This matches a session we list but cannot play yet; record it as part of our second trimester set.
42	Workout 7. Stretching and strengthening core muscles	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.
43	Workout 8. Lower limb joint flexibility and supine stretching	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.
44	Workout 9. Strengthening lower limb muscles	Add to a piece we already have	Move & rest › Move safely ours: Month-by-month prenatal yoga, first trimester sessions	P3	Record this as part of our first trimester set, checked by a physiotherapist.

45	Air in the bedroom checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3	A line on a cool, airy room fits our sleep guide, written for Indian homes with fans and coolers.
46	Evening routine checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3	A short evening routine fits our sleep guide.
47	Exercise checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3	A line linking daytime walks to better sleep fits our sleep guide.
48	Food checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping; Symptom page: Heartburn	P3	Eating earlier and lighter at night also eases heartburn, so a short food section fits our sleep guide.
49	Light checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3	Two or three of these tips (daylight walks, dim lights at night) belong in our sleep guide.
50	Napping checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Fatigue	P3	Short naps help with pregnancy tiredness; a line on napping fits our sleep guide.
51	Temperature and noise checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Feeling hot and sweaty	P3	Feeling hot at night is common in pregnancy; a short line fits our sleep guide.
52	What affects my sleep checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom page: Trouble Sleeping	P3	A short checklist like this fits inside our proposed sleep guide.
53	"Breathing while you sleep" checklist	Add to a piece we already have	Move & rest › Sleep and rest ours: Symptom pages: A blocked nose; Trouble Sleeping	P3	A blocked nose at night is common in pregnancy; two lines from this list fit our sleep guide.
54	Healthy snack basics	Add to a piece we already have	Nutrition › Recipes ours: Recipe grid, snack recipes	P3	A two minute video on building a filling snack from Indian foods (roasted chana, makhana, fruit with curd) would suit women who graze because of nausea.
55	The ovary to placenta shift in the first trimester	Add to a piece we already have	Week by week › Week 12 ours: Week 12 page (weekContent.json)	P3	This fits the placenta explainer we propose for week 12.
56	Hormones & healthy pregnancy	Add to a piece we already have	Week by week › Week 5 ours: Week 5 body changes (Hormones section)	P3	Our week 5 page already has a hormones section; a short film later would help, but the facts are there.
57	Growing belly	We already have this, no action	Belly & skin › Belly care ours: Comfort for the growing bump		Our belly care pages already explain the growing bump.
58	Acne and pregnancy glow	We already have this, no action	Belly & skin › Skin changes ours: The pregnancy glow; Pregnancy acne		We already have reads on both pregnancy acne and the pregnancy glow.
59	Skin changes	We already have this, no action	Belly & skin › Skin changes ours: Pigmentation and skin change reads		Our Belly and skin door has eight reads on skin changes.
60	Stretch marks	We already have this, no action	Belly & skin › Skin changes ours: Why stretch marks happen; What actually helps, and what does not		Our four stretch mark reads already cover this well.
61	Hemorrhoids	We already have this, no action	Complications › Find a condition ours: Condition page: Piles (haemorrhoids)		Our piles condition page already covers this.

62	Acid reflux medication	We already have this, no action	Is it safe? › Can I take it? ours: Can I "Antacids"; "Acidity Tablets (Pantoprazole)"	Our Can I answers on antacids and acidity tablets already cover this, with the doctor having the last word.
63	Breathing	We already have this, no action	Mind & mood › Feel ours: Box breathing; 4-7-8 breath; Slow-down breath	Our three breathing tools already guide her through calm breathing, with a live breathing circle.
64	Five coping tools	We already have this, no action	Mind & mood › Feel ours: A hard-day reset; Calm note; breathing tools	Our Feel tab already gives her working tools to use in the moment.
65	Relaxation	We already have this, no action	Mind & mood › Feel ours: Guided relaxation, head to toe	Our guided head to toe relaxation already does this.
66	Workout 4. Relaxation breathing techniques	We already have this, no action	Mind & mood › Feel ours: Box breathing; 4-7-8 breath; Slow-down breath (live breathing tools)	Our three live breathing tools already guide her through calming breaths.
67	Knowing and asking for what you need	We already have this, no action	Mind & mood › Understand ours: Bringing him in, when he doesn't get it	Our read "Bringing him in, when he doesn't get it" already covers asking him for help in pregnancy.
68	Mind and body response	We already have this, no action	Mind & mood › Understand ours: Calm matters: stress and pregnancy	Our read "Calm matters: stress and pregnancy" already covers this.
69	Navigating difficult conversations	We already have this, no action	Mind & mood › Understand ours: Bringing him in, when he doesn't get it	Our read on bringing him in already covers the hard talks of pregnancy.
70	Stress and anxiety 101	We already have this, no action	Mind & mood › Understand ours: Pregnancy anxiety	Our read "Pregnancy anxiety" already covers this.
71	Stress and sleep checklist	We already have this, no action	Mind & mood › Understand ours: Read: Sleep and mood; breathing tools	Our sleep and mood read and our breathing tools already cover calming down before bed.
72	The many faces of anxiety	We already have this, no action	Mind & mood › Understand ours: Pregnancy anxiety; Panic attacks	Our reads on pregnancy anxiety and panic attacks already cover this.
73	Food cravings	We already have this, no action	Nutrition › Today ours: Craving cards (Why cravings happen, Pica, and when to tell a doctor) and 13 craving items	Our craving cards already cover this, with Indian cravings like golgappa and imli.
74	Backaches in the third trimester	We already have this, no action	Symptoms › By symptom ours: Symptom page "Back Pain"; read "Easing back pain in pregnancy"	Our back pain pages already cover this.
75	Braxton hicks contractions	We already have this, no action	Symptoms › By symptom ours: Symptom page "Braxton Hicks"	Our Braxton Hicks page and "Tightenings that are not labour" already cover this.
76	Constipation	We already have this, no action	Symptoms › By symptom ours: Symptom page: Constipation	Our constipation page already covers this, including iron tablets as a cause.
77	Dental issues and sore gums	We already have this, no action	Symptoms › By symptom ours: Symptom page "Bleeding gums"; Can I "Dental Treatment"	Our bleeding gums page and our dental treatment answer already cover this.
78	Dizziness	We already have this, no action	Symptoms › By symptom ours: Symptom page: Dizziness	Our dizziness page already covers this.

79	Doctor-backed nausea busters	We already have this, no action	Symptoms › By symptom ours: Symptom page: Nausea; read Managing morning sickness	Our nausea page and our morning sickness read already give these tips for Indian kitchens.
80	Fatigue or excessive tiredness	We already have this, no action	Symptoms › By symptom ours: Symptom page: Fatigue	Our fatigue page already covers this.
81	Frequent urination	We already have this, no action	Symptoms › By symptom ours: Symptom page "Needing to pee often"	Our symptom page already covers this and says when burning means an infection.
82	Heartburn	We already have this, no action	Symptoms › By symptom ours: Symptom page: Heartburn	Our heartburn page already covers this.
83	Insomnia	We already have this, no action	Symptoms › By symptom ours: Symptom page "Trouble Sleeping"	Our trouble sleeping page already covers this.
84	Leg cramps	We already have this, no action	Symptoms › By symptom ours: Symptom page "Leg Cramps"	Our leg cramps page already covers this.
85	Morning sickness: The whys and the ways to manage it	We already have this, no action	Symptoms › By symptom ours: Symptom page: Nausea; read Managing morning sickness	Our nausea page and morning sickness read already cover this.
86	Nasal issues	We already have this, no action	Symptoms › By symptom ours: Symptom pages "A blocked nose" and "Nosebleeds"	Our two symptom pages already cover this.
87	Pregnancy headache	We already have this, no action	Symptoms › By symptom ours: Symptom page "Headache"	Our headache page covers this and says which headaches need a call the same day.
88	Shortness of breath	We already have this, no action	Symptoms › By symptom ours: Symptom page "Breathlessness"	Our breathlessness page already covers this.
89	Spider veins and varicose veins	We already have this, no action	Symptoms › By symptom ours: Symptom page "Varicose veins"; Belly and skin "Spider veins and skin tags"	We already have pages on both.
90	Early pregnancy symptoms	We already have this, no action	Week by week › Week 6 ours: Read: Understanding the first trimester; early week pages	Our first trimester read and the early week pages already describe these symptoms.
91	Hormones involved in postpartum recovery and breastfeeding	Belongs in another stage of our app	Parenting stage	This is about life after the birth, so it belongs in our parenting section.
92	15 signs of early pregnancy	Belongs in another stage of our app	Trying to conceive stage	Early signs before a test are what a woman who is still trying looks for, so this belongs in our trying to conceive section.
93	Air	Don't add		This is a long general sleep lecture, not written for pregnancy; the checklist beside it is enough.
94	Baby registry checklist	Don't add		A baby registry is not an Indian habit. What a family truly needs to buy belongs in our proposed "What to buy" list instead.
95	Breathing	Don't add		This is a general sleep lecture, not written for pregnancy; the checklist beside it is enough.

96	Coconut chocolate brownies	Don't add	ours: Recipe grid	This is a Western dessert with no pregnancy need behind it; our Indian sweet recipes cover the craving.
97	Comfort	Don't add		This is a general sleep lecture, not written for pregnancy; the pregnancy sleep position pieces cover comfort better.
98	Decisive steps	Don't add		This is a general sleep lecture with no pregnancy angle.
99	Deepening your connection	Don't add		This is general relationship coaching with no pregnancy angle.
100	Environment	Don't add		This is a general sleep lecture, not written for pregnancy; the checklist beside it is enough.
101	Exercise	Don't add		This is a long general sleep lecture, not written for pregnancy; the checklist beside it is enough.
102	Fiber-rich oat and apple bars	Don't add	ours: Recipe grid	This is a Western snack bar. Our oats porridge and daliya recipes already give her fibre from food she knows.
103	Fixing common relationship mistakes	Don't add		This is general relationship coaching with no pregnancy angle. Our pregnancy relationship read covers what matters here.
104	Going to bed	Don't add		This is a general sleep lecture, not written for pregnancy; the checklist beside it is enough.
105	Introduction	Don't add		This is only a course introduction with nothing to learn in it.
106	LGBTQ+ parents talk pregnancy	Don't add		LGBTQ+ content is deferred by a product decision on 24 Sep 2026; revisit later.
107	Light	Don't add		This is a long general sleep lecture, not written for pregnancy. The short light checklist beside it is enough for our sleep guide.
108	No-Bake carrot cake bites	Don't add	ours: Recipe grid	This is a Western sweet. Our recipes already cover Indian sweets such as dates and nuts laddoo.
109	Nutrition	Don't add		This is a long general sleep lecture, not written for pregnancy; the checklist beside it is enough.
110	Pregnancy sex diary: Trimester 1	Don't add		A frank real-user video about sex would not sit well on a shared family phone in India. The questions behind it are covered by the sex in pregnancy read we are adding.
111	Read before you start	Don't add		This is the app's own legal note, not content.
112	Read before you start...	Don't add		This is Flo's own legal note for its courses, not content.
113	Rosemary and chilli walnut mix	Don't add	ours: Recipe grid: Ghee-roasted makhana	This is a Western snack; our roasted makhana and nut recipes already do the same job.
114	Strawberry and banana beauty smoothie	Don't add	ours: Is it safe? answer: Smoothie	A fruit smoothie needs no recipe, and our Can I answer already covers smoothies in pregnancy.
115	Stress	Don't add		This is a long general sleep lecture, not written for pregnancy; our Mind and mood read on sleep and mood covers the link.
116	Waking up	Don't add		This is a general sleep lecture with no pregnancy angle.

117	What affects your sleep?	Don't add			This is a long general sleep lecture, not written for pregnancy. The short checklist beside it carries what matters, and that goes into our sleep guide.
-----	--------------------------	-----------	--	--	--

Flo · Week by week (43)

#	Their title	Decision	Where / our piece	Pri	Why
1	What happens at 41 weeks	Add: write our own version	Week by week › Week 41 and 42	P1	Our week pages stop at 40, and going past the due date is common and worrying. She needs a calm page on what the doctor will check and when induction is usually discussed, ending with her doctor's plan.
2	How your pregnancy begins	Add: write our own version	Week by week › Week 1 to 3	P2	Our week pages start at week 4, so a woman who is told she is two or three weeks pregnant finds nothing. One short page on how the weeks are counted, and what is happening before the test turns positive, fills that gap.
3	What happens at 1 week	Add: write our own version	Week by week › Week 1 to 3	P2	Our weeks begin at 4, and many women are confused about why they are called pregnant before conception. This belongs in the same short page for weeks 1 to 3.
4	What happens at 3 weeks: Implantation	Add: write our own version	Week by week › Week 1 to 3	P2	Implantation and the first days of the pregnancy are a common question, and our week pages start only at week 4.
5	What happens at 42 weeks	Add: write our own version	Week by week › Week 41 and 42	P2	Same gap as week 41; one page for weeks 41 and 42, written so her doctor's plan always comes first.
6	What happens at 2 weeks	Add: write our own version	Week by week › Week 1 to 3	P3	Same gap as weeks 0 and 1; one combined page for the first three weeks is enough.
7	What happens at 28 weeks	Add to a piece we already have	Week by week › Week 28 ours: Week 28 page; Baby Movement Tracker	P2	Our week 28 page has the size and the development, but it does not tell her that this is the week to start noticing her baby's movements. Add one line that links to our Baby Movement Tracker, framed as getting to know the pattern, not as a test.
8	What happens at 10 weeks	We already have this, no action	Week by week › Week 10 ours: Week 10 page (What happens in week 10)		Our week 10 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
9	What happens at 11 weeks	We already have this, no action	Week by week › Week 11 ours: Week 11 page (What happens in week 11)		Our week 11 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
10	What happens at 12 weeks	We already have this, no action	Week by week › Week 12 ours: Week 12 page (What happens in week 12)		Our week 12 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
11	What happens at 13 weeks	We already have this, no action	Week by week › Week 13 ours: Week 13 page (What happens in week 13)		Our week 13 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.

12	What happens at 14 weeks	We already have this, no action	Week by week › Week 14 ours: Week 14 page (What happens in week 14)	Our week 14 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
13	What happens at 15 weeks	We already have this, no action	Week by week › Week 15 ours: Week 15 page (What happens in week 15)	Our week 15 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
14	What happens at 16 weeks	We already have this, no action	Week by week › Week 16 ours: Week 16 page (What happens in week 16)	Our week 16 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
15	What happens at 17 weeks	We already have this, no action	Week by week › Week 17 ours: Week 17 page (What happens in week 17)	Our week 17 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
16	What happens at 18 weeks	We already have this, no action	Week by week › Week 18 ours: Week 18 page (What happens in week 18)	Our week 18 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
17	What happens at 19 weeks	We already have this, no action	Week by week › Week 19 ours: Week 19 page (What happens in week 19)	Our week 19 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
18	What happens at 20 weeks	We already have this, no action	Week by week › Week 20 ours: Week 20 page (What happens in week 20)	Our week 20 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
19	What happens at 21 weeks	We already have this, no action	Week by week › Week 21 ours: Week 21 page (What happens in week 21)	Our week 21 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
20	What happens at 22 weeks	We already have this, no action	Week by week › Week 22 ours: Week 22 page (What happens in week 22)	Our week 22 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
21	What happens at 23 weeks	We already have this, no action	Week by week › Week 23 ours: Week 23 page (What happens in week 23)	Our week 23 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.

