PART C - Cross-cutting content you also owe

Hindi translations

17 data files carry English + Hindi pairs (Can-I answers, week content, mantras, symptoms). Every new item in those areas needs BOTH languages, or the Hindi toggle falls back to English.

Audio recordings

Garbh Sanskar Shravan mantras and Samvad read-aloud passages are designed around audio. Needed: clear recordings, ideally one voice, per mantra and per passage.

Video files

Watch (parenting), weekly videos, masterclasses, yoga classes and Product Guide expert videos all expect hosted video. Decision pending: Bunny Stream. Until then they point at dev placeholders.

Photography / illustration

Baby week illustrations (weeks 4-40) are DONE. Still needed: recipe photos, expert headshots, channel artwork, product images, collection covers.

Real brands & sponsors

Brand Studio ships 4 fictional brands (NestlingCo, PureStart, MamaBloom, TinyToes) with no logos and no brand film. Every sponsorship placement renders, but with invented brands. Needed: real partners, logos, landing URLs, and one launch film for a Premiere.

Experts & doctors

Consults, masterclasses and cohorts all name experts. Needed: real names, credentials, bios, languages, fees, availability and headshots - plus consent to list them.

Pricing

Every paid surface (Prepare, Courses & Masterclasses, Yoga, Consults) has invented prices. Needed: real INR pricing, session lengths and refund/reschedule rules.

Medical review

Symptoms, tests & scans, report findings, vaccination, nuskhe and health guidance are health claims. These should be reviewed and signed off by a qualified doctor before launch.