22	What happens at 24 weeks	We already have this, no action	Week by week › Week 24 ours: Week 24 page (What happens in week 24)	Our week 24 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
23	What happens at 25 weeks	We already have this, no action	Week by week › Week 25 ours: Week 25 page (What happens in week 25)	Our week 25 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
24	What happens at 26 weeks	We already have this, no action	Week by week › Week 26 ours: Week 26 page (What happens in week 26)	Our week 26 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
25	What happens at 27 weeks	We already have this, no action	Week by week › Week 27 ours: Week 27 page (What happens in week 27)	Our week 27 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
26	What happens at 29 weeks	We already have this, no action	Week by week › Week 29 ours: Week 29 page (What happens in week 29)	Our week 29 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
27	What happens at 30 weeks	We already have this, no action	Week by week › Week 30 ours: Week 30 page (What happens in week 30)	Our week 30 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
28	What happens at 31 weeks	We already have this, no action	Week by week › Week 31 ours: Week 31 page (What happens in week 31)	Our week 31 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
29	What happens at 32 weeks	We already have this, no action	Week by week › Week 32 ours: Week 32 page (What happens in week 32)	Our week 32 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
30	What happens at 33 weeks	We already have this, no action	Week by week › Week 33 ours: Week 33 page (What happens in week 33)	Our week 33 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
31	What happens at 34 weeks	We already have this, no action	Week by week › Week 34 ours: Week 34 page (What happens in week 34)	Our week 34 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.

32	What happens at 35 weeks	We already have this, no action	Week by week › Week 35 ours: Week 35 page (What happens in week 35)	Our week 35 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
33	What happens at 36 weeks	We already have this, no action	Week by week › Week 36 ours: Week 36 page (What happens in week 36)	Our week 36 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
34	What happens at 37 weeks	We already have this, no action	Week by week › Week 37 ours: Week 37 page (What happens in week 37)	Our week 37 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
35	What happens at 38 weeks	We already have this, no action	Week by week › Week 38 ours: Week 38 page (What happens in week 38)	Our week 38 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
36	What happens at 39 weeks	We already have this, no action	Week by week › Week 39 ours: Week 39 page (What happens in week 39)	Our week 39 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
37	What happens at 4 weeks	We already have this, no action	Week by week › Week 4 ours: Week 4 page (What happens in week 4)	Our week 4 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
38	What happens at 40 weeks	We already have this, no action	Week by week › Week 40 ours: Week 40 page (What happens in week 40)	Our week 40 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
39	What happens at 5 weeks	We already have this, no action	Week by week › Week 5 ours: Week 5 page (What happens in week 5)	Our week 5 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
40	What happens at 6 weeks	We already have this, no action	Week by week › Week 6 ours: Week 6 page (What happens in week 6)	Our week 6 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
41	What happens at 7 weeks	We already have this, no action	Week by week › Week 7 ours: Week 7 page (What happens in week 7)	Our week 7 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.

42	What happens at 8 weeks	We already have this, no action	Week by week › Week 8 ours: Week 8 page (What happens in week 8)	Our week 8 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.
43	Your baby at 9 weeks	We already have this, no action	Week by week › Week 9 ours: Week 9 page (What happens in week 9)	Our week 9 page already gives the size, what the baby is doing and a did-you-know. What Flo adds is a named doctor and references, which is a trust question covered in the Behind tabs, not a missing piece.

#	Their title	Decision	Where / our piece	Pri	Why
1	How to Breastfeed: A Guide for New Moms	Add: write our own version	Labour prep › Feeding and first days	P1	Learning the basics of latching and feeding before the birth is one of the best things she can do, and we have only a short expert note and a paid masterclass. A free, plain read written for the first days in an Indian hospital is a real gap.
2	10 Signs of Labor	Add: write our own version	Labour prep › Signs and stages	P1	How to know labour is starting and when to go to hospital is the question of the third trimester, and we have no read on it. This should be one of the first pieces written.
3	Delivering by C-Section	Add: write our own version	Labour prep › Signs and stages	P1	About one in three births in Indian cities is a C-section, and our only tile on it is still marked coming soon. She needs a calm, full explanation before the day.
4	Episiotomy During Labor and Delivery	Add: write our own version	Labour prep › Signs and stages	P1	The cut is still done often in Indian hospitals and many women fear it most. We only have a title for this in unused data, so a real piece is needed.
5	Inducing Labor: What Happens When You're Induced?	Add: write our own version	Labour prep › Signs and stages	P1	Induction is one of the most common things that happens near the due date, and we have nothing on it. She needs to know what it involves before she is asked to agree.
6	Preterm Labor	Add: write our own version	Labour prep › Signs and stages	P1	Tightenings before 37 weeks are on our Is this normal list, but there is no read on early labour. Its signs, and going in straight away, need a clear page.
7	Your Questions About Sex During Pregnancy, Answered	Add: write our own version	Mind & mood › Sex and closeness	P1	Almost every couple wonders if sex is safe in pregnancy, and we only have one short Can I answer. A calm, private read on when it is fine and when to stop, written in a gentle tone, is a real gap.
8	Help Me, Heidi! Are the Flu and Tdap Vaccines Really Safe During Pregnancy?	Add: write our own version	Scans & tests › Understand a scan	P1	The vaccines given in pregnancy in India (the tetanus and whooping cough shot, and flu) have no read of ours, only one short Can I line. Write a page on which vaccines, when, and why they protect the baby.
9	Maternity Leave	Add: write our own version	Work, money and rights › Leave and rights	P1	US law does not apply, but every working woman here asks about leave. Write it for India: 26 weeks of paid leave under the Maternity Benefit Act for the first two children, 12 weeks from the third, and what to check with her employer.

10	What Pregnancy Really Costs	Add: write our own version	Work, money and rights › Money	P1	US insurance does not apply, but what a delivery costs in India, and what health insurance maternity cover pays, is one of the first practical worries for families. Write it for India with honest price ranges for normal and C-section births.
11	Working While Pregnant	Add: write our own version	Work, money and rights › Work	P1	Most of our urban users work through pregnancy, and we have only one Mind read on work stress. A practical read on sitting, commuting, breaks, night shifts and her rights at work, written for India, is a real gap.
12	Bed Rest During Pregnancy	Add: write our own version	Complications › Living with it	P2	Indian doctors still often advise rest, and families take it very strictly. A read on what rest usually means, and how to keep moving safely within the doctor's advice, would help.
13	Having a High-Risk Pregnancy	Add: write our own version	Complications › Living with it	P2	Many women are told they are high risk with no explanation. A calm page on what the label means and what changes in her care would help.
14	Your Baby Registry Checklist	Add: write our own version	Getting ready for baby › What to buy	P2	Registries are not an Indian habit, but the need behind it is real: what to buy before the baby comes, and what to skip. Write a simple Indian list that links to our store.
15	Can You Keep Breastfeeding During Pregnancy?	Add: write our own version	Is it safe? › Can I do it?	P2	Many Indian mothers are still feeding a toddler when the next pregnancy begins. A clear Can I answer (usually safe, check with the doctor if there is a risk of early labour) is missing.
16	Breastfeeding Support Groups Can Be the Resource New Moms Need	Add: write our own version	Labour prep › Feeding and first days	P2	Knowing before the birth where to get feeding help makes the first days easier. A read that names who can help in India (hospital lactation staff, a lactation consultant, a peer group) belongs in pregnancy.
17	Can You Breastfeed With Flat or Inverted Nipples?	Add: write our own version	Labour prep › Feeding and first days	P2	This is something a woman notices in pregnancy and worries about. A calm read that says most women still breastfeed, and who can help, belongs before the birth.
18	Who Should Be in the Delivery Room When You're Giving Birth?	Add: write our own version	Labour prep › For your partner	P2	In India this is a real question: many hospitals allow only one female relative, and husbands are not always allowed in. A read on who can be with her, and asking the hospital early, would help.
19	12 Ways You Can Prepare for Labor	Add: write our own version	Labour prep › Signs and stages	P2	A simple list of what to do in the last month (know the route, save the numbers, pack the bag, rest, keep walking if the doctor agrees) pulls our labour tools together. We have the tools but no read that does this.
20	Labor Augmentation	Add: write our own version	Labour prep › Signs and stages	P2	Being put on a drip to speed up labour is very common in Indian hospitals, and women are often not told why. A plain explanation helps her ask.
21	Labor Positions	Add: write our own version	Labour prep › Signs and stages	P2	Moving and changing position helps labour, and we have only paid yoga sessions on it. A free read with drawings, or a short video, would be useful.

22	Taking a Hospital (or Birthing Center) Tour During Pregnancy	Add: write our own version	Labour prep › Signs and stages	P2	Choosing and visiting the hospital is a big decision for Indian families, often made late. A read with the questions to ask (labour room, who can stay, epidural, NICU, costs) would help.
23	Things They Don't Tell You About a C-Section	Add: write our own version	Labour prep › Signs and stages	P2	This belongs inside the C-section piece we are adding, as a short honest section on how it feels, not as a separate read.
24	Vaginal Birth After Cesarean (VBAC)	Add: write our own version	Labour prep › Signs and stages	P2	Many second-time mothers in India assume a second C-section is automatic. A plain piece on when a normal birth may still be possible helps her ask her doctor.
25	8 Pregnancy Sex Challenges — and How to Fix Them	Add: write our own version	Mind & mood › Sex and closeness	P2	We have only one Can I answer on sex. A gentle, private piece on the common problems couples meet would help many.
26	Peeing When You Sneeze? Here's How to Manage Pregnancy Incontinence	Add: write our own version	Move & rest › Pelvic floor	P2	Leaking is common and embarrassing, and we have nothing on it. A page with pelvic floor exercises would help, and it should link to our Kegel tool.
27	Biophysical Profile	Add: write our own version	Scans & tests › Understand a scan	P2	This check is ordered in late pregnancy in India, often when she is past her date, and it is missing from our list of nine scans and tests.
28	Nonstress (via search: Nonstress Test (NST): What It Is and Why You Might Need One During Pregnancy)	Add: write our own version	Scans & tests › Understand a scan	P2	This test, often called an NST or CTG in India, is common after 36 weeks and it is not in our list of scans and tests.
29	Potential Complications of Carrying Twins	Add: write our own version	Twins and more › Care and scans	P2	Twin pregnancies need closer care, and she should know why without being frightened. Always end with her doctor's plan for her.
30	Prenatal Genetic Testing for Twins	Add: write our own version	Twins and more › Care and scans	P2	When a scan shows two babies, she needs to know what changes in her care. We have a Twin Pregnancy report word, but no read on this.
31	How to Tell Your Boss	Add: write our own version	Work, money and rights › Leave and rights	P2	Telling work is a real worry, and in India it is tied to planning maternity leave. A short read on when to tell and what to ask about leave would help.
32	Paternity and Family Leave in the U.S.	Add: write our own version	Work, money and rights › Leave and rights	P2	US law does not apply here, but fathers in India want to know what paternity leave they can get. Write it for India: central government employees get 15 days, and private companies set their own policy.
33	How to Prepare for a Baby Financially	Add: write our own version	Work, money and rights › Money	P2	A short checklist for India (check maternity cover and its waiting period, add the baby to the policy, check leave rules at work) is useful and we have nothing on it.
34	What Babies Really Cost	Add: write our own version	Work, money and rights › Money	P2	A plain Indian baby budget for the first year would help families plan. Write it for India with real ranges, not American numbers.
35	When to Tell People You're Pregnant	Add: write our own version	Your first weeks › Telling people	P2	Deciding when to tell family and work is a real question in the first weeks, and in India the family side is often the harder one. We have only the Mind read on the secret months, not a practical guide.

36	Toxoplasmosis During Pregnancy	Add: write our own version	Complications › Find a condition	P3	We touch this only in the Can I answers on cats and raw meat. A short page on infections that matter in pregnancy would show her why that advice exists.
37	How to Have a Healthy Pregnancy With a Physical Disability	Add: write our own version	Complications › Living with it	P3	We have nothing for women with a disability. A short, practical page would show them the app is for them too.
38	Keeping Your Baby's Name Secret	Add: write our own version	Getting ready for baby › Baby names	P3	Choosing a name, and who gets a say, is a big family topic in India. It fits a small baby names section, which we do not have in pregnancy.
39	How to Plan a Baby Shower	Add: write our own version	Getting ready for baby › Home and help	P3	The Indian version of this moment is the godh bharai or seemantham. A short, warm piece on the ceremony, when it is usually held and how to keep it comfortable for her, would fit our families well.
40	What Is a Doula and Should You Hire One for Your Baby's Birth?	Add: write our own version	Labour prep › For your partner	P3	Doulas are becoming available in Indian cities. A short read on what a doula does and how she differs from a nurse would help families who can afford one.
41	Amniotomy (Artificial Rupture of Membranes) During Labor	Add: write our own version	Labour prep › Signs and stages	P3	A short part on this belongs in the stages of labour piece, so the procedure is not a surprise.
42	Electronic Fetal Monitoring	Add: write our own version	Labour prep › Signs and stages	P3	The monitoring belt is used in most Indian labour rooms. A few lines on what it is and why can go in the stages of labour piece.
43	Giving Birth at a Birthing Center	Add: write our own version	Labour prep › Signs and stages	P3	A small number of birth centres and midwife led units now exist in Indian cities. Write one read on where to give birth in India (government hospital, private hospital, birth centre), never encouraging birth without a skilled attendant.
44	How to Deliver a Baby in an Emergency	Add: write our own version	Labour prep › Signs and stages	P3	Rare, but it frightens many women living far from a hospital. Write it for India, with the 108 and 102 ambulance numbers instead of 911.
45	Routine IV During Labor	Add: write our own version	Labour prep › Signs and stages	P3	A small point that fits inside the piece on what happens in the labour ward.
46	What Is Pitocin Induction?	Add: write our own version	Labour prep › Signs and stages	P3	In India this is called the oxytocin drip. It should be a part of the induction piece, using the Indian name.
47	Surprising Pregnancy Symptoms — for Partners!	Add: write our own version	Partner › His side	P3	Some men feel sympathy symptoms and worry, and nothing in our partner side talks about his own feelings. A short, light read would make him feel seen.
48	Fetal Movement When You're Expecting Twins	Add: write our own version	Twins and more › Care and scans	P3	Feeling two babies move is confusing, and our kick counting guidance assumes one baby. A short read would help mothers of twins.
49	What Is Full Term for Twins?	Add: write our own version	Twins and more › Care and scans	P3	Twins usually come earlier, and knowing this helps her plan her leave and her bag. It fits the twins care read.
50	Having Vaginal Birth With Twins	Add: write our own version	Twins and more › Getting ready	P3	This goes in the same read on how twins are born. Keep it clear that the decision is her doctor's.
51	How Will I Deliver My Twin Babies?	Add: write our own version	Twins and more › Getting ready	P3	Mothers of twins want to know whether a normal birth is possible. One read on how twins are born covers this and the next piece.

52	Possible Fetal Positions in Twins	Add: write our own version	Twins and more › Getting ready	P3	Positions decide how twins are born, so this is useful near the end of a twin pregnancy. It fits a short read on how twins are delivered.
53	Do Twins Really Run in Families?	Add: write our own version	Twins and more › Understand	P3	A common question once twins are mentioned. It fits a small twins section; keep it to population facts only.
54	What Are Your Chances of Having Twins?	Add: write our own version	Twins and more › Understand	P3	Useful background for a twins section. Say only what makes twins more common in general, and never show her a personal chance.
55	What Are the Different Types of Twins?	Add: write our own version	Twins and more › Understand	P3	Women who learn they are carrying twins want to understand what kind, and we have nothing on twins beyond a diet guide. A short read would start that section.
56	Where to Find Financial Help as a Single Mom	Add: write our own version	Work, money and rights › Money	P3	US programmes do not apply, but Indian schemes such as the PM Matru Vandana Yojana cash benefit and Janani Suraksha Yojana help many women. Write it for India.
57	Should You Go Back to Work?	Add: write our own version	Work, money and rights › Work	P3	Many women begin weighing this decision during pregnancy, often with family opinions in the mix. A calm piece on thinking it through fits our proposed work section.
58	How Partners Can Offer Support and Encouragement During Labor	Add to a piece we already have	Labour prep › For your partner ours: What your partner should actually do (coming soon)	P1	Our tile for this is still coming soon. His role in labour is exactly what fathers in India ask about, so this should be written first.
59	Childbirth Stage One: The Three Phases of Labor	Add to a piece we already have	Labour prep › Signs and stages ours: Read: Labour, step by step	P1	Our labour read should lay out the stages clearly (early, active, transition, pushing, the placenta) with how long each usually takes in a first birth.
60	Giving Birth by Vaginal Delivery	Add to a piece we already have	Labour prep › Signs and stages ours: Read: Labour, step by step	P1	Our Labour, step by step read is the only real piece on the birth itself. It should grow into a full guide to a vaginal birth, and the coming soon tiles on this door should be written.
61	Labor Contractions: What Do Contractions Feel Like?	Add to a piece we already have	Labour prep › Signs and stages ours: Symptom page: Braxton Hicks	P1	Our Braxton Hicks page explains practice tightenings. A part on what real contractions feel like, with a link to our contraction timer, should sit in the signs of labour read.
62	Week by Week Pregnancy Advice for Expecting Dads and Partners	Add to a piece we already have	Partner › His side ours: The partner corner in weekContent.json (whatYouCanDo, oneMission)	P1	We already write a partner line for every week, but it only shows in his week stack. A clear week by week guide for him, reachable from his home, is one of the most asked for pieces for fathers.
63	Diabetic Diet	Add to a piece we already have	Complications › Find a condition ours: Condition page: Pregnancy with a pre-existing condition	P2	Diabetes before pregnancy is common in India and needs close care. Our pre-existing condition page should give it its own part, always led by her doctor.
64	Can You Drink Any Alcohol?	Add to a piece we already have	Is it safe? › Can I drink it? ours: Can I: Alcohol	P2	Our alcohol answer says to avoid it. It should add the common worry of a drink taken before she knew she was pregnant, and what to do now, calmly.

65	Foods to Avoid During Pregnancy	Add to a piece we already have	Is it safe? › Can I eat it? ours: Can I food answers and the Is this food safe list	P2	We answer food by food, but not the worry after the fact. One line on each avoid answer saying what to do if you already ate it would calm many women.
66	Breastfeeding Positions	Add to a piece we already have	Labour prep › Feeding and first days ours: The beginner's breastfeeding read proposed for this tab	P2	Learning two or three holds before the birth makes the first feeds easier. A short video or drawings would help most here.
67	Can You Breastfeed After a C-Section?	Add to a piece we already have	Labour prep › Feeding and first days ours: Read: Why early breastfeeding preparation helps	P2	With so many C-section births in India, knowing that she can still breastfeed, and how, is useful before the birth.
68	How a Lactation Consultant Can Help You Breastfeed	Add to a piece we already have	Labour prep › Feeding and first days ours: Read: Why early breastfeeding preparation helps	P2	Our breastfeeding preparation read can add who a lactation consultant is and how to find one before the birth.
69	Delivering in a Hospital: What All Moms Need to Know	Add to a piece we already have	Labour prep › Signs and stages ours: The read on choosing and visiting the hospital proposed for this tab	P2	This fits the same hospital read: how to choose, what it costs in India and what the day looks like.
70	Delivering the Placenta	Add to a piece we already have	Labour prep › Signs and stages ours: Labour, step by step	P2	Our weekly read on labour stops before the placenta. One short part on this last stage, and what happens if it does not come out, would finish the story.
71	How to Push During Labor	Add to a piece we already have	Labour prep › Signs and stages ours: Read: Labour, step by step	P2	The pushing stage deserves its own part in our labour read, including tears and the cut, which women fear most.
72	Epidural for Labor Pain	Add to a piece we already have	Labour prep › Understand the birth ours: Read: Pain relief: natural, epidural and C-section	P2	Many Indian women fear the epidural, and families have strong opinions. Our pain relief read can add its common worries (back pain later, the needle, pushing) in plain words.
73	How Much Weight You Should Gain?	Add to a piece we already have	Nutrition › What to eat now ours: Guide: Healthy weight gain	P2	Our weight gain guide can add the simple picture of where the weight goes (baby, placenta, fluid, blood, breasts), which calms many women who worry about the number.
74	How to Support Your Partner During Pregnancy	Add to a piece we already have	Partner › His side ours: Read: How your partner can support you now	P2	Our partner read covers this ground. The part about what to do in the first days after the news is worth adding for him.
75	Things Every Partner Should Do for a Mom-To-Be	Add to a piece we already have	Partner › His side ours: Read: How your partner can support you now	P2	Our read covers support in general. A short, practical checklist of things he can do each trimester would make it easier for him to act.
76	Compile the List of Baby Products You'll Need With This Handy Checklist	Add to a piece we already have	Tools › Product Checklist ours: Product Checklist (Tools)	P2	The need behind it is real: what to buy for the baby. Our Product Checklist tool should add a clear list of what you do not need, written for Indian homes.
77	Paternity and Family Leave	Add to a piece we already have	Work, money and rights › Leave and rights	P2	This belongs in the same Indian leave read, with a part on the father's leave: 15 days for central government employees and company policy elsewhere.

78	Stunning Maternity Photo Ideas for Your Pregnancy Photo Shoot	Add to a piece we already have	Belly & skin › The bump ritual ours: Bump ritual: one photo a week	P3	Maternity shoots are popular in Indian cities. A few simple photo ideas can sit beside our weekly bump photo ritual.
79	Psoriasis During Pregnancy	Add to a piece we already have	Complications › Find a condition ours: Pregnancy with a pre-existing condition	P3	Our page on pre-existing conditions can add a short part on skin conditions like psoriasis and which creams to check with a doctor.
80	How to Hire a Nanny	Add to a piece we already have	Getting ready for baby › Home and help	P3	Many Indian families plan a japa maid or helper for the first weeks. A planning note on who will help after the birth belongs in our home and help piece.
81	When to Have a Baby Shower	Add to a piece we already have	Getting ready for baby › Home and help	P3	Timing belongs in the same godh bharaai piece, where families often ask which month is right.
82	A Guide to Big-Ticket Nursery Items	Add to a piece we already have	Getting ready for baby › What to buy	P3	The useful part, which big items to skip, fits our what to buy piece. Many costly items are not needed in an Indian home.
83	Baby Gear Must-Haves	Add to a piece we already have	Getting ready for baby › What to buy	P3	This goes into the same what to buy piece, written for Indian homes and budgets.
84	Choosing a Safe Crib	Add to a piece we already have	Getting ready for baby › What to buy	P3	Where the baby will sleep is worth deciding before the birth. One safe sleep line (a firm flat surface, nothing soft around) belongs in the what to buy piece, with the full guide in parenting.
85	18 Moms Share What Breastfeeding Really Feels Like	Add to a piece we already have	Labour prep › Feeding and first days ours: Read: Why early breastfeeding preparation helps	P3	Hearing honestly what the first feeds feel like helps her prepare. A few short, real Indian voices could be added to our preparation read later.
86	Benefits of Breastfeeding for Mom and Baby	Add to a piece we already have	Labour prep › Feeding and first days ours: Read: Why early breastfeeding preparation helps	P3	Our preparation read can open with the benefits in plain words, without pressure on women who cannot breastfeed.
87	Can You Breastfeed With Breast Implants?	Add to a piece we already have	Labour prep › Feeding and first days	P3	A short line in the breastfeeding preparation read (most women with implants can breastfeed; tell the doctor) is enough.
88	How to Hand Express Breast Milk	Add to a piece we already have	Labour prep › Feeding and first days ours: The beginner's breastfeeding read proposed for this tab	P3	Hand expression is worth knowing before the birth, especially for colostrum in the first days. One section in the feeding read covers it.
89	Water Birth	Add to a piece we already have	Labour prep › Signs and stages ours: The read on where to give birth in India proposed for this tab	P3	A few Indian hospitals offer water labour. One honest line in the birth options read is enough.
90	What Is a Midwife and Should You Hire One for Your Pregnancy and Baby's Birth?	Add to a piece we already have	Labour prep › Signs and stages ours: The read on where to give birth in India proposed for this tab	P3	Midwife led care is still rare in India. One part in the birth options read can explain what it is and where it exists.
91	How Hypnobirthing Can Help You Get the Birth You Want	Add to a piece we already have	Labour prep › Understand the birth ours: Read: Pain relief: natural, epidural and C-section	P3	Hypnobirthing classes are growing in Indian cities. One honest paragraph on what it is and what it can and cannot do fits our pain relief read.

92	What to Eat for Breakfast	Add to a piece we already have	Nutrition › Charts & fasting ours: Ready-made diet charts	P3	Our diet charts already lay out breakfasts. A short meal by meal guide with quick Indian breakfast ideas could link from them.
93	What to Snack On	Add to a piece we already have	Nutrition › Recipes ours: Recipes such as Ghee-roasted makhana, Steamed sprouts chaat	P3	We have snack recipes but no snack list. A short list of Indian snacks by what they give her (protein, calcium, iron) would be handy.
94	Gluten-Free Diet	Add to a piece we already have	Nutrition › What to eat now ours: Guide: Is my normal thali enough?	P3	Coeliac disease is less common in India, but a short note on gluten free swaps (rice, millets, besan) helps the few who need it.
95	Increased Appetite During Pregnancy	Add to a piece we already have	Nutrition › What to eat now ours: Craving card: The eating for two myth	P3	Our eating for two card can add a short part on real hunger in the second trimester and filling Indian snacks.
96	Keto Diet	Add to a piece we already have	Nutrition › What to eat now ours: Guide: Overweight in pregnancy	P3	Some women try to diet in pregnancy. Our overweight guide can say plainly that pregnancy is not the time for keto or low carb diets.
97	Low-Carb Diet	Add to a piece we already have	Nutrition › What to eat now ours: Guide: Overweight in pregnancy	P3	The same line in our overweight guide covers low carb diets as well.
98	Pregnancy Weight Gain With Multiples	Add to a piece we already have	Nutrition › What to eat now ours: Guide: Carrying twins	P3	Our Carrying twins guide can add a plain note on how weight gain differs with twins, leaving the target to her doctor.
99	Protein During Pregnancy	Add to a piece we already have	Nutrition › What to eat now ours: Nutrient guide: Protein	P3	Our Protein guide can add one plain answer on protein powders, which many Indian women are sold during pregnancy.
100	7 Helpful Tips for a First-Time Dad	Add to a piece we already have	Partner › His side ours: Read: How your partner can support you now	P3	A few of these tips about preparing before the baby arrives fit our partner read. The rest is about life after the birth.
101	How Partners Can Help Support Breastfeeding Moms	Add to a piece we already have	Partner › His side ours: Read: How your partner can support you now	P3	A short part on how he can help with feeding in the first weeks can be added to our partner read before the birth.
102	How to Buy a Baby Stroller	Add to a piece we already have	Products tab	P3	A short buying guide on a pram or baby carrier, written for Indian roads and homes, belongs with our store products rather than as a read.
103	How to Shop Your Closet for Maternity Clothes	Add to a piece we already have	Products tab	P3	A short note on making everyday clothes and kurtas work before buying maternity wear fits with our maternity wear category.
104	Where to Buy Cheap Maternity Clothes	Add to a piece we already have	Products tab	P3	Maternity wear is already a category in our store. A short line on what she really needs, and what to borrow, can sit with it.
105	How to Get a Job While Pregnant	Add to a piece we already have	Work, money and rights › Leave and rights	P3	One part in the rights read can say that the Maternity Benefit Act needs 80 days of work in the year before, which matters if she changes jobs while pregnant.
106	How to Make a Family Budget	Add to a piece we already have	Work, money and rights › Money	P3	A few budgeting steps can sit in the baby budget piece; general money advice is outside our focus.

107	Life Insurance 101	Add to a piece we already have	Work, money and rights › Money	P3	One line in the money checklist about term life cover for a new parent is enough; a full insurance guide is outside what we do.
108	What Is a SAHM and Is It Right for You?	Add to a piece we already have	Work, money and rights › Work	P3	Whether to go back to work is a question many women start thinking about in pregnancy. One gentle section on it fits our work piece.
109	How to Hide a Pregnancy	Add to a piece we already have	Your first weeks › Telling people	P3	Many Indian women keep the first months quiet by family custom. A short part on coping at work and at home while no one knows fits the telling people piece.

221	10 Surprising Facts About Twins	Don't add		This is a light list of trivia. The useful facts in it, like twins often coming early, belong in our proper twins reads.
222	5 Reasons to Create a Baby Registry (Even if You Think You Don't Need One)	Don't add		A baby registry is an American habit and this is a sales piece, so it does not help a woman in India.
223	8 Best Breast Pumps, Tested and Loved by Over 300 Moms	Don't add		This is an affiliate shopping list; breast pumps are already in our Products tab.
224	Advertising Content	Don't add		This is advertising, which we do not publish.
225	April Birth Flowers: Daisy and Sweet Pea	Don't add		A Western custom with no meaning for Indian families.
226	Are Masturbation and Sex Toys Safe During Pregnancy?	Don't add		We do not publish this as it is. The respectful question inside it, whether sex and orgasm are safe, goes in the sex and closeness piece we are adding.
227	Baby Registry Essentials for Parents of Twins	Don't add		Registries are not an Indian habit and this is a shopping roundup. Anything useful here belongs in our store.
228	Baby Shower Etiquette	Don't add		American party etiquette. The godh bharai piece covers what matters for our families.
229	Baby Shower Gift List	Don't add		This is a shopping gift list, not something we publish.
230	Babylist Baby Registry Review	Don't add		It reviews an American shop she cannot use.
231	Banana Walnut Bread	Don't add		A Western baked dish; our recipes are Indian home food.
232	Best Baby Deals Happening Right Now	Don't add		This is an affiliate deals page, which we do not publish.
233	Best Baby Shower Favors	Don't add		This is a shopping roundup for a party.
234	Best Breast Milk Storage Bags	Don't add		This is a shopping roundup for after the birth.
235	Best Double Strollers	Don't add		This is a shopping roundup of American products, not something we publish.
236	Best Gifts for New Parents of Twins	Don't add		This is a shopping gift guide, not pregnancy help.
237	Best Maternity Belly Bands for Keeping Your Pants Up	Don't add		This is a shopping roundup; belly bands are already in our store and our Belly care reads.
238	Best Maternity Coats and Jacket Extenders	Don't add		This is a shopping roundup for cold climates.

239	Best Maternity Dresses for Spring	Don't add	This is a seasonal American shopping roundup.
240	Best Maternity Leggings, According to Hundreds of Moms-to-Be	Don't add	This is an American shopping roundup, which we do not publish.
241	Best Maternity Sweaters	Don't add	This is a shopping roundup.
242	Best Maternity Swimsuits, According to Other Moms-to-Be	Don't add	This is a shopping roundup.
243	Best Maternity Underwear	Don't add	This is a shopping roundup. Comfortable cotton underwear can simply be a product in our store.
244	Best Nipple Shields	Don't add	This is a shopping roundup for a feeding aid that should be used with a lactation consultant's advice.
245	Best Nursing Covers	Don't add	This is a shopping roundup. A dupatta or stole does this job for most Indian mothers.
246	Best Nursing Pads	Don't add	This is a shopping roundup. Nursing pads can be an item on our hospital bag list.
247	Best Nursing Pillows	Don't add	This is an American shopping roundup. A feeding pillow can simply be a product in our store.
248	Best Nursing Tops	Don't add	This is a shopping roundup; feeding kurtas can simply be products in our store.
249	Best Shoes for Pregnancy, According to a Podiatrist	Don't add	This is a shopping roundup of American brands.
250	Best Twin Nursery Ideas	Don't add	Most Indian families do not set up a separate nursery, and this is decoration content.
251	Can You Breastfeed After Breast Cancer?	Don't add	This is a rare situation that needs her own cancer and breast doctors, not a general read.
252	Child Support 101	Don't add	This is American family law and is about life after the birth.
253	Creating a Nursery on a Budget	Don't add	Most Indian families do not set up a separate nursery. The useful idea, spending less on baby things, goes in our what to buy piece.
254	Creating the Perfect Birth Announcement	Don't add	Printed birth announcements are not an Indian custom, and this is about the time after the birth.
255	Discover Why These 7 Baby Registries Are So Popular	Don't add	This promotes American shops and registries that she cannot use.
256	Early hCG Levels and Twin Possibilities	Don't add	Guessing twins from a blood level is not reliable, and only a scan can tell. Our twins read can say that in one line.
257	Freeze-Dried Breast Milk Is Gaining Traction — But Is It Safe?	Don't add	This is a costly American trend that is not available or relevant in India.
258	Fun Baby Shower Games	Don't add	Party games are not pregnancy help.
259	Home Birth	Don't add	We should never encourage birth at home without a skilled attendant and a hospital close by. The question of where to give birth is covered by our read on birth options in India.

260	How Much to Pay a Babysitter or Nanny	Don't add	American pay rates for babysitters do not apply here.
261	How Much to Tip a Care Giver for the Holidays	Don't add	This is an American custom with no pregnancy angle.
262	How to Create a Nursery on a Budget	Don't add	Most Indian families do not set up a separate nursery, and this repeats the earlier budget nursery piece.
263	How to Earn Money as a Stay-at-Home Mom	Don't add	Side jobs are outside what a pregnancy app should cover.
264	How to Get a Breast Pump Through Insurance	Don't add	This is about US insurance rules, which do not apply in India.
265	How to Pick a Guardian	Don't add	This is legal planning for parents, outside our pregnancy focus.
266	How to Start a Savings Plan for Your Baby	Don't add	These are US savings schemes. An Indian parent's savings plan is a parenting money topic, not a pregnancy one.
267	How to Word Baby Shower Invitations	Don't add	This is party planning in an American style. The Indian version of this moment, the godh bharai, is covered by the piece on planning a baby shower.
268	How to Write a Will	Don't add	Wills are general money and legal planning, outside what a pregnancy app should cover.
269	Nitrous Oxide (Laughing Gas) for Pain Relief During Labor	Don't add	Laughing gas is rarely offered in Indian labour rooms, so this would confuse more than help.
270	Organic Diet	Don't add	This is a lifestyle choice rather than a pregnancy need, and washing produce well matters more for our families.
271	Parental Leave for LGBTQ+ Parents	Don't add	LGBTQ+ content is deferred by a product decision on 24 Sep 2026; revisit later.
272	Pinpoint the Best Time to Start Your Registry (Hint: It's Sooner Than You Think!)	Don't add	A baby registry is not an Indian habit, and the shopping links make this a sales piece.
273	Save Up to \$1,100 With This Baby Registry Perk	Don't add	These are discounts at American shops, which do not apply in India.
274	Seeding Your C-Section Baby with Vaginal Fluids	Don't add	This practice is not done or asked about in India and experts advise against it, so it would only raise a worry she does not have.
275	Space-Saving Tips for the Nursery	Don't add	This is home organising with no pregnancy angle.
276	Taco in a Salad	Don't add	A Western dish; our recipes are Indian home food.
277	The Best Maternity Jeans, According to Our Community of Millions of Moms	Don't add	This is an American shopping roundup, which we do not publish.
278	This Wearable Pump is a Game Changer for Busy Moms	Don't add	This is advertising, which we do not publish.
279	What Are Milk Bath Maternity Photos — and Are They Safe?	Don't add	This is a narrow photo trend with no real pregnancy need.
280	What It's Like to Breastfeed and Pump at Work as a Military Mom	Don't add	This is a military story from the United States with no pregnancy angle.

281	What to Include in a Nanny Contract	Don't add	Hiring and contracts for a nanny are about life after the birth and are written for the United States.
-----	-------------------------------------	-----------	--

WTE · Videos (156)

#	Their title	Decision	Where / our piece	Pri	Why
1	How Will I Know When I'm in Labor?	Add: write our own version	Labour prep › Signs and stages	P1	The same urgent gap as above: the signs of labour and when to go in. One clear piece covers both.
2	How to Tell if You're in Labor	Add: write our own version	Labour prep › Signs and stages	P1	The signs that labour has started, and when to go to hospital, are what every woman needs in the last weeks, and we have nothing on them.
3	How to Exercise Safely	Add: write our own version	Move & rest › Move safely	P1	We have no written or video guide on exercise in pregnancy, only short Can I answers. Almost every woman asks this, and a short video shows the movements better than words.
4	Vaccines You Should Get During Pregnancy	Add: write our own version	Scans & tests › Understand a scan	P1	We have no page on the vaccines given in pregnancy in India, only a short Can I line. A page on the tetanus and whooping cough shot and flu, when and why, protects the baby.
5	Your First Prenatal Visit	Add: write our own version	Your first weeks › Just found out	P1	The first doctor's visit is one of the first things every pregnant woman does, and we have nothing that prepares her for it. Write it for India: the booking visit, the blood tests, what to ask.
6	Chance of a Repeat Miscarriage	Add: write our own version	After a loss (pregnancy) › Understand	P2	Women pregnant after a loss carry this fear through the first weeks and we have nothing for them. Give population numbers that calm, never a personal chance, and route to her doctor.
7	How to Pick a Baby Name	Add: write our own version	Getting ready for baby › Baby names	P2	Naming is a big family moment in India, often with the naming ceremony and astrology in the mix, and we offer nothing in pregnancy. A place for names would be used a lot.
8	How Can I Induce Labor Naturally?	Add: write our own version	Labour prep › Signs and stages	P2	This fits the going past the due date piece: what is safe to try, what is not, and why to ask her doctor first.
9	Natural Ways to Induce Labor	Add: write our own version	Labour prep › Signs and stages	P2	Families in India suggest many home remedies near the due date. A piece on going past the due date should say plainly which are harmless, which are not, and that she should check with her doctor first.
10	Recovering From a C-Section	Add: write our own version	Labour prep › Signs and stages	P2	This belongs in the C-section piece we are adding: what happens in theatre and what the first days after feel like.
11	Who Should Be in the Labor Room?	Add: write our own version	Labour prep › Understand the birth	P2	In India the rules differ between government and private hospitals, and families often expect to be there. A clear piece on who is usually allowed, and how to ask, would help her plan.
12	Having Sex Safely During Pregnancy	Add: write our own version	Mind & mood › Sex and closeness	P2	We only have a one-line Can I answer on sex. A gentle, private piece on when it is safe, comfortable positions and when to stop would answer a question many couples are too shy to ask.

13	Prenatal Strength Circuit	Add: write our own version	Move & rest › Move safely	P2	We have no free follow-along exercise at all; our fitness course has no videos yet. A short, trimester-safe workout she can do at home would fill a real gap.
14	How to Do a Perineal Massage	Add: write our own version	Move & rest › Pelvic floor	P2	Perineal massage can lower the chance of a bad tear and few Indian women have heard of it. A clear, private guide would help.
15	Start These Four Things NOW to Prevent Severe Tearing During Birth	Add: write our own version	Move & rest › Pelvic floor	P2	Tearing is one of the biggest fears about a normal birth, and we have nothing on preparing for it. Practical steps from a pelvic floor expert would help.
16	Your Pregnancy Week 41	Add: write our own version	Week by week › Week 41	P2	Our weeks stop at 40, but many women go past their date. Weeks 41 and 42 need their own pages: what happens now, the checks, and when induction is offered.
17	Should My Partner Take Parental Leave?	Add: write our own version	Work, money and rights › Leave and rights	P2	Paternity leave in India is short and patchy, and couples plan the first weeks around it. Write it for India: what government and private employers usually give.
18	Getting Health Insurance While Pregnant	Add: write our own version	Work, money and rights › Money	P2	The American details do not apply, but maternity cover and its waiting periods are a real worry in India. Write it for India: what policies cover, waiting periods, and employer cover.
19	Telling Your Kids You're Pregnant	Add: write our own version	Your first weeks › Telling people	P2	Second-time mothers often worry about this and we have nothing on it. A short, practical piece would help.
20	How to Set Up a Nursery	Add: write our own version	Getting ready for baby › Home and help	P3	Most Indian babies sleep in the parents' room, so write it as getting the baby's sleeping corner and the home ready, not a separate nursery.
21	Prepare Pets For Baby's Arrival	Add: write our own version	Getting ready for baby › Home and help	P3	More Indian city homes have pets now. A short practical piece on getting a pet used to the baby would help those families.
22	How to Install an Infant Car Seat	Add: write our own version	Getting ready for baby › What to buy	P3	This belongs with the short car seat note, for families who drive the baby home.
23	Infant Car Seats vs. Convertible Car Seats	Add: write our own version	Getting ready for baby › What to buy	P3	Few Indian families use car seats, though more city families drive home from hospital. A short, honest note on why a car seat matters would help.
24	How Important Are Cervical Checks?	Add: write our own version	Labour prep › Signs and stages	P3	Internal checks are common in Indian hospitals and often unexplained. A few lines on what they show and that she can ask why belong in the stages of labour piece.
25	If Baby Goes to the NICU	Add: write our own version	Labour prep › Understand the birth	P3	Many babies spend a few days in the NICU, and knowing what happens there takes some of the shock away. A calm piece would help, especially for women at risk of an early birth.
26	Should I Hire a Doula?	Add: write our own version	Labour prep › Understand the birth	P3	Doulas are still rare in India but growing in cities, and many hospitals now allow one birth companion. Write it for India: who can be with you, and what a doula adds.
27	Pregnant With a Deployed Partner	Add: write our own version	Mind & mood › Understand	P3	The military angle is American, but many Indian women are pregnant while their husband works in another city or abroad. Write it for that situation.

28	What is Diastasis Recti?	Add: write our own version	Move & rest › Move safely	P3	We have nothing on the belly muscles separating. A short page on what it is and which moves to avoid in pregnancy would help.
29	3 Mistakes Pregnant Mamas Make Every Day	Add: write our own version	Move & rest › Pelvic floor	P3	Small tips like rolling to the side to get up protect her back and belly. They fit in a short pelvic floor and posture piece.
30	4 Toilet Habits Every Mama Should Start Before Childbirth	Add: write our own version	Move & rest › Pelvic floor	P3	Simple habits like not straining help the pelvic floor. They fit in a short pelvic floor piece.
31	Can My Partner Have Pregnancy Symptoms?	Add: write our own version	Partner › His side	P3	A light, true piece for his side that makes him feel part of the pregnancy.
32	Your Pregnancy Week 1	Add: write our own version	Week by week › Week 1	P3	Our weeks start at 4, and many women are confused why they are already four weeks pregnant. A short explanation of how the weeks are counted would clear that up.
33	Your Pregnancy Week 3	Add: write our own version	Week by week › Week 3	P3	Our weeks start at 4. A short week 3 note on conception would give women who find out very early something to read.
34	Is It Labor or Braxton Hicks Contractions?	Add to a piece we already have	Labour prep › Contraction timer ours: Symptom page "Braxton Hicks" ("Tightenings that are not labour")	P1	This is the question behind most late night calls to the labour ward. Our Braxton Hicks page should add a clear side by side of practice tightenings and real labour, and when to go in.
35	Getting Your Baby to Move in Utero	Add to a piece we already have	Complications › Get help now ours: When the baby moves less	P2	Women try these tricks when movements feel less. Our read should add them only with a clear line: if the baby is moving less, call your doctor today and do not wait for a trick to work.
36	Alcohol Before You Know You're Pregnant	Add to a piece we already have	Is it safe? › Can I drink it? ours: Can I "Alcohol"	P2	This is one of the most common early worries. Our alcohol answer should add a calm line: a drink before you knew is rarely a problem, stop now and tell your doctor.
37	How Can My Partner Support Me During Labor?	Add to a piece we already have	Labour prep › For your partner ours: "What your partner should actually do" (tile marked coming soon)	P2	Our tile for this is still coming soon. Write it for India, where the husband is not always allowed in the labour room and a mother or sister often goes in instead.
38	Basic Prenatal Yoga Flow	Add to a piece we already have	Move & rest › Move safely ours: Yoga class catalogue ("Trimester-Safe Prenatal Flow")	P2	Our catalogue lists prenatal yoga but offers no short free class to follow at home. A basic ten minute flow would be the easiest way in.
39	Prep Your Body for Birth With These Third Trimester Moves	Add to a piece we already have	Move & rest › Move safely ours: Yoga class catalogue ("Open Hips for Labour")	P2	Our catalogue names a hip opening class but there is no short free guide. A few birth ball moves shown on video would help her prepare at home.
40	Restorative Prenatal Yoga Stretch	Add to a piece we already have	Move & rest › Move safely ours: Yoga class catalogue ("Trimester-Safe Prenatal Flow")	P2	Our yoga catalogue lists prenatal sessions but there is no short free class to follow at home. A ten minute restorative session would be the easiest way in.
41	What Are Normal hCG Levels?	Add to a piece we already have	Scans & tests › Understand a result ours: Report decoder (27 findings)	P2	Beta hCG reports are among the first reports an Indian woman holds, and our decoder has no entry for them. Add one, saying that single numbers vary widely and her doctor reads the trend.
42	How to Do Kegels	Add to a piece we already have	Tools › Kegel care ours: Kegel Care tool	P2	Our Kegel tool exists but no door points to it. A short how-to video inside it would help, because the exercise is hard to picture from words.

43	How to Count Your Baby's Kicks	Add to a piece we already have	Tools › Kick counter ours: Baby Movement Tracker	P2	Our movement tracker exists, but nothing shows her how to count. A short how-to inside the tool, ending with when to call, would make it easier to use.
44	Your Pregnancy Week 10	Add to a piece we already have	Week by week › Week 10 ours: Week 10 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
45	Your Pregnancy Week 11	Add to a piece we already have	Week by week › Week 11 ours: Week 11 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
46	Your Pregnancy Week 12	Add to a piece we already have	Week by week › Week 12 ours: Week 12 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
47	Your Pregnancy Week 13	Add to a piece we already have	Week by week › Week 13 ours: Week 13 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
48	Your Pregnancy Week 14	Add to a piece we already have	Week by week › Week 14 ours: Week 14 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
49	Your Pregnancy Week 15	Add to a piece we already have	Week by week › Week 15 ours: Week 15 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
50	Your Pregnancy Week 16	Add to a piece we already have	Week by week › Week 16 ours: Week 16 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
51	Your Pregnancy Week 17	Add to a piece we already have	Week by week › Week 17 ours: Week 17 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
52	Your Pregnancy Week 18	Add to a piece we already have	Week by week › Week 18 ours: Week 18 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
53	Your Pregnancy Week 19	Add to a piece we already have	Week by week › Week 19 ours: Week 19 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
54	Your Pregnancy Week 20	Add to a piece we already have	Week by week › Week 20 ours: Week 20 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

[illegible]

67	Your Pregnancy Week 33	Add to a piece we already have	Week by week › Week 33 ours: Week 33 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
68	Your Pregnancy Week 34	Add to a piece we already have	Week by week › Week 34 ours: Week 34 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
69	Your Pregnancy Week 35	Add to a piece we already have	Week by week › Week 35 ours: Week 35 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
70	Your Pregnancy Week 36	Add to a piece we already have	Week by week › Week 36 ours: Week 36 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
71	Your Pregnancy Week 37	Add to a piece we already have	Week by week › Week 37 ours: Week 37 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
72	Your Pregnancy Week 38	Add to a piece we already have	Week by week › Week 38 ours: Week 38 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
73	Your Pregnancy Week 39	Add to a piece we already have	Week by week › Week 39 ours: Week 39 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
74	Your Pregnancy Week 4	Add to a piece we already have	Week by week › Week 4 ours: Week 4 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
75	Your Pregnancy Week 40	Add to a piece we already have	Week by week › Week 40 ours: Week 40 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
76	Your Pregnancy Week 5	Add to a piece we already have	Week by week › Week 5 ours: Week 5 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
77	Your Pregnancy Week 6	Add to a piece we already have	Week by week › Week 6 ours: Week 6 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
78	Your Pregnancy Week 7	Add to a piece we already have	Week by week › Week 7 ours: Week 7 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.

79	Your Pregnancy Week 8	Add to a piece we already have	Week by week › Week 8 ours: Week 8 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
80	Your Pregnancy Week 9	Add to a piece we already have	Week by week › Week 9 ours: Week 9 page (the home's "This Week Explained" film slot has no film yet)	P2	A short film for each week is exactly what our home's This Week Explained slot promises and does not have yet. This is the model: under two minutes, the baby and her body that week.
81	7 Things to Know Before Buying Maternity Clothes	Add to a piece we already have	Products tab	P3	Maternity wear is already a store category. Two or three plain buying tips, such as buying only as the bump grows and choosing stretch cotton, can sit with it.
82	Maternity Shopping Tips	Add to a piece we already have	Products tab ours: Maternity wear category	P3	Our store has maternity wear but no guidance. A short buying note (what you need, what you can skip, when to buy) would help her choose.
83	Hearing a Fetal Heartbeat	Add to a piece we already have	Scans & tests › Understand a scan ours: Dating scan (test page)	P3	Our dating scan page can add when the heartbeat is usually first seen, so an early scan with no heartbeat yet is not read as bad news without her doctor.
84	3 Ways to Relieve Lightning Crotch FAST	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Pressure low in the pelvis"	P3	Our pelvic pressure page can add these simple stretches, as long as it keeps the line on when pain needs a doctor.
85	The Shoes You Need for Pregnancy	Add to a piece we already have	Symptoms › By symptom ours: Symptom page: Swelling	P3	Our swelling page can add a line on comfortable, flat, roomy footwear as feet swell, which is the useful part of this video.
86	How Big Are 10-Week Bumps?	Add to a piece we already have	Week by week › Week 10 ours: Week 10 page	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
87	How Big Are 12-Week Bumps?	Add to a piece we already have	Week by week › Week 12 ours: Week 12 page	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
88	How Big Are 14-Week Bumps?	Add to a piece we already have	Week by week › Week 14 ours: Week 14 page	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
89	How Big Are 16-Week Bumps?	Add to a piece we already have	Week by week › Week 16 ours: Week 16 page	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
90	How Big Are 18-Week Bumps?	Add to a piece we already have	Week by week › Week 18 ours: Week 18 page	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
91	How Big Are 20-Week Bumps?	Add to a piece we already have	Week by week › Week 20 ours: Week 20 page	P3	Bumps at the same week look very different and women compare constantly. Our week page could say so in one line, and later show real bump photos shared with permission.
92	How to Help Itchy Skin	We already have this, no action	Belly & skin › Skin changes ours: Itchy skin in pregnancy, explained		Our itching page already covers this, including the warning signs that need a doctor.

93	My Belly Feels So Itchy!	We already have this, no action	Belly & skin › Skin changes ours: Itchy skin in pregnancy, explained	Our itching page already covers this, including the warning signs.

153	How to Create a Registry	Don't add		A baby registry is not an Indian habit, so this does not help her.
154	How to Save Money on Maternity Clothes	Don't add		This repeats the maternity clothes tips above and is shopping content.
155	Maternal Care for Black and Indigenous Moms	Don't add		This is about American health care and race, which does not carry over to India.
156	Predicting Your Baby's Gender	Don't add		Telling or guessing the baby's sex before birth is illegal in India under the PCPNDT Act.

WTE · Week by week (42)

#	Their title	Decision	Where / our piece	Pri	Why
1	Week 41: Your Baby This Week, Body Changes, Baby Science	Add: write our own version	Week by week › Week 41	P2	Our weeks stop at 40, yet many women go past their date, and then the app has nothing for her. Week 41 needs a page: what is normal now, the extra checks, and when induction is usually offered, with her doctor deciding.
2	Week 42: Your Baby This Week, Body Changes, Baby Science	Add: write our own version	Week by week › Week 42	P2	Our weeks stop at 40, yet many women go past their date, and then the app has nothing for her. Week 42 needs a page: what is normal now, the extra checks, and when induction is usually offered, with her doctor deciding.
3	Week 1: Your Baby This Week, Body Changes, Baby Science	Add: write our own version	Week by week › Week 1	P3	Our weeks start at 4. One short page for weeks 1 to 3 should explain why she is counted as pregnant from her last period; the fertility tips on their page belong in our trying to conceive section.
4	Week 2: Your Baby This Week, Body Changes, Baby Science	Add: write our own version	Week by week › Week 1	P3	Our weeks start at 4. One short page for weeks 1 to 3 should explain why she is counted as pregnant from her last period; the fertility tips on their page belong in our trying to conceive section.
5	Week 3: Your Baby This Week, Body Changes, Baby Science	Add: write our own version	Week by week › Week 3	P3	Our weeks start at 4. Women who test very early would have something to read; a short week 3 page on conception and the first hormones is enough.

6	Week 10: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 10 ours: Week 10 page (Details)	P1 Our week 10 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (nausea and vomiting, bloating and gas, occasional headaches and round ligament pain) with tips, and short notes on "Symptoms may persist", "Your 10 weeks pregnant belly" and "Visible veins". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
7	Week 11: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 11 ours: Week 11 page (Details)	P1 Our week 11 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (nausea and vomiting, bloating and gas, breast tenderness and changes and frequent urination) with tips, and short notes on "Tummy grumbling?", "Bloating and burping" and "Reducing fatigue during pregnancy". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
8	Week 12: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 12 ours: Week 12 page (Details)	P1 Our week 12 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, bloating and gas, occasional headaches and increased sense of smell) with tips, and short notes on "The end of some pregnancy symptoms", "Your 12 weeks pregnant belly" and "Dizzy spells". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
9	Week 13: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 13 ours: Week 13 page (Details)	P1 Our week 13 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, food cravings and aversions, heartburn and indigestion and faintness or dizziness) with tips, and short notes on "Feeling more like yourself?", "Vaginal discharge" and "Sex during pregnancy". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
10	Week 14: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 14 ours: Week 14 page (Details)	P1 Our week 14 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (increasing appetite, stuffy nose, varicose veins and decreasing fatigue) with tips, and short notes on "One down, two to go!", "Your 14 weeks pregnant belly" and "Round ligament pain". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
11	Week 15: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 15 ours: Week 15 page (Details)	P1 Our week 15 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (occasional headaches, round ligament pain, heartburn and indigestion and pregnancy brain) with tips, and short notes on "The golden months", "Bleeding gums and dental care" and "Gaining weight". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
12	Week 16: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 16 ours: Week 16 page (Details)	P1 Our week 16 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (backaches, constipation, increased vaginal discharge and bleeding gums) with tips, and short notes on "Rapid growth", "Your 16 weeks pregnant belly" and "Your pregnancy weight gain". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
13	Week 17: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 17 ours: Week 17 page (Details)	P1 Our week 17 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (backaches, occasional headaches, increased appetite and heartburn and indigestion) with tips, and short notes on "Here come the tummy touchers!", "Your growing appetite" and "Stop snoring". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

14	Week 18: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 18 ours: Week 18 page (Details)	P1 Our week 18 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating and gas, leg cramps, edema (swelling in feet and ankles) and bleeding gums) with tips, and short notes on "Quick growth", "Your 18 weeks pregnant belly" and "Your back aches". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
15	Week 19: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 19 ours: Week 19 page (Details)	P1 Our week 19 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (backaches, constipation, increased appetite and stuffy nose) with tips, and short notes on "Leg cramps" and "Feeling baby's kicks". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
16	Week 20: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 20 ours: Week 20 page (Details)	P1 Our week 20 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (occasional headaches, heartburn and indigestion, faintness or dizziness and leg cramps) with tips, and short notes on "Halfway there!", "Your 20 weeks pregnant belly" and "Hair and nail growth". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
17	Week 21: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 21 ours: Week 21 page (Details)	P1 Our week 21 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating and gas, backaches, increased appetite and bleeding gums) with tips, and short notes on "Stretch marks" and "Relieving anxiety". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
18	Week 22: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 22 ours: Week 22 page (Details)	P1 Our week 22 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, heartburn or indigestion, faintness or dizziness and leg cramps) with tips, and short notes on "Foot growth" and "Coping with tummy touchers". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
19	Week 23: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 23 ours: Week 23 page (Details)	P1 Our week 23 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating, back pain, hearty appetite and tingling hands) with tips, and short notes on "New symptoms start", "Skin discoloration" and "Learning to relax". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
20	Week 24: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 24 ours: Week 24 page (Details)	P1 Our week 24 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, lower abdominal achiness, leg cramps and swollen feet and ankles) with tips, and short notes on "Belly button changes", "Carpal tunnel syndrome" and "Soothing red, itchy palms". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
21	Week 25: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 25 ours: Week 25 page (Details)	P1 Our week 25 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (heartburn or indigestion, symphysis pubis dysfunction (SPD), restless legs syndrome (RLS) and tingling hands (carpal tunnel)) with tips, and short notes on "Having a ball?", "Hemorrhoids" and "Dental health". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

22	Week 26: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 26 ours: Week 26 page (Details)	P1 Our week 26 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating and gas, round ligament pain, clumsiness and migraines) with tips, and short notes on "Protruding navel", "Insomnia" and "Baby's movements in the womb". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
23	Week 27: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 27 ours: Week 27 page (Details)	P1 Our week 27 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (round ligament pain, stuffy nose, faintness or dizziness and itchy belly) with tips, and short notes on "Swelling and edema" and "Soothe heat rash". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
24	Week 28: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 28 ours: Week 28 page (Details)	P1 Our week 28 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (bloating and gas, stuffy nose, faintness or dizziness and symphysis pubis dysfunction (SPD)) with tips, and short notes on "Sciatica (tingling leg pain)" and "Feeling sensitive (skin)?". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
25	Week 29: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 29 ours: Week 29 page (Details)	P1 Our week 29 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (constipation, heartburn or indigestion, pregnancy brain and migraines) with tips, and short notes on "Varicose veins" and "How to do a kick count". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
26	Week 30: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 30 ours: Week 30 page (Details)	P1 Our week 30 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, bloating and gas, constipation and swollen feet and ankles) with tips, and short notes on "They're baaack!" and "Heartburn". Their page adds the symptoms of the week (insomnia, diarrhea, braxton Hicks contractions and itchy belly) with tips, and short notes on "The final countdown" and "Colostrum". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
35	Week 39: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 39 ours: Week 39 page (Details)	P1 Our week 39 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (heartburn or indigestion, diarrhea, braxton Hicks contractions and pelvic pain) with tips, and short notes on "Almost go-time" and "Preparing for a C-section". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
36	Week 4: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 4 ours: Week 4 page (Details)	P1 Our week 4 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (implantation bleeding and PMS-like symptoms) with tips, and short notes on "No symptoms yet?" and "Pregnancy hormones will soon make an appearance". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
37	Week 40: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 40 ours: Week 40 page (Details)	P1 Our week 40 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (insomnia, diarrhea, braxton Hicks contractions and pelvic pain) with tips, and short notes on "Will you go past your due date?", "When (and if) your water will break" and "Labor fears". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

38	Week 5: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 5 ours: Week 5 page (Details)	P1	Our week 5 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, nausea, food cravings and aversions and excessive saliva) with tips, and short notes on "HCG and home pregnancy tests", "Early pregnancy signs" and "Pregnancy hormones kick in". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
39	Week 6: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 6 ours: Week 6 page (Details)	P1	Our week 6 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, nausea and vomiting, bloating and gas and breast tenderness and changes) with tips, and short notes on "Frequent urination" and "Heartburn and indigestion". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
40	Week 7: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 7 ours: Week 7 page (Details)	P1	Our week 7 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, breast tenderness and changes, frequent urination and food cravings and aversions) with tips, and short notes on "Know the signs", "Your swollen breasts" and "Coping with food aversions". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
41	Week 8: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 8 ours: Week 8 page (Details)	P1	Our week 8 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, nausea and vomiting, bloating and gas and constipation) with tips, and short notes on "Morning sickness" and "Eating fruit during pregnancy". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.
42	Week 9: Your Baby This Week, Body Changes, Baby Science	Add to a piece we already have	Week by week › Week 9 ours: Week 9 page (Details)	P1	Our week 9 page shows only the size, what the baby is doing and three lines for her, with no symptom list. Their page adds the symptoms of the week (fatigue, bloating and gas, breast tenderness and changes and frequent urination) with tips, and short notes on "Feeling so tired!" and "Snacking well". We already hold common symptoms, red flags and a myth for this week in our week data but do not show them, so showing them is the first fix.

WTE · Daily tips (128)

#	Their title	Decision	Where / our piece	Pri	Why
1	Try pelvic floor exercises	Add: write our own version	Move & rest › Pelvic floor	P1	We have a Kegel tool but no door or tile leads to it and no piece explains why. A short guide with the tool beside it would help her now and after the birth.
2	Go for cotton underwear	Add: write our own version	Symptoms › By symptom	P1	More discharge is one of the most common worries in pregnancy and we have no symptom page on it. It should say what is normal and which colour, smell or itch needs a doctor.
3	Prepare for your first prenatal visit	Add: write our own version	Your first weeks › Just found out	P1	The first visit to the doctor is the first big step after a positive test, and we have no piece on what happens there or what to bring and ask.
4	Avoid at-home fetal Dopplers	Add: write our own version	Is it safe? › Can I do it?	P2	Home heartbeat devices are sold online in India and can give false comfort when the baby moves less. A Can I answer should say to rely on movements and the doctor, not the device.
5	If you're not in the mood, don't panic	Add: write our own version	Mind & mood › Sex and closeness	P2	Many women and their husbands worry when desire drops, and we only have one read on relationship changes. A gentle, private piece would reassure them.

6	Fit in a workout	Add: write our own version	Move & rest › Move safely	P2	We have no written piece on exercise in pregnancy, only yes or no answers in Can I. A short piece on staying active each trimester would fill this.
7	Get on the move	Add: write our own version	Move & rest › Move safely	P2	We have no trimester by trimester exercise guide. The second trimester is when most women feel ready to move more.
8	Take some exercise precautions	Add: write our own version	Move & rest › Move safely	P2	We have no written guide on exercising safely in pregnancy. The signs to stop and rest belong in it.
9	Get your Zzzs	Add: write our own version	Move & rest › Sleep and rest	P2	We only answer "Sleeping On Your Back" in Can I. A short piece on sleeping well each trimester, with side sleeping and pillows, would help many women.
10	Ask about yeast infections	Add: write our own version	Symptoms › By symptom	P2	Itching and yeast infections are common in pregnancy and we have no page on them. It fits with the discharge page we are proposing, ending with seeing the doctor.
11	Start budgeting for baby	Add: write our own version	Work, money and rights › Money	P2	We have nothing on money for a new baby. Write it for India: delivery costs, first year costs and what can wait.
12	Are your hCG levels normal?	Add: write our own version	Your first weeks › Just found out	P2	Many women get an hCG number from their first blood test and worry about it. A short piece should explain what the test is for and leave reading her own number to her doctor.
13	Choose the right pregnancy doctor for you	Add: write our own version	Your first weeks › Just found out	P2	Choosing an obstetrician and a hospital is one of her first big decisions, and we say nothing about it. Write it for India: private or government hospital, what to ask, and distance from home.
14	Embrace your sex drive	Add: write our own version	Mind & mood › Sex and closeness	P3	This belongs in the sex and closeness piece we are adding, written in a gentle, private tone.
15	Choose pregnancy-proof workout gear	Add: write our own version	Move & rest › Move safely	P3	This is a small part of the exercise guide we are adding.
16	Exercise for morning sickness?	Add: write our own version	Move & rest › Move safely	P3	This belongs in the exercise guide we are adding: gentle movement on good days and rest on bad ones.
17	Get your steps in	Add: write our own version	Move & rest › Move safely	P3	Walking is the easiest exercise for most Indian women, and it belongs in the exercise guide we are adding.
18	Snack before exercise	Add: write our own version	Move & rest › Move safely	P3	This fits into the exercise guide we are adding.
19	Plump up your pillows	Add: write our own version	Move & rest › Sleep and rest	P3	Snoring belongs in the sleep piece we are adding, with the note to mention loud snoring to the doctor.
20	Are you pregnant with twins?	Add: write our own version	Twins and more › Understand	P3	We have nothing on finding out it is twins. A calm piece should say the first scan is how you find out.
21	Learn about the different kinds of twins	Add: write our own version	Twins and more › Understand	P3	We have nothing that explains twins in plain words. It belongs in a small twins section.
22	What are your odds of having twins?	Add: write our own version	Twins and more › Understand	P3	Many women wonder about twins early on, and we say nothing about it. Write it for India with population numbers only, never a personal chance.
23	Get used to the urine test	Add: write our own version	Your first weeks › Just found out	P3	Women give a urine sample at every visit without being told why. One paragraph in our first visit piece would explain what it checks.

24	Ask about aspirin	Add to a piece we already have	Complications › Find a condition ours: Condition page "Preeclampsia"; Can I "Aspirin"	P2	Many Indian doctors prescribe low-dose aspirin for women at higher risk. Our preeclampsia page and aspirin answer should explain why, and say never to start it without the doctor.
25	Get the COVID-19 vaccine	Add to a piece we already have	Is it safe? › Can I take it? ours: Can I "Vaccines (TT / Flu / COVID)"	P2	Our vaccines answer is short. It should say which vaccines Indian doctors offer in pregnancy and when, and leave the choice to her doctor.
26	Time for the flu shot	Add to a piece we already have	Is it safe? › Can I take it? ours: Can I "Vaccines (TT / Flu / COVID)"	P2	Our vaccines answer should say plainly that the flu vaccine is offered in pregnancy in India and to ask the doctor at the next visit.
27	Bleeding after sex? Don't panic	Add to a piece we already have	Mind & mood › Sex and closeness ours: Read "Bleeding in pregnancy"; Can I "Sex During Pregnancy"	P2	Our bleeding read and our sex answer should both mention spotting after sex, because it frightens many couples. Any bleeding still gets a call to the doctor.
28	Strike a pose	Add to a piece we already have	Move & rest › Move safely ours: Yoga sessions "Trimester-Safe Prenatal Flow" and month by month prenatal yoga	P2	We have yoga sessions but no written guide on why and how to practise safely. The new door should lead with them.
29	Cramping is often normal	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "A sharp pull at the side of the belly"	P2	Early cramping worries many women in the first weeks. Our belly pull page should add a short part on first trimester cramps and when cramps need a call.
30	Use cold compresses	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Skin and hair changes"	P2	Breast soreness is one of the first symptoms and we have no page on it. Add a "Sore or tender breasts" symptom page with what helps and a comfortable bra.
31	Check your hands	Add to a piece we already have	Belly & skin › Skin changes ours: Page "Spider veins and skin tags"	P3	Red palms are harmless but surprising. One line on our spider veins page would cover it, next to the warning that itchy palms need a call.
32	Keep track of skin changes	Add to a piece we already have	Belly & skin › Skin changes ours: Page "Spider veins and skin tags"	P3	Our skin tags page can add a line: new or changing moles are worth showing the doctor.
33	Wash those hands	Add to a piece we already have	Home › Daily insights ours: Daily insights rail	P3	A simple hygiene nudge fits well as a short daily card in the first trimester.
34	Keep your smile bright ... naturally	Add to a piece we already have	Is it safe? › Can I do it? ours: Can I "Dental Treatment"	P3	Our dental answer can add one line: routine dental care is fine, cosmetic whitening can wait until after the birth.
35	How to recover from a cold	Add to a piece we already have	Is it safe? › Can I take it? ours: Can I "Cough Syrup", "Antihistamines (Cetirizine)", "Vicks / Balm"	P3	Our Can I answers cover cold medicines one by one. A short "I have a cold" answer that brings together rest, steam, fluids and which tablets to ask about would be easier to find.
36	Fit in healthy fare	Add to a piece we already have	Nutrition › What to eat now ours: Guide "Is my normal thali enough?"	P3	Our thali guide can add a short part on eating well on a work day: a packed lunch and two snacks to carry.
37	Should you get the quad screen?	Add to a piece we already have	Scans & tests › Understand a scan ours: Scan page "Blood tests"	P3	Some Indian doctors still offer the quadruple marker test in the second trimester. Our blood tests page should name it and say what a screening result means.
38	Breast growth (and no breast growth) are both normal	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Skin and hair changes"	P3	This belongs on the breast changes symptom page we are proposing.
39	Chew sugarless gum	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Nausea"	P3	Extra saliva in early pregnancy is common and we do not mention it. One line on our nausea page would cover it.

40	Stretch to prevent sciatica	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Back Pain"	P3	Our back pain page can add a short part on pain that shoots down the leg and a stretch that helps.
41	Time for the Tooth Fairy again?	Add to a piece we already have	Symptoms › By symptom ours: Symptom page "Bleeding gums"	P3	Our bleeding gums page can add one line that teeth can feel a little loose, and to see a dentist if it continues.
42	Brush up on your pregnancy hormone knowledge	Add to a piece we already have	Week by week › Week 4 ours: Body changes, week 4: Hormones	P3	Our week 4 body page mentions hormones. One plain paragraph on the three hormones behind most symptoms would help her make sense of the first weeks.
43	Slather on the SPF	We already have this, no action	Belly & skin › Skin changes ours: Page "The pregnancy mask (melasma)"; Can I "Sunscreen"		Our melasma page and our sunscreen answer already cover this.
44	Soothe dry skin	We already have this, no action	Belly & skin › Skin changes ours: Page "Dry or sensitive skin"		Our dry skin page already covers this.
45	Stay out of the sun	We already have this, no action	Belly & skin › Skin changes ours: Pages "The pregnancy mask (melasma)" and "The dark line (linea nigra)"		Our skin pages already cover this.

FAQs (136)

From	Question	Decision	Where	Pri	Why
Flo	What is Flo for Partners?	We already have this, no action	Partner › His side		Our partner screen already explains in one line what pairing gives him, and shows exactly what he would see.
Flo	How do I set up Flo for Partners?	We already have this, no action	Partner › His side		Our three pairing steps answer this already.
Flo	What data will be shared with my partner? ("If you're pregnant: Your partner will receive regular updates and tailored daily insights about changes happening to your body, symptoms that are commonly experienced, and important milestones in your baby's development.")	We already have this, no action	Partner › His side		Ours is clearer than Flo's: it lists what he sees and what he never sees, in two short lists.
Flo	Can my partner edit my data, or see my symptoms and personal notes?	We already have this, no action	Partner › His side		Our "never" list answers this directly.
Flo	What will my partner see in my calendar?	We already have this, no action	Partner › His side		Our partner screen names the calendar items he sees.
Flo	Can I stop sharing at any time?	Add to a piece we already have	Partner › His side	P3	We have the switch but never say in words that she can unpair or stop sharing at any time. One line under the switch would reassure her.
Flo	Can I use Flo for Partners with Anonymous Mode?	Don't add			This is about a Flo account feature we do not have.

Flo	What do I need to know about couples quizzes?	Add: write our own version	Partner › His side	P3	Light couple questions ("What are you most looking forward to?") would give him a reason to open the app together with her. Later, once his side is busier.
Flo	How is the gestational age calculated? ("calculated from the first day of your last menstrual period (LMP)... doctors use the LMP method for pregnancy dating. Flo does the same!")	Add to a piece we already have	Week by week › Week N	P2	Many women are confused that pregnancy is counted from the last period, not from conception. One plain line on the week page, with the note that a scan date wins, would clear this up.
Flo	"Pregnancy weeks" explained ("being six weeks pregnant means that your last period started six weeks ago... gestational age may change a little after an ultrasound")	Add to a piece we already have	Week by week › Week N	P2	The same question as above. Flo answers it one tap from the week count; we should too, and say that the date from her scan or doctor is the one we follow.
What to Expect	App help questions (account, notifications, due date, subscriptions)	Don't add			These are questions about using their app, not about pregnancy.
What to Expect	"I'm Having Twins" switch and "Re-Calculate Due Date"	Add: write our own version	Twins and more › Understand	P2	Onboarding promises "Expecting twins or more? You can say so later." but nothing records it. A twins switch in her details would make the promise true and let the twins pieces reach her.
Flo	When should you take a pregnancy test?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	When do pregnancy symptoms start?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	Should you feel different?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	Can you tell if you're pregnant at 2 weeks?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	Is it common to have tummy pain when you're 2 weeks pregnant?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	Should you take a pregnancy test?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	What might you feel like at 3 weeks pregnant?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	Can you get a positive pregnancy test at 3 weeks?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	What should you be feeling at 4 weeks pregnant?	We already have this, no action	Week by week › Week 4		Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	What does it mean to be 4 weeks pregnant?	Add to a piece we already have	Week by week › Week 4	P2	Many women are confused that pregnancy is counted from the last period. Our week 4 page should explain in two lines how the weeks are counted.

Flo	When will you have a baby bump?	Add to a piece we already have	Week by week › Week 4	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.
Flo	Can you feel a baby bump at 5 weeks?	Add to a piece we already have	Week by week › Week 5	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.
Flo	Should you rest at 5 weeks pregnant?	We already have this, no action	Symptoms › By symptom		Our fatigue page already says rest is normal and fine in the first weeks.
Flo	Can you test positive at 5 weeks pregnant?	Belongs in another stage of our app	Trying to conceive stage		In weeks one to three she is not yet pregnant, so this belongs in our trying to conceive section.
Flo	Will you have a bump at 6 weeks pregnant?	Add to a piece we already have	Week by week › Week 6	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.
Flo	What should you be feeling at 6 weeks pregnant?	We already have this, no action	Week by week › Week 6		Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	What should you avoid at 6 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	How many months pregnant are you at 7 weeks?	Add to a piece we already have	Week by week › Week 7	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Should you have a bump yet?	Add to a piece we already have	Week by week › Week 7	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.
Flo	Do your symptoms mean anything about the health of your pregnancy?	Add to a piece we already have	Mind & mood › Understand	P2	Many women panic when symptoms ease or never come. Our fear of miscarriage read should say plainly that symptoms do not measure how well a pregnancy is going, and the doctor and scans do.
Flo	Is it common to need extra rest at 8 weeks pregnant?	We already have this, no action	Symptoms › By symptom		Our fatigue page already covers this.
Flo	What should you be feeling at 8 weeks pregnant?	We already have this, no action	Week by week › Week 8		Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	What happens at your first prenatal appointment?	Add: write our own version	Your first weeks › Just found out	P1	We have no piece on the first visit to the doctor: the questions she will be asked, the tests, and what to bring. It is one of the first things she needs.
Flo	Is this the hardest week of pregnancy?	We already have this, no action	Symptoms › By symptom		Our nausea page and morning sickness read already say when sickness usually peaks and eases.

Flo	What can you see on a 9-week ultrasound?	We already have this, no action	Scans & tests › Understand a scan	Our first scan read and dating scan page already cover this.
Flo	How many months pregnant are you at 9 weeks?	Add to a piece we already have	Week by week › Week 9	P3 Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What's normal when it comes to pregnancy discharge?	Add: write our own version	Symptoms › By symptom	P1 Discharge is one of the commonest worries in pregnancy and we have no symptom page on it. It should say what is normal and which colour, smell or itch needs the doctor.
Flo	Will you have a bump at 10 weeks?	Add to a piece we already have	Week by week › Week 10	P3 Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.
Flo	Is there anything special you should do at 10 weeks pregnant?	We already have this, no action	Week by week › Week 10	Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	What can you expect from your first scan?	We already have this, no action	Scans & tests › Understand a scan	Our first scan read and NT scan page already cover this.
Flo	Can you find out the sex at 11 weeks?	Don't add		Telling the baby's sex before birth is illegal in India under the PCPNDT Act.
Flo	Can you feel your baby at 11 weeks?	We already have this, no action	Week by week › Week 11	Our movements read already says when women usually first feel the baby.
Flo	Can you feel your baby at 12 weeks?	We already have this, no action	Week by week › Week 12	Our movements read already covers this.
Flo	How might you be feeling at 12 weeks pregnant?	We already have this, no action	Week by week › Week 12	Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	Is 12 weeks pregnant the same as 3 months?	Add to a piece we already have	Week by week › Week 12	P3 Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Is 13 weeks the 1st or 2nd trimester?	Add to a piece we already have	Week by week › Week 13	P3 Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Is your baby moving at 13 weeks?	We already have this, no action	Week by week › Week 13	Our week page already says the baby moves long before she can feel it.
Flo	Should you have a bump at 13 weeks pregnant?	Add to a piece we already have	Week by week › Week 13	P3 Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.

Flo	How big will your bump be at 14 weeks?	Add to a piece we already have	Week by week › Week 14	P3	Our week page talks about her body but not about when a bump shows. A line on the bump, and how much it varies, would answer this.
Flo	Should you feel your baby kicking yet?	We already have this, no action	Week by week › Week 14		Our movements read already covers when kicks usually start.
Flo	How should you be feeling at this point in pregnancy?	We already have this, no action	Week by week › Week 14		Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	What does a baby look like at 15 weeks?	We already have this, no action	Week by week › Week 15		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	Is it normal to not feel your baby yet?	We already have this, no action	Week by week › Week 15		Our movements read already says first movements often come between 18 and 22 weeks, later in a first pregnancy.
Flo	At 15 weeks, are you 4 months pregnant?	Add to a piece we already have	Week by week › Week 15	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Where is your baby located at 16 weeks?	Add to a piece we already have	Week by week › Week 16	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.
Flo	Will you start to feel movement this week?	We already have this, no action	Week by week › Week 16		Our movements read already covers this.
Flo	Is it common to have less symptoms at this point?	We already have this, no action	Week by week › Week 16		Our week pages and journey map already say that many symptoms ease in the second trimester.
Flo	How many months pregnant are you at 17 weeks?	Add to a piece we already have	Week by week › Week 17	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What do your baby's movements feel like at 17 weeks?	We already have this, no action	Week by week › Week 17		Our movements read already describes the first flutters.
Flo	What are the signs of a healthy pregnancy at 17 weeks?	Add to a piece we already have	Week by week › Week 17	P3	Women look for signs that all is well. Our week page could say gently that regular check-ups and scans are the real measure, and no home sign replaces them.
Flo	What should you avoid at 18 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	At 18 weeks, are you 5 months pregnant?	Add to a piece we already have	Week by week › Week 18	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What should you be feeling at 18 weeks of pregnancy?	We already have this, no action	Week by week › Week 18		Our week page already says how she may feel this week, and our symptom pages cover each symptom.

Flo	What does your baby look like at 19 weeks?	We already have this, no action	Week by week › Week 19		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	Can you feel kicks at 19 weeks?	We already have this, no action	Week by week › Week 19		Our movements read already covers this.
Flo	At 19 weeks, are you 5 months pregnant?	Add to a piece we already have	Week by week › Week 19	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Is your baby fully developed at 20 weeks?	We already have this, no action	Week by week › Week 20		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	How many months pregnant are you now?	Add to a piece we already have	Week by week › Week 20	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What is your baby doing at 20 weeks?	We already have this, no action	Week by week › Week 20		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	What position is your baby in at 21 weeks?	Add to a piece we already have	Week by week › Week 21	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.
Flo	How often should you feel your baby move now?	We already have this, no action	Week by week › Week 21		Our two movement reads already cover what is normal and when less movement needs a call.
Flo	Are you 6 months pregnant at 21 weeks?	Add to a piece we already have	Week by week › Week 21	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	When does the 3rd trimester start?	Add to a piece we already have	Week by week › Week 22	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	At 22 weeks, are you 6 months pregnant?	Add to a piece we already have	Week by week › Week 22	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What is your baby doing at 22 weeks?	We already have this, no action	Week by week › Week 22		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	Are you 6 months pregnant at 23 weeks?	Add to a piece we already have	Week by week › Week 23	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Is your baby fully developed at 23 weeks?	We already have this, no action	Week by week › Week 23		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	What's special about being 24 weeks pregnant?	We already have this, no action	Week by week › Week 24		Our week page and journey map already mark this milestone.

Flo	Does 24 weeks pregnant mean the same thing as 6 months pregnant?	Add to a piece we already have	Week by week › Week 24	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What can you expect in the 3rd trimester?	We already have this, no action	Week by week › Week 24		Our third trimester read already covers this.
Flo	What should you try to avoid at 25 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	What position is your baby in at 25 weeks?	Add to a piece we already have	Week by week › Week 25	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.
Flo	Are you 7 months pregnant at 25 weeks?	Add to a piece we already have	Week by week › Week 25	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What signs of preterm labor should you be aware of?	Add to a piece we already have	Labour prep › Signs and stages	P1	Our Is this normal? question tells her to call about tightenings before 37 weeks. A short piece on all the signs of early labour, and what to do, belongs in the new labour signs tab.
Flo	What's special about being 26 weeks pregnant?	We already have this, no action	Week by week › Week 26		Our week page already covers this week.
Flo	How is your baby positioned at 26 weeks?	Add to a piece we already have	Week by week › Week 26	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.
Flo	What should you expect in your 3rd trimester?	We already have this, no action	Week by week › Week 27		Our third trimester read already covers this.
Flo	What's going on with your baby at 27 weeks?	We already have this, no action	Week by week › Week 27		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	Is your baby fully developed at 27 weeks?	We already have this, no action	Week by week › Week 27		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	What's so exciting about being 28 weeks pregnant?	We already have this, no action	Week by week › Week 28		Our week page and journey map already mark the start of the third trimester.
Flo	What should you avoid at 28 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	Is it common to give birth at 28 weeks?	Add: write our own version	Labour prep › Signs and stages	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.

Flo	At 29 weeks, are you 8 months pregnant?	Add to a piece we already have	Week by week › Week 29	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What position is your baby in at 29 weeks?	Add to a piece we already have	Week by week › Week 29	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.
Flo	What should you avoid at 29 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	Is your baby fully developed at 30 weeks?	We already have this, no action	Week by week › Week 30		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	At 30 weeks, are you 8 months pregnant?	Add to a piece we already have	Week by week › Week 30	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	What should you not do at 30 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	What's the earliest time you can give birth safely?	Add: write our own version	Labour prep › Signs and stages	P2	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Flo	What position is your baby in at 31 weeks?	Add to a piece we already have	Week by week › Week 31	P3	Our week page does not say how the baby usually lies at this stage. A line on position, and that it keeps changing until the last weeks, would answer this.
Flo	What should you skip at 32 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	Is your baby fully developed at 32 weeks?	We already have this, no action	Week by week › Week 32		Our week page already describes what the baby is doing and how big the baby is this week.
Flo	What month of pregnancy are you in now?	Add to a piece we already have	Week by week › Week 32	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Is it safe to give birth at 33 weeks?	Add: write our own version	Labour prep › Signs and stages	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Flo	What should you avoid doing at 33 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	When is your baby fully developed?	We already have this, no action	Week by week › Week 33		Our week page already describes what the baby is doing and how big the baby is this week.

Flo	What should you expect at 34 weeks?	We already have this, no action	Week by week › Week 34		Our week page already covers this week.
Flo	How many months pregnant are you at 34 weeks?	Add to a piece we already have	Week by week › Week 34	P3	Our week page does not say which month or trimester she is in, and women ask this every week. One line at the top of each week page answers it.
Flo	Is 34 weeks safe for delivery?	Add: write our own version	Labour prep › Signs and stages	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Flo	What should you be feeling at 35 weeks pregnant?	We already have this, no action	Week by week › Week 35		Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	Is it safe to give birth at 35 weeks?	Add: write our own version	Labour prep › Signs and stages	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Flo	Is there anything special to avoid at 35 weeks pregnant?	We already have this, no action	Is it safe? › Can I do it?		Our Is it safe? door already answers what to avoid, food by food and activity by activity.
Flo	What week is most common to go into labor?	Add: write our own version	Labour prep › Signs and stages	P2	Women want to know when labour usually starts. The new labour signs tab should give the population picture calmly, and never a personal date.
Flo	Is 36 weeks pregnant an OK time to give birth?	Add: write our own version	Labour prep › Signs and stages	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Flo	What should you be feeling at 36 weeks?	We already have this, no action	Week by week › Week 36		Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	How can you tell if labor is days away?	Add: write our own version	Labour prep › Signs and stages	P1	We have no piece on the signs that labour is near, which every woman needs in the last weeks. It belongs in the new labour signs tab.
Flo	How do you know if you're dilating?	Add: write our own version	Labour prep › Signs and stages	P2	Women hear the word dilating at check-ups without an explanation. The labour stages piece should explain it simply and say only an examination can tell.
Flo	Is it OK to deliver at 37 weeks? How likely is it?	Add: write our own version	Labour prep › Signs and stages	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.

Flo	Is it normal for your belly to feel hard?	We already have this, no action	Symptoms › By symptom		Our Braxton Hicks page already explains practice tightenings and when to call.
Flo	Is giving birth at 38 weeks normal?	Add: write our own version	Labour prep › Signs and stages	P3	Women ask how early a baby can safely be born. A calm piece on birth before the due date, week by week, with population numbers only and what newborn care in India looks like, would answer this.
Flo	How do you know labor is a few days away?	Add: write our own version	Labour prep › Signs and stages	P1	This goes with the signs of labour piece we need in the new labour signs tab.
Flo	What are the chances of giving birth at 39 weeks?	Add: write our own version	Labour prep › Signs and stages	P3	This fits the piece on when labour usually starts. Give population numbers only, and never a personal chance.
Flo	What should you be feeling at 39 weeks pregnant?	We already have this, no action	Week by week › Week 39		Our week page already says how she may feel this week, and our symptom pages cover each symptom.
Flo	When will you go into labor?	Add: write our own version	Labour prep › Signs and stages	P2	Many women reach the due date with no sign of labour and worry. A piece on the due date as an estimate, and what happens next, belongs in the new labour signs tab.
Flo	What can you expect at 40 weeks pregnant?	Add to a piece we already have	Week by week › Week 40	P2	Our week pages stop at 40. The week 40 page should say what happens if the baby has not come, and point to the going past your due date piece.
Flo	Should you be induced at 41 weeks or wait?	Add: write our own version	Labour prep › Signs and stages	P1	Induction is common in Indian hospitals and we have nothing on it. The piece should explain what induction is and why doctors suggest it, and leave the decision with her doctor.
Flo	How far overdue can you go?	Add: write our own version	Labour prep › Signs and stages	P1	We have no week pages or pieces after 40 weeks, yet many women go past their date. A calm piece on going past the due date is needed.
Flo	Why is your cervix not dilating at 41 weeks?	Add: write our own version	Labour prep › Signs and stages	P3	This belongs in the going past your due date piece, with her doctor judging her own case.
Flo	What causes a baby to be overdue?	Add: write our own version	Labour prep › Signs and stages	P3	This belongs in the going past your due date piece.
Flo	Is it dangerous to go past 41 weeks?	Add: write our own version	Labour prep › Signs and stages	P2	This belongs in the going past your due date piece. Say calmly why doctors watch closely after 41 weeks, with population numbers only.
Flo	Are overdue babies bigger?	Add: write our own version	Labour prep › Signs and stages	P3	This belongs in the going past your due date piece.
Flo	Is being 42 weeks pregnant common?	Add: write our own version	Labour prep › Signs and stages	P3	This belongs in the going past your due date piece, with population numbers only.

Flo	Does the risk of stillbirth increase after 40 weeks?	Add: write our own version	Labour prep › Signs and stages	P2	This is a real fear, and the reason doctors offer induction. The piece should explain it gently with population numbers only, and send her to her doctor for her own case.
Flo	Is it safe to be 43 weeks pregnant?	Add: write our own version	Labour prep › Signs and stages	P3	This belongs in the going past your due date piece; almost every Indian hospital will have acted before then.

Chats and messages (14)

From	Chat / message	Decision	Where	Pri	Why
What to Expect	"Oh baby! You're in Week 8. Baby's growing about a millimetre a day — and looking more baby-like! Learn..."	Add: write our own version	Home › messages	P1	Our onboarding asks for notification permission by showing exactly this kind of weekly message, and then nothing sends it. A short "Week N starts today" message each week is the simplest way to keep that promise.
What to Expect	"Are You Sure You Want to Opt Out of Reminders? The app may not work properly and may display outdated information." CANCEL / SETTINGS	Don't add			This guilted her into turning notifications on and is not true. Our reach screen says "Both optional. Neither is marketing." and that is the better way.
What to Expect	"Today's tip" with a new tip each day and "See your new daily tip by coming back tomorrow to unlock it."	Add to a piece we already have	Home › Daily insights	P2	Our daily tip shows a parenting thought such as "Offer the warmth; let the flower choose its hour." A practical pregnancy tip for that week (sleep on your side, book the anomaly scan) is what she expects under that title.
What to Expect	"How are you feeling? Record your feelings in My Journal" Happy / Stressed / Excited / Amused	We already have this, no action	Mind & mood › Track		Our mood and symptom check-ins do this, and ours lead to help, not just a record.
What to Expect	"SHARE YOUR SYMPTOMS REPORT"	We already have this, no action	Symptoms › Your week		Our week note for the doctor does the same and says clearly it is not a diagnosis.
What to Expect	"We're Sorry for Your Loss. We're here for you. Let us know if you'd like to update your account so that we can provide support during this difficult time. Once you confirm, we'll unsubscribe you from WTE pregnancy and partner emails." CONFIRM	Add: write our own version	After a loss (pregnancy) › Support	P1	If her pregnancy ends, our app keeps showing her baby growing week by week, and there is no way to tell it. A gentle "My pregnancy ended" path that stops the week content and opens support is the most important missing flow in the stage.
What to Expect	"Report a Birth" (asks the account to create a password first)	Add to a piece we already have	Home › messages	P2	We have the better flow, but it is hidden inside You. From week 37 the home should offer "Has your baby arrived?" so she finds it when she needs it.
What to Expect	"Add the What to Expect widget to your home screen" (3 steps)	Add: write our own version	Home › messages	P3	A home-screen widget with her week and the baby's size would bring her back daily. Nice to have after the basics.
What to Expect	"Pregnancy and Parenting Newsletter", "Community Daily Digest Emails", "Deals, Giveaways and Special Offers"	Add to a piece we already have	Home › messages	P2	We collect the WhatsApp opt-in. The weekly message should mirror the week page, and we should never add a deals channel she did not ask for.
Flo	"Introducing Secret Chats Rules! Please be respectful and kind. And remember, we don't verify posts for medical accuracy."	Add to a piece we already have	Community › Your due month	P2	When our community opens for real posts, it needs house rules and a clear line that posts are not checked by doctors. Flo says it in one sentence.

Flo	Only cycle and lifestyle reminders: "Period in a couple of days", "Ovulation", "Log weight", "Log sleep", "Drink water", "Log temperature"; no pregnancy reminder at all	We already have this, no action	Tools › Reminders	We are ahead here: our reminders are written for pregnancy. What we still lack is reminders the app sets itself (scan due, vaccine due, pack the bag), listed in the Home and messages rows.
Flo	"Log the first day of your last period to make better predictions" with "Log period" (no birth or baby hand-off)	Don't add		This is a gap in Flo, not something to copy. After 40 weeks our home should ask gently whether the baby has arrived (see the Report a Birth row).
Flo	"Log your symptoms (+)" card first in the rail	We already have this, no action	Home › Daily insights	Our rail opens with the same card and turns into "You logged..." with help once she logs.
Flo	The cycle logger unchanged: header "Today / Cycle day 5"; Sex and sex drive, Mood, Symptoms, Vaginal discharge, Appetite, Digestion and stool, Physical activity, Water, Weight, Notes; no kicks, contractions or blood pressure	We already have this, no action	Symptoms › Today	Ours is built for pregnancy and changes with her week; Flo's is still a period logger.

Tools and downloads (21)

From	Tool	Decision	Where	Pri	Why
What to Expect	Due Date Calculator: "Choose from a variety of options for a prediction of your due date": Last Period (with Cycle Length) / Conception Date / IVF (Date of Implantation, 3 Day or 5 Day transfer) / Ultrasound (Date of Ultrasound, Weeks, Days)	We already have this, no action	Tools › Due date calculator		Ours has the same four ways and one thing theirs lacks: a date from a scan, a doctor or a transfer is marked as the clinic's and never recalculated.
What to Expect	Symptom journal: 65 symptoms in 17 groups (Belly, Back & Hips, Skin & Hair, Face, Pelvis, Mood & Sleep, Digestion, Breasts, Hands & Feet, Appetite, Legs, Swelling, Breathing, Body Temperature, Sex, Other)	Add to a piece we already have	Symptoms › Today	P2	We cover 33 symptoms. Theirs adds a few women do ask about: lightning crotch, sciatica, leaky breasts, blurry vision, excess saliva, red palms, clumsiness, libido changes. Add them as short pages.
What to Expect	Baby Kicks: a note with date and time only ("At the start of the third trimester, around week 28, you'll need to do daily kick counts..."); no counter	We already have this, no action	Tools › Kick counter		We have a real movement tracker; theirs is only a note. We are ahead.
What to Expect	Weight: one number ("0.0 lb") and a note	We already have this, no action	Tools › Weight tracker		Our weight tracker is fuller. Make sure it shows kilograms by default; theirs defaulted to pounds in India.
What to Expect	Prenatal Vitamin: a note with date and time, "LEARN MORE" to "Medications During Pregnancy: What's Safe and What's Not?"	We already have this, no action	Tools › Medicine tracker		Ours reminds her and ticks off each dose; we are ahead.
What to Expect	Memories (note and photo), Custom entry, a timeline grouped by trimester	We already have this, no action	Tools › Journal		Our journal, letters that open at birth and weekly bump photos cover this and more. A timeline grouped by trimester is a nice idea for the journal view.
What to Expect	Size themes: Fruits / Twins / Disney Baby Milestones, all 42 weeks ("*These are conceptual estimates and shouldn't replace measurements provided by your practitioner.")	Add to a piece we already have	Week by week › Week N	P3	We already wrote three Indian size sets; they only need their pictures so the switch can be turned on. That will be more fun and more Indian than their themes.
What to Expect	Ovulation Calculator (a web page)	Belongs in another stage of our app	Trying to conceive stage		This belongs to trying to conceive, where we already have a better tool. It should not sit in pregnancy tools.

What to Expect	Baby Tracker (Breast, Bottle, Diaper, Sleep, Pump, Solids, Tummy, Custom): "available once you add a child"	Belongs in another stage of our app	Parenting stage		This is for after the birth.
What to Expect	Recipes in 9 groups (Breakfast, Lunch, Soup, Salad, Snack, Dinner, Dessert, Drink, Dressing), about 110 Western recipes; sample "Updated: 2 March, 2015"	We already have this, no action	Nutrition › Recipes		Ours are Indian, regional and filtered by trimester and need; theirs are Western and old. Every recipe title is decided in the "WTE · Recipes" tab.
What to Expect	Baby Products (15 categories: Maternity Products, Diapering, Nursing & Feeding, car seats, strollers, Nursery, carriers, monitors, toys); Registry Builder with "The Best Baby Registries" and "CLAIM MY FREEBIES"	Add to a piece we already have	Getting ready for baby › What to buy	P2	Registries are not an Indian habit, so we skip that. But "what do I actually need for the baby, and what can I skip?" is a real question; a plain Indian list that links to our store answers it.
What to Expect	A list of tests for her week ("Level 2 Ultrasound", "Glucose Screening", "Nonstress Test" on 28 Sep; "Biophysical Profile", "Group B Strep" on 29 Sep, both at week 20)	We already have this, no action	Scans & tests › My scans		Our scan timeline is personal and dated; theirs changed between two days at the same week. Worth copying only the idea of showing the next test on the home.
What to Expect	"Picked For You" and "Today's Deals" with affiliate links ("We may earn commission from these links.")	We already have this, no action	Products tab		We already show week-matched products with an affiliate note. Keep it to one rail; theirs also shows ads between sections.
What to Expect	No contraction timer, no kick counter, no checklist, no appointments, no bump-photo tool (searches returned articles only)	We already have this, no action	Tools › Contraction tracker		We are clearly ahead on tools; What to Expect has none of these.
Flo	Week-by-week viewer with chips "0 weeks" to "42 weeks", each with a doctor-reviewed page, baby picture and fruit, size, development text and References	Add to a piece we already have	Week by week › Week N	P1	Our week page is thin next to theirs: no body changes, no symptoms, no sources, and no weeks before 4 or after 40. The week page is the heart of a pregnancy app, so this is detailed in "Behind · Week by week".
Flo	Gestational age Weeks and Day, "How is it calculated?", Number of children (1 / 2 or more), Due date, REMOVE PREGNANCY INFORMATION	Add to a piece we already have	Tools › Due date calculator	P1	Changing the due date must be easy after a dating scan. Today the Due date row in You opens the wrong screen; it should open the date editor directly.
Flo	Weight, Cycle duration, BBT and ovulation, Activity, Water graphs (cycle graphs only in pregnancy mode)	We already have this, no action	Tools › Weight tracker		Our weight tracker is made for pregnancy; Flo shows cycle graphs.
Flo	"Control your Flo experience by turning off topics. This may mean you miss important health information." Sex content	Add: write our own version	Mind & mood › Sex and closeness	P3	Once we add sex in pregnancy pieces, a switch to hide them (as the trying stage already has for a shared phone) keeps the app safe to open in front of family.
Flo	Calendar: every day from the pregnancy start is orange; a future day shows "Pregnancy: 8 weeks, 1 day / 223 days until childbirth"	We already have this, no action	Tools › Scans & appointments		Our calendar holds her real appointments; theirs only counts days.
Flo	Bookmarks: a blank page when empty, no empty-state text	We already have this, no action	Home › Daily insights		Our Saved screen already does this, and our rule is that an empty section always invites.
Flo	"Link your partner" generates a pairing code at once; "Share your pairing code", Send pairing code, Cancel invite	We already have this, no action	Partner › His side		Same flow; ours explains what he will and will not see first.

Community (35)

From	Group or thread	Our room	Decision	Pri	Why
------	-----------------	----------	----------	-----	-----

What to Expect	Birth month groups: "February 2027 Babies" (64K+ posts, 116K+ members), "March 2027 Babies", "January 2027 Babies" ... "July 2027 Babies"	Your due month	Add: write our own version	P1	Their biggest pregnancy groups are by due month, because women want others at exactly their stage. Our only month room is a fixed "November 2026 Moms" that every user joins whatever her due date; it should be her own due month.
What to Expect	"Welcome, February 2027 members!" (Created by TeamWTE, 689 replies)	Your due month	Add: write our own version	P1	A pinned welcome from our team in every month room tells her how the room works and gives her the first easy place to say hello.
What to Expect	"Don't forget your free breast pump! (sponsored ad)"	—	Don't add		Ads posted as threads make a support space feel like a shop. We should not sell inside rooms.
What to Expect	"Trigger warning. I'm heartbroken." (75 replies)	After a loss	Add: write our own version	P2	Loss news lands in month rooms. We need a gentle "sensitive topic" label for such posts and a clear path to the After a loss room.
What to Expect	"Flu shot 2026" · "EIF and small head circumference" · "Pressure and Soreness" · "Baby won't leave cervix alone"	Your due month	Add: write our own version	P2	The everyday questions of a month room. Each one also shows where our content should answer first (vaccines in pregnancy, reading a scan report).
What to Expect	"Mother-in-law at birth - not drama" · "Unable to cope with family drama" (1st Pregnancy)	Family and in-laws	Add: write our own version	P2	Family pressure is even bigger in Indian homes; their "Overbearing MILs" group has over a million posts. A gentle family room fits our "Log kya kahenge" reads.
What to Expect	"Anatomy Scan Disappointment"	—	Don't add		Threads about the baby's sex at the scan cannot exist in India; sex determination is illegal under the PCPNDT Act.
What to Expect	What to Expect General Pregnancy (243K+ posts, 4M+ members)	Your due month	Add: write our own version	P1	One general pregnancy room is the easiest start; the due-month rooms can grow out of it.
What to Expect	1st Pregnancy (2M+ posts) · 1st Time Mommies · 1st time mom	First pregnancy	Add: write our own version	P1	First-time mothers ask the most questions; our seeded "First Time Moms" room is the right idea once real posts exist.
What to Expect	1st Trimester Experiences (283K+ posts) · 2nd Trimester Experiences · 3rd Trimester	First trimester / Second trimester / Third trimester	Add: write our own version	P2	Trimester rooms match how women think about their pregnancy. Start with the due-month rooms and add these when the numbers grow.
What to Expect	Gestational Diabetes (370K+ posts, 61K+ members)	Gestational diabetes	Add: write our own version	P1	Gestational diabetes is very common in India, and women living with it share meal ideas and sugar readings daily. It fits our "Handling pregnancy sugar in India" read.
What to Expect	IVF or FET Pregnancy (187K+ posts)	IVF pregnancy	Add: write our own version	P2	Women who conceived with treatment carry extra worry. Our seeded "IVF Pregnancy" room is the match, and it links to the trying-to-conceive IVF door.
What to Expect	35+ Moms (106K+ posts)	Over 35	Add: write our own version	P2	Older mothers get more tests and more warnings; a room of peers helps.
What to Expect	expecting 2nd child · THIRD PREGNANCY	First pregnancy	Add: write our own version	P3	A thread for second-time mothers inside the general room is enough to start.
What to Expect	C-Section Mamas! (118K+ posts) · VBAC Mamas (43K+ posts)	Your due month	Add: write our own version	P2	C-section rates are high in Indian private hospitals. A thread on planned C-sections and birth after a C-section belongs with our birth content.

What to Expect	Pregnancy After Loss (16K+ posts) · Miscarriage Support (446K+ posts) · Grief & Loss (106K+ posts)	After a loss	Add: write our own version	P1	Loss support is one of the largest needs in both apps and we have nothing in pregnancy. Open it with careful moderation.
What to Expect	Multiples and Twins (716K+ posts, 263K+ members)	Twins	Add: write our own version	P2	A very large group; our seeded "Twin Pregnancy" room matches it once twins are recorded in her details.
What to Expect	Birth Options (51K+ posts) · All Natural Birth Group · Home Births	Your due month	Add: write our own version	P3	Birth choices belong in a thread, written for India. We should not host a room that promotes home birth without a skilled attendant.
What to Expect	Gender prediction (69K+ posts) · Nub theory picture predictions · Baby boy names (by sex) · Prenatal paternity results	—	Don't add		Guessing or finding out the baby's sex is illegal in India (PCPNDT Act), and paternity testing is not a topic for our rooms.
What to Expect	Baby Names (2M+ posts, 4M+ members)	Baby names	Add: write our own version	P2	Names are the happiest topic in any pregnancy community. A names room (without sorting by the baby's sex before birth) fits our proposed Baby names section.
What to Expect	+18-25 expecting young moms	First pregnancy	Add: write our own version	P3	An age thread inside the first-pregnancy room is enough.
What to Expect	Working Moms (91K+ posts) · Stay-at-Home Moms (544K+ posts)	Working moms	Add: write our own version	P3	Work questions (leave, telling the boss) fit a working mothers room; our seed already has one.
What to Expect	Overbearing MILs (1M+ posts) · Relationships (889K+ posts)	Family and in-laws	Add: write our own version	P2	One of their busiest groups. In India the family is even more present during pregnancy.
What to Expect	Cervical Cerclage Mommies (87K+ posts)	Your due month	Add: write our own version	P3	A thread inside a high-risk pregnancy room; our seed has "High Risk Pregnancy".
What to Expect	Christian Parents · Catholic Mommies · Jewish Moms · Irish Mammies & Mammies to be · Ganja Mamas · Crunchy/Chewy Moms	—	Don't add		Religious, foreign or cannabis groups do not fit an Indian family app. City rooms (our seeded "Delhi Moms") are the Indian equivalent of their country groups.
What to Expect	"Brown Spotting/clot at about 3wks" · "Panicking about this spotting" · "Heart Palpitations?" · "170/100 blood pressure" · "Fetal heart rate concerns"	Your due month	Add: write our own version	P1	Many posts are urgent medical worries. Our rooms must show a pinned "When to call your doctor now" card and route these posts to it, never leave them to guesses.
What to Expect	"Nervous to be intimate?" · "Pregnancy pillows and restless sleep" · "Announcing fear? Or am I overthinking" · "First scan anxiety" · "not feeling excited ?" · "Husband's support"	Your due month	Add: write our own version	P2	The feelings and daily questions of pregnancy; each also points to content we should have (sex in pregnancy, telling people, not feeling excited).
Flo	1st trimester · 2nd trimester · 3rd trimester ("In your 2nd trimester? Find support from other Flo members at the same stage here") · Pregnancy	First trimester / Second trimester / Third trimester	Add: write our own version	P2	Flo sorts pregnancy talk by trimester. Same decision as the What to Expect trimester rooms.
Flo	Poll "You're in your 3rd trimester now. How are you feeling?" (5.2K votes, 18.6K comments)	Third trimester	Add: write our own version	P2	A one-tap poll pinned in each room gets quiet members talking.
Flo	Poll "What was your very first sign of pregnancy?" Pregnancy sickness / Fatigue / Tender breasts / None / My answer's in the comments (7.3K votes, 26.6K comments)	First trimester	Add: write our own version	P2	A light poll with a huge response. Easy to copy for our first-trimester room.

Flo	"If you've experienced pregnancy loss, please know you aren't alone" with " 🚩 Sensitive Topics: This group may contain stories about pregnancy loss that some users may find triggering..."	After a loss	Add: write our own version	P1	The warning at the top of the room is the right model: gentle, honest, with a link to outside help.
Flo	Postpartum and parenthood groups	Parenting stage	Belongs in another stage of our app		These are about life after the birth and belong in our parenting stage.
Flo	"An OB-GYN answered your top questions about getting pregnant" (Ask Me Anything sessions, "exclusively for Flo Premium")	Your due month	Add: write our own version	P2	A monthly question session with a real Indian obstetrician, answered in writing, would build trust in our doctors. It should be free, not a paid extra.
Flo	"Hii guys so I'm 33w4d today and till now I have gained 11kg weight is it too much" · "which cream is best for stretch marks in budget"	Your due month	Add: write our own version	P3	Everyday questions that our weight tracker and belly and skin door already answer; a room should link to them.
Flo	Period and cycle, Sex life, Contraception, Masturbation, Memes, Pets, Gaming, Fashion and other general groups	—	Don't add		General chat with no pregnancy angle.

Questions answered inside What to Expect articles (1207)

Each question takes the decision of its article (Appendix B, WTE · Articles). Listed so none is lost.

What should I put on a second baby registry?	Compile the List of Baby Products You'll Need With This Handy Checklist	Add to a piece we already have

How this was made

Flo (version 10.6.0) was walked on 28 September 2026 on a Samsung S21 FE in Track pregnancy mode, with Premium. Flo dated the pregnancy from the logged period and would not let us move the date, so its home was read at several future weeks through the week strip and its whole Insights library (17 shelves, 124 cards, 42 collections with every item opened) was read in full. What to Expect (version 7.91) was walked on 28 and 29 September 2026 on a Samsung tablet with a due date of 15 February 2027 (week 20): every week from 1 to 42 (the week page, the baby, body changes with every symptom opened, baby science, sources, the week's videos and the daily tips), nine topic libraries, 153 weekly videos (length and the description the player shows), tools, registry, community lists and settings. Screens were saved as text as they were read; where an app gave no text (Flo's stories, partner tab, logging sheet), the words were read from screenshots with Windows' built-in text recognition. Nothing was posted, logged or bought, and no consent was given for marketing.

Every competitor piece was judged one by one against a list of everything ParentVeda already has, by six helpers working in parallel with fixed rules (`work/RULES.md`): never add finding out the baby's sex (illegal in India under the PCPNDT Act); LGBTQ+ content deferred by a product decision on 24 September 2026; US-only facts rewritten for India, not skipped; shopping roundups and registries not copied; life after the birth goes to the parenting stage; clinical items always end with a doctor. Their decisions were spot-checked. Flo's 44 duplicate cards (the same piece on two shelves) are counted once. ParentVeda's side was read from the code on 29 September 2026 (screens, strings, data files; `work/ours/` holds every file reference), not from earlier notes, which is how the corrections on the first page were found.
